Schedule #1—General Information	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 3: Schedules Required for New or Amended Applications

An X in the "New" column indicates a required schedule that must be submitted as part of any new application. The applicant must mark the "New" checkbox for each additional schedule submitted to complete the application.

For amended applications, the applicant must mark the "Amended" checkbox for each schedule being submitted as part of the amendment.

Schedule #	Schedule Name	Application Type	
		New	**Amended**
1	General Information	☒	☒
2	Required Attachments and Provisions and Assurances	☒	N/A
4	Request for Amendment	N/A	☒
5	Program Executive Summary	☒	☐
6	Program Budget Summary	☒	☐
8	Professional and Contracted Services (6200)	☒	☐
9	Supplies and Materials (6300)	☒	☐
10	Other Operating Costs (6400)	☒	☐
11	Capital Outlay (6600)	☒	☐
12	Demographics and Participants to Be Served with Grant Funds	☒	☐
13	Needs Assessment	☒	☐
14	Management Plan	☒	☐
15	Project Evaluation	☒	☐
16	Responses to Statutory Requirements	☒	☐
17	Responses to TEA Requirements	☒	☐

*IMPORTANT NOTE FOR COMPETITIVE GRANTS: Schedules #8, #9, #10 and #11 are required schedules if any dollar amount is entered for the corresponding class/object code on Schedule #6—Program Budget Summary. For example, if any dollar amount is budgeted for class/object code 6200 on Schedule #6—Program Budget Summary, then Schedule #8—Professional and Contracted Services (6200) is required. If it is either blank or missing from the application, **the application will be disqualified.**

Schedule #2—Required Attachments and Provisions and Assurances

County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 1: Required Attachments

The following table lists the fiscal-related and program-related documents that are required to be submitted with the application (attached to the back of each copy, as an appendix).

#	Applicant Type	Name of Required Fiscal-Related Attachment
No fiscal-related attachments are required for this grant.		

#	Name of Required Program-Related Attachment	Description of Required Program-Related Attachment
1	LEA Technology Plan Template	If an LEA does not have a 2016–2017 Technology Plan on file with TEA, it must show evidence of a current local technology plan on participating campuses by completing the LEA Technology Plan Template.

Part 2: Acceptance and Compliance

By marking an X in each of the boxes below, the authorized official who signs Schedule #1—General Information certifies his or her acceptance of and compliance with all of the following guidelines, provisions, and assurances.
Note that provisions and assurances specific to this program are listed separately, in Part 3 of this schedule, and require a separate certification.

X	Acceptance and Compliance
X	I certify my acceptance of and compliance with the General and Fiscal Guidelines.
X	I certify my acceptance of and compliance with the program guidelines for this grant.
X	I certify my acceptance of and compliance with all General Provisions and Assurances requirements.
X	I certify that I am not debarred or suspended. I also certify my acceptance of and compliance with all Debarment and Suspension Certification requirements.

Schedule #2—Required Attachments and Provisions and Assurances

County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 3: Program-Specific Provisions and Assurances

X   I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.

#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2.	The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3.	The applicant assures that funds provided under the Instructional Materials Allotment (IMA) or other funding are insufficient to purchase enough lending technology for every student who needs dedicated access to a device.
4.	The applicant assures that it will provide access to lending technology and residential access to the Internet for students, including economically disadvantaged students and students with disabilities, who do not already have either the needed equipment or Internet service for learning at home
5.	The applicant understands that equipment purchased with Technology Lending Grant funds is the property of the LEA.
6.	The applicant assures that infrastructure and technical support are adequate to support students' use of loaned equipment provided through the grant at its participating campus(es).
7.	The applicant assures that it will provide adequate staff to administer the program and ensure successful implementation.
8.	The applicant assures that it will account for the technology lending equipment in accordance with district policy for accounting for such equipment, including providing insurance when insurance is typically provided for such equipment. The applicant understands that the grant funds cannot be used to replace lost, stolen, or damaged equipment.
9.	The applicant assures that it will obtain a Technology Lending Agreement signed by the parents/guardian of each participating student and by the student participating in the program, including an assurance of student's mastery of the grade-appropriate Digital Citizenship strand of the Technology Applications Texas Essential Knowledge and Skills.
10.	The applicant assures that it has a 2016–2017 LEA technology plan on file with TEA, or that it will show evidence of a current local technology plan on participating campuses by completing the Required Program-Related Attachment outlined on page 18 of the Program Guidelines.
11.	The applicant assures that technology lending and use of electronic instructional materials are incorporated into the LEA's technology plan.
12.	The applicant agrees to collect and report the data for the performance measures stated in the Program Guidelines under Program Evaluation. The applicant assures it will develop appropriate systems and processes to collect and report the required data

Schedule #4—Request for Amendment	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 1: Submitting an Amendment

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail *or* by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Grants Administration Division, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-9564.

The last day to submit an amendment to TEA is listed on the TEA Grant Opportunities page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend the Application" guidance posted in the Amendment Submission Guidance section of the Grants Administration Division Administering a Grant page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

Part 3: Revised Budget

#	Schedule #	Class/ Object Code	A Grand Total from Previously Approved Budget	B Amount Deleted	C Amount Added	D New Grand Total
1.	Schedule #8: Contracted Services	6200	$	$	$	$
2.	Schedule #9: Supplies and Materials	6300	$	$	$	$
3.	Schedule #10: Other Operating Costs	6400	$	$	$	$
4.	Schedule #11: Capital Outlay	6600	$	$	$	$
5.	Total direct costs:		$	$	$	$
6.	Indirect cost (%):		$	$	$	$
7.	Total costs:		$	$	$	$

Schedule #5—Program Executive Summary	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

List the campuses that will be served with these funds. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

Banquete High School 178-913-001
Banquete Jr High School 178-913-041
Banquete Elementary School 178-913-101

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary.

<u>**Project Design**</u> - The Banquete ISD (BISD) *Technology Lending Program Grant (TLPG)* will focus on all of <u>our students in 1st through 12th grades</u> (approximately **932 students**). Banquete ISD consists of <u>three (3) campuses</u> – 1 high school, 1 junior high school and 1 elementary campus with **932 students** and **776 of these students or 83.26%** are classified as *"economically disadvantaged"* and **345 or 36.5%** are classified as *"at-risk"*. We feel that the design of our proposed project includes processes and activities that are of sufficient quality and scope to ensure <u>**equitable access and participation**</u> among all eligible participants while maximizing the utilization of equipment and resources.

The district's TLPG grant will focus on our 3 campuses, the High School, the Junior High School, and the Elementary School consisiting of students in grades 1 through 12 and will include all content areas.

Using TLPG grant funds, the district will provide access to Chromebook computers for students in grades 6 – 12 and iPads to students in grades 1 – 5, to implement a technology lending program to loan students the equipment necessary to access and use electronic instructional materials. This will allow students to have access to relevant technologies, tools, resources, and services for personalized learning 24 hours a day, 7 days a week (24/7).

The program will also provide new teaching and learning practices in the classroom that extend to home and encourage teachers to incorporate innovative models to meet the needs of students and prepare students for college and careers. Technology enables learning opportunities and student productivity that extends beyond the walls of the classroom, and this transformation requires appropriate technology, electronic instructional materials and resources, and connectivity to access these resources.

If funded, BISD will be able develop the following practices and polices:

- Curriculum redesign to incorporate new technology and electronic instructional materials;
- Classroom instructional strategies that include student devices for learning at school and at home;
- Policies to address the use of technology to support school and home use;
- Electronic instructional materials in lieu of traditional print instructional materials;
- Professional development goals and activities that incorporate the use of technology for instruction and learning opportunities; and
- Programs to check-out and use technology and to provide Internet access.

The district can also move forward with the implementation of electronic instructional materials for all content areas while ensuring access for students through loaned equipment for learning at school and at home.

The district currently does not have a technology lending program.

The district will provide home internet access for students who do not have access at home. *The district's proposed program will be coordinated with similar or related efforts using existing resources and facilities and with other appropriate community, state, and federal resources to maximize the effectiveness of grant funds. (3 points)*

For TEA Use Only

Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

The district does not have sufficient funds to implement a lending program without TLPG grant funds. Funds provided under the Instructional Materials Allotment (IMA) or other funding sources are insufficient to purchase enough lending technology for every student who needs dedicated access to a device.

Our current hardware is the following: All equipment is out-dated and some of the equipment does not work at all.
Stationary labs - The elementary and high school campus have one stationary lab shared by all personnel on a reservation basis. The junior high does not have a stationary lab.
Carts - The elementary, junior high, and high school each have 2-4 computer carts that may be reserved and checked out by teachers. Of the 4 carts located at the high school has only 2 have working computers while the other two need new laptops. At our junior high, they would prefer laptops due to only one cart of such and discontent with the few Chromebooks they have.
Stand alone – Each teacher has a computer.
Clusters – random classrooms have 2-3 desktop computers for student use.

The high school has a 4:1 computer ratio, the junior high school has a 5:1 computer ratio, and the elementary school has a 2:1 computer ratio. Our elementary campus is also a Blue Ribbon campus.

Currently the district uses electronic instructional materials in one or more foundation curriculum areas for one or more grade levels. Due to the very limited technology available, BISD campuses utilize "Think through Math", a web-based TEA approved math program utilized. Helping students as young as third grade and through high school, students use the program to improve math skills by completing standard-based lessons that are motivating and confidence building. The addition of more computers would allow students to work beyond school hours on the program. Additionally, teachers could have a "math work night" for parents to show them the program so they can better assist their students at home with "Think through Math." Importantly, the program embraces high order thinking skills which benefits students on state tests as well as college entrance tests. Importantly, BISD would like to introduce additional web-based programs for school and home in the areas of reading and writing. The Elementary computer lab is used by PK-5th grade students, the students use Istation which is used to help the students in reading fluency and comprehension. The lab also is used to help the students test on the AR program, students read a book and then test on the computer. Students in grades 3rd-5th use the lab for Imagine Math which is used to improve their math skills. Students also use the lab and the mobile Google Chromebooks or iPads to help with research projects for classroom assignments.

BISD staff has been trained on all locally adopted technology as it relates to their teaching assignment when the technology is implemented. Ongoing training continues as hardware/software evolves or is revised. The district utilizes the Region Education Service Center and the Texas Computer Education Association for training. The district also employees a full-time Technology Director who provides ongoing technology training to staff at point of need.

Banquete ISD will be requesting $49,800 to serve 932 students which is about $53 per student per year over a 2 year time period. *The costs reflected in the district's budget are appropriate for the results expected. (7 points).* Due to the grant requirements, the district will only be requesting Internet capable devices and home internet service in our budget. All *district expenditures and activities are supplemental to and do not supplant or duplicate services currently provided. (3 points)*

The district's long-range technology plan is for each BISD campus to reach the **"Target Tech"** stage. The first step needed to obtain the "Target Tech" state is - ***Students per computer ratio: One student per computer.*** This grant program funding will facilitate the accomplishment of BISD's objectives in our District Technology Plan.

The objectives, strategies, activities, and desired results of our TLGP program are clearly specified and are measurable. (4 points)

Schedule #6—Program Budget Summary

County-district number or vendor ID: **178-913**				Amendment # (for amendments only):	

Program authority: General Appropriations Act, Article III, Rider 8, and House Bill 3526, 85th Texas Legislature; Texas Education Code Section, 32.301

Grant period: May 1, 2018, to August 31, 2019			Fund code: 410		

Budget Summary

Schedule #	Title	Class/ Object Code	Program Cost	Admin Cost	Total Budgeted Cost
Schedule #8	Professional and Contracted Services (6200)	6200	$4,800	-	$4,800
Schedule #9	Supplies and Materials (6300)	6300	45,000	-	45,000
Schedule #10	Other Operating Costs (6400)	6400	0	-	0
Schedule #11	Capital Outlay (6600)	6600	0	-	0
Total direct costs:			$49,800	-	$49,800
Percentage% indirect costs (see note):			N/A	-	
Grand total of budgeted costs (add all entries in each column):			**$49,800**	-	**$49,800**

Administrative Cost Calculation

Enter the total grant amount requested:	$49,800
Percentage limit on administrative costs established for the program (15%):	× .15
Multiply and round down to the nearest whole dollar. Enter the result. This is the maximum amount allowable for administrative costs, including indirect costs:	$7,470

NOTE: Indirect costs are calculated and reimbursed based on actual expenditures when reported in the expenditure reporting system, regardless of the amount budgeted and approved in the grant application. If indirect costs are claimed, they are part of the total grant award amount. They are not in addition to the grant award amount.

Indirect costs are not required to be budgeted in the grant application in order to be charged to the grant. Do not submit an amendment solely for the purpose of budgeting indirect costs.

If selected for a competitive grant, your award amount will be the lesser of the grand total of budgeted costs as stated on this schedule (the box with the bold outline), or the sum of all line items listed on this schedule, or the maximum allowable award amount. TEA is not responsible for math errors.

Schedule #13—Needs Assessment	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 1: Process Description. A needs assessment is a systematic process for identifying and prioritizing needs, with "need" defined as the difference between current achievement and desired outcome or required accomplishment. Describe your needs assessment process, including a description of how needs are prioritized. If this application is for a district level grant that will only serve specific campuses, list the name of the campus(es) to be served and why they were selected. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Needs Assessment

The district utilized local discretion in planning and designing the Banquete ISD *Technology Lending Program Grant (TLPG)* grant program to support the unique needs of our students and to carry out the legislative intent supported by the Texas Education Code (TEC), Subchapter E, Technology Lending Program Grants, Sections 32.201-.205.

Assessment Process:

Because BISD integrates technology at all levels, we recognize that our top need is providing for students needs because such a large portion of our students come from low socio economic homes. Integration of iPads along with our technology lab is important to BISD Elementary. Having iPads that can work in classrooms along with instruction that is happening with the teacher in the classroom setting is important to us beyond the skills gained in the tech lab setting. Much the same can be said of the junior high and high school settings. Having chromebooks available for usage in the classroom for composition of papers and reports, as well as usage in the science labs for experiments is very important to BISD. We want our students to be able to compete in a global society instead of finding excuses.

At the high school, students are constantly checking out laptops, but there are not enough to meet the request. A comprehensive needs assessment utilizing surveys, site-based committee recommendations, workshop evaluations, student performance records, documented staff technology proficiency levels, hardware and software inventories, work order requests, and the Texas Teacher and Campus STaR Chart data was conducted to analyze the current status of technology in the district and determine future needs. Items analyzed included: infrastructure, hardware, software, telecommunications, administrative and business applications, course offerings, student achievement, technology resources, staff development, and technical support. *The level of involvement and commitment to our program of all participants, including management, staff, collaborators and partners, is sufficient to ensure the successful implementation of the program goals, objectives, and activities. (4 points)*

The following are BISD's technology needs according to our District Technology Plan:
Instructional Needs:
- Increased focus on technology integration in all content areas
- Professional development opportunities for all employees
- Standardized TEKS-based software and electronic resources
- Increased distance learning opportunities
- Increased community access to district technology resources
- Provide a device so that students can access content materials online 24/7

Technical/Hardware Needs:
- Replacement of obsolete equipment and resources
- Continue to protect the district's computers and files with virus protection software
- Additional wireless capabilities
- Regular network upgrades to maintain speed and reliability
- Ability to provide home Internet access
- Ability to provide students with devices including Internet to take home

BISD is focusing on **932 students**, in **grades 1 - 12.** We will include all content areas.

The district feels that the *details of the needs assessment methodology are provided, and the magnitude or severity of the problem to be addressed by the proposed program is significant. (10 points)*

Schedule #13—Needs Assessment (cont.)	

County-district number or vendor ID: 178-913 | Amendment # (for amendments only):

Part 2: Alignment with Grant Goals and Objectives. List your top five needs, in rank order of assigned priority. Describe how those needs would be effectively addressed by implementation of this grant program. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

#	Identified Need	How Implemented Grant Program Would Address
1.	Improve academic achievement in all content areas.	Through funding from the TLPG, the district will be able to provide students devices with Internet access to use 24/7 including from home in order to utilize electronic instructional materials in lieu of traditional print instructional materials as well as new, up-to-date resources online. Provide devices to students especially economically disadvantaged and special education students.
2.	Provide students with Internet capable devices through a Lending Program to take home or use at school in order to access online instructional materials.	Through funding from the TLPG, the district will be able to provide students devices with Internet access to use 24/7 including from home in order to utilize electronic instructional materials in lieu of traditional print instructional materials as well as new, up-to-date resources online. Provide devices to students especially economically disadvantaged and special education students.
3.	Provide professional development training to staff in technology and online instructional materials. (This will be paid from local funds.)	The district will provide ongoing professional development to all staff regarding technology and new online instructional materials. Staff will also need guidance as to how to incorporate technology into curriculum especially for students participating in the lending program.
4.	Redesign curriculum resources to incorporate new technology and electronic instructional materials. (This will be paid from local funds.)	As the district adopts electronic instructional materials in all content areas, there will be a need to redesign curriculum resources to incorporate technology. By providing students access to devices on a 24/7 basis, curriculum specialist will also need to include 21st century activities for students using these devices.
5.	Develop polices to address the use of technology to support school and home use. (This will be paid from local funds.)	If funded, the district will need to develop policies to address the use of technology to support school and home use of instructional materials as well as polices for the lending program. *As the result of a our assessment effort, specific needs have been identified and strategies to address those needs have been described. (10 points)*

Schedule #14—Management Plan	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 1: Staff Qualifications. List the titles of the primary project personnel and any external consultants projected to be involved in the implementation and delivery of the program, along with desired qualifications, experience, and any requested certifications. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

#	Title	Desired Qualifications, Experience, Certifications
1.	Superintendent	He is responsible for providing district level support for the implementation and final accountability for program implementation. The superintendent is also responsible for the contract between the district and the service providers. Superintendent Dr. Max Thompson
2.	Campus Principals	The campus principals will be providing day to day campus level support and accountability for the grant project implementation, as well as provide oversight for all other campus staff and the Project Manager. Principals - Nancy Mooney, Ramiro Pena, Rita Stracener
3.	Project Manager/ Technology Director	This position will bring a great deal of experience in educator excellence innovation programs to the district's grant program. The Project Manager will facilitate activities, provide ongoing progress monitoring, continually analyze results and facilitate program corrections as needed. District Technology.
4.		*BISD qualifications and experience of program personnel are of sufficient quality and depth to ensure successful implementation. (5 points)*

Part 2: Milestones and Timeline. Summarize the major objectives of the planned project, along with defined milestones and projected timelines. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

#	Objective		Milestone	Begin Activity	End Activity
1.	Improve academic achievement in all content areas.	1.	Increase STAAR Percent at Level III/Advanced all grades for all content areas by 2% by the end of Year 1.	05/01/2018	08/31/2019
		2.	Increase STAAR Percent at Level III/Advanced all grades for all content areas by 2% by the end of Year 2.	05/01/2018	08/31/2019
		3.	Increase graduation rates, dual enrollment and RHSP/DAP graduates in Years 1 and 2.	05/01/2018	08/31/2019
2.	Provide students with Internet capable devices through a Lending Program to access online instructional materials.	1.	Provide students in grades 1-12 with Internet capable devices to take home or use at school through a lending program within 90 days of grant award.	05/01/2018	08/31/2019
		2.	Provide training to students and parents on the lending program within 90 days of grant award.	05/01/2018	08/31/2019
3.	Develop a Technology Lending Program Policy	1.	Develop a lending program policy for all students, parents, and staff to sign within 90 days of grant award.	05/01/2018	08/31/2019
		2.	Provide training to parents and students on the lending program within 90 days of grant award.	05/01/2018	08/31/2019
		3.			
4.	Provide PD to staff	1.	Through local funding, train all staff regarding the technology lending program within 90 days of grant award.	05/01/2018	08/31/2019
5.	Develop policies to address the lending program	1.	Using local funding, develop policies and procedures regarding the use of technology and the devices regarding the lending program.	05/01/2018	08/31/2019

Unless pre-award costs are specifically approved by TEA, grant funds will be used to pay only for activities occurring between the beginning and ending dates of the grant, as specified on the Notice of Grant Award.

Schedule #14—Management Plan (cont.)	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 3: Feedback and Continuous Improvement. Describe the process and procedures your organization currently has in place for monitoring the attainment of goals and objectives. Include a description of how the plan for attaining goals and objectives is adjusted when necessary and how changes are communicated to administrative staff, teachers, students, parents, and members of the community. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Banquete ISD will adopt a "continuous evaluation model" rather than solely pre/post evaluation procedures. Evaluation procedures will be in place at all levels to ensure continuous feedback allowing for a continuation of "successes" during and after the project. Necessary adjustments for improvements will be made throughout the project implementation process. The continuous evaluation of the Project will occur through a variety of mechanisms.

We utilize our campus and district site based committees extensively in Banquete. In coordinated efforts of bi-monthly administrative meetings we strive to be transparent in all we do. Coordinated with our monthly board meetings and the community involvement through the student recognition at most school year meeting, we try to keep our community involved and informed.

Community members and Staff are involved in our campus and district level teams. This team approach, along with my administrative team being involved in the various activities in the community wherein it is common for community members to come up, shake a hand and ask what is going on in the district – it is frequent.

Part 4: Sustainability and Commitment. Describe any ongoing, existing efforts that are similar or related to the planned project. How will you coordinate efforts to maximize effectiveness of grant funds? How will you ensure that all project participants remain committed to the project's success? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The campuses and specific grade levels we have chosen for the TLPG program will remain committed to the project's success. Our staff will continue to ensure that ALL students, including economically disadvantaged and special education, participate in the TLPG program. *The management plan is designed to achieve the objectives of the proposed program on time and within budget, with appropriate timelines and milestones for accomplishing project tasks. (5 points)*

The district does not currently have ongoing, existing efforts that are similar or related to the TLPG program.

The District's Technology Plan Budget indicates the district technology budget for the next 3 years is about $75,000 per year. This funding consists of ERate funds, local funds, and Technology Allotment funds. This funding will continue to support our LAN, WAN, Internet access, staff development, maintenance, and new and updated equipment including equipment needed to support and/or continue the TLPG program.

The methods of BISD's evaluation include the use of objective performance measures and indicators of program accomplishment that are clearly related to the intended results of the project and will produce quantitative and qualitative data to the extent possible. (3 points)

Schedule #15—Project Evaluation

County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Part 1: Evaluation Design. List the methods and processes you will use on an ongoing basis to examine the effectiveness of project strategies, including the indicators of program accomplishment that are associated with each. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

#	Evaluation Method/Process		Associated Indicator of Accomplishment
1.	Grant evaluation documents: 90 Strategy Reports and Quarterly Reports	1.	Develop 90 Strategy Plans – to plan upcoming activities.
		2.	Develop Quarterly Reports – to report activities that were completed.
2.	End of course and/or End of semester tests. STAAR results.	1.	Review, analyze and report grade test results in January 2015 to gauge if students are on track including economically disadvantaged and special education students.
		2.	Review, analyze and report STAAR results in 2015 to gauge if students are on track including economically disadvantaged and special education students.
3.	Performance Measures	1.	Number and percent of students who checked out a device as part of the technology lending program by grade level.
		2.	Number and percent of eligible economically disadvantaged students participating in the technology lending program.
		3.	Number and percent of eligible economically disadvantaged students who had Internet access installed in their residences as part of the technology lending program.
4.	Performance Measures	1.	Number and names of courses using digital content on each participating campus.
		2.	Number and percent of teachers on participating campuses assigning work to students as a result of the technology lending program.

Part 2: Data Collection and Problem Correction. Describe the processes for collecting data that are included in the evaluation design, including program-level data such as program activities and the number of participants served, and student-level academic data, including achievement results and attendance data. How are problems with project delivery to be identified and corrected throughout the project? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Data collection methods and schedule - Data will be collected by four primary methods and BISD's *formative evaluation processes outlined in the application provide for the identification and correction of problems throughout the duration of the grant project (2 points)* BISD's evaluation provide for examining the effectiveness of program strategies. (2 points)

Collection Method	Description of Data Collection	Data Collection Schedule
Interviews and Focus Groups	Interviews with Project personnel, students, family, and community members. Purpose is to assess: a needs of individuals; b) how Project met needs; c) Project strengths and weaknesses; d) Project benefits; e) changes needed to better meet identified needs	Beginning, middle, and end of Project Activities. Completed 4 times per year.
Observation	Evaluators observe site activities using standard observational protocols.	8 times per year at each site
Surveys	Surveys based upon information required for Annual Performance report Indicators. Survey will follow up on issues from interviews and focus groups.	Surveys done 4 times per year per site.
Extant & Project Data	School and Project attendance, school.	Data collected monthly or as it is available.

The evaluation design includes processes for collecting data, including program-level data and student-level academic data (such as achievement results and attendance data). (3 points)

Schedule #16—Responses to Statutory Requirements	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

Statutory Requirement 1: Applicant must describe the availability of existing equipment to students in the LEA and other funding available for the purchase of student technology devices. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Banquete ISD is not currently purchasing equipment or devices for a lending program. BISD assures that funds provided under the Instructional **Materials Allotment (IMA)** or other funding sources are **insufficient** to purchase enough lending technology for every student who needs dedicated access to a device.

Our current hardware is the following: All equipment is out-dated and some of the equipment does not work at all.

Stationary labs - The elementary and high school campus have one stationary lab shared by all personnel on a reservation basis. The junior high does not have a stationary lab.

Carts - The elementary, junior high, and high school each have 2-4 computer carts that may be reserved and checked out by teachers. Of the 4 carts located at the high school has only 2 have working computers while the other two need new laptops. At our junior high, they would prefer laptops due to only one cart of such and discontent with the few Chromebooks they have.

Stand alone – Each teacher has a computer.

Clusters – random classrooms have 2-3 desktop computers for student use.

The high school has a 4:1 computer ratio, the junior high school has a 5:1 computer ratio, and the elementary school has a 2:1 computer ratio.

The district will use other sources of funding such as local funds, Title I, Title III, Part C (Migrant), state comp, Bilingual, and state funds.

If funded through this grant program, the district will ensure that students in grades 6-12 will have dedicated access to a technology device on an as needed basis.

If future funding becomes available the district will use those resources in a cohesive manner to support efforts to ensure students have dedicated access to a technology device.

All of the district's expenditures and activities are supplemental to and do not supplant or duplicate services currently provided. (3 points)

For TEA Use Only

Schedule #17—Responses to TEA Program Requirements	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

TEA Program Requirement 1: Describe how the technology lending program aligns with the existing mission and goals for the LEA. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Banquete ISD recognizes that PK-12 education is a bridge to continuing education, the work force, and for some the military. In all ways, technology is utilized in those areas. Because it is a mission to prepare students for the world outside the doors of our school, BISD supports a technology lending program as a need, not a want. Because Banquete does not have a community library or other entity with public computers and our student population is identified as 80% low economic, grant assistance in obtaining technology is necessary.

The technology lending program will align with the mission and goals of the district through adapted policies and practices to effectively use personal technology devices by:

- Adapting local policies to the use of personal devices for the classroom;
- Developming new classroom instructional startegies that include student devices; and
- Adopting digital instructional materials in lieu of traditional textbooks.

Equitable Access for All Students
The goal our program is to ensure that **all students**, including **economically disadvantaged students and students with disabilities**, have dedicated access to a **personal technology device**. The district will leverage existing personal technology devices and ensure every student participating in the grant program has dedicated access through the lending grant program. The district will develop a systematic process for students to check out and check in the equipment that ensures equity among participating BISD students. BISD teachers and the Project Director will coordinate the sharing and use of lending equipment through new or updated procedures. The district will develop and implement a *Technology Lending Agreement* that will be provided to students and parents who check out devices. The district will using grant funding for the following:

Purchase technology devices that best provide equitable access to digital content for students, including but not limited to laptops, tablets, and other personal devices. Technology device purchase may include the operating system, productivity software (i.e., applications dedicated to word processing, spreadsheets, etc.), and a carrying/storage case. The district will purchase 75 Chromebooks and 30 iPads for school and home use, with home internet access for a total cost of $49,800. The district feels that *the costs reflected in the budget are appropriate for the results expected. (7 points) and the budget which includes materials only, per grant instructions, adequately supports the activities outlined in the grant proposal. (10 points)*

Residential Internet access, for students, particularly economically disadvantaged students, who check out equipment as part of the technology lending program will be provided with devices with Wi-Fi capability that can be used in the student's residence. The district will develop and implement a *Technology Lending Agreement* that will be provided to students and parents who check out devices.

Through the **_Technology Lending Program_** students will have the resources to access and use BISD's electronic instructional materials.

Professional Development for Teachers in the Use of Digital Content - Professional development for teachers in the use of digital content has already been provided prior to applying for this grant. Any professional development that is provided during the first three months of the grant period will be provided with **non-grant funds**. Professional development is not an allowable cost for BISD's TLPG grant program.

BISD assures that funds provided under the Instructional Materials Allotment (IMA) or other funding sources are insufficient to purchase enough lending technology for every student who needs dedicated access to a device. The district's proposed TLPG program is appropriate to and will successfully address the needs of the target population. (8 points)

Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

Schedule #17—Responses to TEA Program Requirements (cont.)	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

TEA Program Requirement 2: Describe a plan for providing internet access to student residences, residential centers, and/or on the buses that transport students (for whom a single ride lasts, on average, at least an hour) with the highest need for off-campus internet access. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Broadband data service is sometimes not an option for Banquete ISD students due to the rural nature and low socioeconomic status of the majority of our students. Because of this fact, we plan to purchase a number of devices that have an unlimited data plan. This will ensure that every student has the ability to use the internet without data limits and regardless of economic status. Banquete ISD will use data from device requests and usage reports to anticipate future needs.

These devices will remain on the campuses and will be available for checkout on an as needed basis. Teachers will complete an "Internet Device Request" form when students have an assignment or other classroom project to complete at home. Students who have a true educational need and are coded economically disadvantaged will have highest priority in taking home an internet access device.

The district will purchase devices with available MiFi Internet service for home Internet access and when not connected to the district's wireless network. We will provide training and instructions as to how to use these Internet service devices. Equipment will be offered to our economically disadvantaged and special education students first. Students and parents will sign agreements so that these Internet devices are used properly and for the intent of the program. These devices will be monitored by the technology department.

There will be a lending program policy and procedure that will be in place for training, eligibility requirements, etc.

For sustainability purposes after the grand funding ends, the district will use ERate funds, local funds or other grant funds to sustain the Internet costs.

Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

Schedule #17—Responses to TEA Program Requirements (cont.)	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

TEA Program Requirement 3: Describe how the lending program aligns with current curriculum, instruction, and classroom management policies and/or practices on its participating campus(es). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

BISD teachers prescribe to "Fundamental Five" instructional design to present curriculum in an engaging manner while managing classroom management effectively. Each class period teachers provide 2-3 segments where students are active participants through group work or partner work. Teachers observe and facilitate in the "Power Zone" which means teaching among students rather from a lecture stance. Breaking away from the passive listening to lectures, students actively engage with each other in small group activities geared by mini-active assignments. Because technology promotes active learning, the lending program aligns seamlessly with the "Fundamental Five" design prescribed to by teachers at BISD.

All activities and programs in our district are aligned to our District Improvement Plan, Campus Improvement Plans, and our Technology Plan as well as to our district and campus budgets.

The technology lending program will align with current curriculum, instruction and classroom management policies through the above documents. As we move towards online curriculum all of the above documents will be updated to include curriculum, instruction and classroom management updated policies and procedures.

The district's _strategies and activities are of sufficient quality and depth to ensure accomplishment of the goals and objectives of the program according to the relevant statute. (5 points)_

TEA Program Requirement 4: Describe how the applicant is using digital instructional materials in one or more foundation curriculum subject area(s) for one or more grade level(s). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Currently the district uses electronic instructional materials in one or more foundation curriculum areas for one or more grade levels. Due to the _very limited technology available_, BISD campuses utilize "Think through Math", a web-based TEA approved math program utilized. Helping students as young as third grade and through high school, students use the program to improve math skills by completing standard-based lessons that are motivating and confidence building. The addition of more computers would allow students to work beyond school hours on the program. Additionally, teachers could have a "math work night" for parents to show them the program so they can better assist their students at home with "Think through Math." Importantly, the program embraces high order thinking skills which benefits students on state tests as well as college entrance tests. Importantly, BISD would like to introduce additional web-based programs for school and home in the areas of reading and writing.

The Elementary computer lab is used by PK-5th grade students, the students use Istation which is used to help the students in reading fluency and comprehension. The lab also is used to help the students test on the AR program, students read a book and then test on the computer. Students in grades 3rd-5th use the lab for Imagine Math which is used to improve their math skills. Students also use the lab and the mobile Google Chromebooks or iPads to help with research projects for classroom assignments.

All activities and programs in our district are aligned to our District Improvement Plan, Campus Improvement Plans, and our Technology Plan as well as to our district and campus budgets. The technology lending program will align with current curriculum, instruction and classroom management policies through the above documents. As we move towards online curriculum all of the above documents will be updated to include curriculum, instruction and classroom management updated policies and procedures. The district's _strategies and activities are of sufficient quality and depth to ensure accomplishment of the goals and objectives of the program according to the relevant statute. (5 points)_

Via telephone/fax/email (circle as appropriate)	By TEA staff person:

Schedule #17—Responses to TEA Program Requirements (cont.)	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

TEA Program Requirement 5: Describe how the infrastructure and technical support is adequate to support students' anticipated use of devices through the grant at its participating campus(es). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The district's infrastructure that will support students' use of the devices, when used on campus, provided through the grant is the following:

- 3 campuses with a network operations center (NOC) at the hub
- 95% wireless 4G coverage throughout the district
- 10/100 speed to the desktops
- Gigabyte backbone to all network switches
- Network file servers
- Email access for staff and students

We have increased our access points to a 25:1 student to access point ratio in the past two years. This was previously a 50+:1 ratio at the junior high level, 35+:1 ratio at the high school level, and approximately 70+:1 ratio at the elementary.

The district also has a Technology Director who will provide technical support as needed.

The design of our proposed program reflects up-to-date knowledge from scientifically based research and effective practice. (4 points)

For TEA Use Only	
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

Schedule #17—Responses to TEA Program Requirements (cont.)	
County-district number or vendor ID: **178-913**	Amendment # (for amendments only):

TEA Program Requirement 6: Describe how the grant will be administered on participating campus(es), including a description of how the check-out and check-in process will operate, who will oversee the check-out process, especially in cases of competing need, and the process that will be used to maintain the technology lending equipment in proper working condition. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

BISD teachers and administrators will develop a procedure for checking in and out devices. The activities will need to be coordinated as to when each student will need to check out devices. Therefore content area teachers will need to work together to plan activities and coursework on a regular basis during staff meetings.

The district's Technology Director will coordinate the TLGP program for staff, students, and parents. The Technology Director will also develop a *Technology Lending Agreement* that will be provided to students and parents who check out devices. The Technology Director will also update the district's Technology Plan to include the TLGP program.

Campus staff will contact the Technology Director in order to arrange for students to check equipment in and out. That specific process will be determined by the Technology Director. Students and parents will be required to attend training for the lending program prior to checking out equipment.

Students will be required to demonstrate grade level mastery of the Digital Citizenship strand of the Technology Applications TEKS prior to checking out equipment. Parents, students and staff members will be required to sign the technology lending agreement prior to the release of equipment to students and/or parents.

Teachers and staff will be responsible for student assignments. When students and/or parents return devices, there will also be a sign-in form that indicates that the equipment was returned to the lending program inventory.

The district's *strategies and activities are of sufficient quality and depth to ensure accomplishment of the goals and objectives of the program according to the relevant statute. (5 points)*

TEA Program Requirement 7: Describe how technology lending equipment will be accounted for per local policy, including providing insurance, if appropriate. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

BISD will purchase all required insurance and warranty required on the equipment for the technology lending equipment according to local policy. The district will also configure a tracking system to locate individual devices.
