Please include complete responses for each question below.

A. Summary of Program

1. Provide an overview of the program to be implemented with grant funds. Include the overall mission and specific needs of the organization. Describe how the Grow Your Own grant will address the LEA's teacher pipeline needs.

West ISD students are prepared for life, college, and career when they graduate. In order to make this vision a reality, West ISD strives to ensure that all initiatives are aligned with our priorities: growth, service, and leadership. Through this program, West ISD wants to create a sustainable pool of candidates that will assist us in providing equitable access to all students, regardless of station. As part of this goal, we will develop and value our employees in every position through personalized professional development. This program is designed to develop each one of our teachers within the system to meet the needs of our students. In turn, students in the Education and Training program will have the benefit in learning from these highly qualified teachers and returning to their school some day to teach, themselves. West ISD wants its own students to fill the halls as educators and this program gives us the opportunity to make that a reality.

C. Goals, Objectives and Strategies

1. Describe the major goals/objectives of the proposed program. What activities/strategies will be implemented to meet those goals/objectives? Include a description of the talent management strategy including your LEA's approach to recruiting, hiring, and retaining qualified teachers, related to those goals/objectives.

The main objective of the program is to create a pool of potential teachers trained specifically to address the instructional needs of the students we serve, with a focus on our high need teaching areas: emergent bilingual, special education, LOTE, and math instruction. In order to meet our goals of recruiting, increasing retention, filling high-need subject area jobs, and ensuring that our students have the best possible education, we first work with our district and campus administrators to make sure we place our student candidates with our best and highest performing teacher coaches according to the students goals and needs. Each teacher coach will be connected to the Teaching and Training teacher to ensue that mentoring happens between the teachers and the student candidates.

West ISD will provide hands on practicum experiences for our students in order to build their capacity to be an effective teacher. The students will conduct planning and instructional activities with the guidance of both their teacher coach and their T&T teacher. Having a consistent teacher that provides instruction in this program of study for all Teaching and Training courses allows students to create a relationship that will help them to grow and develop from theory all the way to practice. Ultimately, students that participate in this program will graduate with an Educational Aide 1 certification.

D. Performance and Evaluation Measures

1. Describe the performance measures identified for this program which are related to student outcomes and are consistent with the purpose of the program. Include the tools used to measure performance, as well as the processes that will be used to ensure the effectiveness of project objectives and strategies.

The District will utilize a modified version of the T-TESS instrument to monitor the ongoing development and progress of each student. The use of this instrument allows us to maintain an alignment with the expectations that are in place and will be in place should the student return after college and teach for the District. The T-TESS rubric provides standards in the areas of planning, instruction, learning environment, and professional practices and responsibilities. The rubric also contains five levels of competency across 16 dimensions which provide descriptions and expectations that guide growth across the competencies. The results of this tool are reviewed at the mid-point and end of each school year to ensure that adequate feedback is provided to each student allowing for maximum student growth. Other measures of success include the number of students that complete the program of student, receive their Educational Aide certification, and enroll in a college working toward a degree in education. The goal of the program is for all students to fulfill the completion requirements successfully while service to support the "Grow Your Own" initiative. Our strategic priority of cultivating internal talent also guide3s us to recruit and retain high-quality educators to benefit all student outcomes. We want to provide every student, upon completion of the program, the opportunity to return to their school and serve as an educator.

E. Budget Narrative

1. Describe how the proposed budget will meet the needs and goals of the program, including for staffing, supplies and materials, contracts, travel, etc. If applicable, include a high-level snapshot of funds currently allocated to similar programs. Include a short narrative describing how adjustments will be made in the future to meet needs. This question has been broken into two sections. Please enter "NA" for the second section if the additional space is not needed. Outline the proposed budget and amounts for funding the grant program through the following allowable uses: a. Education and Training stipend(s) disbursed over the two-year grant timeline and no earlier than Fall 2024 b. Education and Training field site teacher stipend(s) disbursed within the first, second, or both years of the grant timeline (specify accordingly) and no earlier than Fall 2024

G. Additional TEA Program Requirements

1. Stipend Recipient Recruitment: Describe the plan to recruit Education and Training teachers and field site teachers who are interested and eligible in participating in the program and receiving stipends. The plan must include strategies to equitably recruit diverse individuals and identify individuals with potential criteria including a demonstrated track record of success and/or achievement, involvement in student organizations and/or school activities, strong evaluation ratings, and strong relationships with students.

West ISD already employs a highly qualified teacher for the Education and Training program. Shea Vanek is certified and will continue to lead this program. Shea has successfully run a similar program in another Texas public school. In its first year, 90 students out of 390 enrolled in the program. This kind of interest in a program tells the District that we have a need. In her first year, Mrs. Vanek already started a TAFE chapter and ran a TAFE chapter that was highly successful in her previous district.

2. Program Implementation Support: Describe the types of support that will be provided to Education and Training teacher stipend recipients to ensure successful implementation of the curriculum and program. The definition of successful programming should align with the major goals/objectives of the program.

West ISD will support the Education and Training teacher by providing funds and opportunities for her to participate in all local and statewide training for the program. The District will use campus and district leadership to monitor progress through professional learning committee meetings, walk throughs, and T-TESS evaluations. In order to ensure success, the District will regularly meet with the teacher to go over progress towards the ultimate goal of each student in the program getting an Educational Aide I certificate.
