Summary of Program

Provide an overview of the program to be implemented with grant funds. Include the overall mission and specific needs of the organization. Describe how the program will address the mission and needs. NOTE: If applying for both Focus Areas, applicant must CLEARLY distinguish between the two in your response.

Rosebud-Lott ISD is a rural school district in the area of the state known as the Heart of Texas. For this grant, we will be partnering with a neighboring rural school district, Westphalia ISD, to provide a CTE Summer Bridge program to students from both school districts. Our school districts face challenges due to our rural setting and small schools. Our mission is to create a supportive learning environment that nurtures self-esteem and physical well being, while enabling students to reach their fullest academic and social potential. The District accepts the responsibility for preparing students in a changing world. Our district leaders and school board members are committed to offering CTE programs of study which are aligned with regional labor needs and workforce projections. At this time, our need is to provide opportunities to accelerate student opportunities to enter and complete programs of study related to the Agriculture, Food, and Natural Resources, Business, Marketing, and Finance, and Manufacturing Career Clusters. We are a small high school and it is challenging to offer full programs of study. Our proposed summer program will allow students to begin programs of study by taking level 1 classes over the summer months which will free up time in schedules during the school year to take level 2-4 courses.

We will use these grant funds to provide a five week summer bridge program allowing students to take one of three courses: Principles of Agriculture, Food, and Natural Resources, Principles of Business, Marketing, and Finance, or Introduction to Welding (Focus Area 1). The program will target incoming 8th, 9th and 10th grade students from Westphalia ISD and Rosebud-Lott ISD who are interested in enrolling in one of the related programs of study. We will target enrolling 30 students (10 for each course) and will be able to adhere to social distancing practices at these numbers. Students will earn course credit and have the opportunity to earn the OSHA-30 Hour Certification. As part of the program, for one week, an instructor from Texas State Technical College will provide the 30 hours of OSHA training and provide the opportunity for students to obtain certification upon successful completion of the training.

Qualifications and Experience for Key Personnel

Outline the required qualifications and experience for primary project personnel and any external consultants projected to be involved in the implementation and delivery of the program. Include whether the position is existing or proposed.

Title and Responsibilities of Position

Required Qualifications and Experience

Patricia Trubee, Business Teacher at Rosebud-Lott HS will teach Principles of Business, Marketing, and Finance course (existing position) Locally certified to teach Business courses. Current Business teacher at Rosebud-Lott ISD. Previous experience teaching technology-related courses.

Courtney Wilde, Agriculture Teacher at Rosebud-Lott HS will teach Principles of Agriculture, Food, and Natural Resources course (existing position)

Locally certified to teach Agriculture, Food, and Natural Resources courses. Currently serves as FFA advisor.

Kenneth Benson, Welding Teacher at Rosebud-Lott HS will teach Introduction to Welding course (existing position)

Locally certified to teach Welding courses. Pursuing credentials to teach dual credit courses via Texas State Technical College.

Jerrod Barton, Principal at Rosebud-Lott HS will oversee grant activities and course delivery (existing position)

High school campus administrator for Rosebud-Lott ISD. Experience with overseeing course delivery, instructional leadership, and grant programs.

Individual TBD, Texas State Technical College, will lead OSHA-30 training (grant funded)

Authorized to lead OSHA-30 training. Employed by Texas State Technical College.

The second secon

Goals, Objectives, and Strategies

Describe the major goals/objectives of the proposed program. What activities/strategies will be implemented to meet those goals/objectives? **NOTE: If applying for both Focus Areas, applicant must CLEARLY distinguish between the two in your response.**

Our goal is to provide a summer bridge program designed to onboard students into CTE programs of study related to Agriculture, Food, and Natural Resources (Plant Science), Business, Marketing, and Finance (Accounting), or Manufacturing (Welding). We also aim to provide certification opportunities for students as part of the program. Local employers have emphasized OSHA-30 as being valued in multiple industries, and thus, we will build in one week of OSHA safety training into the summer program. Our goals are: By August 2021, at least 30 students will earn course credit in a Principles/Introduction-level course. Additionally, at least 25 students will earn the OSHA-30 Hour General Safety Certification. Another goal is to have at least 75% of summer program participants register for the next course in their chosen program of study. A long-term goal of Rosebud-Lott ISD is to increase the overall number and percentage of CTE Program Concentrators and Completers. Offering level 1 courses during the summer will allow us to begin making progress towards our goal of having CTE students earn more CTE credits while in high school. We will meet these goals and objectives by ensuring our leadership is equipped to support the CTE Summer Bridge program. We will utilize our website and social media pages to spread awareness about the objective, mission, and activities. We will ensure students are enrolled in the course in time to plan for summer activities by beginning recruitment and enrollment as soon as the grant award is announced (April). We will ensure student success in each CTE course by equipping the CTE teacher leading the course with instructional materials and supplies to provide instruction while complying with COVID-19 social distancing practices. The teachers will be supported by the Rosebud-Lott ISD administrators, if needed, to ensure students master the content.

Performance and Evaluation Measures

Describe the performance measures identified for this program which are related to student outcomes and are consistent with the purpose of the program. Include the tools used to measure performance, as well as the processes that will be used to ensure the effectiveness of project objectives and strategies. **NOTE: If applying for both Focus Areas, applicant must CLEARLY distinguish between the two in your response.**

The CTE Summer Bridge program will be focused on student outcomes and evaluated based on several performance measures and data points. We will collect data on the demographics of students who enroll in, participate in, and complete the program, including grade level, race/ethnicity, and economically disadvantaged status, as well as whether they have been identified as in need of special education services. We will utilize other data collected for TSDS PEIMS to provide analysis numbers for district leadership, both of our school boards, and TEA grant reporting requirements. Our goals for the summer program are that at least 30 students will earn course credit in a Principles/Introduction-level course by August 31. Additionally, at least 25 students will earn the OSHA-30 Hour General Safety Certification by August 31. Another goal is to have at least 75% of summer program participants register for the next course in their chosen program of study for the 2021-2022 school year. We will provide additional services to students who need additional support, such as tutoring and mentoring sessions with the course teacher. We must provide wraparound services like these in order to provide an equitable setting for all students, many of whom are from economically disadvantaged households (approximately 35%). Data on all of these services will be collected by the teachers and Rosebud-Lott High School Principal to evaluate student need and intervention. There will be formative quizzes and summative exams delivered during each course, in addition to a pre-test, mid-course test, and post test. These assessments will be used to guide instruction, determine intervention needs, and evaluate TEKS mastery for course credit. The data will be both qualitative and quantitative and will provide insight on whether our goals, learning objectives, and student outcomes were successfully met.

Vendor ID 1741672405

Amendment #

Budget Narrative

Describe how the proposed budget will meet the needs and goals of the program, including for staffing, supplies and materials, contracts, travel, etc. If applicable, include a high-level snapshot of funds currently allocated to similar programs. Include a short narrative describing how adjustments will be made in the future to meet needs. NOTE: If applying for both Focus Areas, applicant must CLEARLY distinguish between the two in your response.

Rosebud-Lott ISD will use the grant funding (if awarded) to offer Principles/Introduction-level CTE courses to students from Westphalia and Rosebud-Lott ISDs. The summer program supports our mission to create a supportive learning environment that nurtures self-esteem and physical well being, while enabling students to reach their fullest academic and social potential while accepting the responsibility for preparing students in a changing world. While all students will be eligible, our recruitment efforts will focus on 8th-10th grade students. Our goal is to get students started in a program of study early so that they have time to take additional higher-level courses later in high school. The program will have the capacity to support up to 30 total students over a five week period. Students will earn course credit in either Principles of Agriculture, Food, and Natural Resources, Principles of Business, Marketing, and Finance, or Introduction to Welding. Additionally, students will receive OSHA 30 instruction and will have the opportunity to earn the OSHA 30 Hour certification if they meet all minimum standards for the course and assessment. We currently allocate funding to support these courses, but summer programming will accelerate learning. Without summer grant funding, it would be more challenging for our rural school district to offer a comprehensive program of study. The summer program will allow more students to become CTE concentrators and completers in future years. However, we do believe that we will be able to utilize data and outcomes from this program to demonstrate the need and return on investment for future funding to our school board and community.

We will allocate a small portion of the budget to transportation services in order to transport students to and from school each day of the program.

In order to deliver the program, we will need grant funding to pay extra duty pay for one instructional staff member to teach over the summer. Two other instructors are on extended contracts so grant funding may not be necessary to compensate them for the summer work.

A portion of the budget is allocated to pay Texas State Technical College to provide an instructor for the OSHA 30 Hour training and certification program.

A small portion of grant funds will be allocated to pay our external contractor, CareerCraft, to assist our district with data collection and reporting, as well as program evaluation through development of evaluation surveys to measure program outcomes.

A large portion of the budget will be allocated to purchase supplies and materials necessary to implement the summer program. Students in Principles of Business, Marketing, and Finance and Principles of Agriculture will need laptops. We aim to purchase at least 15 new Dell laptops to support these courses. Introduction to Welding students will require welding materials and supplies in order to gain hands on experience welding. We will also be purchasing a site license to Certiport to help Business students prepare for future Microsoft certifications.

3% of the grant will be allocated to indirect costs.

March 10, 2021

James Rosebrock, Superintendent Rosebud-Lott ISD 1789 US HWY 77 Lott, TX 76656

Dear Dr. Rosebrock,

Westphalia ISD is excited to partner with Rosebud-Lott ISD as part of the CTE Summer Grant Program which will allow students from both districts to take principles-level courses in business, agriculture, and welding. The proposed program will allow students from Westphalia ISD who will matriculate to Rosebud-Lott ISD for high school to get an early start on their Career and Technical Education program of study. The program will be mutually beneficial to our students.

With Rosebud-Lott ISD serving as the fiscal agent, my staff will work with your staff to finalize logistics for recruiting students for the program and providing transportation to allow students to access the program. I look forward to working with you and your team on this project.

Sincerely,

Robert Hudson Superintendent
