

## TEXAS MOBILE STEM LAB EXPANSION

Since 2020, the Texas Mobile STEM Lab has served over 21,000 Texas K-8 students in each of the state's 20 educational service regions. Thanks to overwhelming school demand for the program, **eight new labs** are currently under construction and will launch for the 2025/26 school year! The new labs will be regionally based, to maximize the number of schools, teachers, and students served each year. Each of the nine regions will receive 30 school visits per year.

- > TEA-approved, TEKS-aligned curriculum
- > Staffed by professional STEM educators

**ONBOARD THE TEXAS MOBILE STEM LAB, K-8 STUDENTS SOLVE ENGINEERING DESIGN CHALLENGES. ALL CURRICULUM AND LAB VISITS ARE PROVIDED FREE OF CHARGE FOR SCHOOLS.**

Applications will open Spring 2025. For more information about the program, please visit: [TXmobileSTEM.org](https://TXmobileSTEM.org).
