

Data Sources to be used in the 2023–2024 Individuals with Disabilities Act, Part B (IDEA-B LEA) Maintenance of Effort (MOE) Compliance Review calculation:

In the IDEA-B LEA MOE calculation, TEA uses **certified Texas Student Data System (TSDS) financial data** as indicated below. For LEAs that are members of Shared Services Arrangements (SSAs), the total expenditure amount also includes the expenditures paid on your LEA's behalf by the SSA fiscal agent (noted below in the second bullet under "TSDS Mid Year Collection reports of expenditures").

To monitor compliance, your LEA may want to complete the IDEA-B LEA MOE Calculation Tool (found on the [IDEA-B LEA MOE webpage](#)), using the data sources below. Remember that for the 2023–2024 compliance review, previous-year comparison data is obtained from page 2 of your **2022–2023** final IDEA-B LEA MOE Compliance Review report.

Ensure that all the following reports are used to complete your IDEA-B LEA MOE Calculation tool for data related to 2023–2024:
