

**Intro Music...**

**Narrator:** "Answers...In About A Minute"... from the Texas Education Agency.

**Man on Street:**

How does T-E-A use each of the three domains to determine a district's overall A-Through-F accountability rating?

**Host:**

Schools are given an overall rating based on performance in three different areas...or domains.

Student Achievement...School Progress...and Closing The Gaps.

In determining the accountability rating...A, B, C, D, or F...we take the higher score of the student achievement or school progress domains.

Now, hopefully a school does well in both, but we only take the higher score of the two.

This score is factored in at seventy percent, and then we take the score in the closing the gaps domain for the remaining thirty percent.

**Closing Music...****Host:**
