
The Texas Education Agency (TEA) is committed to expanding the number of high-quality educational options in its charter school portfolio.

One tool that will help achieve that goal is the Charter School Performance Frameworks (CSPF). The CSPF, which is required by Texas Education Code (TEC §12.1181), is designed to provide parents, the public, charter operators, and the authorizer with information about each charter school’s performance. The CSPF is aligned with the Texas A-F accountability framework, the Charter FIRST financial accountability rating system, and best practices that have been identified by the National Association of Charter School Authorizers. Tier designations, which are described later in this manual, and CSPF performance will be used to inform TEA’s authorizing decisions, including assigning appropriate levels of oversight, determining eligibility for growth (19 TAC §100.1033), making decisions related to renewal or non-renewal for schools in the discretionary category (as defined by TEC §12.1141(c)), and revoking charters that have failed to meet CSPF standards (as described in TEC §12.115(a)(5)).

The CSPF neither negates any ratings (including, but not limited to, state accountability, Charter FIRST, Accreditation, or the Performance-Based Monitoring Analysis System (PBMAS)) that a charter school or charter campus receives, nor removes the requirements associated with any sanctions or interventions required as a result of those ratings.

In addition, the 2018 CSPF has been redesigned to increase transparency about TEA’s performance expectations for charter schools. In addition, the 2018 CSPF is now better aligned with the Texas A-F accountability framework, the Charter FIRST financial accountability rating system, and best practices that have been identified by the National Association of Charter School Authorizers.

The CSPF includes three distinct frameworks that measure academic, financial, and operational performance. 2019 [2018] CSPF reports will include an overall CSPF score and a subscore for each framework. Indicators that will be assessed within each framework are outlined in this manual, together with the data sources that are utilized.

Charter schools are rated at the district (LEA) level. The calculation for the overall CSPF score is as follows:

\[ \text{Overall CSPF Score} = \text{Academic Framework Score} + \text{Financial Framework Score} + \text{Operational Framework Score} \]

1 If the charter school does not receive an A-F rating, it will not receive an overall CSPF score. If the charter school does not receive an operational or financial rating, its academic framework score will equal its overall CSPF score.
Overall performance
Measures the charter school’s overall combined performance on the academic, financial, and operational frameworks.

- **Meets Expectations**: The charter school attained an overall score that was at or above 60%.
- **Does Not Meet Expectations**: The charter school attained an overall score that was less than 60%.
2019 [2018] Academic Framework Indicators

The Academic Framework evaluates each charter school’s academic performance. This framework answers the evaluative question: Is the academic program a success for all students? Meeting the expectations in this framework is indicative of an effective academic program where student learning—the central purpose of every school—is taking place.

The following Academic Framework indicators facilitate the evaluation of charter school academic performance. The scores listed below will not include Local Accountability System data.

Overall score on the academic framework

Measures the charter school’s overall performance on indicators included in the academic framework.

- **Meets Expectations**
  - The charter school attained an overall score on the academic framework that was at or above 60%.

- **Does Not Meet Expectations**
  - The charter school attained an overall score on the academic framework that was less than 60%.

2 If data is not available, academic framework scores may be based on the following calculations:

- If there is no Closing Gaps data for the school, the overall calculation will be adjusted to .9 (1a).
- If the charter school does not receive an A-F rating, it will not receive an academic framework rating.

In accordance with TEC §12.1181, the Academic Framework includes indicators for charter schools evaluated under alternative education accountability (AEA) provisions of the Texas Accountability Rating System. The 2019 [2018] Accountability Manual describes in more detail how scores are calculated or scaled differently for AEA schools. The scores listed below will not include Local Accountability System data.

#### Overall score on the academic framework

Measures the AEA charter school’s overall performance on indicators included in the academic framework.

- **Meets Expectations**
  - The AEA charter school attained an overall score on the academic framework that was at or above 60%.

- **Does Not Meet Expectations**
  - The AEA charter school attained an overall score on the academic framework that was less than 60%.

---

$^4$ If data is not available, AEA academic framework scores may be based on the following calculations:
- If there is no Closing Gaps data for the school, the overall calculation will be adjusted to $0.9 (1a)$.
- If the charter school does not receive an A-F rating, it will not receive an academic framework rating.
Financial Framework indicators are evaluated in the Charter School Financial Integrity Rating System of Texas (Charter FIRST). As described in 19 TAC §109.1001, the purpose of Charter FIRST is to ensure that charter schools are held accountable for the quality of their financial management practices.

Note: Financial Framework indicators are not evaluated for charter schools in their first year of operation.

Read more about Charter FIRST on the TEA website.

The Financial Framework indicators below provide key data to assess the financial health and viability of charter schools.5

Overall score on the financial framework
Measures the charter school’s overall performance on indicators included in the financial framework.

Meets Expectations
The charter school attained an overall score on the financial framework that was at or above 60%.

5 Charter schools that are operated by institutions of higher education will receive only a pass/fail on the financial framework, reflective of their FIRST score. These schools receive neither an overall numeric FIRST score nor scores on solvency indicators. To calculate the overall CSPF score: pass = 100 and fail = 0.
☐ **Does Not Meet Expectations**

The charter school attained an overall score on the financial framework that was less than 60%.
**2019 [2018] Operational Framework Indicators**

The Operational Framework indicators facilitate evaluation of each charter school’s compliance with federal law, state law, state rules or regulations, and/or the charter contract.

The ratings assigned to indicators in the Operational Framework neither negate any ratings (including, but not limited to state accountability, Charter FIRST, Accreditation, or PBMAS) that a charter school or charter campus receives, nor removes the requirements associated with any sanctions or interventions required as a result of their ratings.

The following Operational Framework indicators evaluate each charter school’s compliance with educational, operational, governance, and reporting requirements.

The Adult High School Diploma Charter School Frameworks [Framework] contain standards by which to measure the performance of an adult high school program operated under a charter granted under Texas Education Code (TEC) §29.259.

The following indicators facilitate review of the adult high school diploma charter school's performance.

1. Student achievement on exit-level assessment
2. Completion of high school diploma program
3. Completion of industry certification program
4. Enrollment in institutions of higher education
5. Significant income increase

Data will be reported for all five indicators; however, the school’s performance will only be scored for the first three. For each of those three indicators, the charter school may either meet or not meet the expectations described below.
### 1. Student achievement on academic assessments

**Measures** graduating students’ performance on the Texas Success Initiative Assessment (TSIA), adopted by the agency as appropriate for assessing adult education program participants [applicable end-of-course (EOC) assessments].

**TEC §§29.259(c) and (o)(1), 19 TAC §101.4002(b)**

[Note: The number of graduates is used for this indicator, rather than percentage over time, because sufficient longitudinal data is not yet available.]

### 3. Completion of industry-based certification program

**Measures** percentage of program graduates [participants] who successfully completed an approved industry-based certification.\(^8\)

**TEC §29.259(o)(3)**

<table>
<thead>
<tr>
<th>Meets Expectations</th>
</tr>
</thead>
</table>

---

\(^8\) A list of approved industry-based certifications is available at: https://tea.texas.gov/cte/.
At least 25% of program graduates [participants] successfully completed an approved industry-based certification.

**Does Not Meet Expectations**
Fewer than 25% of program graduates [participants] successfully completed an approved industry-based certification.

**Tiering Framework**
Tiering the TEA charter school portfolio will increase transparency, clearly communicate performance ratings, and identify low-performing schools that should be subject to increased oversight. Tier designations and CSPF scores will be used to inform TEA’s authorizing decisions, including assigning appropriate levels of oversight, determining eligibility for expansion amendments (19 TAC §100.1033), making decisions related to renewal or non-renewal for schools in the discretionary category (as defined by TEC §12.1141(c)), and revoking charters that have failed to meet CSPF standards (as described in TEC §12.115(a)(5)).

**Draft definition**
