

College Admissions Testing Results for Graduating Seniors in Texas and the United States, Class of 2024

This report presents SAT and ACT examination participation and performance data for graduating seniors in Texas and the United States in public and nonpublic schools combined. College admissions examination results are used by some colleges and universities to make admissions decisions and to place students in appropriate freshman courses. In Texas, moreover, results for public school students are used in the public school accountability system in evaluating the performance of districts and campuses in the assignment of rating labels and in awarding distinction designations, which recognize school districts and campuses for outstanding achievement in specified academic areas (Texas Education Agency [TEA], 2025; Texas Education Code [TEC] Chapter 39, Subchapter G, 2025, as of July 14, 2025). In addition, results are used in determining eligibility for student exemptions from Texas Success Initiative assessment requirements, in substituting for certain end-of-course assessments to meet graduation requirements, and in awarding College, Career, and Military Readiness Outcomes Bonuses to districts (Title 19 of the Texas Administrative Code §101.4002, 2025, amended to be effective August 9, 2022; TEC §§39.025, 2025, amended to be effective June 9, 2023 and 48.110, 2024, amended to be effective September 1, 2021).

Results presented in this report were obtained, when available, from summary reports released annually by the College Board and by ACT, Inc., to TEA. The results are based only on the most recent examinations taken by students identified by the College Board and ACT, Inc., as expecting to graduate in the reporting year. SAT results for the United States include international students (L. Sveda, personal communication, June 23, 2023). In March 2016, the College Board began administering a redesigned version of the SAT. Results reported by the College Board and presented in this report for class of 2016 graduates include only students who took the previous version of the SAT. In Texas, only a small percentage of class of 2016 graduating seniors took the redesigned SAT. Beginning with class of 2017 graduates, results reported by the College Board and presented in this report include only students who took the redesigned SAT. For the classes of 2017, 2018, and 2019, small percentages of examinees in Texas public schools took only the previous version of the SAT. Beginning with the class of 2020, all Texas public school students took only the redesigned version of the SAT.

(TEA, forthcoming-b). SAT and ACT participation and performance results for Texas public schools are presented in the report *College Admissions Testing Results for Graduating Seniors in Texas Public Schools, Class of 2024* (TEA, forthcoming-c).

SAT and ACT Participation in Texas and the United States

- In Texas, 291,694 public and nonpublic high school graduates in the class of 2024 took the SAT, and 87,188 took the ACT (Table 1 on this page and Table 2 on page 4). Nationally, 1,973,891 graduates took the SAT, and 1,374,791 took the ACT.
- SAT examinees in Texas made up 14.8 percent of all examinees in the United States. ACT examinees in Texas made up 6.3 percent of all ACT examinees in the United States.
- In Texas, 73 percent of public and nonpublic high school graduates in the class of 2024 took the SAT, and 22 percent took the ACT. Across the United States, 51 percent of graduates took the SAT, and 36 percent took the ACT.
- Between the classes of 2023 and 2024, SAT participation rates increased by 2 percentage points in Texas and by 1 percentage point in the United States. ACT participation rates decreased by 1 percentage point each in Texas and in the United States.

SAT and ACT Performance in Texas and the United States

- The average SAT total score for Texas public and nonpublic high school examinees in the class of 2024 was 971, a decrease of 7 points from the average for the class of 2023 (Table 3 on page 6). Nationally, the average SAT total score for the class of 2024 was 1024, a decrease of 4 points from the average for the class of 2023. The average evidence-based reading and writing and mathematics scores for examinees in the class of 2024 were lower in Texas than in the nation.
- The average ACT composite score for Texas public and nonpublic high school examinees in the class of 2024 was 19.4, a 0.1 point increase from the average for the class of 2023 (Table 4 on page 10). Nationally, the average composite score for the class of 2024 was 19.4, a decrease of 0.1 points from the average for the class of 2023. The average ACT English score for examinees in the class of 2024 was lower in Texas than in the nation. The average ACT mathematics score for examinees in the class of 2024 was higher in Texas than in the nation. The average ACT reading and science scores for examinees in the class of 2024 were the same in Texas as in the nation.

Note. Data are based on public and nonpublic school examinees. Beginning with the class of 2020, ACT, Inc., included a nonbinary option, "another gender," that examinees could select to report gender. In addition, examinees could select "prefer not to respond." When reporting results by gender, ACT, Inc., combines "another gender," "prefer not to respond," and missing values into the single category "other responses."

Note. Data are based on public and nonpublic school examinees. Results for the class of 2016 include data only for students who took the SAT before March 2016. Beginning with the class of 2017, results include data only for students who took the redesigned SAT. Beginning with the class of 2019, the College Board included a nonbinary option, "another gender," that examinees could select to report gender. In addition, examinees could select "unknown." The College Board first reported the new categories in results for the class of 2020, combining "another gender," "unknown," and no response (or missing values) into the single category "another/no response." See *College Admissions Testing General Information, Class of 2024* (TEA, forthcoming-a), for additional information. Parts may not add to 100 percent because of rounding.

SAT and ACT Participation and Performance by State

- SAT and ACT participation rates varied considerably across states and the District of Columbia (Table 9 on page 19 and Table 10 on page 21). For the class of 2024, rates of SAT participation ranged from 1 percent to 100 percent, and rates of ACT participation ranged from 2 percent to 100 percent. In Texas, the SAT participation rate was 73 percent, and the ACT participation rate was 22 percent.
