

2024-2026 Interactive Online Learning Grant, Cycle 1
Informal Discretionary Competition (IDC) Due 11:59 p.m. CT, April 4th, 2024

NOGA ID [REDACTED]

Authorizing legislation **General Appropriations Act, Article III, Rider 90, 88th Texas Legislature**

This IDC application must be submitted via email to **competitivegrants@tea.texas.gov**.

The IDC application may be signed with a digital ID or it may be signed by hand. Both forms of signature are acceptable.

TEA must receive the application by **11:59 p.m. CT, April 4th, 2024**.

Application stamp-in date and time

Grant period from **May 17th, 2024 to April 30th, 2026**

Pre-award costs are not permitted for this grant program.

Required Attachments

1. Excel workbook with the grant's budget schedules (linked along with this form on the TEA Grants Opportunities page)

Declaration of Understanding

I understand that this application constitutes an offer and, if accepted by TEA or renegotiated to acceptance, will form a binding agreement. I hereby certify that the information contained in this application is, to the best of my knowledge, correct and that the organization named above has authorized me as its representative to obligate this organization in a legally binding contractual agreement. I certify that any ensuing program and activity will be conducted in accordance and compliance with all applicable federal and state laws and regulations.

I further certify my acceptance of the requirements conveyed in the following portions of the IDC application, as applicable, and that these documents are incorporated by reference as part of the IDC application and Notice of Grant Award (NOGA):

- IDC application, guidelines, and instructions
- Debarment and Suspension Certification
- General and application-specific Provisions and Assurances
- Lobbying Certification

Shared Services Arrangements

Shared services arrangements (SSAs) are not permitted for this grant program.

The following assurances apply to this program. In order to meet the requirements of the program, the applicant must comply with these assurances.

Check each of the following boxes to indicate your compliance.

1. The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this IDC will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2. The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3. The applicant provides assurance to adhere to all the Statutory and TEA Program requirements as noted in the 2024-2026 Interactive Online Learning Grant, Cycle 1 Program Guidelines.
4. The applicant provides assurance to adhere to all the Performance Measures, as noted in the 2024-2026 Interactive Online Learning Grant, Cycle 1 Program Guidelines, and shall provide to TEA, upon request, any performance data necessary to assess the success of the program.
5. The applicant assures that any Electronic Information Resources (EIR) produced as part of this agreement will comply with the State of Texas Accessibility requirements as specified in 1 Texas Administrative Code (TAC) Chapter 206, 1 TAC Chapter 213, Federal Section 508 standards, and the WCAG 2.0 AA Accessibility Guidelines.
6. The applicant provides assurances to select or develop an effective interactive online learning model(s) that meets the statutory requirements listed in General Appropriations Act, House Bill 1, Article III, Rider 90, 88th Legislative Session Regular Session, 2023.
7. The applicant provides assurances that program funds will be used to implement with fidelity an effective interactive online learning model(s) in middle school and/or high school for cross-curricular instruction in English language arts and U.S. history and/or Texas History. The effective interactive online learning model(s) must: align with Texas Essential Knowledge and Skills (TEKS) for middle school and/or high school U.S. history, Texas history, and English language arts, as applicable; include tools to monitor the progress of each individual student; include quarterly benchmark assessments that are automatically scored; include both audio narration and video components; and be offered for use in both English and Spanish.
8. The applicant provides assurances that the implemented interactive online learning model(s) must include cross-curricular instruction in social studies and English language arts aligned to the TEKS.
9. The applicant provides assurances that the interactive online learning model(s) has been reviewed and determined to comply with the requirements of the Texas Education Code (TEC) §28.002(h) and §28.0022.
10. The applicant provides assurances that the teachers implementing the interactive online learning model(s) will receive adequate professional development to ensure successful implementation of the program.
11. The applicant provides assurances to support student learning in the interactive online learning model(s).
12. The applicant provides assurances to provide the necessary support to help students accelerate in the learning model(s) if they fall behind or are failing in the cross-curricular learning model(s).
13. The applicant provides assurances to make a sustainability plan to ensure that the interactive online learning model(s) can continue to be offered after the grant ends.
14. The applicant provides assurances to provide a status report by August 1, 2025, and a final report by February 1, 2026.

1. Describe the process the local education agency (LEA) will use for choosing/developing an effective interactive online learning model(s) that aligns with the TEKS in middle school and high school for instruction in U.S. history and/or Texas history and English language arts, including a description of the program, grade levels at which the program will be implemented, the selection/development criteria, and how the LEA will ensure TEKS alignment.

The district has selected Istation US History: The Story of America (SOA) and Texas History Awakens as the interactive online learning programs of choice for this grant based on the components included, as well as the alignment to middle and high school TEKS. Both the Texas History and US History programs are standards-driven, supplemental resources for middle and high school students.

Texas History Awakens (7th grade) is an interactive online Middle School reading program designed to increase grade-level proficiency. Students discover Texas history through engaging media, authentic documents, and built-in assessments aligned to the State Social Studies Standards.

Istation US History (for students enrolled in a social studies course 7-12th grades):
Provides supplemental online curriculum aligned to TEKS in middle and high school and literacy standards
Increases reading and history comprehension
Offers extensive vocabulary exploration includes interactive maps, historical audio, and video clips builds essay-writing skills
Assesses understanding through performance-based assessments
Includes activities that explore historical trends and events
Offers reports for educators to track and measure progress
Will be available in English and Spanish in Fall 2024.

2. Describe the progress monitoring tool(s) included with the interactive online learning model(s) and how the LEA will use the monitoring tool(s) to ensure adequate student progress. Include how the LEA will use the progress monitoring tool(s) to support struggling learners and students who may be off track. What interventions will be implemented to help struggling learners?

For effective progress monitoring, the interactive online learning model and program include multiple types of assessments (formative and summative), continuous observations of student work, and time for student reflection, summary, and revision. The selected programs facilitate progress monitoring through the use of supplemental curriculum aligned to TEKS, formative and summative assessment opportunities, observations of student work within the program and with projects, and opportunities for student reflection and revisions.

Teachers can incorporate the selected supplemental programs into their core curriculum and leverage the programs to intervene when students are struggling with historical knowledge or concepts in their lessons. Teachers can use the interactive lessons to reteach concepts in small groups, one or one, or for targeted lessons for the whole class. The embedded assessments track student's proficiency with the content and teachers can use the assessments to determine areas of additional need.

Allows grade levels and special education educators to convene weekly, ensuring continuous improvement through data-driven processes and research based instructional strategies. Our teachers (7 at junior high and 5 at high school) meet daily during on-going job embedded professional learning time. Progress monitoring includes district created CFA's and student work samples that are analyzed during PLC time.

3. Describe the quarterly benchmarks included in the interactive online learning model(s) and how the school(s) will use this data to support student learning and to evaluate the effectiveness of the interactive online learning model(s) that was implemented.

Benchmark assessments (autoscored) are offered four times a year at the end of the first quarter, mid-year, at the end of the third quarter, and at the end of the year. The Benchmark Assessments include items which correspond to Webb's DOK levels 1-3 and include item types like multiple choice, fill in the blank, and true or false.

4. Describe the audio and video components included in the interactive online learning model(s) and how the school(s) will use these tools to engage students in the effective interactive online learning model(s).

Students will engage in immersive and interactive history lessons that include videos, audio-narrated history, original photos, original audio speeches, timelines, primary source materials, and interactive maps.

Audio support gives students the ability to read along with the narrator, improving their fluency skills or read on their own without a narrator. Interactive maps allow students to follow the steps of the historians and give them clear connections to where and when events happened with audio and visual support. Short videos are embedded into the lessons at appropriate places to give students accounts of historical events. Interactive timelines for each unit present a chronological depiction of events in Texas and US history. These timelines, linked with audio and visual support, give students yet another view of how history unfolded.

Standard 5: Reading and Language Arts

5. Describe the components of the interactive online learning model(s) that are provided in Spanish. Explain how your LEA will use the interactive online learning model(s) with English- and Spanish-speaking students.

The selected programs allow teachers to select any combination of English or Spanish text and audio depending on the student's needs and reading ability. Additionally, Snap&Read (a Chrome extension our students already utilize) can be used with this program.

Standard 6: Reading and Language Arts

1. Provide an overview of how the effective interactive online learning model(s) will be implemented with grant funds. Include the overall mission, goal(s), and desired student outcomes of the implementation. Describe how this grant will help support the LEA's overall mission.

Grades 7-12th currently enrolled in 7th TX history, 8th grade history, and US history at the high schools will have access to the selected programs as part of the grant. Social Studies teachers will be the primary educators using the program to supplement their core instruction, provide intervention where needed, and to prepare students for the STAAR assessment.

This interactive online learning model aligns with our overall mission to minimize our special education student achievement gap in social studies. According to data from last years STAAR, 12.9% of special education students in the 8th grade received approaches or higher. This is in comparison to 55% of our general education population meeting approaches.

Our desired student outcome is to increase student performance on the STAAR and EOC. This will be monitored through district created CFA's and benchmark assessments provided by Istation. The district will measure the number by percentage of participating students who advanced an academic level.

2. Specify three student needs that would be met by the interactive online learning grant and describe how the interactive online learning model(s) will address those needs. What activities/strategies will be implemented to ensure student success?

This interactive online learning model will address the following student needs:

Boost student proficiency by increasing middle and high school students' Texas and US history proficiency, knowledge, and scores. Focusing on middle and high school students, the program is intended to address the growing trend that many students in these grades are not retaining what they learned in History.

Increase reading comprehension through literacy instruction embedded within the social studies program. Fostering essential literacy skills, the program will support students who may have difficulty reading or have gaps in their skills that hinder their ability to comprehend core subject content.

Improve student STAAR assessment scores by providing engaging content experiences that help students understand complex historical narratives in a student-friendly way. The program, which is correlated with TEKS history and literacy standards, is an interactive learning adventure that improves student's grade-level reading proficiency while teaching US history.

3. How will the LEA select and support teachers and other support staff to implement the interactive online learning grant? How will (1) the LEA ensure teacher commitment and (2) ensure they have all the necessary tools and professional development to implement the interactive online learning model(s) effectively?

Professional development is an embedded part of the selected program. As a first step, teachers will complete an online Getting Started course that will explain the features and functionalities of the program and how to use it in their classrooms. Additional professional development will include webinars and training sessions provided by Istation.

Our district hopes to select TEA PD Package 1 that includes 1 onsite session and 2 webinars per year at the price of \$5,980. Additionally, teachers will meet with the Secondary Curriculum Coordinator and the Secondary Digital Learning Coordinator through observation-feedback coaching cycles and facilitating workshops focused on integrating technology and project-based learning. Teachers will be provided peer to peer learning opportunities to observe, collaborate, and learn the critical attributes of effective implementation.

4. Describe how the proposed budget will meet the needs and goals of the program, including staffing, professional development, and resources needed to support the implementation of the effective interactive online learning model(s).

The proposed budget includes the per student cost of the program, as well as professional development and training. Additional personnel are not required to implement the program.

5. Describe how the LEA will ensure successful cross-curricular implementation of the program in the 2024-2025 and 2025-2026 school years.

The selected programs will be used to supplement literacy instruction in both Social Studies and English Language Arts classes. The program offers many opportunities for project-based learning that incorporates skills across disciplines. Examples of project-based learning and cross-curricular implementation include performance assessments in which students write a script for a biopic on a historical figure and journaling with text structures.

6. How does the LEA plan to sustain the interactive online learning model(s) after the end of the grant period?

To sustain this program after the grant period concludes, the district will implement a multifaceted approach aimed at ensuring the continuous availability and effectiveness of Istation's interactive online learning programs for social studies. This strategy includes the following key components:

Budget Allocation: The district will prioritize annual budget allocations to maintain subscriptions to Istation's programs. This includes earmarking funds for software licenses, training, and technical support to ensure these resources remain accessible to all middle and high school students.

Professional Development: To maximize the program's impact, ongoing professional development will be provided for educators. This ensures that teachers are well-equipped to integrate these resources into their curriculum effectively. The cost of professional development will be planned as part of the district's professional learning budget, ensuring teachers have continuous access to training sessions and updates on best practices.

Monitoring and Evaluation: The district will implement a robust monitoring and evaluation system to assess the effectiveness of the Istation programs. Students will take first quarter benchmark and a last quarter benchmark to measure student growth. By regularly reviewing student performance data through formative and summative assessment and feedback from teachers and students, the district will make informed decisions about program adjustments, resource allocations, and potential expansions. This data-driven approach will also be valuable for reporting to current and potential funders to demonstrate the program's impact and ongoing need.

By adopting this comprehensive strategy, the district aims to ensure the sustainability of Istation's U.S. History and Texas History programs, thereby supporting continued student engagement and achievement in social studies and English language arts beyond the grant period.

Appendix I - Amendment Description and Purpose (Use this section to describe why amending the initial application is needed.)

An amendment must be submitted when the program plan or budget is altered for the reasons described in the "When to Amend the Application" document posted on the [Administering a Grant](#) page. The following are required to be submitted for an amendment: (1) Page 1 of the application with updated contact information and current authorized official's signature and date, (2) Appendix I with changes identified and described, (3) all updated sections of the application or budget affected by the changes identified below, and, if applicable, (4) Amended Budget Request. Amendment Instructions with more details can be found on the last tab of the budget template.
