01:04:59 areinecke: They use GT strategies like menus, projects, etc

01:05:14 areinecke: 3,4,5 is self contained, but they are accelerating Math and ELAR.

01:05:24 areinecke: In MS, those classes are only GT students.

01:06:03 areinecke: All students receiving services, they take an aptitude test to see if they need to be accelerated or take an honors track.

01:06:40 areinecke: Because they accelerate in elementary, they are able to take Algebra topics

01:07:03 areinecke: Geometry as 8th graders.

01:07:45 areinecke: In MS they also accelerate Science.

01:08:07 areinecke: They do allow students to move around as needed in Science courses.

01:08:26 areinecke: For SS, they don't accelerate.

01:08:57 areinecke: They do offer humanities with ELAR that builds a foundation for other SS AP courses.
