Section I: Introduction
The Performance-Based Monitoring Analysis System (PBMAS)

The PBMAS is a district-level, data-driven monitoring system developed and implemented annually by Performance-Based Monitoring (PBM) staff in coordination with other Texas Education Agency (TEA) divisions and departments. The 2017 PBMAS Manual is intended to serve as a comprehensive technical resource for the PBMAS, which is used by TEA as one part of its annual evaluation of school districts’ performance and program effectiveness.

Guiding Principles of the PBMAS

The PBMAS is based on the following guiding principles:

**School District Effectiveness.** PBMAS is intended to assist school districts in their efforts to improve local performance.

**Statutory Requirements.** PBMAS is designed to meet statutory requirements.

**Indicator Design.** PBMAS indicators reflect critical areas of student performance, program effectiveness, and data integrity.

**Maximum Inclusion.** PBMAS evaluates a maximum number of school districts by using appropriate alternatives to analyze the performance of districts with small numbers of students.

**Individual Program Accountability.** PBMAS is structured to ensure low performance in one program area cannot be offset by high performance in other program areas or lead to interventions in program areas where performance is high.

**High Expectations.** PBMAS promotes high expectations for all students in all school districts. PBMAS cut points will be adjusted over time to ensure continued student achievement and progress.

**Annual Statewide Evaluation.** PBMAS ensures the annual evaluation of all school districts in the state.

**Public Input and Accessibility.** The design, development, and implementation of the PBMAS are informed by public input received through stakeholder meetings, the public comment period included in the annual rule adoption of PBMAS manuals, and ongoing Texas Education Telecommunications Network (TETN) sessions. The performance information PBMAS generates is available to the public.

**System Evolution.** PBMAS is a dynamic system in which indicators are added, revised, or deleted in response to changes and developments that occur outside of the system, including new legislation and the development of new assessments.

**Coordination.** PBMAS is part of an overall agency coordination strategy for the performance-based evaluation of school districts.

Changes to the PBMAS in 2017

The 2017 PBMAS includes several key changes from the 2016 system. Many of these changes are marked in the manual as “New!” for easy reference. Detailed information about specific indicators is located in Section III of this manual.

Revisions to the State of Texas Assessments of Academic Readiness (STAAR)\(^2\) are reflected in the 2017 PBMAS with the final administrations of the STAAR A and STAAR L in December 2016. In addition, the availability of an additional year’s data enables the Special Analysis (SA) component to be reinstated for many of the STAAR performance indicators and for Required Improvement (RI) to be available for the English language arts (ELA) STAAR end-of-course (EOC) indicators. Other changes unique to each PBMAS program area are summarized below.

Bilingual Education and English as a Second Language (BE/ESL)

RI is available for BE/ESL Indicator #7 (LEP Graduation Rate). This graduation rate indicator was revised in the 2016 PBMAS to reflect graduation rates based on students identified as English Language Learners (ELLs) at any time while attending Grades 9-12 in a Texas public school rather than determined only based on students identified as ELLs in their last year in a Texas public school. Additionally, the performance level (PL) cut points for the two Texas English Language Proficiency Assessment System (TELPAS) indicators are aligned through minor adjustments to BE/ESL Indicator #8 (TELPAS Reading Beginning Proficiency Level Rate).

Career and Technical Education (CTE)

Coding for the CTE Tech Prep program was discontinued in the 2016-2017 Public Education Information Management System (PEIMS). The CTE Tech Prep bubble, however, continued to be available on the 2016-2017 STAAR EOC answer documents. Therefore, while the 2017 PBMAS CTE STAAR EOC indicators are presented in this manual without reference to CTE Tech Prep, any STAAR EOC answer document submitted with the CTE Tech Prep bubble marked (CTE indicator code 3) will be included in the accountable district’s results for the relevant PBMAS CTE STAAR EOC indicator(s). The PBMAS CTE Nontraditional Course Completion indicators will continue to be presented in this manual with reference to CTE Tech Prep because those indicators are based on data from the 2015-2016 school year.

For the 2017 PBMAS, each course listed in Appendix A of the 2016 PBMAS Manual was evaluated based on information from the Office of Career, Technical, and Adult Education and the National Alliance for Partnerships in Equity to determine if the course should still be considered nontraditional for males or females. Based on that information, approximately 30 courses were deleted from the list and 40 courses were added. Appendix A in this manual reflects the updated course lists for males and females. Because the changes are fairly significant, CTE Indicator #7 (CTE Nontraditional Course Completion Rate – Males) and CTE Indicator #8 (CTE Nontraditional Course Completion Rate – Females) are Report Only for the 2017 PBMAS.

A PL 4 designation was added to CTE Indicator #2(iv) (CTE LEP STAAR EOC Passing Rate – ELA) and CTE Indicator #4(iv) (CTE SPED STAAR EOC Passing Rate – ELA). These changes align the CTE LEP and CTE SPED STAAR EOC ELA indicators with the BE/ESL and SPED STAAR EOC ELA indicators that already include a PL 4 designation.

\(^2\) STAAR® is a registered trademark of the Texas Education Agency. The minimum level of satisfactory performance described in this manual corresponds with the labels adopted under 19 Texas Administrative Code §101.3041: Approaches Grade Level (STAAR/STAAR Spanish) and Level II: Satisfactory Academic Performance (STAAR Alternate 2).
Every Student Succeeds Act (ESSA)

For the 2017 PBMAS, there are no changes specific to the ESSA program area. However, indicators in this program area are being implemented based on the overall changes described in this manual that affect all PBMAS program areas in 2017.

Special Education (SPED)

Since 2013, TEA has been implementing a PBMAS transition plan for the PBMAS SPED program area in anticipation of new federal regulations under 34 Code of Federal Regulations (CFR) Part 300, which were finalized and issued on December 19, 2016. These regulations require 98 separate indicators to evaluate districts’ data regarding: (a) special education representation [49 indicators]; (b) disciplinary removals [35 indicators]; and (c) educational placements [14 indicators]. These indicators will be used to assign PLs of significant disproportionality based on seven racial/ethnic groups and six disability categories, as required. To facilitate presentation and readability, these 98 indicators will be integrated as much as possible in their presentation in PBMAS manuals and on districts’ PBMAS reports. Specifically, they will be presented as one integrated representation indicator, five integrated discipline indicators, and two integrated educational placements indicators. The federal regulations also require thresholds be set to determine which districts will be identified for significant disproportionality. As with all PBMAS PL cut points, the 2017 PBMAS thresholds for these new indicators were set with advice from stakeholder groups.

Under the federal regulations, consequences for districts that exceed the established thresholds are considerably greater than the requirements that comprise intervention staging for PBMAS. Specifically, any district that exceeds the established thresholds is required to: (a) provide for the review and, if appropriate, revision of the district’s policies, procedures, and practices; (b) allocate 15% of its Part B funds to be used for comprehensive coordinated early intervening services to serve children in the district, particularly, but not exclusively, children in those groups that were significantly over-identified; and (c) publicly report on the revision to its policies, procedures, and practices. States have the flexibility to stipulate that districts must exceed an established threshold for up to three consecutive years before these requirements must be implemented.

TEA has reiterated, since the inception of the PBMAS Manual rule adoption process, that districts are obligated to follow federal law irrespective of their anticipated PBMAS PL assignments. The federal regulations repeat TEA’s long-standing position by adding a rule of construction asserting that nothing in the federal regulations, including the potential consequences of exceeding the thresholds for significant disproportionality, authorizes the development or implementation of policies, practices, or procedures that result in actions that violate federal law, including requirements related to child find and ensuring that a free appropriate public education is available to all eligible children with disabilities.

Because the PBMAS representation and educational placements indicators were already well aligned with federal requirements and had included preliminary calculations of disproportionality, the expanded federal requirements pertaining to those two components can be immediately incorporated into SPED Indicator #11 (SPED Representation – Ages 3-21), SPED Indicator #7 (SPED Regular Class <40% Rate – Ages 6-21), and a new SPED Indicator #8 (SPED Separate Settings Rate – Ages 6-21). However, the three discipline indicators from the 2016 PBMAS will need to be replaced with the five integrated discipline indicators required to implement the new federal regulations. There is insufficient time for those indicators to be developed and included with the 2017 PBMAS. Instead, the discipline indicators will be previewed in the 2017 Discipline Data Validation system and then fully integrated into the 2018 PBMAS. The following table summarizes the impact of the new federal regulations on the SPED PBMAS indicators.

Planning for the Future: 2018 and Beyond

Ongoing implementation of the PBMAS will include the addition of new indicators, revision of current indicators, and deletion of indicators that are no longer necessary. Factors independent from the PBMAS itself are also likely to have an impact on the future versions of PBMAS. These factors include the following:

- legislatively required changes to the statewide assessment program, STAAR;
- changes resulting from reauthorizations of federal statutes, including the Elementary and Secondary Education Act;
- results of any state or federal reviews, guidance, and regulations;
- changes to data collection definitions and processes; and
- legislation from a regular or special legislative session.
Section II:
Components of the 2017 PBMAS
Data Sources

Data used in the PBMAS come from a variety of sources. Student assessment data are obtained from data files provided by TEA’s test contractor. Data obtained from areas within TEA include dropout and longitudinal graduation data from the Research and Analysis Division and Texas Student Data System (TSDS) Public Education Information Management System (PEIMS) data from the Statewide Education Data Systems Division. On rare occasions, a data source used in the PBMAS may be unintentionally affected by unforeseen circumstances, including natural disasters or test contractor administration issues. Should those circumstances occur, TEA will consider how or whether that data source will be used to ensure PBMAS calculations, PL assignments, and interventions are implemented appropriately and in alignment with the system’s guiding principles. Specific information about data sources is included in the description of each indicator in Section III of this manual.

The calculations for each indicator are based on the most current data available and, for ease of understanding, are presented in this manual as single-year calculations. In certain instances, however, multiple years of data are combined. (See Minimum Size Requirement (MSR) and Special Analysis (SA) section.)

Data Exclusions

Students described under Texas Education Code, §39.054(f) are excluded from the computation of annual dropout rates. Any other exclusions that have been applied to a specific indicator are identified in the description of the indicator in Section III of this manual.

No Data Available for an Indicator

A district with no data available for evaluation receives a designation of No Data, meaning the district cannot be evaluated because of an absence of data. For example, if a district had no migrant students to report in a particular year’s data collection, then for any migrant indicator based on that data collection, the PBMAS report for the district will indicate a PL of No Data. Districts with one or more PL designations of No Data should examine their local data collection and submission procedures as well as the Data Source section for each PBMAS indicator to confirm the accuracy of the No Data designation. It is the ongoing responsibility of districts to ensure students are coded correctly for both TSDS PEIMS and student assessment data. In addition, data validation analyses and reviews are conducted by the agency as part of its PBM activities.

Accountability Subset

Students who are enrolled in a district on October 28, 2016 (fall snapshot date) and test in the same district in the fall of 2016 or spring of 2017 are considered to be in the “accountability subset” while students who are enrolled in a district on October 28, 2016 but not enrolled in the same district for fall 2016 or spring 2017 testing are not in the accountability subset. The accountability subset for students who test in the summer of 2016 is based on the 2015 fall snapshot date. Whether the accountability subset is used for a particular indicator is noted in the description of the indicator.

Rounding

All PBMAS rates are rounded to one decimal place. For example, 79.877% is rounded to 79.9%. The intermediate results for all PBMAS significant disproportionality ratios are not rounded. This multiple decimal place precision helps ensure the accuracy of the final risk ratio value.
Masking

District data are released to each school district as allowed under the Family Educational Rights and Privacy Act (FERPA). PBMAS data released to the public are masked to protect student confidentiality. A PBMAS Masking Rules document is available on both the PBMAS district reports and data download web pages:

- [https://rptsvr1.tea.texas.gov/pbm/distrpts.html](https://rptsvr1.tea.texas.gov/pbm/distrpts.html)
- [https://rptsvr1.tea.texas.gov/pbm/download.html](https://rptsvr1.tea.texas.gov/pbm/download.html)

Performance Levels (PLs)

A PL is the result that occurs when a standard is applied to a district’s performance on an indicator. The PLs available for indicators in the 2017 PBMAS include Not Assigned (NA) (including Not Assigned through SA or DI), 0, 0 SA, 0 RI, 1, 1 SA, 2, 2 SA, 3, 3 SA, 4, 4 SA, and SD. SA refers to Special Analysis, which is described in the Minimum Size Requirement (MSR) and Special Analysis (SA) section. RI refers to Required Improvement, which is also described in a separate section. DI refers to Data Integrity and is used in combination with the NA PL to address situations where compromised data render any other PL impossible to determine. SD refers to Significant Disproportionality and is used to meet federal requirements under 34 Code of Federal Regulations (CFR) §300.647.

PBMAS indicators include a range of PLs, and each PL range has an established set of cut points. Throughout the PBMAS indicators, the higher the PL is, the lower the district’s performance is.

Changes to PBMAS Cut Points

As part of the annual PBMAS development cycle, the cut points for each PBMAS indicator are evaluated. A decision to adjust cut points for one or more indicators is based on a careful consideration of the following:

- whether a state or federal goal has been identified for the indicator;
- performance of the state on each indicator at the time cut points are set;
- expected and actual improvement on the indicator over time;
- amount of improvement that is reasonable for the indicator;
- overall impact on the PBMAS of adjustments to cut points;
- the PBMAS system’s guiding principles;
- other considerations that could affect performance on particular indicators;
- appropriate cut points across similar indicators; and
- internal and external input.

Report Only Indicators

Some PBMAS indicators are reported for district information and planning purposes. For these indicators, the district performance will be reported along with the overall state rate for the indicator. Cut points, MSR, and PLs are not typically applied to these indicators.

Generally after a period of one or two years, PLs are assigned to Report Only indicators, and district performance on these indicators will be evaluated. The inclusion of Report Only indicators in PBMAS provides districts with an opportunity to review current performance and plan ahead.
Minimum Size Requirement (MSR) and Special Analysis (SA)

The MSR is incorporated into all indicators that are assigned a PL. In general, districts must have at least thirty (30) students in the relevant segment of the student population denominator to be evaluated on an indicator using the standard PBMAS analysis. In addition, for certain PBMAS indicators, districts must have at least five (5) or ten (10) students in the relevant segment of the student population numerator to be evaluated using the standard PBMAS analysis. The MSR is noted in the description of each indicator.

The MSR can be met either in the current year or through the aggregation of numerators and denominators over the most recent two years, if applicable. If the MSR is met for a particular performance indicator, then a district is evaluated using the standard PBMAS analysis. Under standard analysis, when the MSR is met with the current year’s data, a PL is assigned based on that data in relation to the cut points for the indicator. When the MSR is met based on the most recent two years of data, the numerator and denominator for the current and prior years are aggregated, the indicator is calculated, and a PL is assigned based on the current year’s cut points for the indicator. Depending on the particular indicator, there may be one or two prior years of data that are aggregated with the current year’s data to assign a PL. If the MSR is not met, then the district may be evaluated under a process called Special Analysis (SA), which is described below.

There is one exception to the MSR. If a district does not meet the MSR for an indicator, but the performance of the district meets the criteria to earn a PL of 0, then the district receives a PL of 0, regardless of the number of students in the relevant segment of the student population.

The SA process evaluates the performance of districts that do not meet the MSR. PLs established using the SA process will have “SA” appended (NA SA, 0 SA, 1 SA, 2 SA, 3 SA, 4 SA) and will be included on PBMAS reports to districts, along with the district’s numerators, denominators, and rates considered in the SA process.

The flowcharts on the following pages depict the process for determining whether standard analysis or SA is applied in the PBMAS.
PBMAS PL Assignment and SA Determination Process

Using the most recent year’s data, does the student group meet the PL 0 cut points for the indicator?

(If no current year data are available, then PL = No Data.)

NO

Does the student group meet MSR for the indicator in the current year or over the most recent two years?

NO

Does the prior year’s PL = No Data?

YES

PL = Not Assigned

NO

Apply SA, if Available:

If the student group’s size equals between 15-29 over the most recent two years, refer to the SA process for group size of 15-29 (page 13).

If the student group’s size equals between 1-14 over the most recent two years, then PL= Not Assigned.

Apply Standard Analysis:

PL 0, 1, 2, 3, or 4* is assigned based on current year’s numerator and denominator if MSR met in current year OR if MSR can be met over most recent two years, PL is assigned based on aggregation of numerators and denominators for the most recent two (or three) years, depending on how many years of data are available for the indicator. The number of years of data available for analysis is noted in the description of each indicator.

* For indicators with only one year of data available for analysis, MSR must be met in current year or PL = Not Assigned.

Note: For indicators eligible for the PBMAS SA process that have a MSR in both the denominator and the numerator, a district’s group size is determined by the smallest denominator or numerator over the most recent two years.
PBMAS PL Assignment and SA Process for Group Size of 15-29

Are the PLs the same over three years? (i.e., 1/1/1, 2/2/2, 3/3/3, or 4/4/4)

YES

PL assigned
(1 SA, 2 SA, 3 SA, 4 SA)

NO

Are PLs different over three years and no year’s PL = 3 or 4?
(e.g., 1/0/1, 1/0/2, 1/2/1, 2/1/1)

YES

The rounded average of the three PLs is assigned.

NO

Any other combination of PLs over two (or three) years = PL of Not Assigned.

Note: Group size is based on the sum of the most recent two years. Previous years’ PLs are determined based on the relevant years’ numerators, denominators, and rates presented on the district’s 2017 PBMAS report.
**Required Improvement (RI)**

The PBMAS, by design, has a built-in improvement component. Because the system includes a range of PLs, districts that demonstrate improvement from one year to the next can progress from one PL to another. For example, a district with 74% of its migrant students graduating with a high school diploma in four years received a PL 1 in the 2016 PBMAS. If that same district is able to improve its migrant graduation rate to 80% in 2017, it would receive a PL 0 because its performance meets the 2017 PL 0 cut point.

In addition to the system’s built-in improvement component, the 2017 PBMAS will again include RI for certain indicators. The indicator descriptions in Section III of this manual will indicate if RI is available for an indicator. Examples of two PBMAS RI calculations are provided below.

**RI Calculations**

For the indicators where *increases* in rates are measured in *positive* numbers and RI is available, the following calculation will be used for districts that meet the MSR in both the current and previous year and have an initial PL result that is not equal to 0:

\[
\text{Actual Change: } \frac{\text{performance in 2017} - \text{performance in 2016}}{\text{number of years to reach minimum PL 0 cut point}} \geq \frac{\text{minimum PL 0 cut point for 2017} - \text{performance in 2016}}{\text{number of years to reach minimum PL 0 cut point}}
\]

**EXAMPLE OF RI USING ESSA INDICATOR #8: Migrant Graduation Rate**

1. Calculate the **Actual Change** for the district's migrant graduation rate:

   \[
   \text{Actual Change: } 72.0\% - 60.0\% = 12.0 \\
   \text{(2017)} \quad \text{(2016)}
   \]

2. Calculate the **RI** for the district's migrant graduation rate:

   \[
   \text{RI: } \frac{80.0\% - 60.0\%}{2 (2018-2016)} = 10.0
   \]

Note: The 2018 target year allows districts one year beyond 2017 to reach the 2017 minimum PL 0 cut point of 80.0%.

3. Compare the two numbers to see if the **Actual Change** is greater than or equal to the **RI**: 12.0 > 10.0.
   (Gains in graduation rates are measured in positive numbers.)

4. Result: the district meets **RI** and receives a PL of 0 RI.
For indicators where *reductions* in rates are measured in *negative* numbers and RI is available, the following calculation will be used for districts that meet the MSR in both the current and previous year and have an initial PL result that is not equal to 0. Note that for these types of indicators, actual change needs to be *less than or equal to RI* for the PL 0 cut point to be met.

$$\text{Actual Change:} \quad \text{RI:}$$

$$\text{performance in 2017} - \text{performance in 2016} \leq \frac{\text{maximum PL 0 cut point for 2017} - \text{performance in 2016}}{\text{number of years to reach maximum PL 0 cut point}}$$

System Safeguards

System safeguard activities are conducted by TEA to ensure the integrity of the PBM system. These activities include data validation analyses of leaver data, student assessment data, and discipline data. Random or other means of selection are also implemented to verify system effectiveness and districts’ implementation of monitoring requirements.

Monitoring Interventions

The School Improvement (SI) Division will notify each district selected for a 2017 PBMAS intervention via the Intervention Stage and Activity Manager (ISAM) on the Texas Education Agency Secure Environment (TEASE). The SI Division will inform districts that intervention stages have been posted to ISAM by posting a “To the Administrator Addressed” letter on the TEA web page for correspondence or sending a “To the Administrator Addressed” letter via electronic mail or first-class mail. It is the district’s obligation to access the correspondence from the SI Division by (a) subscribing to the listserv for “To the Administrator Addressed” correspondence; and (b) accessing the ISAM system as directed to retrieve intervention instructions and information.

PBM interventions are based on PBMAS PLs and other criteria as well as results of the data validation analyses described above. For the special education program, State Performance Plan compliance indicators 9, 10, 11, 12, and 13; data integrity; uncorrected non-compliance; and audit findings are also evaluated and used to assign a district an integrated stage of intervention/determination status. Sanctions are applied as necessary and according to state and federal law and the Texas Administrative Code (TAC).

Additional information related to PBM interventions, including additional monitoring activities required of districts that serve students with disabilities who reside in residential facilities located within the districts’ geographic boundaries and/or jurisdictions, is reflected in 19 TAC §97.1071, Special Program Performance; Intervention Stages, available at http://tea.texas.gov/About_TEA/Laws_and_Rules/Commissioner_Rules_(TAC)/Commissioner_of_Education_Rules_-_Texas_Administrative_Code/. Also available on this rules link is the text of 19 TAC §97.1055, Accreditation Status, which describes how deficiencies in a district’s programs monitored under the PBMAS may affect a district’s accreditation status.
Section III:
Performance Indicators
Bilingual Education/English as a Second Language (BE/ESL)

Indicators (1 – 9)
BE/ESL Indicator #1(i-v): BE STAAR 3-8 Passing Rate

This indicator measures the percent of bilingual education (BE) students who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

**Calculation**

\[
\frac{\text{number of BE STAAR 3-8 [subject (i-v)] passers}}{\text{number of BE STAAR 3-8 [subject (i-v)] takers}}
\]

**Data Source**

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as participating in a state-approved bilingual program (bilingual program indicator codes 2, 3, 4, or 5).

**Overall Processing Criteria**

- MSR: Denominator ≥ 30
- RI: Yes
- SA: Yes *(New!)*
- Year(s) of Data Available for Analysis: 3 *(New!)*
- Accountability Subset: Yes
- Test Administrations: Spring 2017 and May 2017 SSI retest
- Applicable TSDS PEIMS Collections: Fall 2016
- Section II of this manual includes detailed information on these and other PBMAS components.

**PL Assignment**

Each district’s BE STAAR 3-8 passing rate is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

<table>
<thead>
<tr>
<th>BE/ESL Indicator</th>
<th>PL 0</th>
<th>PL 1</th>
<th>PL 2</th>
<th>PL 3</th>

**Notes**

- The BE STAAR 3-8 passing rate is based on STAAR, STAAR Spanish, and STAAR Alternate 2 results from the following grade-level assessments: mathematics (3-8), reading (3-8), science (5,8), social studies (8), and writing (4,7).
- Students assessed with STAAR Alternate 2 are included in the numerator if they achieve Level II performance or higher.
BE/ESL Indicator #2(i-v): ESL STAAR 3-8 Passing Rate

This indicator measures the percent of English as a Second Language (ESL) students who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

Calculation

\[
\text{number of ESL STAAR 3-8 [subject (i-v)] passers} / \text{number of ESL STAAR 3-8 [subject (i-v)] takers}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as participating in a state-approved ESL program (ESL program indicator codes 2 or 3).

Overall Processing Criteria

- MSR: Denominator ≥ 30

Notes

- The ESL STAAR 3-8 passing rate is based on STAAR, STAAR Spanish, and STAAR Alternate 2 results from the following grade-level assessments: mathematics (3-8), reading (3-8), science (5,8), social studies (8), and writing (4,7).
- Students assessed with STAAR Alternate 2 are included in the numerator if they achieve Level II performance or higher.
BE/ESL Indicator #3(i-v): LEP (Not Served in BE/ESL) STAAR 3-8 Passing Rate

This indicator measures the percent of limited English proficient (LEP) students not served in a bilingual education (BE) or English as a Second Language (ESL) program who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

Calculation

\[
\frac{\text{number of LEP (Not Served in BE/ESL) STAAR 3-8 [subject (i-v)] passers}}{\text{number of LEP (Not Served in BE/ESL) STAAR 3-8 [subject (i-v)] takers}}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as LEP (LEP = C\(^3\)) but not participating in a state-approved bilingual or English as a second language program (Bilingual = 0 and ESL = 0).

Overall Processing Criteria

- MSR: Denominator ≥ 30
- RI: Yes
- SA: Yes (New!)
- Year(s) of Data Available for Analysis: 3 (New!)
- Accountability Subset: Yes
- Test Administrations: Spring 2017 and May 2017 SSI retest
- Applicable TSDS PEIMS Collections: Fall 2016
- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

Each district’s LEP (Not Served in BE/ESL) STAAR 3-8 passing rate is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

Notes

- The LEP (Not Served in BE/ESL) STAAR 3-8 passing rate is based on STAAR, STAAR Spanish, and STAAR Alternate 2 results from the following grade-level assessments: mathematics (3-8), reading (3-8), science (5,8), social studies (8), and writing (4,7).
- Students assessed with STAAR Alternate 2 are included in the numerator if they achieve Level II performance or higher.

---

3 In addition, if a student takes TELPAS for any current year administration, the student will be reported as LEP = C in the data file used for the PBMAS.
BE/ESL Indicator #4(i-v): LEP Year-After-Exit (YAE) STAAR 3-8 Passing Rate

This indicator measures the percent of certain former limited English proficient (LEP) students who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

Calculation

\[
\frac{\text{number of LEP YAE STAAR 3-8 [subject (i-v)] passers}}{\text{number of LEP YAE STAAR 3-8 [subject (i-v)] takers}}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as having met the criteria for BE/ESL program exit, no longer classified as LEP in PEIMS, and in their first year of monitoring (M1 indicator code).

Overall Processing Criteria

Notes

- The LEP YAE STAAR 3-8 passing rate is based on STAAR and STAAR Alternate 2 results from the following grade-level assessments: mathematics (3-8), reading (3-8), science (5,8), social studies (8), and writing (4,7).
- Students assessed with STAAR Alternate 2 are included in the numerator if they achieve Level II performance or higher.
BE/ESL Indicator #5(i-iv): LEP STAAR EOC Passing Rate

This indicator measures the percent of limited English proficient (LEP) students who met the minimum level of satisfactory performance or higher on the STAAR EOC assessments (mathematics, science, social studies, and English language arts).

Calculation

\[
\text{number of LEP STAAR EOC [subject (i-iv)] passers} \over \text{number of LEP STAAR EOC [subject (i-iv)] takers}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as LEP (LEP = C⁴).

Overall Processing Criteria

- MSR: Denominator ≥ 30

Notes

- The LEP STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.

⁴ In addition, if a student takes TELPAS for any current year administration, the student will be reported as LEP = C in the data file used for the PBMAS.
BE/ESL Indicator #6: LEP Annual Dropout Rate (Grades 7-12)

This indicator measures the percent of limited English proficient (LEP) students in Grades 7-12 who dropped out in a given school year.

Calculation

\[
\frac{\text{number of Grades 7-12 LEP students who dropped out}}{\text{number of Grades 7-12 LEP students in attendance}}
\]

Data Source

- For additional information about data sources and methods for calculating the annual dropout rate, see the Secondary School Completion and Dropouts in Texas Public Schools report available at http://tea.texas.gov/acctres/dropcomp_index.html.
- Confidential student-level listings of LEP dropouts are available to districts through the secure Accountability TEASE application. Select the Research and Analysis (RES) tab for more information.

Overall Processing Criteria

- MSR:
  - Denominator ≥ 30
  - Numerator ≥ 5
- RI: Yes
- SA: Yes
- Year(s) of Data Available for Analysis: 3
- Accountability Subset: No
- Section II of this manual includes detailed information on these and other PBMAS components.

</tr>
</tbody>
</table>

**Notes**

- Graduation data are for the class of 2016 and are the most current data available for use in the 2017 PBMAS.
- This indicator is based on students reported in PEIMS as LEP at any time while attending Grades 9-12 in a Texas public school.
BE/ESL Indicator #8: TELPAS Reading Beginning Proficiency Level Rate

This indicator measures the percent of limited English proficient (LEP) students tested over two years who performed at the Beginning proficiency level on the TELPAS reading assessment in the current year.

Calculation

\[
\frac{\text{number of LEP students in Grades 2-12 who scored at the Beginning proficiency level on the TELPAS reading assessment in the current year}}{\text{number of LEP students in Grades 2-12 tested on the TELPAS reading assessment in the current and previous year}}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district for two consecutive years and also reported as tested on the TELPAS reading assessment for two consecutive years.

Overall Processing Criteria

- MSR:
  - Denominator ≥ 30

<td>7.6% - 10.5%</td>
<td>10.6% - 14.4%</td>
<td>14.5% - 100%</td>
</tr>
</tbody>
</table>

Notes

- The denominator is based on students who were in Grades 2-12 in the spring of 2016 and who, as a result of either grade retention or grade promotion, were in Grades 2-12 in the spring of 2017.
BE/ESL Indicator #9: TELPAS Composite Rating Levels for Students in U.S. Schools Multiple Years

This indicator measures the percent of limited English proficient (LEP) students in U.S. schools multiple years who received a TELPAS Composite Rating of Beginning or Intermediate.

Calculation

\[
\text{number of LEP students in Grades 5-12 in U.S. schools five or more years who received a TELPAS Composite Rating of Beginning or Intermediate} \\
\text{number of LEP students in Grades 5-12 in U.S. schools five or more years who received a TELPAS Composite Rating}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district who also received a TELPAS Composite Rating.

Overall Processing Criteria

- MSR:
  - Denominator ≥ 30
  - Numerator ≥ 5
- RI: Yes

Notes

- LEP students (Grades 5-12) in U.S. schools five or more years with a TELPAS Composite Rating of Beginning or Intermediate who also met the minimum level of satisfactory performance or higher on the appropriate (a) English STAAR reading assessment (for students enrolled in Grades 5-8); or (b) the English I or II STAAR EOC assessment (for students enrolled in Grades 5-12) are not included in the numerator of this indicator.
- Years in U.S. schools: The campus testing coordinator is responsible for submitting these data in consultation with the Language Proficiency Assessment Committee (LPAC) and verifying the information for accuracy and consistency.
Career and Technical Education (CTE)

Indicators (1 – 8)
CTE Indicator #1(i-iv): CTE STAAR EOC Passing Rate

This indicator measures the percent of Career and Technical Education (CTE) students who met the minimum level of satisfactory performance or higher on the STAAR EOC assessments (mathematics, science, social studies, and English language arts).

Calculation

\[
\text{number of CTE STAAR EOC [subject (i-iv)] passers} \over \text{number of CTE STAAR EOC [subject (i-iv)] takers}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as a Coherent Sequence participant (Career and Technical Education indicator code 2).

Overall Processing Criteria

- MSR: Denominator \(\geq 30\)
- RI: Yes
- SA: Yes (mathematics, science, and social studies) (New!)
- Year(s) of Data Available for Analysis: 3; 2 (English language arts) (New!)
- Accountability Subset: Yes
- Test Administrations: Summer 2016, Fall 2016, and Spring 2017
- Applicable TSDS PEIMS Collections: Fall 2015 and Fall 2016
- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

Each district’s CTE STAAR EOC passing rate is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

<table>
<thead>
<tr>
<th>CTE Indicator</th>
<th>PL 0</th>
<th>PL 1</th>
<th>PL 2</th>

<td>50.0% - 59.9%</td>
<td>40.0% - 49.9%</td>
<td>0% - 39.9%</td>
</tr>
</tbody>
</table>

Notes

- The CTE STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.
CTE Indicator #2(i-iv): CTE LEP STAAR EOC Passing Rate

This indicator measures the percent of Career and Technical Education (CTE) students with limited English proficiency (LEP) who met the minimum level of satisfactory performance or higher on the STAAR EOC assessments (mathematics, science, social studies, and English language arts).

Calculation

\[
\frac{\text{number of CTE LEP STAAR EOC [subject (i-iv)] passers}}{\text{number of CTE LEP STAAR EOC [subject (i-iv)] takers}}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as LEP (LEP = C\(^5\)) and a Coherent Sequence participant (Career and Technical Education indicator code 2).

Overall Processing Criteria

- MSR: Denominator ≥ 30
- RI: Yes
- SA: Yes (mathematics, science, and social studies) (New!)
- Year(s) of Data Available for Analysis: 3; 2 (English language arts) (New!)

<td>19.0% - 29.9%</td>
<td>0% - 18.9%</td>
</tr>
</tbody>
</table>

Notes

- The CTE LEP STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.

\(^5\) In addition, if a student takes TELPAS for any current year administration, the student will be reported as LEP = C in the data file used for the PBMAS.
CTE Indicator #3(i-iv): CTE Economically Disadvantaged STAAR EOC Passing Rate

This indicator measures the percent of Career and Technical Education (CTE) students who are economically disadvantaged and who met the minimum level of satisfactory performance or higher on the STAAR EOC assessments (mathematics, science, social studies, and English language arts).

Calculation

\[
\text{number of CTE economically disadvantaged STAAR EOC [subject (i-iv)] passers} \quad \frac{\text{number of CTE economically disadvantaged STAAR EOC [subject (i-iv)] takers}}{
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as economically disadvantaged (economic disadvantage indicator codes 01, 02, and 99) and a Coherent Sequence participant (Career and Technical Education indicator code 2).

Overall Processing Criteria

- MSR: Denominator ≥ 30
- RI: Yes
- SA: Yes (mathematics, science, and social studies) \textit{(New!)}
- Year(s) of Data Available for Analysis: 3; 2 (English language arts) \textit{(New!)}

Notes

- The CTE economically disadvantaged STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.
CTE Indicator #4(i-iv): CTE SPED STAAR EOC Passing Rate

This indicator measures the percent of Career and Technical Education (CTE) students served in special education who met the minimum level of satisfactory performance or higher on the STAAR EOC assessments (mathematics, science, social studies, and English language arts).

**Calculation**

\[
\frac{\text{number of CTE special education STAAR EOC [subject (i-iv)] passers}}{\text{number of CTE special education STAAR EOC [subject (i-iv)] takers}}
\]

**Data Source**

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as a participant in a special education program (special education indicator code) and a Coherent Sequence participant (Career and Technical Education indicator code 2).

**Overall Processing Criteria**

- MSR: Denominator ≥ 30
- RI: Yes
- SA: Yes (mathematics, science, and social studies) *(New!)*

**Notes**

- The CTE SPED STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.
CTE Indicator #5: CTE Annual Dropout Rate (Grades 9-12)

This indicator measures the percent of Career and Technical Education (CTE) students in Grades 9-12 who dropped out in a given school year.

Calculation

\[
\text{number of Grades 9-12 CTE students who dropped out} \\
\text{number of Grades 9-12 CTE students in attendance}
\]

Data Source

- For additional information about data sources and methods for calculating the annual dropout rate, see the Secondary School Completion and Dropouts in Texas Public Schools report available at http://tea.texas.gov/acctres/dropcomp_index.html.
- Confidential student-level listings of CTE dropouts are available to districts through the secure Accountability TEASE application. Select the Research and Analysis (RES) tab for more information.

Overall Processing Criteria

- MSR:
  - Denominator ≥ 30
  - Numerator ≥ 5
- RI: Yes
- SA: Yes
- Year(s) of Data Available for Analysis: 3
- Accountability Subset: No
- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

Each district’s Grades 9-12 CTE annual dropout rate is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

Notes

- Only students with PEIMS CTE status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator.
- Dropout data are for the 2015-2016 school year and are the most current data available for use in the 2017 PBMAS.
CTE Indicator #6: CTE Graduation Rate

This indicator measures the percent of Career and Technical Education (CTE) students who graduated with a high school diploma in four years.

Calculation

\[
\text{number of CTE students in the Grade 9 cohort who graduated with a high school diploma} \over \text{number of CTE students in the class of 2016}
\]

Data Source

- For additional information about data sources and methods for calculating the CTE graduation rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at [http://tea.texas.gov/acctres/dropcomp_index.html](http://tea.texas.gov/acctres/dropcomp_index.html).
- Confidential student-level listings of CTE cohort members are available to districts through the secure Accountability TEASE application. Select the Research and Analysis (RES) tab for more information.

Notes

- Only students with PEIMS CTE status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator.
- Graduation data are for the class of 2016 and are the most current data available for use in the 2017 PBMAS.
CTE Indicator #7: CTE Nontraditional Course Completion Rate-Males (Report Only)

This indicator measures the percent of male Career and Technical Education (CTE) students in Grades 9-12 who completed courses that are nontraditional for their gender.

Calculation

\[
\frac{\text{number of male CTE students in Grades 9-12 who completed male nontraditional courses}}{\text{number of CTE students in Grades 9-12 who completed male nontraditional courses}}
\]

Data Source

The data for this indicator are based on the number of all Grades 9-12 (Element E0017) CTE (Element E0031) students (denominator) and male (Element E0004) Grades 9-12 CTE students (numerator) reported by the district on the TSDS PEIMS 40100 Sub-Category who were also reported on the TSDS PEIMS 43415 Sub-Category as having earned credit (Element E0949) for completing (E0948 = 0, 2, 5, or 9) one or more male nontraditional courses (Element E0724).

- Applicable TSDS PEIMS Collections: Summer 2016
- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

This is a Report Only indicator for 2017. No PLs are assigned in 2017. This indicator is reported for district information and planning purposes.

Notes

- The new list of CTE nontraditional courses for the 2015-2016 school year is located in Appendix A of this manual.
- Students with PEIMS CTE status codes 1 (Career/Technology Elective), 2 (Coherent Sequence), or 3 (Tech Prep) are included in the calculation of this indicator.
- Each student is counted for each course completed. For example, a student completing five nontraditional courses is counted five times in this indicator.
- Course completion data are for the 2015-2016 school year and are the most current data available for use in the 2017 PBMAS.
CTE Indicator #8: CTE Nontraditional Course Completion Rate-Females (Report Only)

This indicator measures the percent of female Career and Technical Education (CTE) students in Grades 9-12 who completed courses that are nontraditional for their gender.

Calculation
\[
\frac{\text{number of female CTE students in Grades 9-12 who completed female nontraditional courses}}{\text{number of CTE students in Grades 9-12 who completed female nontraditional courses}}
\]

Data Source

The data for this indicator are based on the number of all Grades 9-12 (Element E0017) CTE (Element E0031) students (denominator) and female (Element E0004) Grades 9-12 CTE students (numerator) reported by the district on the TSDS PEIMS 40100 Sub-Category who were also reported on the TSDS PEIMS 43415 Sub-Category as having earned credit (Element E0949) for completing (E0948 = 0, 2, 5, or 9) one or more female nontraditional courses (Element E0724).

Every Student Succeeds Act (ESSA)

Indicators (1 – 8)
ESSA Indicator #1(i-v): Title I, Part A STAAR 3-8 Passing Rate

This indicator measures the percent of Title I, Part A students who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

Calculation

\[
\frac{\text{number of Title I, Part A STAAR 3-8 [subject (i-v)] passers}}{\text{number of Title I, Part A STAAR 3-8 [subject (i-v)] takers}}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as Title I, Part A (Title I, Part A indicator codes 6, 7, or 9).

Overall Processing Criteria

- MSR: Denominator ≥ 30

Notes

- The Title I, Part A STAAR 3-8 passing rate is based on STAAR, STAAR Spanish, and STAAR Alternate 2 results from the following grade-level assessments: mathematics (3-8), reading (3-8), science (5,8), social studies (8), and writing (4,7).
- Students assessed with STAAR Alternate 2 are included in the numerator if they achieve Level II performance or higher.
ESSA Indicator #2(i-iv): Title I, Part A STAAR EOC Passing Rate

This indicator measures the percent of Title I, Part A students who met the minimum level of satisfactory performance or higher on the STAAR EOC assessments (mathematics, science, social studies, and English language arts).

Calculation

\[
\text{number of Title I, Part A STAAR EOC [subject (i-iv)] passers} / \text{number of Title I, Part A STAAR EOC [subject (i-iv)] takers}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as Title I, Part A (Title I, Part A indicator codes 6, 7, or 9).

Notes

- The Title I, Part A STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.
ESSA Indicator #3: Title I, Part A Annual Dropout Rate (Grades 7-12)

This indicator measures the percent of Title I, Part A students in Grades 7-12 who dropped out in a given school year.

**Calculation**

\[
\frac{\text{number of Grades 7-12 Title I, Part A students who dropped out}}{\text{number of Grades 7-12 Title I, Part A students in attendance}}

**PL Assignment**

Each district’s Grades 7-12 Title I, Part A annual dropout rate is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

<table>
<thead>
<tr>
<th>ESSA Indicator</th>
<th>PL 0</th>
<th>PL 1</th>
<th>PL 2</th>
<th>PL 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>

<td>1.9% - 3.3%</td>
<td>3.4% - 5.3%</td>
<td>5.4% - 100%</td>
</tr>
</tbody>
</table>

**Notes**

Dropout data are for the 2015-2016 school year and are the most current data available for use in the 2017 PBMAS.
ESSA Indicator #4: Title I, Part A Graduation Rate

This indicator measures the percent of Title I, Part A students who graduated with a high school diploma in four years.

Calculation
\[
\text{number of Title I, Part A students in the Grade 9 cohort who graduated with a high school diploma} \\
\text{number of Title I, Part A students in the class of 2016}
\]

Data Source
- For additional information about data sources and methods for calculating the Title I, Part A graduation rate, see the Secondary School Completion and Dropouts in Texas Public Schools report available at http://tea.texas.gov/acctres/dropcomp_index.html.
- Confidential student-level listings of Title I, Part A cohort members are available to districts through the secure Accountability TEASE application. Select the Research and Analysis (RES) tab for more information.

Overall Processing Criteria
- MSR: Denominator ≥ 30
- RI: Yes
- SA: No
- Year(s) of Data Available for Analysis: 3
- Accountability Subset: No
- Section II of this manual includes detailed information on these and other PBMAS components.

Notes

Graduation data are for the class of 2016 and are the most current data available for use in the 2017 PBMAS.
ESSA Indicator #5(i-v): Migrant STAAR 3-8 Passing Rate

This indicator measures the percent of migrant students who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

Calculation

\[
\text{number of migrant STAAR 3-8 [subject (i-v)] passers} \\
\text{number of migrant STAAR 3-8 [subject (i-v)] takers}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as a migrant student (migrant student indicator code).

Overall Processing Criteria

- MSR: Denominator ≥ 30
- RI: Yes
- SA: Yes (New!)
- Year(s) of Data Available for Analysis: 3 (New!)
- Accountability Subset: Yes
- Test Administrations: Spring 2017 and May 2017 SSI retest

Notes

- The migrant STAAR 3-8 passing rate is based on STAAR, STAAR Spanish, and STAAR Alternate 2 results from the following grade-level assessments: mathematics (3-8), reading (3-8), science (5,8), social studies (8), and writing (4,7).
- Students assessed with STAAR Alternate 2 are included in the numerator if they achieve Level II performance or higher.
ESSA Indicator #6(i-iv): Migrant STAAR EOC Passing Rate

This indicator measures the percent of migrant students who met the minimum level of satisfactory performance or higher on the STAAR EOC assessments (mathematics, science, social studies, and English language arts).

**Calculation**

\[
\text{number of migrant STAAR EOC [subject (i-iv)] passers} \\
\text{number of migrant STAAR EOC [subject (i-iv)] takers}

**Notes**

- The migrant STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.
ESSA Indicator #7: Migrant Annual Dropout Rate (Grades 7-12)

This indicator measures the percent of migrant students in Grades 7-12 who dropped out in a given school year.

**Calculation**

\[
\text{number of Grades 7-12 migrant students who dropped out} \div \text{number of Grades 7-12 migrant students in attendance}
\]

**Data Source**

- For additional information about data sources and methods for calculating the annual dropout rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at [http://tea.texas.gov/acctres/dropcomp_index.html](http://tea.texas.gov/acctres/dropcomp_index.html).

Special Education (SPED)

Indicators (1 – 11)
SPED Indicator #1(i-v): SPED STAAR 3-8 Passing Rate

This indicator measures the percent of students served in special education (SPED) who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

Calculation

\[
\frac{\text{number of SPED STAAR 3-8 [subject (i-v)] passers}}{\text{number of SPED STAAR 3-8 [subject (i-v)] takers}}
\]

Data Source

The data for this indicator are based on the performance of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as participating in a special education program (special education indicator code).

Overall Processing Criteria

Notes

- The special education STAAR 3-8 passing rate is based on STAAR, STAAR Spanish, and STAAR Alternate 2 results from the following grade-level assessments: mathematics (3-8), reading (3-8), science (5,8), social studies (8), and writing (4,7).
- Students assessed with STAAR Alternate 2 are included in the numerator if they achieve Level II performance or higher.
SPED Indicator #2(i-v): SPED Year-After-Exit (YAE) STAAR 3-8 Passing Rate

This indicator measures the percent of students formerly served in special education (SPED) who met the minimum level of satisfactory performance or higher on the STAAR 3-8 assessments (mathematics, reading, science, social studies, and writing).

Calculation

\[
\frac{\text{number of SPED YAE STAAR 3-8 [subject (i-v)] passers}}{\text{number of SPED YAE STAAR 3-8 [subject (i-v)] takers}}

Notes

- The SPED STAAR EOC passing rate is based on STAAR and STAAR Alternate 2 results from the following EOC assessments as applicable: mathematics (Algebra I), science (Biology), social studies (U.S. History), and English language arts (English I and II).
- Students assessed with STAAR Alternate 2 EOC are included in the numerator if they achieve Level II performance or higher.
- The performance standard in place when a student first takes an EOC assessment is the standard that is maintained throughout the student’s school career.
SPED Indicator #4: SPED STAAR Alternate 2 Participation Rate

This indicator measures the percent of students in Grades 3-9 served in special education (SPED) who were tested on STAAR Alternate 2 in all subjects applicable to the student’s grade level.

Calculation

\[
\text{number of students in Grades 3-9 served in special education tested on STAAR Alternate 2 for all subjects applicable to the student's grade level} \\
\text{number of students in Grades 3-9 served in special education for whom any STAAR assessment was submitted}
\]

Data Source

The data for this indicator are based on the participation of students reported by the district on the TSDS PEIMS 40110 Sub-Category as enrolled in the district and also reported on the STAAR assessments as participating in a special education program (special education indicator code).

Overall Processing Criteria

Notes

- The SPED STAAR Alternate 2 participation rate denominator includes STAAR, STAAR Spanish, and STAAR Alternate 2 assessments.
- Students qualifying for a Medical Exception or a No Authentic Academic Response designation are not included in the calculation of this indicator.
- Students will count in the numerator if they test on STAAR Alternate 2 for all applicable grade-level or EOC assessments: mathematics (3-8 and Algebra I), reading (3-8 and English I), science (5, 8, and Biology), social studies (8), and writing (4, 7, and English I).
SPED Indicator #5: SPED Regular Early Childhood Program Rate (Ages 3-5)

This indicator measures the percent of students ages 3-5 served in special education (SPED) who were placed in a regular early childhood program.

Calculation

\[
\text{number of students ages 3-5 served in special education reported with PPCD service location code 1 or 4 and placed in instructional settings 00, 40, 41, 81, 82, 91, and 92} \\
\text{number of students ages 3-5 served in special education}
\]

Data Source

The data for this indicator are based on the number of special education students reported by the district on the TSDS PEIMS 40110 and 41163 Sub-Categories (Elements E0832, E1077, and E0173) as enrolled in the district with Child Count Funding Type 3 (denominator) and reported with Preschool Program for Children with Disabilities (PPCD) service location code 1 or 4 and placed in instructional settings 00, 40, 41, 81, 82, 91, and 92 (numerator).

Notes

- The student’s age, derived from the TSDS PEIMS 40100 Sub-Category (Element E0006), must be at least 3 and less than 6 as of October 28, 2016.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- A complete list and descriptions of all instructional settings can be found in the Texas Education Data Standards (TEDS) available at: [http://www.texasstudentdatasystem.org/TSDS/TEDS/TEDS_Latest_Release/](http://www.texasstudentdatasystem.org/TSDS/TEDS/TEDS_Latest_Release/).
SPED Indicator #6: SPED Regular Class ≥80% Rate (Ages 6-21)

This indicator measures the percent of students ages 6-21 served in special education (SPED) in the regular class 80% or more of the day.

Calculation

\[
\frac{\text{number of students ages 6-21 served in special education and placed in instructional settings 00, 40, 41, 81, 82, 91, and 92}}{\text{number of students ages 6-21 served in special education}} \times 100\%

- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

Each district’s SPED regular class ≥80% rate (ages 6-21) is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

<table>
<thead>
<tr>
<th>SPED Indicator</th>
<th>PL 0</th>
<th>PL 1</th>
<th>PL 2</th>
<th>PL 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>6</td>
<td>70.0% - 100%</td>
<td>57.0% - 69.9%</td>
<td>45.1% - 56.9%</td>
<td>0% - 45.0%</td>
</tr>
</tbody>
</table>

Notes

- The student’s age, derived from the TSDS PEIMS 40100 Sub-Category (Element E0006), must be at least 6 as of October 28, 2016 and less than 22 as of September 1, 2016.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- A complete list and descriptions of all instructional settings can be found in the TEDS available at: http://www.texasstudentdatasystem.org/TSDS/TEDS/TEDS_Latest_Release/.
SPED Indicator #7: SPED Regular Class <40% Rate (Ages 6-21)

This indicator measures the percent of students ages 6-21 served in special education (SPED) in the regular class less than 40% of the day.

Calculation

\[
\text{number of students ages 6-21 served in special education and placed in instructional settings} \\
\text{08, 44, 85, 88, and 95} \\
\text{number of students ages 6-21 served in special education}
\]

Data Source

The data for this indicator are based on the number of special education students reported by the district on the TSDS PEIMS 40110 and 41163 Sub-Categories (Elements E0832 and E0173) as enrolled in the district with Child Count Funding Type 3 (denominator) and placed in instructional settings 08, 44, 85, 88, and 95 (numerator).

Overall Processing Criteria

- MSR:
  - Denominator ≥ 30
  - Numerator ≥ 10 *(New!)*
- RI: Yes *(New!)*
- SA: No
- Year(s) of Data Available for Analysis: 2 *(New!)*
- Accountability Subset: No
- Applicable TSDS PEIMS Collections: Fall 2016
- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

Each district’s SPED regular class <40% rate (ages 6-21) is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

<table>
<thead>
<tr>
<th>SPED Indicator</th>
<th>PL 0</th>
<th>PL 1</th>
<th>PL 2</th>
<th>PL 3</th>

<td>10.1% - 18.9%</td>
<td>19.0% - 20.9%</td>
<td>21.0% - 100%</td>
</tr>
</tbody>
</table>

As required by federal regulations under 34 CFR Part 300, each district’s SPED regular class <40% rate is also disaggregated by the following racial and ethnic groups: (1) Hispanic/Latino; (2) American Indian or Alaska Native; (3) Asian; (4) Black or African American; (5) Native Hawaiian or Other Pacific Islander; (6) White; and (7) Two or More Races. PLs of significant disproportionality will be assigned for any racial/ethnic group if the racial/ethnic group’s risk ratio exceeds 2.5.

<table>
<thead>
<tr>
<th>PL SD Year 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Significant Disproportionality (SD) Risk Ratio</td>
</tr>
</tbody>
</table>

Risk Ratios:

\[
\frac{\text{racial/ethnic group’s <40\% rate}}{\text{other students’ <40\% rate}}
\]
Notes

- The student’s age, derived from the TSDS PEIMS 40100 Sub-Category (Element E0006), must be at least 6 as of October 28, 2016 and less than 22 as of September 1, 2016.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- Students whose attribution code on the TSDS PEIMS 40110 Sub-Category (Element E1000) indicates a court-ordered placement (attribution codes 21, 22, 25, or 26) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose instructional setting code on the TSDS PEIMS 41163 Sub-Category (Element E0173) is 01 (Homebound); 02 (Hospital Class); or 30 (State Supported Living Centers) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose code on the TSDS PEIMS 41163 Sub-Category (Element E0833) is 3 (Receiving instructional services from the Regional Day School Program for the Deaf) are not included in the calculation of this indicator in either the numerator or denominator.
- A complete list and descriptions of all instructional settings can be found in the TEDS available at: http://www.texasstudentdatasystem.org/TSDS/TEDS/TEDS_Latest_Release/
- Significant disproportionality risk ratios are based on one year of data.
- Per federal regulations (34 CFR §300.647), a significant disproportionality risk ratio is not calculated when a district does not meet the MSR for a particular racial or ethnic group. However, if a district meets the MSR for a particular racial or ethnic group but not for the comparison “other students” group, these federal regulations require a significant disproportionality risk ratio be calculated based on the alternate risk ratio, which uses the rates for “other students” in the state. If a district’s significant disproportionality PL was based on the alternate risk ratio, it will be so noted on the district’s PBMAS report.
- The intermediate results for significant disproportionality risk ratios are not rounded. This multiple decimal place precision helps ensure the accuracy of the final risk ratio values.
SPED Indicator #8: SPED Separate Settings Rate (Ages 6-21)

(New!) This indicator measures the percent of students ages 6-21 served in special education (SPED) in separate settings.

**Calculation**

\[
\frac{\text{number of students ages 6-21 served in special education and placed in instructional settings 30, 50, 60, 70, 71, 86, 87, 96, and 97}}{\text{number of students ages 6-21 served in special education}}
\]

**Data Source**

The data for this indicator are based on the number of special education students reported by the district on the TSDS PEIMS 40110 and 41163 Sub-Categories (Elements E0832 and E0173) as enrolled in the district with Child Count Funding Type 3 (denominator) and placed in instructional settings 30, 50, 60, 70, 71, 86, 87, 96, and 97 (numerator).

SPED Indicator #9: SPED Annual Dropout Rate (Grades 7-12)

This indicator measures the percent of students in Grades 7-12 served in special education (SPED) who dropped out in a given school year.

Calculation

\[
\text{number of Grades 7-12 students served in special education who dropped out} \\
\text{number of Grades 7-12 students served in special education in attendance}
\]

Data Source

- For additional information about data sources and methods for calculating the annual dropout rate, see the Secondary School Completion and Dropouts in Texas Public Schools report available at http://tea.texas.gov/acctres/dropcomp_index.html.
- Confidential student-level listings of dropouts served in special education are available to districts through the secure Accountability TEASE application. Select the Research and Analysis (RES) tab for more information.

Overall Processing Criteria

- MSR:
  - Denominator ≥ 30
  - Numerator ≥ 5
- RI: Yes
- SA: Yes
- Year(s) of Data Available for Analysis: 3
- Accountability Subset: No
- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

Each district’s Grades 7-12 SPED annual dropout rate is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

<table>
<thead>
<tr>
<th>SPED Indicator</th>
<th>PL 0</th>
<th>PL 1</th>
<th>PL 2</th>
<th>PL 3</th>

<td>1.9% - 3.3%</td>
<td>3.4% - 5.3%</td>
<td>5.4% - 100%</td>
</tr>
</tbody>
</table>

Notes

Dropout data are for the 2015-2016 school year and are the most current data available for use in the 2017 PBMAS.
SPED Indicator #10: SPED Graduation Rate

This indicator measures the percent of students served in special education (SPED) who graduated with a high school diploma in four years.

**Calculation**

\[
\frac{\text{number of students in the Grade 9 cohort served in special education who graduated with a high school diploma}}{\text{number of students in the class of 2016 served in special education}}
\]

**Data Source**

- For additional information about data sources and methods for calculating the special education graduation rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at [http://tea.texas.gov/actres/dropcomp_index.html](http://tea.texas.gov/actres/dropcomp_index.html).
- Confidential student-level listings of special education cohort members are available to districts through the secure Accountability TEASE application. Select the Research and Analysis (RES) tab for more information.

**Overall Processing Criteria**

- MSR: Denominator ≥ 30
- RI: Yes
- SA: No
- Year(s) of Data Available for Analysis: 3
- Accountability Subset: No
- Section II of this manual includes detailed information on these and other PBMAS components.

**PL Assignment**

Each district’s SPED graduation rate is compared to the PBMAS cut points for the indicator, and PLs are assigned as follows:

<table>
<thead>
<tr>
<th>SPED Indicator</th>
<th>PL 0</th>
<th>PL 1</th>
<th>PL 2</th>

<td>70.0% - 79.9%</td>
<td>55.0% - 69.9%</td>
<td>0% - 54.9%</td>
</tr>
</tbody>
</table>

**Notes**

Graduation data are for the class of 2016 and are the most current data available for use in the 2017 PBMAS.
SPED Indicator #11: SPED Representation (Ages 3-21)

This indicator measures the disaggregated percent of enrolled students (ages 3-21) who received special education (SPED) services.

Calculation

\[
\frac{\text{number of [racial/ethnic group] enrolled students ages 3-21 served in special education}}{\text{number of [racial/ethnic group] students ages 3-21 enrolled}}
\]

Data Source

The data for this indicator are based on the number of students reported by the district on the TSDS PEIMS 40110 and 41163 Sub-Categories (Element E0832) as enrolled in the district (denominator) with Child Count Funding Type 3 and receiving special education services (numerator).

Overall Processing Criteria

- MSR:
  - Denominator ≥ 30
  - Numerator ≥ 10 (New!)
- RI: No
- SA: No
- Year(s) of Data Available for Analysis: 1
- Accountability Subset: No
- Applicable TSDS PEIMS Collections: Fall 2016
- Section II of this manual includes detailed information on these and other PBMAS components.

PL Assignment

As required by federal regulations under 34 CFR Part 300, each district’s SPED representation rate is disaggregated by the following racial and ethnic groups: (1) Hispanic/Latino; (2) American Indian or Alaska Native; (3) Asian; (4) Black or African American; (5) Native Hawaiian or Other Pacific Islander; (6) White; and (7) Two or More Races. Furthermore, the data for each racial/ethnic group is also disaggregated by the following disability categories: (1) Intellectual Disabilities; (2) Specific Learning Disabilities; (3) Emotional Disturbance; (4) Speech/Language Impairments; (5) Other Health Impairments; and (6) Autism. PLs of significant disproportionality will be assigned for any racial/ethnic group or disability category if the racial/ethnic group’s or disability category’s risk ratio exceeds 2.5.

<table>
<thead>
<tr>
<th>Significant Disproportionality (SD) Risk Ratio</th>
<th>&gt; 2.5 - MAX</th>
</tr>
</thead>
<tbody>
<tr>
<td>PL SD Year 1</td>
<td></td>
</tr>
</tbody>
</table>

Risk Ratios:

\[
\frac{\text{racial/ethnic group's representation rate}}{\text{other students' representation rate}} > 2.5 - MAX
\]

\[
\frac{\text{racial/ethnic group's disability category}}{\text{other students' disability category}} > 2.5 - MAX
\]
Notes

- A district is obligated to identify and provide a free appropriate public education to all students with disabilities who require special education services.
- The student’s age, derived from the TSDS PEIMS 40100 Sub-Category (Element E0006), must be at least 3 as of October 28, 2016 and less than 22 as of September 1, 2016.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- Students whose attribution code on the TSDS PEIMS 40110 Sub-Category (Element 1000) indicates a court-ordered placement (attribution codes 21, 22, 25, or 26) are not included in the calculation of this indicator in either the numerator or denominator.
- Significant disproportionality risk ratios are based on one year of data.
- Per federal regulations (34 CFR §300.647), a significant disproportionality risk ratio is not calculated when a district does not meet the MSR for a particular racial or ethnic group or disability category. However, if a district meets the MSR for a particular racial/ethnic group or disability category but not for the comparison “other students” group, these federal regulations require a significant disproportionality risk ratio be calculated based on the alternate risk ratio, which uses the risk for “other students” in the state. If a district’s significant disproportionality PL was based on the alternate risk ratio, it will be so noted on the district’s PBMAS report.
- The intermediate results for significant disproportionality risk ratios are not rounded. This multiple decimal place precision helps ensure the accuracy of the final risk ratio values.
- If a district’s LEP representation risk ratio exceeds 2.5, it will be included on the district’s report and assigned a PL 3.
Appendix: A – Career and Technical Education Nontraditional Courses (2015-2016 School Year)

The federal Carl D. Perkins law requires states to measure participation in nontraditional courses. Nontraditional courses are defined as occupations or fields of work, including careers in computer science, technology, and other emerging high skill occupations, for which individuals from one gender comprise less than 25 percent of the individuals employed in each such occupation or field of work. The courses below were selected because, generally, they are occupationally specific courses in which the enrollment of one gender falls below 25 percent. Gender enrollments in the courses are reviewed annually at the state and local levels as part of the Carl D. Perkins reporting process.

Appendix: B – Comments, Questions, and Review of Incorrect PL Assignments

The Texas Education Agency welcomes comments and questions concerning PBMAS district PLs. In addition, if a district determines that one or more 2017 PBMAS PL assignments were based on a data or calculation error attributable to the agency or one of the agency’s data contractors, the district should submit specific information about the error, no later than September 15, 2017, to the address below. Requests based on disagreement with the 2017 PBMAS indicators, cut points, and methodologies adopted in rule or requests based on districts’ data errors will not be considered.
