Introduction

This Handbook is intended to assist LEAs in completing the 2023-2024 Random Validation process for the **Title I, Part C – Interstate/Intrastate Coordination** requirement.

Although this document has been prepared for use by those LEAs that are selected to participate in the 2023-2024 Random Validation, LEAs that are not selected may still find the Handbooks useful as tools for conducting a self-check, to ascertain their own compliance status and to determine where improvements may be made.

The Handbooks are available on the Federal Program Compliance Division’s web page under “Division Resources.”

Documenting overall compliance for a program requirement may require several forms of documentation to be maintained locally and available upon request by TEA and/or an auditor. To ensure overall compliance with program requirements, LEAs should refer to the Program Guide and/or other program-related resources that reference the multiple forms of documentation required to be maintained locally. The documentation requested for submission during the random validation process may not include all forms of documentation that are required to be maintained locally.

Please include the following selected documentation referenced in the table below in order to demonstrate compliance with the program requirement described above. TEA will utilize the following table to determine if the LEA submitted sufficient documentation to support LEA compliance. LEAs that submit sufficient documentation to support LEA compliance will be assigned a “Met Requirement” status for the requirement. LEAs that submit insufficient documentation will be assigned an “Improvement Needed” status for the requirement. LEAs with an “Improvement Needed” status will be provided technical assistance by their regional education service center (ESC). These LEAs will be required to resubmit documentation for the 2024–2025 school year by September 30, 2024, to ensure the program requirements are implemented correctly.
