## Section III

### Description of Use of Funds Under Part B of the Individuals with Disabilities Education Act—20 U.S.C. 1411(e)(5); 34 CFR § 300.171

States must provide the Description of Use of Funds by completing and submitting the Excel Interactive Spreadsheet with the FFY 2025 Application.

Describe how the amount retained by the State educational agency under 20 U.S.C. 1411(e)(1) will be used to meet the following activities under Part B. (20 U.S.C. 1411(e)(1)-(3), (6) and (7).) The Department annually identifies for States the maximum amounts that a State may retain under Section 1411(e)(1) and (2).<sup>1</sup> The dollar amounts **listed in the Excel Interactive Spreadsheet** by the State for administration and for other State activities should add up to less or equal to the dollar amount provided to the State by the Department for each of these activities.

**Enter whole dollar amounts (do not enter cents) in appropriate cells on the State's Excel Interactive Worksheet. The Excel Interactive Spreadsheet must be submitted as part of the State's application.**

Describe the process used to get input from LEAs regarding the distribution of amounts among activities described in the Excel Interactive Spreadsheet to meet State priorities. (20 U.S.C. 1411(e)(5)(B); 34 CFR § 300.704)

The agency offers multiple ways for stakeholders, including local educational agencies (LEAs), to help shape the activities outlined in the Excel Interactive Spreadsheet. Agency staff regularly meet with special education directors from LEAs through both formal and informal channels to understand their needs. This includes a state-created panel of special education directors that meets regularly and represents the geographic and demographic diversity of the state's 1200+ LEAs. The agency also works closely with the state's 20 regional education service centers (ESCs), which maintain strong relationships with local LEAs. Weekly meetings with ESC staff, along with ongoing communication between ESCs and the agency's Office of Special Populations and Student Supports, ensure a steady two-way exchange of information.

A common message from the field is that needs change quickly, and LEAs value the state's ability to respond promptly. As a result, the state's worksheet allows flexibility in how funds are allocated to address emerging needs.

Additionally, monitoring teams provide technical assistance to LEAs based on student outcome data from the Results Driven Accountability (RDA) system. LEAs use this data to identify the support they need. Throughout the grant year, agency staff stay engaged with LEAs and ESCs to adjust and enhance initiatives as needed. The ongoing input helps the agency use its funding flexibility to launch projects that meet the diverse needs of students across the state.

<sup>1</sup>Each State may reserve for each fiscal year not more than the maximum amount the State was eligible to reserve for State administration under this section for fiscal year 2004 or \$800,000 (adjusted in accordance with 20 U.S.C. 1411(e)(1)(B)), whichever is greater; and each outlying area may reserve for each fiscal year not more than 5 percent of the amount the outlying area receives under 20 U.S.C. 1411(b)(1) for the fiscal year or \$35,000, whichever is greater.

For each fiscal year beginning with fiscal year 2005, the Secretary shall cumulatively adjust: 1) the maximum amount the State was eligible to reserve for State administration under this part for fiscal year 2004; and 2) \$800,000, by the rate of inflation as measured by the percentage increase, if any, from the preceding fiscal year in the Consumer Price Index For All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor.

## Section V

### A. Maintenance of State Financial Support

Pursuant to the authority established in IDEA section 618(a)(3), each applicant for funds under section 611 must provide the following State fiscal data with a certification of its accuracy by the State budget office or an authorized representative thereof. Amounts should be shown in whole dollars and are for the State fiscal year (SFY). States may meet the maintenance of State financial support (MFS) requirement in IDEA section 612(a)(18) and 34 CFR § 300.163 on either a total or per capita basis. In order to complete Section V.A. of the Application, States must provide in whole dollars the total amount of State financial support made available for special education and related services for children with disabilities during SFYs 2023 and 2024. However, if a State met the MFS requirement on a per capita basis, it **must** complete the first chart and then may also complete the second chart by providing, in whole dollars, the amount of State financial support made available for special education and related services per child with a disability during SFYs 2023 and 2024.

## B. Significant Disproportionality

In accordance with 34 CFR § 300.647(b)(7), each State must report all risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress if the State uses the “reasonable progress” flexibility in 34 CFR § 300.647(d)(2), and the rationales for each, to the Department. Under § 300.647(b)(7), rationales for minimum cell sizes that exceed 10 and minimum n-sizes that exceed 30 must include a detailed explanation of why the numbers chosen are reasonable and how they ensure that the State is appropriately analyzing and identifying LEAs with significant disproportionality based on race and ethnicity, in the identification, placement, or discipline of children with disabilities. Additionally, pursuant to the authority established in IDEA section 618(a)(3), each applicant must also provide the number of years of data it uses in making annual determinations of significant disproportionality. Each applicant must provide this information by completing and submitting the Significant Disproportionality Reporting Form.

All States completed and submitted the **Significant Disproportionality Reporting** Form with their FFY 2020 IDEA Part B application. After the initial submission of the Form, a State will only be required to submit the Form with any future annual IDEA Part B State applications if the State modifies its risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress, and rationales for each, or the number of years of data used in making annual determinations of significant disproportionality.

If your State has revised its Significant Disproportionality procedures or has any questions regarding Section V.B. of the grant application, please contact your OSEP State Lead before the Application due date.
