Content Changes for School Year 2023-24 (Digital and Print)

Open education resources (OER) are instructional materials where the underlying intellectual property is either permanently owned by the state of Texas or is structured as a license that allows for the state to modify & use it for free in perpetuity (“Purchase Authority” TEC §31.071). Because OER is owned by the state of Texas, continuous improvement efforts allow for new versions of the products to be released based on stakeholder feedback. TEA has been piloting COVID emergency release versions of instructional material for English/language arts & reading in grades K-5. A small set of updates is planned for school systems piloting the emergency release version during 2023-24 school year. More significant updates are also in process for a full release version for a future school year. This document is intended to provide a short summary of the changes for the emergency release pilot version available for the 2023-24 school year vs the version available in the prior school year.

**English Language Version**

**Grade 2, Domain 2 - Amplify ELAR TX G2 D2 Teacher Guide: The Ancient Greek Civilization**
