

The background is a solid blue color. On the left side, there is a large, stylized white star. In the bottom left corner, there is a faint, blue-tinted image of an open book. The text "2026 A-F Accountability Ratings" is centered in the middle of the image in a white, bold, sans-serif font.

2026 *A-F* Accountability Ratings

Calculating Overall A-F Ratings

Note: If a campus receives a D or an F for 3 of the 4 domains listed above, their final scale score is capped at 69 and 59 (respectively), unless the campus is not scored on all four domains, or the student achievement domain is above a D or F (respectively).

After bigger changes from 2024 to 2025, campus ratings have remained largely consistent between 2025 and 2026. Approximately the same percentage increased as decreased.

Campuses: 2023 to 2026 Ratings

24% of campuses increased in rating from the prior year.

Stayed the Same	Increased	Decreased
4594	1999	1828
55%	24%	22%

78% of campuses stayed in the same rating or improved from the prior year.

585 campuses moved from a score below an A in 2025 to an A in 2026.

Campuses: 2025 vs. 2026 Ratings

585 campuses moved from below an A in 2025 to an A in 2026.

Overall Results	2026					
2025	A	B	C	D	F	Not Rated
A	1536	461	41	6	1	3
B	513	1736	600	133	22	4

ACCOUNTABILITY OVERVIEW

Overall Rating

90 out of 100

This measures how much students are learning in each grade and whether or not they are ready for the next grade. It also shows how well a school or district prepares their students for success after high school in college, the workforce, or the military.

[TELL ME MORE](#)

Change Over Time

School Year	Rating/Score
2025-26	A / 90
2024-25	C / 78
2023-24	B / 82
2022-23	B / 80
2021-22 What If	B / 84
2022-23 scores are different than previous years due to updated standards. 2021-22 What If scores apply the new standards to 2021-22 results to help compare scores from 2021-22 to 2022-23	
2021-22	B / 83

TXschools.gov also has a [school finder](#) to empower families to find a school or district that meets a student's needs.

For example, you could search for an A-rated school with a one-way dual language program for your 3rd grader in the Dallas-Fort Worth Metroplex.

STUDENT ACHIEVEMENT

Rating

72 out of 100

Student Achievement measures whether students met expectations on the STAAR test. It also measures graduation rate and how prepared students are for success after high school.

TELL ME MORE

Clicking a **Tell Me More** button provides additional details about the calculation and includes links to visual examples on “How Accountability Ratings Work”

What does a "C" in the Student Achievement domain mean?

Schools earn a "C" (70–79) for **acceptable achievement** when approximately 40% of students meet grade level STAAR expectations.

See a [Student Achievement calculation example](#).

Why *A-F*

We believe that all students can learn and achieve at high levels.

Expectations Matter, At All Grade Levels

The State Board of Education has defined what all students should know and be able to do at each grade level if they are to be well prepared for success in life. These are called the Texas Essential Knowledge and Skills (TEKS).

What does this look like in practice?

TEKS 3.5A: Represent one- and two-step problems involving addition and subtraction of whole numbers to 1,000 using pictorial models, number lines, and equations.

Monitoring Progress Helps Support Students

TEKS 3.5A: Represent one- and two-step problems involving addition and subtraction of whole numbers to 1,000 using pictorial models, number lines, and equations.

Actual 3rd Grade STAAR Question:

An art teacher had 736 crayons. She threw away 197 broken crayons. Then she bought 150 more crayons. Which equation shows how to find the number of crayons the art teacher has now?

- A) $736 - 197 - 150 = \underline{\quad}$
- B) $736 - 197 + 150 = \underline{\quad}$
- C) $736 + 197 + 150 = \underline{\quad}$
- D) $736 + 197 - 150 = \underline{\quad}$

Clear Performance Information Helps Students

You can't improve what you can't see. To serve all students well, educators, parents, business leaders, and community members need easy access to information regarding how schools and districts are doing.

Students Are Helped In School & In Life

Monitoring performance with school ratings has been shown to have long term benefits for students:

“Our analysis reveals that pressure on schools to avoid a low performance rating led low-scoring students to score significantly higher on a high-stakes math exam in 10th grade. These students were also more likely to accumulate significantly more math credits and to graduate from high school on time.

Later in life, they were more likely to attend and graduate from a four-year college, and they had higher earnings at age 25.”

A–F is a tool to help us meet continuously improved goals for children

39.053(f) ... In consultation with educators, parents, and business and industry representatives, as necessary, the commissioner shall establish and modify standards to **continuously improve student performance** to achieve the goals of **eliminating achievement gaps** based on race, ethnicity, and socioeconomic status and to ensure this state is a national leader in **preparing students for postsecondary success**.

Fostering a **culture that supports growth** and continuous improvement when this performance information is public is a difficult but **critical task for education leaders**.

Balancing multiple objectives
