

Certified Principal Demographics by Preparation Route 2013-2017

This table shows the number and percentage of candidates who received their first standard Principal certificate through each preparation route, broken down by gender and by race or ethnicity.

Definition. A standard certificate is a certificate offered since 1998-99 that is renewed every five years.

Results

- In academic year 2016-17, more than two-thirds of Principals were female, and most were white.
- Black/African American Principals were the second largest racial or ethnic group for the out-of-state route, and Hispanics/Latino Principals, for the remaining routes.
- The number and percentage of white Principals declined each academic year for the alternative route, falling just below 50% in academic year 2016-17.
- For the out-of-state route, total numbers increased each academic year until 2016-17, when they declined.
- For the remaining routes, total numbers declined in all or nearly all academic years shown.

Certified Principal Demographics by Preparation Route 2013-2017

* Results for individual routes may not sum to the total for All Routes, because the total is a count rather than a sum. A sum of routes may contain duplication as educators can be prepared through more than one route.

Summary of methodology. Five tables were extracted containing identification numbers, preparation route codes, genders, and races or ethnicities of individuals obtaining their first standard Principal certificate for fiscal years 2012-13 through 2016-17. For each year and preparation route, a total of all Principals was obtained, together with counts by gender and race or ethnicity. Each count was then taken as a percentage of the corresponding total. The process was repeated to obtain overall results for all routes. Finally, the two sets of results were combined into one table.
