00:21:26 Monica Parkhill:Thanks!

00:21:46 Gena Duval: No problem! I was catching up last week!

00:22:10 Mallory Pouliasis: We were able to get the local newspaper to come to a local museum where our students were meeting with an expert about their passion project (coin collecting)

00:25:29 Audra Rowell: We started using a Google Form for PEIMS coding. Campuses fill it out and it goes to our PEIMS department for coding. It has really helped streamline the process.

00:27:05 Gena Duval: Thank you

00:28:12 cuyler anderson: lol

00:28:30 Amber Reinecke: Estimated Funding link on TEA website:  
<https://tea.texas.gov/sites/default/files/Schedule%20of%20Estimated%20Funding%20for%20GT.pdf>

00:35:10 Jennine Zeleznik: We started using a google form to collect GT PD certificates, in order to have a district-wide digital database.

00:35:52 cuyler anderson: Our PD transcripts through an automated system. All PD is digital, so it is easy to track.

00:36:36 Audra Rowell: It might helpful to see what your neighboring districts do so you can be in sync since teachers often leave and go to a neighboring district.

00:38:30 Jessica Torres: The GT Orientation in the state plan (5.7) is really important to ensure common language within a district...could be a self-paced virtual course

00:39:13 cuyler anderson: We only offer virtual training for GT

00:48:33 Blake Haygood: Thank you!

00:48:34 Jennifer Covington: Thank you!
