

ELAR, Phonics, Grade 1 (IMRA)

Subject: English Language Arts and Reading - Phonics

Grade: 01

Expectations: 3

Breakouts: 70

(a) Introduction.

1. The English language arts and reading Texas Essential Knowledge and Skills (TEKS) embody the interconnected nature of listening, speaking, reading, writing, and thinking through the seven integrated strands of developing and sustaining foundational language skills; comprehension; response; multiple genres; author's purpose and craft; composition; and inquiry and research. The strands focus on academic oracy (proficiency in oral expression and comprehension), authentic reading, and reflective writing to ensure a literate Texas. The strands are integrated and progressive with students continuing to develop knowledge and skills with increased complexity and nuance in order to think critically and adapt to the ever-evolving nature of language and literacy.
2. The seven strands of the essential knowledge and skills for English language arts and reading are intended to be integrated for instructional purposes and are recursive in nature. Strands include the four domains of language (listening, speaking, reading, writing) and their application in order to accelerate the acquisition of language skills so that students develop high levels of social and academic language proficiency. Although some strands may require more instructional time, each strand is of equal value, may be presented in any order, and should be integrated throughout the year. It is important to note that encoding (spelling) and decoding (reading) are reciprocal skills. Decoding is internalized when tactile and kinesthetic opportunities (encoding) are provided. Additionally, students should engage in academic conversations, write, read, and be read to on a daily basis with opportunities for cross-curricular content and student choice.
3. Text complexity increases with challenging vocabulary, sophisticated sentence structures, nuanced text features, cognitively demanding content, and subtle relationships among ideas (Texas Education Agency, *STAAR Performance Level Descriptors*, 2013). As skills and knowledge are obtained in each of the seven strands, students will continue to apply earlier standards with greater depth to increasingly complex texts in multiple genres as they become self-directed, critical learners who work collaboratively while continuously using metacognitive skills.
4. English language learners (ELLs) are expected to meet standards in a second language; however, their proficiency in English influences the ability to meet these standards. To demonstrate this knowledge throughout the stages of English language acquisition, comprehension of text requires additional scaffolds such as adapted text, translations, native language support, cognates, summaries, pictures, realia, glossaries, bilingual dictionaries, thesauri, and other modes of comprehensible input. ELLs can and should be encouraged to use knowledge of their first language to enhance vocabulary development; vocabulary needs to be in the context of connected discourse so that it is meaningful. Strategic use of the student's first language is important to ensure linguistic, affective, cognitive, and academic development in English.
5. Current research stresses the importance of effectively integrating second language acquisition with quality content area education in order to ensure that ELLs acquire social and academic language proficiency in English, learn the knowledge and skills, and reach their full academic potential. Instruction must be linguistically accommodated in accordance with the English Language Proficiency Standards (ELPS) and the student's English language proficiency levels to ensure the mastery of knowledge and skills in the required curriculum is accessible. For a further understanding of second language acquisition needs, refer to the ELPS and proficiency-level descriptors adopted in Chapter 74, Subchapter A, of this title (relating to Required Curriculum).

6. Oral language proficiency holds a pivotal role in school success; verbal engagement must be maximized across grade levels (Kinsella, 2010). In order for students to become thinkers and proficient speakers in science, social studies, mathematics, fine arts, language arts and reading, and career and technical education, they must have multiple opportunities to practice and apply the academic language of each discipline (Fisher, Frey, & Rothenberg, 2008).
7. Statements that contain the word "including" reference content that must be mastered, while those containing the phrase "such as" are intended as possible illustrative examples.

(b) Knowledge and Skills Statements

- (2) Developing and sustaining foundational language skills: listening, speaking, reading, writing, and thinking--beginning reading and writing. The student develops word structure knowledge through phonological awareness, print concepts, phonics, and morphology to communicate, decode, and spell. The student is expected to:
 - (A) demonstrate phonological awareness by: producing a series of rhyming words; recognizing spoken alliteration or groups of words that begin with the same spoken onset or initial sound; distinguishing between long and short vowel sounds in one-syllable words; recognizing the change in spoken word when a specified phoneme is added, changed, or removed; blending spoken phonemes to form one-syllable words, including initial and/or final consonant blends; manipulating phonemes within base words; and segmenting spoken one-syllable words of three to five phonemes into individual phonemes, including words with initial and/or final consonant blends;
 - (iii) demonstrate phonological awareness by distinguishing between long and short vowel sounds in one-syllable words
 - (iv) demonstrate phonological awareness by recognizing the change in spoken word when a specified phoneme is added, changed, or removed
 - (v) demonstrate phonological awareness by blending spoken phonemes to form one-syllable words, including initial and final consonant blends
 - (vi) demonstrate phonological awareness by blending spoken phonemes to form one-syllable words, including initial or final consonant blends
 - (vii) demonstrate phonological awareness by manipulating phonemes within base words
 - (viii) demonstrate phonological awareness by segmenting spoken one-syllable words of three to five phonemes into individual phonemes, including words with initial and final consonant blends
 - (B) demonstrate and apply phonetic knowledge by: decoding words in isolation and in context by applying common letter sound correspondences; decoding words with initial and final consonant blends, digraphs, and trigraphs; decoding words with closed syllables; open syllables; VCe syllables; vowel teams, including vowel digraphs and diphthongs; and r-controlled syllables; using knowledge of base words to decode common compound words and contractions; decoding words with inflectional endings, including -ed, -s, and -es; and identifying and reading at least 100 high-frequency words from a research-based list;
 - (i) demonstrate phonetic knowledge by decoding words in isolation by applying common letter sound correspondences
 - (ii) demonstrate phonetic knowledge by decoding words in context by applying common letter sound correspondences
 - (iii) apply phonetic knowledge by decoding words in insolation by applying common letter sound correspondences

- (iv) apply phonetic knowledge by decoding words in context by applying common letter sound correspondence
- (v) demonstrate phonetic knowledge by decoding words with initial consonant blends
- (vi) demonstrate phonetic knowledge by decoding words with initial consonant digraphs
- (vii) demonstrate phonetic knowledge by decoding words with final consonant blends
- (viii) demonstrate phonetic knowledge by decoding words with final consonant digraphs
- (ix) demonstrate phonetic knowledge by decoding words with final consonant trigraphs
- (x) apply phonetic knowledge by decoding words with initial consonant blends
- (xi) apply phonetic knowledge by decoding words with initial consonant digraphs
- (xii) apply phonetic knowledge by decoding words with final consonant blends
- (xiii) apply phonetic knowledge by decoding words with final consonant digraphs
- (xiv) apply phonetic knowledge by decoding words with final consonant trigraphs
- (xv) demonstrate phonetic knowledge by decoding words with closed syllables
- (xvi) demonstrate phonetic knowledge by decoding words with open syllables
- (xvii) demonstrate phonetic knowledge by decoding words with VCe syllables
- (xviii) demonstrate phonetic knowledge by decoding words with vowel teams, including vowel digraphs
- (xix) demonstrate phonetic knowledge by decoding words with vowel teams, including vowel diphthongs
- (xx) demonstrate phonetic knowledge by decoding words with r-controlled syllables
- (xxi) apply phonetic knowledge by decoding words with closed syllables
- (xxii) apply phonetic knowledge by decoding words with open syllables
- (xxiii) apply phonetic knowledge by decoding words with VCe syllables
- (xxiv) apply phonetic knowledge by decoding words with vowel teams, including vowel digraphs
- (xxv) apply phonetic knowledge by decoding words with vowel teams, including vowel diphthongs
- (xxvi) apply phonetic knowledge by decoding words with r-controlled syllables
- (xxvii) demonstrate phonetic knowledge by using knowledge of base words to decode common compound words
- (xxviii) demonstrate phonetic knowledge by using knowledge of base words to decode common contractions
- (xxix) apply phonetic knowledge by using knowledge of base words to decode common compound words
- (xxx) apply phonetic knowledge by using knowledge of base words to decode common contractions
- (xxxi) demonstrate phonetic knowledge by decoding words with inflectional endings, including -ed
- (xxxii) demonstrate phonetic knowledge by decoding words with inflectional endings, including -s
- (xxxiii) demonstrate phonetic knowledge by decoding words with inflectional endings, including -es

- (xxxiv) apply phonetic knowledge by decoding words with inflectional endings, including -ed
- (xxxv) apply phonetic knowledge by decoding words with inflectional endings, including -s
- (xxxvi) apply phonetic knowledge by decoding words with inflectional endings, including -es
- (xxxvii) demonstrate phonetic knowledge by identifying at least 100 high-frequency words from a research-based list
- (xxxviii) demonstrate phonetic knowledge by reading at least 100 high-frequency words from a research-based list
- (xxxix) apply phonetic knowledge by identifying at least 10 high-frequency words from a research-based list
- (xl) apply phonetic knowledge by reading at least 100 high-frequency words from a research-based list
- (C) demonstrate and apply spelling knowledge by: spelling words with closed syllables, open syllables, VCe syllables, vowel teams, and r-controlled syllables; spelling words with initial and final consonant blends, digraphs, and trigraphs; spelling words using sound-spelling patterns; and spelling high-frequency words from a research-based list;
 - (i) demonstrate spelling knowledge by spelling words with closed syllables
 - (ii) demonstrate spelling knowledge by spelling words with open syllables
 - (iii) demonstrate spelling knowledge by spelling with VCe syllables
 - (iv) demonstrate spelling knowledge by spelling words with vowel teams
 - (v) demonstrate spelling knowledge by spelling words with r-controlled syllables
 - (vi) apply spelling knowledge by spelling words with closed syllables
 - (vii) apply spelling knowledge by spelling words with open syllables
 - (viii) apply spelling knowledge by spelling words with VCe syllables
 - (ix) apply spelling knowledge by spelling words with vowel teams
 - (x) apply spelling knowledge by spelling words with r-controlled syllables
 - (xi) demonstrate spelling knowledge by spelling words with initial consonant blends
 - (xii) demonstrate spelling knowledge by spelling words with initial consonant digraphs
 - (xiii) demonstrate spelling knowledge by spelling words with final consonant blends
 - (xiv) demonstrate spelling knowledge by spelling words with final consonant digraphs
 - (xv) demonstrate spelling knowledge by spelling words with final consonant trigraphs
 - (xvi) apply spelling knowledge by spelling words with initial consonant blends
 - (xvii) apply spelling knowledge by spelling words with initial consonant digraphs
 - (xviii) apply spelling knowledge by spelling words with final consonant blends
 - (xix) apply spelling knowledge by spelling words with final consonant digraphs
 - (xx) apply spelling knowledge by spelling words with final consonant trigraphs
 - (xxi) demonstrate spelling knowledge by spelling words using sound-spelling patterns

- (xxii) apply spelling knowledge by spelling words using sound-spelling patterns
- (xxiii) demonstrate spelling knowledge by spelling high-frequency words from a research-based list
- (xxiv) apply spelling knowledge by spelling high-frequency words from a research-based list
