Overview
The Texas Advanced Placement Incentive Program, originally established in 1993 by the 73rd Texas Legislature, is designed to emphasize the state’s commitment to high academic performance by recognizing and rewarding students, teachers, and schools that demonstrate success in achieving the educational goals of the state.

In support of the Advanced Placement Incentive Program, the teacher training reimbursement incentive includes Advanced Placement (AP), Pre-AP, and International Baccalaureate Programme teachers (IB, DP, and MYP). The AP/IB teacher training reimbursement (TTR) program reimburses public school districts and open enrollment charter schools for a portion of the cost related to an approved teacher training up to a maximum of $450 for each eligible teacher.

The 2020 TTR Application is currently open and closes on October 23, 2020. District/campus staff will download an Excel spreadsheet template on which to enter teacher training data. Both the spreadsheet and one PDF document with all training certificates will be uploaded and submitted with the 2020 TTR Application within a Qualtrics survey.

Frequently Asked Questions FY 2020

1. When and where is the TTR application published?
   The 2019-2020 TTR application is currently published and will close on October 23, 2020. This will allow TEA to target a December district reimbursement. The application is published on two TEA websites, Advanced Placement and International Baccalaureate.

2. How is the amount of the TTR reimbursement calculated?
   TEA calculates the student subsidies for AP and IB exams for eligible students. After student subsidies have been paid, the remaining funds for the year are used for approved training reimbursements. The reimbursement is determined by the demand of program and remaining funds.

3. To be eligible for a reimbursement must the training be in Texas?
   No. There are no geographical limitations for participating in an approved training.

4. Why is $450 the limit for a teacher training reimbursement?
   The $450 maximum is defined in TEC §28.053.

5. Why is a teacher’s training eligible for reimbursement only every other year?
   The reimbursement opportunity for every other year was an Agency decision to allow greater participation and a larger award for each reimbursement requested. In Rule §24.053 (i) The commissioner shall analyze and adjust, as needed, the sum of and number of awards to ensure that the purpose of the program is realized.

6. What if a teacher attends a training for two different courses, one training for each course being taught, and the teacher was not reimbursed last year, is each training eligible for a reimbursement?
   No, a district is only eligible for a single reimbursement per teacher every other year.
7. **If a teacher attended an APSI but left the district and is no longer employed by the district may a request for reimbursement be made?**
   No. The training reimbursement is provided to districts for teachers who will be teaching an AP or IB course on a district campus during the 2020-2021 school year. Only the district that paid for the training and employs the teacher is eligible for a teacher training reimbursement.

8. **If a teacher participates in a state or national conference, will the registration fee qualify for a reimbursement?**
   No. Only TEA approved trainings are eligible for reimbursement. TEA approved trainings for 2020 are:
   - College Board endorsed Advanced Placement Summer Institute (APSI), minimum 24 hours, in person or online.
   - College Board approved online training that consists of a minimum of 24 hours of instruction.
   - Three-consecutive-days Initial Springboard Institute, minimum 15 hours, in person or online.
   - IBO endorsed training, 3 consecutive days, minimum 15 hours, in person or online.
   - National Math and Science Initiative (NMSI) training, 15-hours during the summer to qualify for reimbursement, and 9 hours of online sessions throughout the year.
   - Summer college credit bearing course for subject content depth, 3+ college credits earned, in person or online.
   - Confer Mentoring Program®, minimum 24 hours
     Three-consecutive-day training course, provided by an APSI university, that will provide teachers with depth of content and rigorous instructional strategies in AP, Pre-AP, IB DP or MYP or an Advanced course, minimum 15 hours, in person or online.

9. **If the request for teacher training reimbursement was not submitted prior to the close of the application, can a district still ask for a reimbursement?**
   No. The process for matching and verifying requests is time consuming and once this process begins, no new requests can be accepted. All requests for the 2019-2020 TTR reimbursement must be submitted by October 23, 2020.

10. **If the deadline for submitting a request for a reimbursement was missed last year, can a district add that request this year?**
    No. Only training completed September 1, 2019 through August 31, 2020 is eligible for a 2020 reimbursement.

11. **Where can I find more information about the teacher training reimbursement opportunity?**
    The announcement can be found by using an Internet search or by reviewing TEA’s Advanced Placement and International Baccalaureate webpages. For more information explore Texas AP/IB Teacher Training Incentive.

12. **If I have additional questions, who do I ask?**
    Please send additional questions to advancedacademics@tea.texas.gov.
