**House Bill 3
Texas Reading Academies**

In 2019, House Bill 3 established new requirements for Texas Reading Academies

Goal

To increase teacher knowledge and implementation of evidence-based practices to positively impact student literacy achievement

Texas Reading Academies are steeped in the Science of Teaching Reading (STR), which is educator application of evidence-based reading methods that best support development of skilled reading

Texas Reading Academies Content

- Science of Teaching Reading
- Establishing a Literacy Community
- Using Assessment Data to Inform Instruction
- Oral Language and Vocabulary
- Phonological Awareness
- Alphabet Knowledge, Print Concepts, and Handwriting
- Decoding, Encoding, and Word Study
- Reading Fluency
- Reading Comprehension
- Written Composition

In Statute

School districts and open-enrollment charter schools must ensure that not later than the 2022-2023 school year, each classroom teacher in kindergarten or first, second, or third grade and each principal at a campus with kindergarten or first, second, or third grade has attended a reading academy [TEC, §28.0062(2)(A)]

To date, nearly 90,000 teachers have completed or started Texas Reading Academies

As of March 9, 2022

Reading Academies are intentionally designed to provide choice in implementation to meet local needs and priorities

Choice of **model**: comprehensive (in-person) or blended (in-person and asynchronous)

Choice of **Authorized Provider**

Choice between **local implementation** approach (district hires cohort leader) or direct service (Authorized Provider hires cohort leader)

Choice among five different **start dates** (launch months) each year

Choice of **individualizing the schedule** within an 11-month period (local implementation only)

Both state and local requirements identify individuals who must complete Texas Reading Academies

*Districts and charter schools have the authority to **require** additional staff to complete the Reading Academies.*

Required by HB 3	*Strongly encouraged*	Local District Discretion

Year 3 adjustments will make Reading Academies more flexible, more efficient, and more effective

More Flexible

Districts may allow certain teachers to attempt to demonstrate knowledge without completing modules first

Teachers who passed the STR exam will not have to complete all reading academies module content

Teachers who have passed the STR exam and only teach math will be eligible for a waiver from the Reading Academies requirement

Participants with extenuating circumstances will continue to have additional time to complete academies

More Efficient

Content will be streamlined to ensure actual seat time accurately reflects projected seat time

Cohort leaders will no longer be required to grade artifacts

Districts will be able to verify reading academies completion on the TEA website

More Effective

Authorized Providers will have more resources and recommendations for supporting the strong local implementation planning with districts

****Teachers who provide instruction solely in mathematics may be eligible for a Reading Academies exemption**

A district may choose to request a one-year exemption from reading academies completion for a teacher who:

- Teaches kindergarten, first, second, and/or third grade
- Passed the STR exam and earned the STR certification
- Provides instruction in mathematics and not in any other subject area

A district may apply for a waiver on behalf of a teacher prior to the start of each school year during which the teacher will provide instruction solely in mathematics.

The streamlined application will be available online to enable districts to quickly and easily submit requests directly to TEA.

Implementation support for participants is essential to successful completion of reading academies

Embed Reading Academies into the master PD calendar

Build dedicated time for artifact support into the calendar

Plan for substitute teachers to cover classrooms so that teachers can complete Reading Academies during class time

For blended cohorts, incorporate a variety of learning modalities and experiences

Differentiate supports for new teachers

Clearly communicate pacing timelines and deadlines

Provide teachers with stipends to compensate for their time

TEA is exploring other opportunities to help districts meet the HB3 requirements beyond the 2022-2023 school year.

- Reading Academies completion will be made available on the SBEC Certificate Look Up

- Authorized Providers will have additional flexibility in order to best serve their customers

- EPP programs will be able to offer Texas Reading Academies to pre-service teachers

- Continued improvements based on data

Reading academies will continue to be required beyond the 2022-2023 school year; however, districts will have until the end of the first year of placement to enroll new teachers.

In Statute

Each classroom teacher initially employed to teach kindergarten or first, second, or third grade and each principal at a campus with kindergarten or first, second, or third grade for the 2022-2023 school year or beyond must attend a reading academy by the end of their first year of placement in that grade level or campus [TEC, §28.0062(2)(B)].
