MATHEMATICAL PROCESS STANDARDS*

Kindergarten
Grade 1
Grade 2

(1) Mathematical process standards. The student uses mathematical processes to acquire and demonstrate mathematical understanding. The student is expected to:

(A) apply mathematics to problems arising in everyday life, society, and the workplace.

(B) use a problem-solving model that incorporates analyzing given information, formulating a plan or strategy, determining a solution, justifying the solution, and evaluating the problem-solving process and the reasonableness of the solution.

(C) select tools, including real objects, manipulatives, paper and pencil, and technology as appropriate, and techniques, including mental math, estimation, and number sense as appropriate, to solve problems.

(D) communicate mathematical ideas, reasoning, and their implications using multiple representations, including symbols, diagrams, graphs, and language as appropriate.

(E) create and use representations to organize, record, and communicate mathematical ideas.

(F) analyze mathematical relationships to connect and communicate mathematical ideas.

(G) display, explain, and justify mathematical ideas and arguments using precise mathematical language in written or oral communication.

*No PK3/PK4 present in this vertical progression

Counting and Recognizing Whole Numbers

Infant, Toddler and Three-Year Old Problem Solving (PS) *Communication and Speaking (CS)	Prekindergarten-PK3/PK4 V.A. Number Sense	Kindergarten K(2) Number and operations. The student applies mathematical process standards to understand how to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system. The student is expected to:	Grade 1 1(2) Number and operations. The student applies mathematical process standards to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:	Grade 2 2(2) Number and operations. The student applies mathematical process standards to understand how to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:
<p>PS.1. Experiments with different uses for objects.</p> <p>PS.4. Begins to develop interests and skills related to numbers and counting.</p> <p>CS.1. Uses consistent sounds, gestures, or words to communicate for a variety of purposes.</p>	<p>PK3.V.A.1 Child rote counts from 1 to 10.</p> <p>PK4.V.A.1 Child rote counts from 1 to 30.</p> <p>---</p> <p>PK3.V.A.2 Child counts up to 5 objects with one-to-one correspondence.</p> <p>PK4.V.A.2 Child counts up to 10 objects with one-to-one correspondence.</p>	<p>K(2)(A) count forward and backward to at least 20 with and without objects.</p>	<p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>

Infant, Toddler and Three-Year Old Problem Solving (PS) *Communication and Speaking (CS)	Prekindergarten-PK3/PK4 V.A. Number Sense	Kindergarten K(2) Number and operations. The student applies mathematical process standards to understand how to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system. The student is expected to:	Grade 1 1(2) Number and operations. The student applies mathematical process standards to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:	Grade 2 2(2) Number and operations. The student applies mathematical process standards to understand how to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:
<p>PS.1. Experiments with different uses for objects.</p> <p>PS.4. Begins to develop interests and skills related to numbers and counting.</p> <p>CS.1. Uses consistent sounds, gestures, or words to communicate for a variety of purposes.</p>	<p>PK3.V.A.3 Child counts up to 5 items and demonstrates cardinality by communicating that the last number indicates how many items are in the set.</p> <p>PK4.V.A.3 Child counts up to 10 items and demonstrates cardinality by communicating that the last number indicates how many items are in the set.</p>	<p>K(2)(C) count a set of objects up to at least 20 and demonstrate that the last number said tells the number of objects in the set regardless of their arrangement or order.</p>	<p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>
<p>PS.1. Experiments with different uses for objects.</p> <p>PS.4. Begins to develop interests and skills related to numbers and counting.</p>	<p>PK3.V.A.4 Child instantly recognizes the quantity of up to 3 objects without counting (subitizes).</p> <p>PK4.V.A.4 Child instantly recognizes the quantity of up to 6 objects without counting (subitizes).</p>	<p>K(2)(D) recognize instantly the quantity of a small group of objects in organized and random arrangements.</p>	<p>1(2)(A) recognize instantly the quantity of structured arrangements.</p>	<p>No standard present in the vertical progression</p>

Infant, Toddler and Three-Year Old Problem Solving (PS) *Communication and Speaking (CS)	Prekindergarten-PK3/PK4 V.A. Number Sense	Kindergarten K(2) Number and operations. <p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>	<p>1(2)(F) order whole numbers up to 120 using place value and open number lines.</p> <p>1(2)(G) represent the comparison of two numbers to 100 using the symbols $>$, $<$, or $=$.</p>	<p>2(2)(D) use place value to compare and order whole numbers up to 1,200 using comparative language, numbers, and symbols ($>$, $<$, or $=$).</p>

REPRESENTING AND RELATING NUMBERS USING NUMBER LINES

Infant, Toddler and Three-Year Old N/A	Prekindergarten-PK3/PK4 N/A	Kindergarten N/A	Grade 1 1(2) Number and operations. The student applies mathematical process standards to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:	Grade 2 2(2) Number and operations. The student applies mathematical process standards to understand how to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(2)(F) order whole numbers up to 120 using place value and open number lines.	2(2)(E) locate the position of a given whole number on an open number line.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	2(2)(F) name the whole number that corresponds to a specific point on a number line.

COMPOSING AND DECOMPOSING NUMBERS: PLACE VALUE

Infant, Toddler and Three-Year Old Problem Solving (PS)	Prekindergarten-PK3/PK4 V.A. Number Sense	Kindergarten K(2) Number and operations. The student applies mathematical process standards to understand how to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system. The student is expected to:	Grade 1 1(2) Number and operations. The student applies mathematical process standards to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:	Grade 2 2(2) Number and operations. The student applies mathematical process standards to understand how to represent and compare whole numbers, the relative position and magnitude of whole numbers, and relationships within the numeration system related to place value. The student is expected to:
<p>PS.1. Experiments with different uses for objects.</p> <p>PS.3. Applies knowledge to new situations.</p> <p>PS.4. Begins to develop interests and skills related to numbers and counting.</p>	<p>PK3.V.A.7 *There is not enough research to support the inclusion of a PK3 outcome*</p> <p>PK4.V.A.7 Child begins to understand that numbers 0-10 can be composed and decomposed in various ways to represent a quantity.</p>	<p>K(2)(I) compose and decompose numbers up to 10 with objects and pictures.</p>	<p>1(2)(B) use concrete and pictorial models to compose and decompose numbers up to 120 in more than one way as so many hundreds, so many tens, and so many ones.</p>	<p>2(2)(A) use concrete and pictorial models to compose and decompose numbers up to 1,200 in more than one way as a sum of so many thousands, hundreds, tens, and ones.</p>
<p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>	<p>1(2)(C) use objects, pictures, and expanded and standard forms to represent numbers up to 120.</p>	<p>2(2)(B) use standard, word, and expanded forms to represent numbers up to 1,200.</p>

COMPOSING AND DECOMPOSING NUMBERS: PLACE VALUE

Infant, Toddler and Three-Year Old N/A	PrekindergartenPK3/-PK4 N/A	Kindergarten N/A	Grade 1 N/A	Grade 2 2(3) Number and operations. The student applies mathematical process standards to recognize and represent fractional units and communicates how they are used to name parts of a whole. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	2(3)(A) partition objects into equal parts and name the parts, including halves, fourths, and eighths, using words.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	2(3)(B) explain that the more fractional parts used to make a whole, the smaller the part; and the fewer the fractional parts, the larger the part.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	2(3)(C) use concrete models to count fractional parts beyond one whole using words and recognize how many parts it takes to equal one whole.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	2(3)(D) identify examples and non-examples of halves, fourths, and eighths.

ADDING AND SUBTRACTING WHOLE NUMBERS, DECIMALS, AND RATIONAL NUMBERS

Infant, Toddler and Three-Year Old Problem Solving (PS) *Communication and Speaking (CS)	Prekindergarten-PK3/PK4 V.B. Joining and Separating	Kindergarten K(3) Number and operations. The student applies mathematical process standards to develop an understanding of addition and subtraction situations in order to solve problems. The student is expected to:	Grade 1 1(3) Number and operations. The student applies mathematical process standards to develop and use strategies for whole number addition and subtraction computations in order to solve problems. The student is expected to:	Grade 2 2(4) Number and operations. The student applies mathematical process standards to develop and use strategies and methods for whole number computations in order to solve addition and subtraction problems with efficiency and accuracy. The student is expected to:
<p>PS.1. Experiments with different uses for objects.</p> <p>PS.3. Applies knowledge to new situations.</p> <p>PS.4. Begins to develop interests and skills related to numbers and counting.</p> <p>CS.1. Uses consistent sounds, gestures, or words to communicate for a variety of purposes.</p>	<p>PK3.V.B.1 Child uses objects to demonstrate that adding one or more objects to a set will increase the number of objects in the set.</p> <p>PK4.V.B.1 Child uses objects, pictorial models, and/or a verbal word problem to represent adding up to 5 objects.</p> <p>---</p> <p>PK3.V.B.2 Child uses objects to demonstrate that taking away one or more objects from a set will decrease the number of objects in the set.</p> <p>PK4.V.B.2 Child uses objects, pictorial models, and/or a verbal word problem to represent subtracting objects from a set of 5.</p>	<p>K(3)(A) model the action of joining to represent addition and the action of separating to represent subtraction.</p> <p>K(3)(B) solve word problems using objects and drawings to find sums up to 10 and differences within 10.</p>	<p>1(3)(B) use objects and pictorial models to solve word problems involving joining, separating, and comparing sets within 20 and unknowns as any one of the terms in the problem such as $2 + 4 = []$; $3 + [] = 7$; and $5 = [] - 3$.</p> <p>1(3)(C) compose 10 with two or more addends with and without concrete objects.</p>	<p>No standard present in the vertical progression</p>

Infant, Toddler and Three-Year Old Problem Solving (PS) *Communication and Speaking (CS)	Prekindergarten-PK3/PK4 V.B. Joining and Separating	Kindergarten K(3) Number and operations. The student applies mathematical process standards to develop an understanding of addition and subtraction situations in order to solve problems. The student is expected to:	Grade 1 1(3) Number and operations. The student applies mathematical process standards to develop and use strategies for whole number addition and subtraction computations in order to solve problems. The student is expected to:	Grade 2 2(4) Number and operations. The student applies mathematical process standards to develop and use strategies and methods for whole number computations in order to solve addition and subtraction problems with efficiency and accuracy. The student is expected to:
<p>PS.1. Experiments with different uses for objects.</p> <p>PS.3. Applies knowledge to new situations.</p> <p>PS.4. Begins to develop interests and skills related to numbers and counting.</p> <p>CS.1. Uses consistent sounds, gestures, or words to communicate for a variety of purposes.</p>	<p>PK3.V.B.1 Child uses objects to demonstrate that adding one or more objects to a set will increase the number of objects in the set.</p> <p>PK4.V.B.1 Child uses objects, pictorial models, and/or a verbal word problem to represent adding up to 5 objects.</p> <p>---</p> <p>PK3.V.B.2 Child uses objects to demonstrate that taking away one or more objects from a set will decrease the number of objects in the set.</p> <p>PK4.V.B.2 Child uses objects, pictorial models, and/or a verbal word problem to represent subtracting objects from a set of 5.</p>	<p>K(3)(C) explain the strategies used to solve problems involving adding and subtracting within 10 using spoken words, concrete and pictorial models, and number sentences.</p>	<p>1(3)(E) explain strategies used to solve addition and subtraction problems up to 20 using spoken words, objects, pictorial models, and number sentences.</p>	<p>2(4)(B) add up to four two-digit numbers and subtract two-digit numbers using mental strategies and algorithms based on knowledge of place value and properties of operations.</p>

Infant, Toddler and Three-Year Old Problem Solving (PS) *Communication and Speaking (CS)	Prekindergarten-PK3/PK4 V.B. Joining and Separating	Kindergarten K(3) Number and operations. The student applies mathematical process standards to develop an understanding of addition and subtraction situations in order to solve problems. The student is expected to:	Grade 1 1(3) Number and operations. The student applies mathematical process standards to develop and use strategies for whole number addition and subtraction computations in order to solve problems. The student is expected to:	Grade 2 2(4) Number and operations. The student applies mathematical process standards to develop and use strategies and methods for whole number computations in order to solve addition and subtraction problems with efficiency and accuracy. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(3)(A) use concrete and pictorial models to determine the sum of a multiple of 10 and a one-digit number in problems up to 99.	2(4)(C) solve one-step and multistep word problems involving addition and subtraction within 1,000 using a variety of strategies based on place value, including algorithms.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(3)(D) apply basic fact strategies to add and subtract within 20, including making 10 and decomposing a number leading to a 10.	2(4)(A) recall basic facts to add and subtract within 20 with automaticity.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(3)(F) generate and solve problem situations when given a number sentence involving addition or subtraction of numbers within 20.	2(4)(D) generate and solve problem situations for a given mathematical number sentence involving addition and subtraction of whole numbers within 1,000.

REPRESENTING AND DETERMINING THE VALUE OF COINS AND BILLS

Infant, Toddler and Three-Year Old N/A	Prekindergarten-PK3/PK4 N/A	Kindergarten K(4) Number and operations. The student applies mathematical process standards to identify coins in order to recognize the need for monetary transactions. The student is expected to:	Grade 1 1(4) Number and operations. The student applies mathematical process standards to identify coins, their values, and the relationships among them in order to recognize the need for monetary transactions. The student is expected to:	Grade 2 2(5) Number and operations. The student applies mathematical process standards to determine the value of coins in order to solve monetary transactions. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	K(4)(A) identify U.S. coins by name, including pennies, nickels, dimes, and quarters.	1(4)(A) identify U.S. coins, including pennies, nickels, dimes, and quarters, by value and describe the relationships among them.	No standard present in the vertical progression
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(4)(B) write a number with the cent symbol to describe the value of a coin.	2(5)(B) use the cent symbol, dollar sign, and the decimal point to name the value of a collection of coins.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(4)(C) use relationships to count by twos, fives, and tens to determine the value of a collection of pennies, nickels, and/or dimes.	2(5)(A) determine the value of a collection of coins up to one dollar.

MULTIPLYING/DIVIDING WHOLE NUMBERS, DECIMALS, FRACTIONS, AND RATIONAL NUMBERS

Infant, Toddler and Three-Year Old N/A	Prekindergarten-PK3/PK4 N/A	Kindergarten N/A	Grade 1 N/A	Grade 2 2(6) Number and operations. The student applies mathematical process standards to connect repeated addition and subtraction to multiplication and division situations that involve equal groupings and shares. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	2(6)(A) model, create, and describe contextual multiplication situations in which equivalent sets of concrete objects are joined.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	2(6)(B) model, create, and describe contextual division situations in which a set of concrete objects is separated into equivalent sets.

PATTERN SKILLS

Infant, Toddler and Three-Year Old Exploration and Discovery (ED) Problem Solving (PS)	Prekindergarten-PK3/PK4 V.E. Classification and Patterns	Kindergarten N/A	Grade 1 N/A	Grade 2 N/A
<p>PS.1. Experiments with different uses for objects.</p> <p>PS.3. Applies knowledge to new situations.</p> <p>ED.3. Shows interest in colors, shapes, patterns, and pictures.</p>	<p>PK3.V.E.3 Child recognizes and duplicates patterns.</p> <p>PK4.V.E.3 Child recognizes, duplicates, extends, and creates patterns.</p>	No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression

CONNECTING COUNTING AND RECITING

Infant, Toddler and Three-Year Old *Communication and Speaking (CS)	Prekindergarten-PK3/PK4 V.A. Counting Skills	Kindergarten K(5) Algebraic reasoning. The student applies mathematical process standards to identify the pattern in the number word list. The student is expected to:	Grade 1 1(5) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:	Grade 2 N/A
<p>CS.1. Uses consistent sounds, gestures, or words to communicate for a variety of purposes.</p> <p>PS.4. Begins to develop interests and skills related to numbers and counting.</p>	<p>PK3.V.A.1 Child rote counts from 1 to 10.</p> <p>PK4.V.A.1 Child rote counts from 1 to 30.</p>	<p>K(5)(A) recite numbers up to at least 100 by ones and tens beginning with any given number.</p>	<p>1(5)(A) recite numbers forward and backward from any given number between 1 and 120.</p>	<p>No standard present in the vertical progression</p>

CONNECTING COUNTING AND DIVISIBILITY

Infant, Toddler and Three-Year Old N/A	Prekindergarten-PK3/PK4 N/A	Kindergarten N/A	Grade 1 1(5) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:	Grade 2 2(7) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:
<p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>	<p>No standard present in the vertical progression</p>	<p>1(5)(B) skip count by twos, fives, and tens to determine the total number of objects up to 120 in a set.</p>	<p>2(7)(A) determine whether a number up to 40 is even or odd using pairings of objects to represent the number.</p>

CONNECTING COUNTING AND PLACE VALUE

Infant, Toddler and Three-Year Old N/A	Prekindergarten-PK3/PK4 N/A	Kindergarten N/A	Grade 1 1(5) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:	Grade 2 2(7) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(5)(C) use relationships to determine the number that is 10 more and 10 less than a given number up to 120.	2(7)(B) use an understanding of place value to determine the number that is 10 or 100 more or less than a given number up to 1,200.

REPRESENTING PROBLEM SOLVING SITUATIONS WITH THE EQUAL SIGN

Infant, Toddler and Three-Year Old N/A	Prekindergarten-PK3/PK4 N/A	Kindergarten N/A	Grade 1 1(5) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:	Grade 2 2(7) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	<p>1(5)(D) represent word problems involving addition and subtraction of whole numbers up to 20 using concrete and pictorial models and number sentences.</p> <p>1(5)(E) understand that the equal sign represents a relationship where expressions on each side of the equal sign represent the same value(s).</p>	<p>2(7)(C) represent and solve addition and subtraction word problems where unknowns may be any one of the terms in the problem.</p>

REPRESENTING PROBLEM SITUATIONS WITH THE EQUATIONS AND INEQUALITIES

Infant, Toddler and Three-Year Old N/A	Prekindergarten-PK3/PK4 N/A	Kindergarten N/A	Grade 1 1(5) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:	Grade 2 2(7) Algebraic reasoning. The student applies mathematical process standards to identify and apply number patterns within properties of numbers and operations in order to describe relationships. The student is expected to:
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(5)(F) determine the unknown whole number in an addition or subtraction equation when the unknown may be any one of the three or four terms in the equation.	2(7)(C) represent and solve addition and subtraction word problems where unknowns may be any one of the terms in the problem.
No standard present in the vertical progression	No standard present in the vertical progression	No standard present in the vertical progression	1(5)(G) apply properties of operations to add and subtract two or three numbers.	No standard present in the vertical progression

DEFINING ATTRIBUTES OF ONE-DIMENSIONAL, TWO-DIMENSIONAL, AND THREE-DIMENSIONAL FIGURES

Infant, Toddler and Three-Year Old Exploration and Discovery (ED) Problem Solving (PS) *Communication and Speaking (CS) **Fine Motor Skills (FM)	Prekindergarten-PK3/PK4 V.C. Geometry and Spatial Sense	Kindergarten K(6) Geometry and measurement. The student applies mathematical process standards to analyze attributes of two-dimensional shapes and three-dimensional solids to develop generalizations about their properties. The student is expected to:	Grade 1 1(6) Geometry and measurement. The student applies mathematical process standards to analyze attributes of two-dimensional shapes and three-dimensional solids to develop generalizations about their properties. The student is expected to:	Grade 2 2(8) Geometry and measurement. The student applies mathematical process standards to analyze attributes of two-dimensional shapes and three-dimensional solids to develop generalizations about their properties. The student is expected to:
