Authority Statement

State education agencies have a responsibility under federal law to establish a system of general supervision to monitor the implementation of the Individuals with Disabilities Education Act (IDEA) of 2004. States are accountable for using this system for enforcing requirements and ensuring continuous improvement. This system is designed to ensure compliance with federal and state regulations and improve services and results for students with disabilities.

The comprehensive desk review is designed to evaluate the local education agency's (LEA) performance on all seven critical areas of compliance identified in the diagnostic framework but does not limit the identification of other areas of IDEA non-compliance. These seven areas are Evaluation, IEP Implementation, Properly Constituted ARD Committees, IEP Content, IEP Development, Transition, and State Assessment.

The following items are the questions utilized to conduct a review of an LEA's special education program in the Differentiated Monitoring and Support System.
