Texas Education Code, §7.0611

Facility Usage Report, 2025-2026: Statewide and Regional Summary

Introduction

Texas Education Code (TEC), §7.0611, added by House Bill (HB) 2 and Senate Bill (SB) 12, 89th Texas Legislature, 2025, requires each school district to annually report data about its facilities to the Texas Education Agency (TEA). Beginning with the 2025-2026 school year, it also requires TEA to produce an annual report of the data and make it available to the public on the agency's website (§7.0611(c)). The section took effect September 1, 2025. For the 2025-2026 collection, TEA's online survey opened for school systems to submit data on April 9, 2026, and submissions were originally due May 15, 2026. TEA extended the due date to June 20, 2026.

Statewide Results

This section presents statewide statistics in accordance with the reporting requirements of §7.0611.

Submission Status

1,017	946	17,763	1.11 billion
School systems required to report	**School systems with a complete submission**	**Facility records reported**	**Square feet reported (14,648 records)**

Table 1 categorizes school systems based on their submission status.

Table 1. School Systems by Submission Status

Submission Status	School systems
Submitted (Data were submitted and used in annual report)	946
Incomplete (Data submission not complete, or data quality issues prevented its use)	36
Not Submitted (No data submitted)	35
Total	**1,017**

Authority: TEC §7.0611(b).

Facilities by Type of Building

Table 2 shows the facility records by Type of Building, in TEA's standard categories, and each type's share of the records. "Other" includes, for example, a stand-alone stadium, parking lot, or warehouse.

Table 2. Facility Records by Type of Building

Type of building	Facility records	Share of facility records
Instructional facility	8,647	49%
Other (e.g., stand-alone stadium, parking lot, warehouse)	4,226	24%
Vacant land	2,396	13%
Administrative building	1,098	6%
Transportation building	576	3%
Career and technology center	348	2%
Food service building	147	1%
Not reported	325	2%
All facility records	**17,763**	**100%**

Authority: TEC §7.0611(b)(5).

Square Footage and Acreage

Table 3 summarizes reported facility square footage and acreage. For each metric, it shows the count of facility records containing reported data and the total combined values.

Table 3. Square Footage and Acreage Reported

Figure	Facility records with the figure reported	Sum as reported
Square Footage (square feet)	14,648	1,108,498,374
Acreage (acres)	15,544	315,397

Authority: TEC §7.0611(b)(1).

Enrollment and Capacity of Instructional Facilities

7,218
Instructional facilities with enrollment and either adjusted capacity or maximum capacity reported (of 8,437)

1,094
Instructional facilities with enrollment at or above adjusted capacity

1,228
Instructional facilities with enrollment under 50 percent of adjusted capacity

111
Vacant instructional facilities (Active used facility: No)

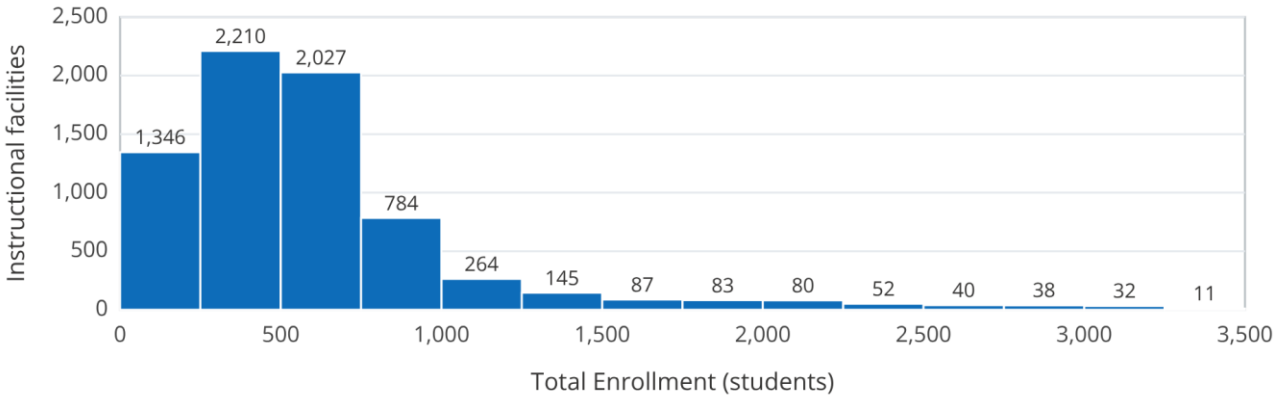

Definition of Capacity under 19 Texas Administrative Code (TAC) §61.1040.

- **Adjusted maximum instructional capacity:** The maximum number of students who can be served at an instructional facility at any point in time as adjusted from the maximum instructional capacity based on the implementation of innovative instructional or operational practices.
- **Maximum instructional capacity:** The maximum number of students who can be served by an instructional facility at any point in time.

Figure 1 answers the question "How many students do instructional facilities enroll?" by showing the distribution of instructional facilities across ranges of total enrollment.

- **Key takeaway:** Across the 7,218 facilities, total enrollment peaks at 250 to 499 students (2,210 facilities). The median total enrollment is 506 students.

Figure 1. Instructional Facilities by Total Enrollment

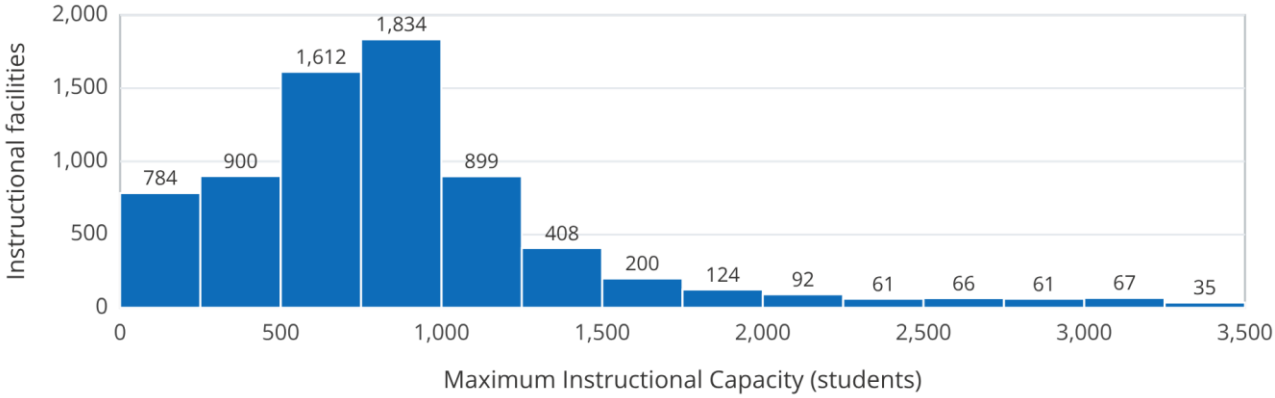

Note: Total facilities equal 7,218. Each bar counts the instructional facilities with a total enrollment in a range of 250 students. Facilities with a value above 3,500 are not shown because the few values would compress the graph.

Authority: TEC §7.0611(b)(3)(B).

Figure 2 answers the question “How many students can instructional facilities serve at most?” by showing the distribution of instructional facilities across ranges of maximum instructional capacity.

- **Key takeaway:** Across the 7,218 facilities, maximum capacity peaks at 750 to 999 students (1,834 facilities). The median maximum capacity is 775 students.

Figure 2. Instructional Facilities by Maximum Instructional Capacity

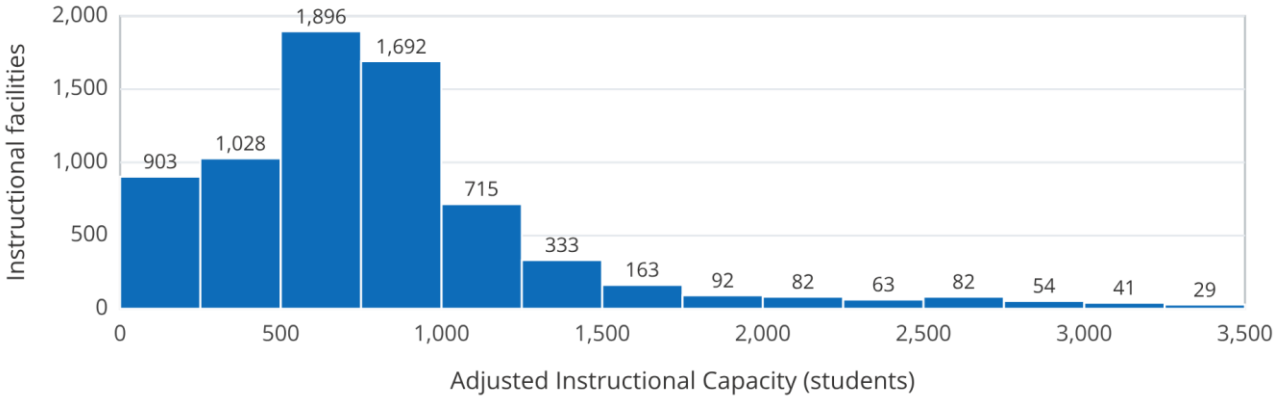

Note: Total facilities equal 7,218. Each bar counts the instructional facilities with a maximum instructional capacity in a range of 250 students. The adjusted instructional capacity is used if the maximum instructional capacity is zero or blank. Facilities with a value above 3,500 are not shown because the few values would compress the graph.

Authority: TEC §7.0611(b)(2).

Figure 3 answers the question “How many students can instructional facilities serve at most, as adjusted for innovative instructional or operational practices?” by showing the distribution of instructional facilities across ranges of adjusted instructional capacity.

Key takeaway: Across the 7,218 facilities, adjusted capacity peaks at 500 to 749 students (1,896 facilities). The median adjusted capacity is 720 students.

Figure 3. Instructional Facilities by Adjusted Instructional Capacity

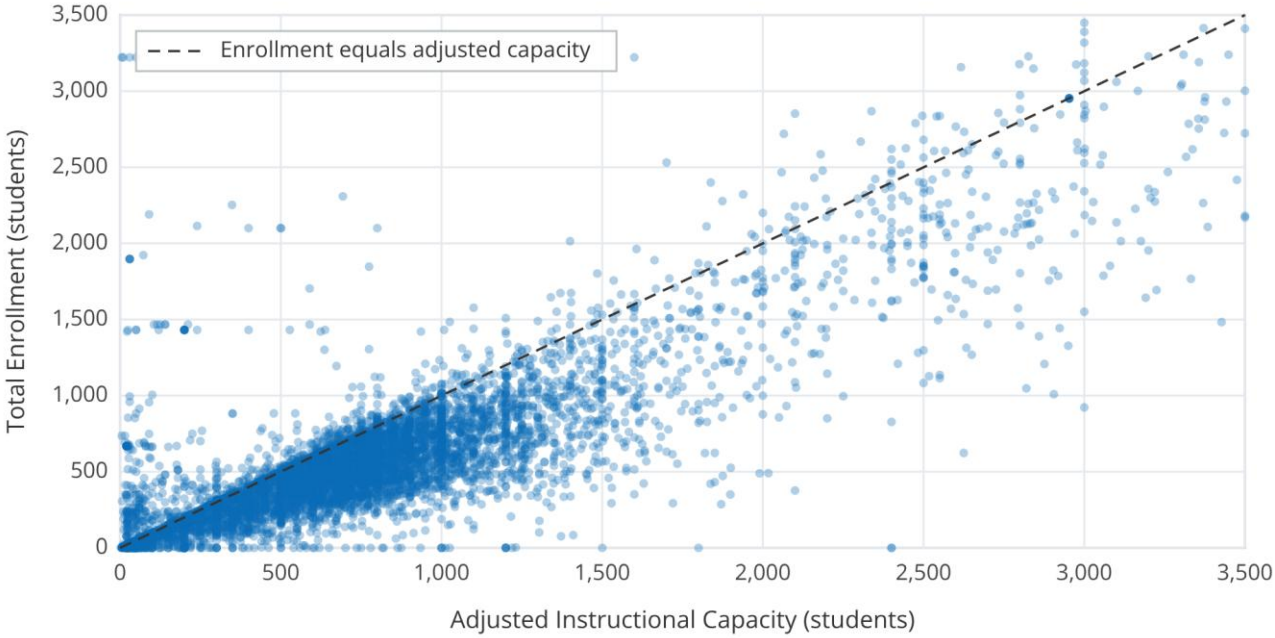

Note: Total facilities equal 7,218. Each bar counts the instructional facilities with an adjusted instructional capacity in a range of 250 students. The maximum instructional capacity is used if the adjusted instructional capacity is zero or blank. Facilities with a value above 3,500 are not shown because the few values would compress the graph.

Authority: TEC §7.0611(b)(2).

Figure 4 answers the question “How does each instructional facility’s enrollment compare with its adjusted instructional capacity?” by showing the relationship between adjusted capacity on the horizontal axis (x-axis) and total enrollment on the vertical axis (y-axis). The dashed line marks where adjusted capacity equals total enrollment. Dots above the dashed line indicate that enrollment is greater than adjusted capacity, whereas dots below indicate that enrollment is less than adjusted capacity.

- **Key takeaway:** Across the 7,218 facilities, the median facility enrolls 75 percent of its adjusted capacity, and 1,094 (15 percent) enroll at or above it.

Figure 4. Total Enrollment Against Adjusted Instructional Capacity

Note: The maximum instructional capacity is used if the adjusted instructional capacity is zero or blank. The axes end at 3,500. Facilities with a value above 3,500 are not shown because the few values would compress the graph.

Authority: TEC §7.0611(b)(2) and (b)(3)(B).

Table 4 divides each instructional facility's total enrollment by its adjusted instructional capacity.

Table 4. Instructional Facilities by Enrollment as a Share of Adjusted Capacity

Enrollment as a share of adjusted capacity	Instructional facilities	Share of facilities with both figures reported
Under 50%	1,228	17%
50% to 74%	2,434	34%
75% to 89%	1,670	23%
90% to 99%	792	11%
100% or more	1,094	15%
All instructional facilities with both figures reported	**7,218**	**100%**

Note: The maximum instructional capacity is used if the adjusted instructional capacity is zero or blank. Shares are rounded to whole percents and may not sum to 100.

Authority: TEC §7.0611(b)(2) and (b)(3)(B).

Shared Use and Ownership

Table 5 shows facility records categorized by shared usage (i.e., facility is used by more than one campus), while Table 6 displays facility records by Ownership Status.

Table 5. Facility Records by Shared Usage

Shared Usage	Facility records	Share
Yes	1,398	8%
No	13,610	77%
Not reported	2,755	16%
All facility records	**17,763**	**100%**

Authority: TEC §7.0611(b)(4).

Table 6. Facility Records by Ownership Status

Ownership Status	Facility records	Share
Own	17,268	97%
Rent	109	1%
Shared	2	0%
Not reported	384	2%
All facility records	**17,763**	**100%**

Authority: TEC §7.0611(b)(6).

Grade Levels Served

Table 7 shows, for each group of grade levels that school systems reported, the number and share of active instructional facilities and their total enrollment and adjusted capacity.

Table 7. Active Instructional Facilities by Grade Levels Served

Grade levels served	Grades included	Active instructional facilities	Share	Total enrollment	Adjusted capacity
Elementary only	EE, PK, KG, 1 to 5	3,281	46%	1,705,923	2,301,340
Middle only	6 to 8	1,162	16%	821,750	1,125,086
High only	9 to 12	1,200	17%	1,282,256	1,571,485
Elementary and middle	EE to 5 and 6 to 8	586	8%	304,472	411,601
Middle and high	6 to 8 and 9 to 12	367	5%	81,304	125,867
Elementary and high	EE to 5 and 9 to 12, with or without 6 to 8	336	5%	84,400	121,385
Not reported	No grades reported	145	2%	56,942	81,654
All active instructional facilities		**7,077**	**100%**	**4,337,047**	**5,738,418**

Note: Total facilities equal 7,077: the 7,218 instructional facilities with both figures reported (as in Figures 1 to 4), less 28 that school systems reported as vacant (active used facility equals "No") and 113 with no value reported for active used facility. Each group follows the grades school systems reported for the facility; in a group with two grade ranges, school systems reported at least one grade in each range. EE is early education, PK is prekindergarten, and KG is kindergarten. Total enrollment and adjusted capacity are sums across the facilities in each group; the maximum instructional capacity is used if the adjusted instructional capacity is zero or blank. Shares are rounded to whole percents and may not sum to 100.

Authority: TEC §7.0611(b)(3).

Report Alignment to Statutory Authority

Table 8 maps the statutory authority under TEC §7.0611(b) to the tables and figures in this report.

Table 8. Items of TEC §7.0611(b) in Report

Item	Information reported	Statewide	By region
(b)(1)	The square footage of each school district facility and the acreage of land on which each facility sits	Table 3	Table B2
(b)(2)	The total student capacity for each instructional facility on a district campus	Figures 2, 3, and 4; Tables 4 and C2	Table B3
(b)(3)(A)	For each campus, the enrollment capacity of the campus and of each grade level offered at the campus	Table 7	
(b)(3)(B)	For each campus, the number of students currently enrolled at the campus and in each grade level offered at the campus	Figures 1 and 4; Tables 4 and C1 (each facility); Table 7; enrollment by campus and grade level is reported in the Public Education Information Management System (PEIMS; TEC §48.008)	Table B3
(b)(4)	Whether a school district facility is used by one or more campuses and the campus identifier of each campus that uses the facility	Table 5; campus identifiers in the Facility Usage Report data downloads	Table B4

Appendix A: Methods

- **Data disclaimer:** This summary uses data submitted to TEA by school systems as required by TEC §7.0611. TEA standardized school system submissions for display but did not verify the accuracy of data reported, except for the facility record values TEA updated after review (see Updated values), which this summary uses. Questions about the data may be directed to the school system.
- **Data file:** The figures in this summary are computed from the cleaned data from the Facility Usage Data (FUD) collection.
- **School systems:** The school districts were cross-referenced against TEA's AskTED directory as of October 2, 2026, and include independent school districts (ISDs), consolidated independent school districts (CISDs), common school districts (CSDs), and municipal school district (MSD).

- **Submission Status:** TEA records one of three values for each school system.
  - **Submitted:** A complete data submission is on file and used in this summary.
  - **Incomplete:** A data submission was started but is not complete, or data were submitted but quality issues prevented their use, so no facility records are displayed.
  - **Not Submitted:** No data submission is on file.
- **Facility records:** The individual property records that school systems submitted.
- **Instructional facilities:** "Instructional facility" has the meaning assigned by TEC §46.001 (§7.0611(a)). The Facility Usage Report counts instructional facilities two ways: by Facility Usage (whether the school system reported the facility as instructional or non-instructional) and by Type of Building (the facility's classification under TEA's standard categories).
- **Vacant instructional facilities:** Instructional facilities (by Facility Usage) for which the school system reported "No" for Active used facility are counted statewide in the Enrollment and Capacity section and by region in Table B3.
- **Square footage:** Total building area in square feet as reported by school systems.
- **Acreage:** Total land area in acres as reported by school systems.
- **Enrollment and capacity:** Total Enrollment, Maximum Instructional Capacity, and Adjusted Instructional Capacity, as reported for each facility.
  - **Capacity Fallback:** Adjusted capacity in this summary defaults to Adjusted Instructional Capacity, or Maximum Instructional Capacity when the adjusted value is 0 or blank. Maximum capacity defaults to Maximum Instructional Capacity, or Adjusted Instructional Capacity when the maximum value is 0 or blank.
  - **Reporting Scope:** Figures 1 to 4 and Tables 4, B3, C1, and C2 include instructional facilities (by Facility Usage) with a Total Enrollment reported and either adjusted capacity or maximum capacity greater than zero. Table 7 includes those that school systems reported as active (active used facility equals "Yes").
  - **Collection Details:** The online Facility Usage Report shows enrollment as a share of the Maximum Instructional Capacity. Data are recorded at the facility level, not by campus or grade level. Each facility record lists the grades for the facility.
- **Updated values:** Facility record values that TEA updated after review; an updated value can be blank. Tables B2, C1, and C2 show figures with the original submitted values and with the updated values; the other tables and figures use the updated values.
- **Shared Usage:** Whether the school system reported the facility as used by more than one campus (Yes or No).
- **Ownership Status:** The value the school system reported for the facility: Own, Rent or Shared.
- **Education Service Center (ESC) regions:** ESC regions are based on TEA's 2024 ESC district boundary map.
- **Rounding:** Percentages are rounded to whole numbers. Means and medians are rounded to whole students. Regional square footage is in millions, rounded to one decimal place; acreage is rounded to whole acres.

Appendix B: Results by Education Service Center Region

Appendix B presents results for each of the 20 ESC regions based on TEA's ESC district boundary map.

Appendix C: Enrollment and Capacity Statistics

Appendix C presents the minimum, mean, median, and maximum values for total enrollment and adjusted capacity across instructional facilities with the original submitted values and with the updated values.

Table C1. Total Enrollment of Instructional Facilities with Both Figures Reported

Total Enrollment (students)	Original submitted values	Updated values
Instructional facilities	7,219	7,218
Minimum	0	0
Mean	2,580	614
Median	506	506
Maximum	13,721,607	5,127

Note: The mean and the median are rounded to whole students. The minimum and maximum are the lowest and highest single facility values in each column.

Authority: TEC §7.0611(b)(3)(B).

Table C2. Adjusted Instructional Capacity of Instructional Facilities with Both Figures Reported

Adjusted capacity (students)	Original submitted values	Updated values
Instructional facilities	7,219	7,218
Minimum	2	2
Mean	820	812
Median	720	720
Maximum	18,700	6,000

Note: Adjusted capacity is the Adjusted Instructional Capacity, or the Maximum Instructional Capacity where the Adjusted Instructional Capacity is 0 or blank. The mean and median are rounded to whole students. The minimum and maximum are the lowest and highest single facility values in each column.

Authority: TEC §7.0611(b)(2).
