

The background is a solid blue color. On the left side, there is a large, stylized white star. In the bottom left corner, there is a faint, blue-tinted image of an open book. The text "2026 A-F Accountability" is centered in the middle of the image in a white, bold, sans-serif font.

2026 *A-F* Accountability

Why A-F?

We believe that all students can learn and achieve at high levels.

Expectations Matter, At All Grade Levels

The State Board of Education has defined what all students should know and be able to do at each grade level if they are to be well prepared for success in life. These are called the Texas Essential Knowledge and Skills (TEKS).

What does this look like in practice?

TEKS 3.5A: Represent one- and two-step problems involving addition and subtraction of whole numbers to 1,000 using pictorial models, number lines, and equations.

Monitoring Progress Helps Support Students

TEKS 3.5A: Represent one- and two-step problems involving addition and subtraction of whole numbers to 1,000 using pictorial models, number lines, and equations.

Actual 3rd Grade STAAR Question:

An art teacher had 736 crayons. She threw away 197 broken crayons. Then she bought 150 more crayons. Which equation shows how to find the number of crayons the art teacher has now?

- A) $736 - 197 - 150 = \underline{\quad}$
- B) $736 - 197 + 150 = \underline{\quad}$
- C) $736 + 197 + 150 = \underline{\quad}$
- D) $736 + 197 - 150 = \underline{\quad}$

Clear Performance Information Helps Students

You can't improve what you can't see. To serve all students well, educators, parents, business leaders, and community members need easy access to information regarding how schools and districts are doing.

Students Are Helped In School & In Life

Monitoring performance with school ratings has been shown to have long term benefits for students:

“Our analysis reveals that pressure on schools to avoid a low performance rating led low-scoring students to score significantly higher on a high-stakes math exam in 10th grade. These students were also more likely to accumulate significantly more math credits and to graduate from high school on time.

Later in life, they were more likely to attend and graduate from a four-year college, and they had higher earnings at age 25.”

A–F is a tool to help us meet continuously improved goals for children

39.053(f) ... In consultation with educators, parents, and business and industry representatives, as necessary, the commissioner shall establish and modify standards to **continuously improve student performance** to achieve the goals of **eliminating achievement gaps** based on race, ethnicity, and socioeconomic status and to ensure this state is a national leader in **preparing students for postsecondary success**.

Fostering a **culture that supports growth** and continuous improvement when this performance information is public is a difficult but **critical task for education leaders**.

2026 *A–F* Accountability Results Statewide Summary

After bigger changes from 2024 to 2025, campus ratings have remained largely consistent between 2025 and 2026. Approximately the same percentage increased as decreased.

Campuses: 2023 to 2026 Ratings

24% of campuses increased in rating from the prior year.

Stayed the Same	Increased	Decreased
4593	2004	1824
55%	24%	22%

78% of campuses stayed in the same rating or improved from the prior year.

588 campuses moved from a score below an A in 2025 to an A in 2026.

Campuses: 2025 vs. 2026 Ratings

588 campuses moved from below an A in 2025 to an A in 2026.

Overall Results	2026					
2025	A	B	C	D	F	Not Rated
A	1537	460	41	6	1	3
B	516	1735	598	133	22	4

Domain 1: Student Achievement - All Campuses

D1A - STAAR

D1B -CCMR

D1C -Grad

Statewide CCMR % Met

Rating
A
B
C
D
F

The percent of students meeting at least one indicator of college readiness since graduating class of 2021

- The percent of graduates that met TSI grew by **24% points** from 2022-2026.
- **22%** more graduates met TSI using College Prep Courses (CPC) in 2026 than in 2023
- Other college readiness indicators demonstrate minimal growth with **1-3%** more annual graduates earning each indicator from 2022-2026

The percent of annual graduates earning **career readiness** indicators since high school graduating class of 2021

Starting with HS Graduating class of 2025 (used in 2026 A-F ratings), IBC list was updated to remove previously sunset IBCs, and graduates had to be at least a concentrator in an aligned program of study

*2026 increase for military enlistment due to DoD data sharing agreement

The number of IBCs earned continues to grow, with steeper increases for some IBCs.

- 130,137 of 2025 annual graduates earned at least one IBC; nearly double the number of 2022 graduates.
- 2025 annual graduates earned 195,283 IBCs and 104,290 annual grads earned more than 1 IBC
- The percentage of graduates earning Tier 1 IBCs, those most likely to lead to in-demand and high-wage careers, has not grown from 1% of total IBCs since 2024

Highest Tier IBC Earned 2023-2026

An increase in the number of annual grads earning the following IBCs has contributed to a steep increase in IBCs earned :

IBC #	IBC Name	2023 %	2026 %
512	Entrepreneurship and Small Business (Tier 2)	5% (4157)	9% (11713)
350	AWS D9.1 Sheet Metal Welding (Tier 2)	4% (3366)	7% (9714)
986	Elanco Fundamentals of Animal Science (Tier 2)	1% (1247)	5% (6058)
786	Patient Care Technician (Tier 2)	1% (1205)	4% (5486)
570	Office Specialist: Word Expert (Tier 2)	1% (729)	3% (4204)

Only 985 grads earned an IBC that is a Tier 1 IBC

Domain 2: School Progress, Academic Growth (2a)

Academic Growth (2a): Elementary

Elementary Schools showed decreased Academic Growth between 2025 and 2026

Academic Growth (2a): Middle

Middle Schools also showed improved Academic Growth between 2025 and 2026

44% A- or B-Rated +4% pt increase

Academic Growth (2a): High Schools/K-12s

High Schools/K-12s had the greatest gains in Academic Growth between 2025 and 2026

33% A- or B-Rated +11% pt increase

While middle schools and high schools/K-12 campuses showed improvement in Academic Growth ratings between 2025 and 2026, elementary campuses experienced a 11 percentage point decline in the share of A- and B-rated campuses (52% to 41%).

STUDENT ACHIEVEMENT

Rating

72 out of 100

Student Achievement measures whether students met expectations on the STAAR test. It also measures graduation rate and how prepared students are for success after high school.

TELL ME MORE

Clicking a **Tell Me More** button provides additional details about the calculation and includes links to visual examples on “How Accountability Ratings Work”

What does a "C" in the Student Achievement domain mean?

Schools earn a "C" (70–79) for **acceptable achievement** when approximately 40% of students meet grade level STAAR expectations.

See a [Student Achievement calculation example](#).

Communications Resources to support districts are also now available.

The [TX schools.gov Toolkit](#) has been updated for 2026. The Toolkit was created to help districts and campuses provide families the information they need to better understand their student's school rating.

2026 TXschools.gov Communications Toolkit

The Texas Education Agency created the TXschools.gov Toolkit to help districts and campuses provide parents the information they need to better understand their child's school rating.

The Toolkit consists of working documents that districts and campuses can customize. We hope these tools are beneficial as you build your communication plans and messaging.

The [How Accountability Ratings Work](#) webpage provides one-page resources to support understanding of each domain and overall rating labels – available in both English and Spanish.

How Accountability Ratings Work

Accountability ratings are based on three domains: Student Achievement, School Progress, and Closing the Gaps. Use the resources below to learn how each domain is calculated. For technical details on how data are processed to produce accountability ratings, see the [2026 Accountability Manual](#).

The [A-F Sharing Template for District Leaders](#) and [A-F Sharing Template for School Leaders](#) are PowerPoint presentation templates designed to help officials explain how the A-F accountability system works and discuss local 2026 ratings with stakeholders. The templates include speaker notes and presentation guidance.

Appendix: **A-F Design 2023-2027**

Balancing multiple objectives

Overall ratings demonstrate campus results in growth and achievement, for all students and those student groups that need the most support

An A rating overall means the school is **preparing students for the next grade level and life after high school** or **making significant growth towards achievement goals**

- Schools with an overall A rating have achieved an A rating in at least one domain

In 2026, 25% of campuses earned an A in Overall Ratings

70% of a campus' overall score reflects the better of Domain 1: Student Achievement or Domain 2: School Progress.

Domain 1: Student Achievement

STUDENT ACHIEVEMENT

Performance on STAAR, CCMR
and Graduation Rate

An **A** rating means

- About **60%** Meets on STAAR

and for High schools:

- 88%** of graduates demonstrate CCMR
- 98%** of students graduate within 6 years

OR

Higher of

Domain 2: School Progress

ACADEMIC GROWTH

Individual student growth from year
to year in Math and RLA

An **A** rating means

- About **80%** of students made one year of growth in math and reading

Higher of

RELATIVE PERFORMANCE

Achievement relative to historical
performance of schools in similar
economically disadvantaged band

An **A** rating means

Achievement is high relative to poverty

For example:

- If campus is 90% eco. dis., about **54%** Meets on STAAR
- If campus is 30% eco. dis., about **72%** Meets on STAAR

OR

30% of all campus scores comes from Closing the Gaps, which measures both achievement and growth for historically underserved student groups.

Domain 3, Closing the Gaps

Growth and achievement for individual student groups is measured towards targets, designed to close achievement gaps for the students within a campus with the highest level of need.

An A in Closing the Gaps means that a campus **met the current target for nearly every group in nearly every component.**

- These campuses earned **71-74%** of points possible.

A-F maintains 4 core design commitments

1. Ratings reflect the better of achievement or progress.
2. School performance is evaluated through multiple valid measures.
3. Ratings are based on defined criteria, not a fixed distribution.
 - “A” reflects performance consistent with reaching long term goals
 - “C” reflects average performance for the baseline year
4. The system design remains static in most years.

Domain 1: Student Achievement

Ratings in this domain are based on how many students are approaching, meeting, and mastering grade level on STAAR as well as how many students graduate and whether those graduates are ready for college, a career, or the military.

Domain 2: School Progress Part A & B

Domain 2

School
Progress

Better of
Part A: Academic Growth
or
Part B: Relative Performance

Academic Growth

Relative
Performance

The School Progress domain measures district and campus outcomes in two areas:

- The number of students that **grew at least one year academically** and number of students that were **accelerated** as measured by year-over-year STAAR results
- The achievement of students relative to campuses with **similar economically disadvantaged** percentages

Domain 2: School Progress Part A & B

Domain 2: School Progress

PART A: Academic Growth
Aggregating individual student year-over-year gains

Accelerated Learning

PART B: Relative Performance
Approximating growth using baseline adjusted proficiency targets

Domain 3: Closing the Gaps

30%

**Closing
The Gaps**
How different
student groups
are performing

- Domains 1 & 2 examine the achievement and progress of all students.
- Domain 3 adds the performance of groups of students, to examine if performance is improving, in achievement, progress, and English Language Development, relative to long-term goals and interim-targets.

Domain 3 is used to comply to meet federal ESSA requirements

* Includes current and former/monitored SPED/EB

+ Highly mobile is an unduplicated count of homeless, migrant, or students in foster care

^ High Focus is an unduplicated count of economically disadvantaged, EB, current special education, and/or highly mobile students

Domain 3 for Elementary & Middle Schools

The Closing the Gaps domain examines 4 student groups' potential gaps to targets set across 4 components.

Domain 3 Groups

Component
Weight

1 2 3 4 Sum

30%	Academic Achievement STAAR RLA at Meets Grade Level STAAR Mathematics at Meets Grade Level	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-32
50%	Growth Growth in STAAR RLA Growth in STAAR Mathematics	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-32
10%	Progress to English Language Proficiency TELPAS Progress				0-4* *Only current EB	0-4
10%	School Quality/Student Success Average of all STAAR performance scores (ES/MS)	0-4	0-4	0-4	0-4	0-16
Elementary Schools would need to earn 74% of points possible to score an A Middle Schools would need to earn 71% of points possible to score an A						0-84

Domain 3 Groups are based on the performance of 4 Groups

- 1 **All Students**
- 2 **First lowest performing racial/ethnic group from prior year**
- 3 **Second lowest performing racial/ethnic group from prior year**
- 4 **High Focus****

Closing the Gaps Scoring

- 4 - Met long-term target
- 3 - Met interim target
- 2 - Showed expected growth toward next interim target
- 1 - Showed minimal growth
- 0 - Did not show minimal growth

**High Focus is an unduplicated count of economically disadvantaged, EB, current special education, and/or highly mobile (homeless, migrant, or in foster care) students

Domain 3 for High Schools & K-12s

The Closing the Gaps domain examines 4 student groups’ potential gaps to targets set across 4 components.

Domain 3 Groups

Component
Weight

1
2
3
4
Sum

50%	Academic Achievement STAAR RLA at Meets Grade Level STAAR Mathematics at Meets Grade Level	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-8 4 RLA 4 Math	0-32
10%	Graduation Rate 4-year Federal Graduation Rate	0-4	0-4	0-4	0-4	0-16
10%	Progress to English Language Proficiency TELPAS Progress				0-4* *Only current EB	0-4
30%	School Quality/Student Success CCMR for graduates and students in grade 12	0-4	0-4	0-4	0-4	0-16
High Schools/K-12s would need to earn 74% of points possible to score an A If a HS/K-12 does not have a 4-year graduation rate, it is evaluated using Growth If a HS/K-12 does not have CCMR, it is evaluated using STAAR (all subjects) performance						0-68

Domain 3 Groups are based on the performance of 4 Groups

- 1 All Students
- 2 First lowest performing racial/ethnic group from prior year
- 3 Second lowest performing racial/ethnic group from prior year
- 4 High Focus**

Closing the Gaps Scoring

- 4 - Met long-term target
- 3 - Met interim target
- 2 – Showed expected growth toward next interim target
- 1 – Showed minimal growth
- 0 - Did not show minimal growth

**High Focus is an unduplicated count of economically disadvantaged, EB, current special education, and/or highly mobile (homeless, migrant, or in foster care) students

Assessment vs. Accountability Subset

STAAR and TELPAS reports from **Student Assessment** contain student-level and aggregate summary performance results for **each student** for whom an assessment record was submitted, **regardless** of the date of enrollment on a campus

STAAR and TELPAS accountability calculations from **Performance Reporting** use results from **each student** reported as enrolled and in membership at a campus in the TSDS Fall Snapshot **AND** for whom an assessment record was submitted from the same campus.

Accountability Year	STAAR results are included in the subset of campus accountability	If the student was enrolled in the campus on this date:
2026	EOC summer 2025 administration	PEIMS Fall 2024 enrollment Snapshot
	EOC fall 2025 administration	PEIMS Fall 2025 enrollment Snapshot
	EOC spring 2026 administration	
	Grades 3–8 spring 2026 administration	

NOTE: June 2026 EOC administration is **not** included in 2026 accountability
