COUNSELOR JOB DESCRIPTION AND EVALUATION FORM

The counselor evaluation form may be used by the counselor as a self-audit. It may also be used by supervisors to annually evaluate the counselor's performance. This TEA Job Description and Counselor Evaluation were developed in cooperation with the Texas Counseling Association and Texas School Counselors Association and is the recommended evaluation form as directed by TEC §21.356. The recommended version includes a system for weighting the ratings. Weighting reflects the relative importance of each domain within an individual counselor's job assignment. A weight is assigned to each domain to reflect how much of a counselor's resources are expected to be appropriated to that domain. Rating reflects the evaluator's judgment about the quality of a counselor's performance on a standard. Details about the rating scale and the application of weights are presented later under "Directions for Completion of the Performance Evaluation Form." A district or campus may choose not to use the weighting system. For additional information, contact Lauralea Bauer, TEA Guidance and Counseling at (512) 463-9073.

DIRECTIONS FOR COMPLETING THE PERFORMANCE EVALUATION FORM:

I. Complete the background information on the first page of the Performance Evaluation Form.

II. Assign weights to each domain: The individual is to be evaluated in light of his/her responsibilities within the overall guidance program. Therefore, weights for each of the domains should be agreed upon by the counselor and the evaluator at the beginning of the evaluation period and recorded on the first page of the Performance Evaluation Form (as percentages appropriate to the counselor’s responsibilities). This page should be signed at the beginning of the evaluation period to confirm the weights and other information thereon. A district or campus may choose not to use the weighted system.

III. Compute the average (mean) for each domain: Determine the domain average by adding the ratings of the standards in the domain and then
dividing by the number of standards rated. If a standard is not applicable, “NO” is recorded on the form, and a value for that standard is not figured as part of the domain’s average. Spaces for comments, strengths, and areas to address are provided on the Performance Evaluation Form for each domain. It is not necessary for the evaluator to comment on each standard or domain; however, comments are encouraged for areas where exceptional strength is indicated or for areas that require improvement.

IV. Calculate the Summary Evaluation Score: To obtain the overall rating, multiply the domain average for each domain by its pre-determined weight (%) and then add these weighted domain values to arrive at a total of weighted values. Record this total of weighted domain values in the space for the “Summary Evaluation Score” on the last page (Summary Sheet) of the Performance Evaluation Form.

V. Sign the Summary Sheet of the Performance Evaluation Form: Signatures of the evaluator and the counselor are required at the end of the Performance Evaluation Form to acknowledge that the evaluation has been discussed with and presented to the counselor. The counselor’s signature does not necessarily indicate agreement with the evaluator’s ratings.
