2024-2026 Grow Your Own High School Education and Training

Program Description PS3014 - Program Narrative

Please include complete responses for each question below.

A. Summary of Program

1. Provide an overview of the program to be implemented with grant funds. Include the overall mission and specific needs of the organization. Describe how the Grow Your Own grant will address the LEA's teacher pipeline needs.

Katy ISD is a fast-growing district, and the demand for teachers intensifies each year. Currently, there are 197 teacher job openings in the district, and more are anticipated for the 2024-25 school year, as we are opening three new schools in the fall. The turnover rate for teachers in Katy ISD ranges from 13.1 to 16.8 percent from year to year. During the increased need for teachers, over the past several years, our Education and Training pathway course enrollments have diminished. Though teaching is a necessary and honorable profession for a strong society, perceptions of it are not as they should be now. Our goal with applying for the Grow Your Own Texas Grant is to help grow our Education & Training career cluster by strengthening enrollments and incentivizing teachers to sponsor and support Career and Technical Student Organizations (CTSO's). We believe that the funding can best be used for teacher stipends to become active sponsors of CTSSO's and, for students, to fund TAFE individual student membership fees, and conference registrations with associated travel expenses to TAFE events and conferences to help Katy ISD grow enrollment in the Education and Training and the Young Educator Associate degree programs.

B. Qualifications and Experience for Key Personnel

1. Outline the required qualifications and experience for primary project personnel and any external consultants projected to be involved in the implementation and delivery of the program. Include whether the position is existing or proposed. Include each of the following individuals and a description of each role: the LEA's grant manager, LEA leaders involved in program implementation, the campus principals, college/career counselors, and teachers of participating Education and Training high schools, and any other personnel responsible for implementation the grant.

Jeannie Knierim – Katy ISD CTE Director – Jeannie has applied for this grant previously and understands its implementation. She will oversee implementation, compliance, and budget management.
Stephen Bennett – Katy ISD CTE (Career and Technical Education) Instructional Officer – Stephen will act as the grant co-manager. He has a wide depth of experience in writing and managing federal, state, and district level grants.
Nakia Coy – Katy ISD Director of Federal Programs and External Funding – Nakia has extensive experience in all phases of grant management for Katy ISD and has many years in her position of doing so.

C. Goals, Objectives and Strategies

1. Describe the major goals/objectives of the proposed program. What activities/strategies will be implemented to meet those goals/objectives? Include a description of the talent management strategy including your LEA's approach to recruiting, hiring, and retaining qualified teachers, related to those goals/objectives.

The primary underlying goal of the grant is to boost student interest and enrollment in Katy ISD's Education and Training program with the hope that students will return to Katy ISD as teachers. To do so, we need to develop mechanisms for students to gain hands-on experiences and build resumes which demonstrate their learning. Student organizations accomplish both. With the grant funding, we will be able to fund and grow TAFE (Texas Association of Future Educators) chapters in the ten Katy ISD high schools.

We will incentivize Education and Training teachers to sponsor and lead active chapters on their campuses by providing a \$1,000 stipend per school year, plus associated payroll benefits, for the two-year period. Teachers will attend workshops to train them how to start and manage, or grow, their chapters and the processes needed for students to attend/compete successfully in TAFE conferences and competitions. They will market, advertise, and recruit students for their programs to build interest and enrollment. The teachers will also market and recruit students for our new Dual Credit Education and Training program that enables students to earn their Associate of Arts degree in Teaching before they graduate from high school. Students that

complete either program will be guaranteed an interview when they earn their teaching degree and certification. Additionally, students that complete their Associate of Arts in Teaching before graduating high school and go on to attend our University of Houston Victoria will complete their student teaching experience in Katy ISD and are guaranteed an interview for a teaching job when they graduate with their teacher certification from the University of Houston Victoria.

Students will have their annual TAFE membership dues paid through the grant. We anticipate that this would affect up to 60 students in each of our ten high schools, for an estimated total of 600 students district-wide affected. That will be 1,200 student memberships paid over two years. Students will have conference/competition fees and associated expenses paid through the grant.

D. Performance and Evaluation Measures

1. Describe the performance measures identified for this program which are related to student outcomes and are consistent with the purpose of the program. Include the tools used to measure performance, as well as the processes that will be used to ensure the effectiveness of project objectives and strategies.

Katy ISD CTE will monitor success by analyzing enrollments in both Education and Training pathway courses.
Katy ISD CTE will also monitor success by analyzing growth numbers in new TAFE charter and chapter application and approvals, and student participation numbers.
TAFE conference attendance by students will be monitored to make sure participation goals are being met.
Teachers receiving stipends will be expected to provide progress reports each semester to report their TAFE chapters' health.
Financial transactions will be managed at the district level by the Grant Finance Department.
There will be an end-of-year summary report to CTE for teachers sponsoring TAFE chapters to reflect on their year and express goals for growth and plans for accomplishing the growth for the subsequent school year.

Program Description PS3014 - Program Narrative

E. Budget Narrative

- Describe how the proposed budget will meet the needs and goals of the program, including for staffing, supplies and materials, contracts, travel, etc. If applicable, include a high-level snapshot of funds currently allocated to similar programs. Include a short narrative describing how adjustments will be made in the future to meet needs. This question has been broken into two sections. Please enter "NA" for the second section if the additional space is not needed. Outline the proposed budget and amounts for funding the grant program through the following allowable uses: a. Education and Training stipend(s) disbursed over the two-year grant timeline and no earlier than Fall 2024 b. Education and Training field site teacher stipend(s) disbursed within the first, second, or both years of the grant timeline (specify accordingly) and no earlier than Fall 2024

We propose that, over a two-year period, teachers who teach Education and Training courses and sponsor active TAFE organizations are to receive a \$1,000 stipend plus associated payroll benefits per year. This amounts to \$23,000 of the grant request. Chapter Fees for TAFE are \$80/year per chapter, a total of \$1,600 for ten school chapters over the two-year period. Rising Educator (Student Member) Fees for TAFE are \$10 per student per year. We anticipate that we will have 60 students per school at ten high schools each year for two years who will participate in TAFE. This amounts to \$12,000 in membership fees over the two-year period. The \$11,725 remaining balance will be for conference/competition attendance and associated expenses. This would go toward conference fees and travel. Indirect cost at the restricted rate is \$1,675.

- c. Implementation costs, limited to: i. Student transportation to and from E&T field sites for Instructional Practices and/or Practicum courses ii. CTSSO event/conference participation, membership fees, and travel costs iii. Substitute coverage for teachers to participate in implementation supports and CTSSO activities d. Additional funding for high schools: i. Without existing E&T courses in the 2023-2024 school year, or ii. Implementing dual credit E&T courses beginning in the 2024-2025 school year

G. Additional TEA Program Requirements

1. Stipend Recipient Recruitment: Describe the plan to recruit Education and Training teachers and field site teachers who are interested and eligible in participating in the program and receiving stipends. The plan must include strategies to equitably recruit diverse individuals and identify individuals with potential criteria including a demonstrated track record of success and/or achievement, involvement in student organizations and/or school activities, strong evaluation ratings, and strong relationships with students.

This proposal includes existing teachers who already teach Education and Training courses, and to help add incentives in the recruitment of new teachers for those courses. For district/school job openings, the stipend can be used when trying to attract new hires, or to transfer teachers from other teaching content areas. It can be added to job descriptions, at district job fairs, and in any other recruiting effort. For existing teachers, it can create enthusiasm for starting and sponsoring TAFE chapters and serve as a reminder that their time and efforts should be rewarded.

2. Program Implementation Support: Describe the types of support that will be provided to Education and Training teacher stipend recipients to ensure successful implementation of the curriculum and program. The definition of successful programming should align with the major goals/objectives of the program.

At the campus level, teachers will be supported by their campus administration, CTE department chairs, and financial clerks. Campus administration, through their department chairs and financial clerks, will monitor the progress, participation, and financial transactions of the TAFE chapters. Department chairs will advise the teachers on district policies and expectations regarding student organizations. At the district level, the CTE department director and instructional officers will counsel and coach teachers, provide training, and monitor progress of the chapters via correspondence, semester reports, and end of year summaries. They will advise on ways to improve enrollments, help with marketing to increase enrollments and collaboratively, work through issues which may arise in the chapters.
