

2025-26 SCHOOL VISITS

Onboard the Texas Mobile STEM Labs, K-8 students solve TEA-approved, TEKS-aligned engineering design challenges taught by professional STEM educators. All curriculum and lab visits are provided free of charge for schools.

Thanks to an exciting program expansion for the 2025/26 school year, the Texas Mobile STEM Labs program will include nine traveling laboratories, visiting 270 school districts in all 20 education service regions. Since its inception in 2020, the program has served over 33,000 Texas K-8 students to date.
