Overview

General Information

This document supplements the *District and Campus Coordinator Manual* and the appropriate State of Texas Assessments of Academic Readiness (STAAR®) test administrator manual with instructions for administering TEA-approved paper administrations of the grades 3–8 and end-of-course (EOC) STAAR with Embedded Supports tests. This manual should be used in conjunction with those manuals.

Coordinators and test administrators involved in paper administrations of STAAR with Embedded Supports must be trained in the administration procedures outlined in the appropriate STAAR manual and in procedures specific to paper administrations of STAAR with Embedded Supports. Testing personnel must review and follow the instructions in this guide. Coordinators should ensure that testing personnel have the information they need in time to ask questions and prepare for the test administration.

Testing personnel must also follow the test security and confidentiality requirements in the STAAR manuals and the *Test Security Supplement* as applicable to paper administrations.

Use of This Document

During paper administrations of STAAR with Embedded Supports, the test administrator uses the secure designated supports tables and supporting images in this guide to provide accommodations to selections and test questions. Content and language supports may include clarification of words or phrases, the addition of graphics, photographs, and formulas, or indication by the test administrator of

certain parts of the selection, test question, or reference materials. The test administrator may provide an oral administration to eligible students; however, the student's test booklet will indicate text that cannot be read aloud with a “*DO NOT READ*” icon. Please refer to the Oral/Signed Administration policy document and the Oral/Signed Administration Guidelines for more information.

Student responses will be recorded on scorable paper answer documents. The student may record his or her own answers, or the test administrator may record the student's responses if the student is eligible for Basic Transcribing or approved for Complex Transcribing.

Organization of This Document

The *STAAR with Embedded Supports Paper Administration Guide* consists of the following sections:

- district and campus coordinator instructions on preparing for and administering a STAAR with Embedded Supports paper test
- test administrator **SAY** directions
- secure subject-specific supports provided in tables
- secure subject-specific supporting images for selections and test questions
- security oath

Designated Supports Information

Locally approved designated supports include accommodations that may be made available to students who meet the eligibility criteria. The decision to provide these designated supports to a student is made by the appropriate team of people at the campus level based on the eligibility criteria indicated in each policy document. Detailed information about STAAR accessibility, including state policy for designated supports, can be found on the Texas Education Agency's (TEA's) Accommodation Resources webpage.

If a student needs a designated support that requires TEA approval (e.g., mathematics scribe, extra day), this request should have been submitted to TEA in the request for a paper administration of STAAR with Embedded Supports. An Accommodation Request Form should **NOT** be submitted. Contact TEA's Accommodation Task Force at 512-463-9536 if you have questions.

District and Campus Coordinators

Designate and Train Test Administrators

Campus coordinators should schedule training sessions before testing begins. Prior to the training session, test administrators should review this guide, refer to the appropriate STAAR test administrator manual for procedures that are applicable to paper administrations, and review any additional online resources, as instructed by the campus coordinator. Test administrator training should also include the following:

- **Test security and confidentiality requirements.** It is important that test administrators understand their obligations concerning test security and confidentiality since they will be viewing a secure state assessment. Coordinators and test administrators can find this information in the appropriate STAAR test administrator manual and the *Test Security Supplement*. The test administrator must sign the Oath of Test Security and Confidentiality for Test Administrator document. This includes the bottom section of the oath for test administrators who are authorized to view secure state assessments.
- **Time limits.** The STAAR Policies and Procedures document applies to STAAR with Embedded Supports; it can be found on the TEA's District and Campus Coordinator Manual Resources webpage. Test sessions should be scheduled for the applicable amount of time (four or five hours depending on the subject) unless a student is eligible to receive an extended time accommodation [i.e., extra time (same day), extra day].
- **Preparing students to receive designated supports.** Test administrators providing designated supports must receive additional training and should be familiar with the subject matter assessed and the needs of the students. Test

administrators should talk to students before the test session to prepare them for testing with designated supports, explain how the STAAR with Embedded Supports paper test session will be conducted, and explain the types of designated supports students will receive. Although students are familiar with classroom accommodations, test administrators might need to review particulars about their use in a testing situation. The test administration directions assume that students have already been informed about their particular designated supports. This information should also include any accessibility features students need. Detailed information about the state accessibility policy, including information about accessibility features and designated supports, can be found on the TEA's Accommodation Resources webpage.

- **Administration groupings.** Because test administrators respond to student requests for reading text aloud and presenting additional accommodations, individual or small group administrations may be necessary.

Receive, Verify, and Distribute Materials to Campuses

A district will receive a shipment of test materials for each TEA-approved request for a paper administration of STAAR with Embedded Supports. If a district submits separate requests, materials will be sent upon approval of each request. The following materials are included:

- packing list
- test booklet(s) (including large print, if applicable)

- answer documents (see the instructions in the *District and Campus Coordinator Manual* for completing the fields on the answer document). Answer documents for STAAR with Embedded Supports paper versions are different than the answer documents for the general STAAR test.
- the applicable *STAAR with Embedded Supports Paper Administration Guides* (one guide for every three students for each subject or, for large print orders, one guide for one student for each subject)
- supplemental materials, including Punnett squares and writing checklists (if applicable)
- shipping information, as detailed in the *District and Campus Coordinator Manual*

District coordinators should verify that the shipment is complete and immediately forward it to the campus coordinator.

Review of Shipment by Campus Coordinator

- Retain the packing list throughout the testing process. Verify that the number of secure test booklets and *STAAR with Embedded Supports Paper Administration Guides* matches the quantity indicated on the packing list.
- Verify that the ten-digit security numbers on the back of each test booklet match the range of numbers on the packing list. The letter “S” in front of the security number should be ignored.
- If a discrepancy is found between the campus packing list and the secure booklets and *STAAR with Embedded Supports Paper Administration Guides* received, the campus coordinator should report it immediately to the district coordinator.
- To account for secure test materials (test booklets and *STAAR with Embedded Supports Paper Administration Guides*) signed

out to test administrators, campus coordinators must use the Materials Control Form for STAAR with Embedded Supports Paper Administrations provided in this guide. Every test administrator will need a *STAAR with Embedded Supports Paper Administration Guide* for each subject administered. The range of security numbers of the test booklets assigned to each test administrator must be recorded. Test administrators must verify that they have received the test materials assigned to them, as recorded on the Materials Control Form, and that they have signed their security oath. Test administrators are responsible for the test materials until returning them to the campus coordinator. Secure materials must be checked out and back in on the day of the test.

Materials for Test Sessions

On the day of the test, test administrators must be provided the materials listed below for each student. Test administrators should keep the materials in locked storage until immediately before testing.

- two No. 2 pencils with erasers per student
- one answer document per student
- one secure test booklet per student
- one secure test booklet for the test administrator (if needed)
- one secure *STAAR with Embedded Supports Paper Administration Guide* that corresponds to the student’s test subject
- separate supplemental materials, including Punnett squares and writing checklists (if applicable)
- required dictionary per the STAAR Dictionary Policy (if applicable)
- required calculator per the STAAR Calculator Policy (if applicable)

- other allowable accessibility features or designated supports for students provided based on student need or eligibility (if applicable)
- any additional TEA-authorized materials or devices that are approved or allowed, as needed

Reference materials and graph paper for STAAR with Embedded Supports mathematics and science assessments are included in the test booklets as applicable. These materials are printed on perforated pages so that students can remove them and use them during the test administration.

If applicable, supplemental materials will be provided as separate handouts (e.g., Punnett squares for biology and writing checklists for grades 4 and 7 writing, English I, and English II).

You must return all materials assigned to you at the end of the test session. The campus coordinator will initial the form to indicate that you have returned the materials.

Test booklets and STAAR with Embedded Supports Paper Administration Guides are secure materials. Keep them in locked storage when not in use.

Arrange for Testing Rooms and Organize Test Sessions

Follow the procedures in the *District and Campus Coordinator Manual* and this document to arrange for testing rooms and organize test sessions. Test sessions must be conducted under the best possible conditions.

Distribute Materials to Test Administrators

After test administrators have verified that they have received the exact quantity of test materials required, they must initial the “Out” box on the Materials Control Form. The test administrators’ initials signify that they have received the test materials assigned to them, as recorded on the form, and that they have signed their security oath.

Test administrators are responsible for the test materials until returning them to the campus coordinator. **All test materials assigned must be returned after the test session.**

Ensure Proper Testing Procedures

Test sessions must be conducted under the best possible conditions. Using the appropriate *STAAR Test Administrator Manual*, follow the procedures that are applicable to paper administrations. Also note the following:

- Students must record their answers on the answer document within the time limit. Students will not be permitted to record answers after the time limit has expired.
- Students must be reminded periodically to record their answers on the answer document. Test administrators may say, for example, “**Be sure to mark your answers on the answer document.**” However, test administrators may not view or discuss individual test questions or responses.

Unusable or Defective Test Materials

If a test booklet or answer document becomes unusable at any point during a test session, the test administrator must contact the campus coordinator for guidance.

Prepare Materials for Return

Student responses cannot be scored unless they are recorded using a No. 2 pencil on an answer document. Answers marked in a test booklet will not be scored. Only students are allowed to erase stray marks or darken answer choices (unless the test administrator is transcribing the student's response), and only during the scheduled test session.

After testing, return all test materials to the campus coordinator.

Receive Materials from Test Administrators After Testing

After testing, campus coordinators must check the security numbers of the test booklets against those assigned to the test administrators and ensure the return of all *STAAR with Embedded Supports Paper Administration Guides* and other test materials. When the materials are returned, the campus coordinator must initial the "In" box on the Materials Control Form. The initials indicate that test administrators have returned all test materials checked out to them as listed on the Materials Control Form. Keep the Materials Control Form for your records. Any scratch paper used by students must be destroyed immediately after testing. Campus coordinators should follow the instructions in the *District and Campus Coordinator Manual* for returning materials to the district coordinator.

Complete Paper Administration Process

Test administrators or other campus personnel should follow the instructions in the *District and Campus Coordinator Manual* for completing the SCORE CODE field and the ACCOMM. field on the answer document.

The codes available for use on the ACCOMM. field are BR (Braille), LP (Large Print), XD (Extra Day), and DS (Designated Supports). The DS bubble is for marking designated supports other than content and language supports (e.g., extra time, supplemental aids).

If these fields are not accurately completed, the test will not be correctly scored.

Return Materials to District Coordinator

Keep all secure materials in locked storage until they are shipped to the district coordinator. Nonscorable materials must be returned to the district coordinator after each administration by the date designated on the Calendar of Events.

Scorable materials include:

- used and voided answer documents

Nonscorable materials include:

- used and unused test booklets
- supplemental materials, such as Punnett squares and writing checklists (if applicable)
- large-print materials (if applicable)
- *STAAR with Embedded Supports Paper Administration Guides*

As district coordinators receive nonscorable materials from campuses, they must verify that campus coordinators have completed the following:

- submitted all nonscorable materials and assembled them correctly
- provided accurate counts of the materials submitted

Content and Language Supports

Test administrators must adhere to the following guidelines when administering a paper version of STAAR with Embedded Supports. Allowable test administrator-provided content and language support is specifically described in the accommodation tables.

Content and Language Supports (all subjects)

For selections and test questions that have words with dotted underlines in the student's test booklet, test administrators may provide supports provided in the "Content and Language Supports" column of the accommodation table. Test administrators are allowed to **SAY** something to the student, to **Show** the student an image, or to **Indicate** to the student specific information in the student's test booklet. This information may be repeated as often as necessary.

SAY: This text must be communicated to the student exactly as written. The information in the **SAY** text cannot be paraphrased, simplified, or shortened. The information can be stated, signed, or provided in written form. The test administrator may repeat the **SAY** information as many times as needed.

Show: Images that provide support for selections and test questions are located in this guide. The "Content and Language Supports" column in the accommodation table may instruct the test administrator to **Show** the student an image (e.g., political cartoon, chart, map, photo) on a specific page in the guide.

Indicate: In some instances, the test administrator will need to **Indicate** to the student specific information in the student's test booklet or on the mathematics or science reference materials, if applicable. The test administrator may **Indicate** information in the most appropriate way for that student (e.g., point to the information, cover the information not indicated, place the student's hand on the information).

At times words or phrases may be repeated in a question. If the repeated word is supported, a dotted underline will be shown on the first appearance of the word and the support will be provided in the Content and Language Support column of the table. For every other occurrence of the word **in the same question**, the test administrator may provide the same support from the table.

Selections and test questions that do not have any content or language supports are shaded and left blank in the accommodation tables.

If the student asks for clarification of a word or phrase that is NOT included in the "Content and Language Supports" column in the accommodation table, test administrators may say, "I can't help you with that; just do the best you can."

Supplemental materials, such as blank Punnett Squares for biology and writing checklists for grades 4 and 7 writing, and English I and English II, will be provided as separate handouts.

Accommodation Table Examples

The accommodation tables and supporting images in the *STAAR with Embedded Supports Paper Administration Guides* are secure. Test administrators must use these tables and supporting images when administering a paper version of STAAR with Embedded Supports. They contain information about the selections and test questions that may be accommodated throughout the administration of the test.

Format of the STAAR with Embedded Supports Paper Test

During a STAAR with Embedded Supports paper testing session, parts of selections and test questions in the student's test booklet will contain a dotted underline that indicates the text is eligible for a content or language support. The test administrator may remind the student that he or she can ask for support when they see this dotted underline in their test booklet.

If a student asks for underlined content and language support, the test administrator will refer to the accommodation tables and, if needed, the pages that contain supporting images. The test administrator will provide the support indicated in the accommodation table for the text specified in the selection or test question. For each item, test administrators may only provide support for words or phrases that appear in the accommodation table.

Examples

The dotted underline indicates that the test administrator may provide the accommodation located in the accommodation tables.

- 1 Why does the poet include a simile in line 22?
- A To emphasize the delicateness of the butterflies
 - B To identify another animal that inhabits the area
 - C To describe how the butterflies become less attractive over time
 - D To express the idea that the area will be less beautiful without the butterflies

Test Question Number	Parts of Test Question with Dotted Underlines	Content and Language Supports
1	simile	SAY A simile is a comparison of two things that are not alike using the words <i>like</i> or <i>as</i> .
	line 22	Indicate line 22 in the poem in the student's test booklet.
	A delicateness	SAY weakness
	B inhabits	SAY lives in

The dotted underline indicates that the test administrator may provide the accommodation located in the accommodation tables.

- 1 Clara Barton is well known in U.S. history for —
- A establishing the Underground Railroad to assist/runaway slaves
 - B organizing the Seneca Falls Convention to promote women’s rights
 - C founding the American Red Cross to assist victims of war and natural disaster
 - D instituting the Anti-Saloon League to promote temperance

Test Question Number	Parts of Test Question with Dotted Underlines	Content and Language Supports
1	Clara Barton	Show photo on page 41.
	A <u>establishing</u>	SAY creating
	B <u>promote</u>	SAY encourage
	C <u>assist</u>	SAY help
	D <u>instituting</u>	SAY creating

Read Aloud Support

The test administrator will use a student test booklet to read aloud the following test content based on the needs of the student.

- mathematics, science, and social studies assessments: the entire test
- reading: prereading text and test questions and answer choices
- writing: all prereading text, revising selections, revising test questions and answer choices, and the entire writing prompt
- English I and English II: all prereading text, reading test questions and answer choices, revising selections, revising test questions and answer choices, and the entire writing prompt

The test administrator may **NOT** read aloud specific test content. A symbol  in the student's booklet will signify that the test administrator may **NOT** read aloud the following.

- reading selections (reading, English I, and English II assessments)
- editing selections (writing, English I, and English II assessments)
- editing questions and answer choices (writing, English I, and English II assessments)

Content and Language Supports for Students who are Blind or Visually Impaired

For students who are eligible for content and language supports and take the braille version of STAAR, the test administrator will use the paper version of STAAR with Embedded Supports and associated administration guide to provide these supports. In addition, the test administrator must have the new Specific Braille Instructions for Content and Language Supports available in the STAAR Assessment Management System. This document will provide the following information: picture descriptions of content and language support images from the administration guide and graphics (e.g., charts, tables, graphs) that may be reproduced for accessibility (e.g., braille graphics, pairing graphics with tactile symbols, texts, or objects, enlarging or projecting). The Specific Braille Instructions for Content and Language Supports is not meant to replace any STAAR administration materials, but must be used in conjunction with the appropriate Specific Braille Instructions for the test being administered.

For students who are visually impaired and approved to take the paper version of STAAR with Embedded Supports, the test administrator may also use the new Specific Braille Instructions for Content and Language Supports available in the Assessment Management System if the student cannot appropriately access the images in the administration guide.

Types of Student Responses

Student responses will be recorded on scorable paper answer documents. Answer documents for STAAR with Embedded Supports paper version are different than the answer documents for the general STAAR test. The student may record his or her own answers, or the test administrator may record the student's responses if the student is eligible for Basic Transcribing or approved for Complex Transcribing.

When transcribing a student's responses to griddable questions, the Transcribing Griddable Questions document must be printed and provided to each student who does not use his or her answer document so that the student is aware of the maximum number of boxes available for an answer to a griddable question. Blank Transcribing Griddable Questions student documents are available on the Assessment Management System two weeks prior to testing. This separate sheet must be used by the test administrator who transfers the student's responses onto the answer document. District or campus testing coordinators must print the applicable student documents prior to testing and destroy them after transcription is complete.

Test Administration Directions—English I and English II

Before reading the administration directions aloud, distribute the following materials to students if they do not already have them:

- two No. 2 pencils with erasers per student
- one test booklet per student
- one answer document per student
- one expository (English I) or persuasive (English II) writing checklist per student
- other designated supports (if applicable)
- any additional TEA-authorized materials needed for administering the test
- dictionaries as per the STAAR Dictionary Policy

For ELLs, test administrators are allowed to translate, simplify, or repeat oral instructions as long as the substance of the directions is not changed.

For students receiving designated supports, the test administrator is permitted to modify the directions when needed.

The following statement should be provided to students who are receiving an extended time or additional day designated support. The test administrator should say, for example, **“You will have [until the end of the school day; two days] to complete this test...”**

The following statement is only for students who are receiving basic transcribing. The test administrator should say, for example, **“All of your answers and compositions must be recorded [per student’s method of response] before the end of the five-hour time period.”**

Students may work through the sections in any order that works best for them.

Read aloud **WORD FOR WORD** the material that is printed in **bold** type and preceded by the word **“SAY.”** You may repeat the directions as many times as needed. The material in *italics* is information meant for you and should not be read aloud to students.

SAY Today you will be taking the State of Texas Assessments of Academic Readiness—STAAR [COURSE] test. It is important for you to do your best. I am going to give each of you a test booklet. When you get your test booklet, do not open it or write on it until I ask you to do so. Do not fill in any information on your answer document until I ask you to do so. If you have any questions while I am passing out the test booklets, please let me know. Keep your pencil on your desk until I tell you that you may use it.

Give a test booklet to each student. Answer any questions before continuing.

Students must write their first and last names on their test booklets and complete the TEST BOOKLET # field on their answer documents at this time. Directions for completing this information follow.

SAY Look at your test booklet. Does everyone see “[COURSE]” on the front of your booklet?

Assist any students who do not have the correct answer document or test booklet.

SAY Print your first and last name in the space marked “STUDENT NAME” at the top of your test booklet.

When all students have finished, continue.

SAY On the back of each test booklet is a printed number. Each booklet has a different number. This number has ten digits. Ignore the “S” in front of the number. You need to look at only the ten digits of the number after the “S”.

Hold up one of your student’s test booklets and point to the security number on the back.

SAY Now look at the top of your answer document. Check that the name on your answer document is correct.

Assist any students who need help.

SAY Does everyone see “[COURSE]” at the top-left side of your answer document?

Assist any students who do not have the correct answer document.

SAY Now find the words “TEST BOOKLET #” at the top of your answer document.

Point to the TEST BOOKLET # field on the answer document given to you for demonstration purposes. When students have located this section, continue.

SAY Copy all ten digits printed after the “S” from the back of your test booklet into the boxes beside the words “TEST BOOKLET #” on your answer document. Be sure to copy this number exactly as it appears. Do not copy the letter “S” in front of the number. If you have any questions, please raise your hand.

Continue to use your sample answer document to point out to students where to find specific items on their answer document. Monitor students closely while they copy the security number. When all students have finished, continue.

SAY Now open your answer document to page 2. Look at the honor statement located at the top of the page. Please read and sign the honor statement. If you would like me to read aloud any words or sentences in the honor statement, let me know.

If a student asks if he or she must sign the honor statement, tell the student, “That decision is up to you. Signing the honor statement is not required, but you are expected to follow the testing rules even if you do not sign it.”

It is not the responsibility of the test administrator to check to see if students have signed the honor statement.

When students have had time to complete the honor statement, continue.

SAY You may use a dictionary throughout this test.

Continue to use your sample answer document to point out to students where to find specific items on their answer document.

SAY You will mark your answers to the multiple-choice questions on page 2 of your answer document. Be sure to mark only one answer on your answer document for each question. Mark your answer very carefully and make your mark dark and neat. If you find that you want to change an answer, completely erase your first response. Then mark your new choice. Are there any questions about how to record your answers to the multiple-choice questions?

Check that all students have found the correct place on their answer document. Answer all questions before continuing. When all students are ready, continue.

SAY Now turn to the page titled “WRITING” in your test booklet.

Then turn to the next page to find the prereading text for the first selection. Every time you see prereading text, I can read it aloud to you to let you know what the selection will be about. If you see a STOP sign at the bottom of a page, this tells you that you are about to read another selection. Let me know if you would like me to read the prereading text before you read that selection.

Check that all students have found the correct place in their test booklet. Answer all questions before continuing. When all students are ready, continue.

SAY Now turn to the next page to find the first selection. Notice that in the selection there is a number before each sentence. These numbers will help you find the sentence or sentences you will need in order to answer the questions that follow.

Check that all students have found the correct place in their test booklet. Answer all questions before continuing. When all students are ready, continue.

SAY Now turn to the page in your test booklet titled “WRITTEN COMPOSITION.” Look at the information provided in your test booklet and read the prompt to yourself. If you would like me to read it to you, please let me know.

Now look at page 3 of your answer document. This is where you will write your composition.

The test administrator may read aloud or sign the expository or persuasive writing prompt to any student who requests this assistance. Using the student’s test booklet, the test administrator may read aloud or sign to an individual student any text (i.e., all text on the prompt page) related to the expository or persuasive prompt. It is allowable to read the entire prompt or any part of the prompt as many times as necessary. Test administrators must be aware that they are viewing secure test content and that responding to the expository or persuasive writing prompt or recording the information they see is strictly prohibited. The test administrator may not make suggestions to the student about how to respond. The test administrator cannot translate (except into sign language), change, add to, or explain the expository or persuasive writing prompt. For a student whose IEP/IAP documentation includes this assistance, the test administrator may read aloud or sign the specific writing prompt without the student requesting it.

SAY The blank pages following the writing prompt page in your test booklet can be used for planning. The more planning you do, the clearer and more complete your composition is likely to be. For example, you may make notes to help you decide what to write. In addition, you may write an outline to help you arrange your ideas in an order that makes sense, or you may write a rough draft. But remember, you must write your composition on the correct lined page in your answer document. Are there any questions?

Make sure students have found the correct pages in their test booklets. Answer all questions before continuing.

SAY Your composition does not have to completely fill the lined page, but it must not be longer than the page. Do not write outside the box on the lined page. Twenty-six lines have been provided for you to write your composition. Do not add lines to your written composition page. You are not allowed to insert more lines than what has been provided for you in your answer document.

Be sure to write neatly so that others can read your writing. You may either print or write in cursive, whichever is easier for you. Remember that you must write in English and you must use a No. 2 pencil. Are there any questions about how to record your answers?

Answer all questions before continuing.

SAY This test has embedded content and language supports. You will see a dotted line under some words and sentences. When you see this, you can ask me for help.

For students receiving oral administration:

SAY If you would like me to read aloud any words or sentences during the test, let me know. However, in the reading selections you will see a DO NOT READ icon. When you see this icon, it tells you that the selections cannot be read aloud.

Check that all students have found the correct pages on their answer document.

SAY You will take the [COURSE] assessment by yourself. You may work through the sections in any order that works

best for you. You may use a dictionary throughout this test. Read each question carefully. Then fill in the correct answer on your answer document. While you are working on the test, I will be quietly moving around the room to make sure you are following the directions and working independently.

I cannot help you answer any test questions. I will be able to help you only with questions about the directions. Be sure to mark only one answer on your answer document for each question. You may not know the answers to all the questions. If you do not know the answer to a question, choose the answer you think might be correct. Remember that you may write in your test booklet if you would like to make notes.

Unless students have an extended time designated support, read the following:

You will have up to five hours to complete the test. During the test, you will be provided with reminders of the time left to test. All of your responses must be recorded on your answer document before the five-hour time period ends.

You may check your answers after you have finished. Be sure to erase any stray marks that you might have accidentally made on your answer document. Let me know when you have finished looking over your work. I will come to your desk to collect your answer document, test booklet, and other materials. Please sit quietly so that you do not disturb others who are still working. Do not talk to one another while others are still taking the test. Are there any questions?

Answer all questions. When all students are ready, continue.

SAY You are not allowed to discuss the test questions or answer choices with anyone during the test, during breaks, or after you have completed your test. Does anyone have any questions?

Answer any questions before continuing.

Test administrators are not allowed to answer any questions related to the content of the test itself unless specified in this manual. If a student asks a question that you are not permitted to answer, you may say, for example, “I can’t answer that for you; just do the best you can.”

SAY Read any directions that may be provided before you read the questions and mark your answers. Remember to mark your answers very carefully and make your marks dark and neat. If there are no more questions, now you may begin.

Unless students have an extended time designated support, begin timing the five-hour time period now. Record the start time on your seating chart. Refer to the “STAAR Policies and Procedures” section of the appropriate STAAR manual for information on breaks and time-limit reminders. Remember to actively monitor during the test. If a student submits his or her test materials before the end of the five-hour time period, you must check that the student’s answers are marked on the answer document. If they are not, say to the student, “You have not recorded your answers on the answer document. Please go back and mark your answers on it now.” The test materials should then be returned so that the student may record his or her answers. You may look at answer documents only to see whether responses are recorded; you may not

examine or comment on individual responses. Remember, students must record their answers on the answer document before the end of the five-hour time period. Students may not be allowed to record answers on the answer document after the five-hour time period ends unless they are receiving an extended time designated support. After a student has completed the test, collect the test materials. Students may then be allowed to read books quietly or leave the testing room.

*After testing has been completed and you have collected each student’s answer document, **make sure that the student has recorded his or her responses on the answer document.** Report any blank answer documents to your campus coordinator.*

Any scratch paper or other materials must be collected and returned to the campus coordinator.

Record the stop time for the test session on the seating chart.

Follow directions from your campus coordinator, and refer to the “Complete Paper Administration Process” section in this manual.

Return your test materials to the campus coordinator after the test session is over. Refer to the appropriate STAAR manual for instructions on returning materials.

Test booklets and answer documents must be separated and counted before they are returned to ensure that all materials are accounted for. The campus coordinator will verify that you have returned all test booklets assigned to you, as recorded on the Materials Control Form, and will initial the “In” box for the appropriate day.

At no time should you erase stray marks or darken answer-choice circles on students' answer documents.

**UNAUTHORIZED VIEWING, DISCUSSION,
DUPLICATION, OR SCORING OF SECURE TEST
MATERIALS IS NOT PERMITTED AT ANY TIME.**

Test Administration Directions—Algebra I, Biology, and U.S. History

Before reading the administration directions aloud, distribute the following materials to students if they do not already have them:

- two No. 2 pencils with erasers per student
- one answer document per student
- one Punnett square handout per student (biology only)
- required calculator per the STAAR Calculator Policy (if applicable)
- any additional TEA-authorized materials needed for administering the test
- other designated supports (if applicable)

For ELLs, test administrators are allowed to translate, simplify, or repeat oral instructions as long as the substance of the directions is not changed.

For students receiving designated supports, the test administrator is permitted to modify the directions when needed.

The following statement should be provided to students who are receiving an extended time or additional day designated support. The test administrator should say, for example, **“You will have [until the end of the school day; two days] to complete this test...”**

The following statement is only for students who are receiving basic transcribing. The test administrator should say, for example, **“All of your answers must be recorded [per student’s method of response] before the end of the four-hour time period.”**

Reference materials and graph paper for the STAAR Algebra I assessment are included in the test booklets. These materials are printed on perforated pages so that students can remove them and use them during the test administration. If students write on or make notes on the reference materials that have been removed, the materials must be destroyed immediately after testing is complete.

Read aloud **WORD FOR WORD** the material printed in **bold** type and preceded by the word **“SAY.”** You may repeat the directions as many times as needed. The material in *italics* is information meant for you and should not be read aloud to students.

SAY Today you will be taking the State of Texas Assessments of Academic Readiness—STAAR [COURSE] test. It is important for you to do your best. I am going to give each of you a test booklet. When you get your test booklet, do not open it or write on it until I ask you to do so. Do not fill in any information on the answer document unless I ask you to do so. If you have any questions while I am passing out the test booklets and answer documents, please let me know. Keep your pencil on your desk until I tell you that you may use it.

Distribute a test booklet to each student. Answer any questions before continuing.

Students must write their first and last names on their test booklets and complete the TEST BOOKLET # field on their answer documents at this time. Directions for completing this information follow.

SAY Check that the name on your answer document is correct.

Assist any students who need help.

SAY Look at the front of your test booklet. Does everyone see STAAR [COURSE] on the front of your booklet?

Assist any students who do not have the correct test booklet.

SAY Find the words, “Student Name.” Write your first and last name on the blank line next to “Student Name.”

When all students have finished, continue.

SAY On the back of each test booklet is a printed number. Each booklet has a different number. This number has 10 digits.

Hold up one of your student’s test booklets and point to the security number on the back.

SAY Now look at the top of your answer document. Does everyone see “[COURSE]” at the top-left side of your answer document?

Assist any students who do not have the correct answer document.

SAY Now find the words “TEST BOOKLET” at the top of your answer document.

Point to TEST BOOKLET # field on the answer document given to you for demonstration purposes. When students have located this section, continue.

SAY Copy the 10-digit number from the back of your test booklet into the boxes next to the words “TEST BOOKLET” on your answer document. There is a letter “S” in front of the boxes that you should ignore. Be sure to copy this number exactly as it appears. If you have any questions, please let me know.

Continue to use your sample answer document to point out to students where to find specific items on their answer document. Monitor students closely while they copy the security number. When all students have finished, continue.

SAY Now turn your answer document over and find the honor statement at the top of the page. Please read and sign the honor statement. If you would like me to read aloud any words or sentences in the honor statement, let me know.

If a student asks if he or she must sign the honor statement, tell the student, “That decision is up to you. Signing the honor statement is not required, but you are expected to follow the testing rules even if you do not sign it.”

It is not the responsibility of the test administrator to check to see if students have signed the honor statement.

When students have had time to complete the honor statement, continue.

For Algebra I

SAY You may use a graphing calculator on this test. You may also work problems in the blank spaces in your test booklet or on your graph paper. However, when you answer a question on this test, you must mark the answer on your answer document.

For Biology

SAY You may use a calculator on this test. You may also work problems in the blank spaces in your test booklet. However, when you answer a question on this test, you must mark the answer on your answer document.

SAY Now look at your answer document. To answer a multiple-choice question, fill in the circle on your answer document. Be sure to mark only one answer for each question. Mark your answers very carefully and make your marks dark and neat. If you need to change an answer, carefully erase it and mark your new answer. Are there any questions about how to record your answers to the multiple-choice questions?

Check that all students have found the correct page on their answer document. Answer all questions. When all students are ready, continue.

For Algebra I

SAY There are some questions on the test with an answer grid. To answer this kind of question, write your answer in the boxes. Then fill in the circles below the boxes. Does anyone have any questions about how to record your answer?

Answer all questions. When all students are ready, continue.

SAY Open your test booklet and find the reference materials. You may also use scratch paper. You may use these when you are solving problems. You may tear these out of your test booklet if you choose. If you need help, please let me know.

Now find the graph paper. You may use this when you are solving problems. You may tear this out of your test booklet if you choose. If you need help, please let me know.

Assist any student who may be having difficulty. When all students are ready, continue.

SAY I cannot help you answer any test questions. You must answer them by yourself.

You may not know the answers to all the questions. If you do not know the answer to a question, choose the answer you think might be correct. Remember that you may write in your test booklet if you would like to make notes. Be sure to mark your answers on your answer document. If you need to change an answer, carefully erase it and mark your new answer. Remember to choose only one answer for each question.

Unless students have an extended time accommodation, read the following:

You will have up to four hours to finish your test. Stop when you come to the last page of the [SUBJECT-AREA] test. During the test, I will remind you how much time you still have to test. All of your answers must be marked on your answer document before the four-hour time period ends.

You may check your answers after you have finished, but do not open or work in any other section of your test booklet or answer document. Be sure to erase any extra marks that you might have accidentally made on your answer document. When you have finished looking over your work, close your test booklet and let me know. I will come to your desk to collect your answer document, test booklet, and other materials. Please sit quietly so that you do not disturb others who are still working. Do not talk to anyone while others are still working on the test. Are there any questions?

SAY You are not allowed to discuss the test questions or answer choices with anyone during the test, during breaks, or after you have completed your test. Does anyone have any questions?

Test administrators are not allowed to answer any questions related to the content of the test itself. If a student asks a question that you are not permitted to answer, you may say, for example, “I can’t answer that for you; just do the best you can.”

When students are ready, continue.

SAY You will now take the [COURSE] test by yourself. While you are working on the test, I will be quietly moving around the room to make sure you are following the directions and working on your own. Let me know if you need any help with the words or sentences that have dotted underlines or need anything read aloud.

Read the directions that are provided before you read the questions and mark your answers. Remember to mark your answers very carefully and make your marks dark and neat on the answer document.

Are there any questions?

Answer all questions. When students are ready, continue.

SAY If there are no more questions, you may begin.

*Unless students have an extended time accommodation, begin timing the four-hour time period now. Record the start time on your seating chart. Refer to the “STAAR Policies and Procedures” section of the appropriate STAAR manual for information on breaks and time-limit reminders. Remember to actively monitor during the test. If a student submits his or her test materials before the end of the four-hour time period, you must check that the student’s answers are marked on the answer document. If they are not, **SAY** to the student, “**You have not recorded your answers on the answer document. Please go back and mark your answers on it now.**” The test materials should then be returned so that the student may record his or her answers. You may look at answer documents only to see whether responses are recorded; you may not*

examine or comment on individual responses. Remember, students must record their answers on the answer document before the end of the four-hour time period. Students may not be allowed to record answers on the answer document after the four-hour time period ends. After a student has completed the test, collect the test materials. Students may then be allowed to read books quietly or leave the testing room.

*After testing has been completed and you have collected each student's answer document (and reference materials/graph paper, if removed), **make sure that the student has recorded his or her responses on the answer document.** Report any blank answer documents to your campus coordinator.*

Any scratch paper or other materials must be collected and returned to the campus coordinator.

Record the stop time for the test session on the seating chart.

Follow directions from your campus coordinator, and refer to the "Complete Paper Administration Process" section in this manual.

Return your test materials to the campus coordinator after the test session is over. Refer to the appropriate STAAR manual for instructions on returning materials. Test booklets and answer documents must be separated and counted before they are returned to ensure that all materials are accounted for. The campus coordinator will verify that you have returned all test booklets assigned to you, as recorded on the Materials Control Form, and will initial the "In" box for the appropriate day.

At no time should you erase stray marks or darken answer-choice circles on students' answer documents.

Oath of Test Security and Confidentiality for Test Administrator

This oath applies to all state assessments.

For All Test Administrators: Complete this section **before** handling any secure test materials

I do hereby certify, warrant, and affirm that I will fully comply with all requirements governing the student assessment program and do hereby certify the following by initialing to the left of the statements below and including the date where applicable:

(Initial each statement.)

- _____ I have received training on test administration procedures, and I understand my responsibilities concerning the administration of state assessments;
- _____ I am aware that testing procedures require me to actively monitor during test administrations;
- _____ I understand my responsibilities as a test administrator, and I am aware of the range of penalties that may result from a departure from the documented test administration procedures;
- _____ I understand my obligations concerning the security and confidentiality of state assessments, and I am aware of the range of penalties that may result from a violation of test security and confidentiality; and
- _____ I am aware of my obligation to report any suspected violations of test security or confidentiality to the campus testing coordinator.
- I do hereby further certify, warrant, and affirm that I will faithfully and fully comply with all requirements concerning test security and confidentiality.

Signed on this the _____ day of _____, 20_____.

For Test Administrators Authorized to View Secure State Assessments

Individuals who are authorized to conduct test administration procedures that involve viewing secure state assessments have an added responsibility of maintaining confidentiality. These procedures include but are not limited to: oral administration of paper tests, transcribing student responses from the test booklet, and particular accommodations, including embedded supports. As a reminder of this responsibility, these individuals are required to specifically confirm compliance with state confidentiality requirements by initialing to the left of each statement below.

_____ I have not and will not divulge the contents of the test, generally or specifically.

_____ I have not and will not copy any part of the test.

I do hereby certify, warrant, and affirm that I will fully comply with all the requirements governing the student assessment program.
