Manual for Districts Subject to Wealth Equalization

2009-2010 School Year

Updated September 17, 2009

Texas Education Agency

Manual For Districts Subject to Wealth Equalization
2009-2010 School Year

Table of Contents

NOTES ON THIS MANUAL 7

CHAPTER 41 CALENDAR FOR SCHOOL YEAR 2009-10 9

SECTION I: BACKGROUND INFORMATION 11

What is Chapter 41? 11

How did Chapter 41 come about? 11

What is a Chapter 41 district? 11

What is weighted average daily attendance (WADA)? 12

 What is the first equalized wealth level? 12

 What is the second equalized wealth level? 12

 What is the third equalized wealth level? 13

SECTION II: ADMINISTRATIVE PROCEDURES 15

What actions must our district take following the notification of its Chapter 41 status? 15

What procedures must our district follow in electing a particular option? 15

When does the TEA provide estimates of the cost of recapture? 16

How does our district estimate the cost of buying WADA? 17

How does our district make its Chapter 41 payments? 17

What is settle-up? 17

 For Districts Exercising Option 3 or Option 3 in Combination with the Technology Consortium Form of
 Option 4 18

 For Districts Exercising Option 4 18

SECTION III: OPTIONS FOR REDUCING WEALTH 19

What options are available to reduce wealth? 19

Which of these options require voter approval? 19

What special requirements apply in choosing Option 4?	19
How does our district participate in an Option 4 technology consortium?	20
SECTION IV: OPTIONS FOR REDUCING COSTS	21
What options are available to reduce recapture costs?	21
What credits are available to reduce costs?	21
For Districts Exercising Option 3	21
For Districts Exercising Option 4	21
Is our district eligible to receive a credit for tuition paid to another school district?	23
Is our district eligible to receive a county appraisal district cost reduction?	23
What is the Chapter 41 hold harmless provision?	23
Is our district eligible for a hold harmless provision?	24
SECTION V: TAXATION	25
How does our district set its tax rate?	25
What if our district experiences a decline in its tax base between the prior tax year and the current tax year?	25
What if our district offers an optional homestead exemption?	25
APPENDIX A: APPLICABLE RULES AND STATUTES	27
Texas Administrative Code, Chapter 62. Commissioner’s Rules Concerning Equalized Wealth Level	27
§62.1071. Administration of Wealth Equalization.	27
Texas Education Code, Chapter 41. Equalized Wealth Level	35
SUBCHAPTER A. GENERAL PROVISIONS	35
SUBCHAPTER B. CONSOLIDATION BY AGREEMENT	40
SUBCHAPTER C. DETACHMENT AND ANNEXATION BY AGREEMENT	41
SUBCHAPTER D. PURCHASE OF ATTENDANCE CREDIT	42
SUBCHAPTER E. EDUCATION OF NONRESIDENT STUDENTS	44
SUBCHAPTER F. TAX BASE CONSOLIDATION	46
SUBCHAPTER G. DETACHMENT AND ANNEXATION BY COMMISSIONER	48
SUBCHAPTER H. CONSOLIDATION BY COMMISSIONER	52
APPENDIX B: WORKSHEETS	55
Worksheet for Calculating Chapter 41 WADA	56
Worksheet for Estimating the Cost of Buying WADA	58
Worksheet for Determining Adjusted 2008 PTAD Value	65

Worksheet for Chapter 41 Partners	67
Optional Start-up Worksheet	69
Supplementary Information for the Worksheets or Options	71
Downloading Worksheets Using the Internet	71
Census 2000 Data by County	72
School Year 1992-93 Data Needed for Chapter 41 Cost Calculations	78
List of Districts by Region (Possible Partner Districts for Option 4 Arrangements)	102
APPENDIX C: FORMS.....	125
2009-10 Chapter 41 Choice Selection Form	126
2009-10 District Intent Form	128
2009-10 Options and Contracts Form.....	130
Estimated Property Value for Tax Year 2008	132
APPENDIX D: SAMPLE CONTRACTS	135
Agreement for the Purchase of Attendance Credits (Election Required)	136
Agreement for the Purchase of Attendance Credits (No Election Required)	138
Agreement for the Education of Nonresident Students	140
Optional Language to Be Inserted in the Agreement for the Education of Nonresident Students ..	142
APPENDIX E: ELECTION PROCEDURES	145
Note on Submission to the U.S. Department of Justice	146
Submissions Q & A.....	146
Sample Ballot Proposition Language	149
APPENDIX F: GLOSSARY	153
INDEX	155

Notes on This Manual

Although this manual provides information to anyone with an interest in Chapter 41 of the Texas Education Code, it was designed primarily to be used by those school districts subject to the provisions of Chapter 41. Unless stated otherwise, the words *you* and *your* that appear throughout the manual refer to a Chapter 41 district.

The italicized terms in sections 1 through 5 of the manual are defined in the glossary in appendix F.

This page has been left blank intentionally.

Chapter 41 Calendar for School Year 2009-10

July 1, 2009	Interim property values for tax year 2008 provided by the Texas comptroller's Property Tax Assistance Division (PTAD)
July 15, 2009	Official notification to districts that are above the equalized wealth level for 2009–10 school year as determined from the 2008 property values provided by the PTAD
September 1, 2009	Last date to complete and return the <i>2009–10 Chapter 41 Choice Selection Form</i>
September 1, 2009	Last date for new Chapter 41 districts to call an election for voter approval to purchase attendance credits from the state (Option 3), to contract for the education of nonresident students (Option 4), or to consolidate tax bases with another district (Option 5)
September 1, 2009	Early agreement credit deadline: Chapter 41 districts seeking an early agreement credit for Option 3 in 2009–10 must submit signed, original Option 3 contracts. Contracts must be postmarked by this deadline. Letter of intent deadline: All other Chapter 41 districts (those not exercising Option 3) must submit a "letter of intent" indicating the option(s) chosen to achieve wealth equalization for 2009–10. The letter of intent must be postmarked by this deadline.
September 14, 2009	Approximate date for preliminary 2009–10 <i>Cost of Recapture</i> reports to be posted on the School Finance website.
October 13, 2009	Last date for new Chapter 41 districts to hold elections to obtain voter approval for Option(s) 3, 4, and/or 5
November 3, 2009	Deadline for reporting election results for Chapter 41 districts that held an election during the fall of 2009. Districts must notify the State Funding Division regarding the option(s) selected by voters by sending a certified copy of school board minutes showing a canvass of election results. Certified copies must be postmarked by this deadline.
December 1, 2009	Date for commissioner's detachment of property from and/or consolidation of any Chapter 41 district that has not selected an option for the equalization of wealth
December 15, 2009	Efficiency credit deadline for Chapter 41 districts seeking an efficiency credit to submit their Option 4 original signed contracts. Contracts must be postmarked by this deadline.

- January 15, 2010** **Contract deadline** for all other Chapter 41 contracts, including Option 3 contracts not seeking an early agreement credit and Option 4 contracts not seeking an efficiency credit. **Contracts must be postmarked by this deadline.**
- January 15, 2010** **Supporting documentation deadline:** All 2009–10 contracts and documentation, including that related to tuition paid, WADA purchased, and CAD costs paid, are to be submitted. **Documentation must be submitted via the Chapter 41 module of the online FSP Payment System.**
- January 29, 2010** Approximate date for revised *Cost of Recapture* report for 2009–10 to be available to Chapter 41 districts
- February 15, 2010** First payment for 2009–10 due from Chapter 41 districts to the state (Option 3) and/or to partner district(s) (Option 4)
- April 19, 2010** Approximate date that districts tentatively identified as Chapter 41 for 2010–11 to be notified

Section I: Background Information

This section provides background information about Chapter 41 of the Texas Education Code (TEC) and how school districts are affected by this chapter.

What is Chapter 41?

Chapter 41 of the TEC makes provisions for certain school districts to share their local tax revenue with other school districts. For the purposes of the school finance system in Texas, districts are designated as either property wealthy or property poor. The relative wealth of the school district is measured in terms of the taxable value of property that lies within the school district borders divided by the number of students in *weighted average daily attendance* (WADA). Chapter 41's provisions are sometimes referred to as the "share the wealth" or "Robin Hood" plan because districts that are deemed to be property wealthy are required to share their wealth with property-poor school districts. The funds that are distributed by the property-wealthy districts are "recaptured" by the school finance system to assist with the financing of public education in school districts that are property poor.

How did Chapter 41 come about?

The current provisions found in Chapter 41 reflect a long history of school finance litigation that has focused on the equity of public education funding. The debate has long centered on disparities in educational resources between school districts. In 1971, *Rodriguez v. San Antonio Independent School District* focused attention on inequalities between rich and poor districts. The *Rodriguez* case initiated a series of efforts at school finance reform that has continued to influence the development of school finance policy in Texas.

During the 1980s, equity litigation was strongly pursued by a group of property-poor school districts, led by the Edgewood Independent School District, resulting in four major state supreme court decisions. The *Edgewood* litigation prompted a number of attempts by the state legislature to address the equity problem. These included Senate Bill 1019 in 1989, Senate Bill 1 in 1990, and Senate Bill 351 in 1991; all were overturned by the courts as unconstitutional. In 1993, the Texas Legislature passed Senate Bill 7, which was based on the premise of providing all school districts with "substantially equal access to similar revenue per student at similar tax effort." Providing districts with this equal access was achieved through a system that provides a *guaranteed yield* on each penny of maintenance and operations (M&O) tax effort levied by property-poor districts and recaptures revenue on the tax collections of property-wealthy districts whose wealth per student exceeds the equalized wealth level. This system passed constitutional muster with the Texas Supreme Court, and its recapture provisions are found in the current version of Chapter 41, TEC.

What is a Chapter 41 district?

A "Chapter 41 district" is a district that is subject to the provisions of Chapter 41 of the TEC. The determination that a school district is subject to these provisions is based on Section 41.002, TEC, which establishes three equalized wealth levels. These equalized wealth levels represent the maximum property tax base that a school district is allowed to retain at various levels of tax effort, as described in the following paragraphs. A school district for which the wealth level exceeds the lowest of the equalized wealth levels is subject to the provisions of Chapter 41. Before the beginning of each school year, the Texas Education Agency (TEA) notifies school districts that will be subject to these provisions.

What is weighted average daily attendance (WADA)?

The term *weighted average daily attendance (WADA)* refers to a specialized calculation of the number of students that is used in calculations involving the Foundation School Program (FSP). In general, the number of WADA is calculated by summing the district's Tier I allotments, making some adjustments, and dividing that sum by the amount of the basic allotment. The calculation of WADA is described in Section 42.302(a), TEC, as follows:

Section 42.302 (a), TEC: “. . . ‘WADA’ is the number of students in weighted average daily attendance, which is calculated by dividing the sum of the school district's allotments under Subchapters B and C, less any allotment to the district for transportation, any allotment under Section 42.158, 42.159, or 42.160, and 50 percent of the adjustment under Section 42.102, by the basic allotment for the applicable year.”

In the context of Chapter 41, this calculation of WADA is referred to as *Chapter 42 WADA*. This calculation is modified for Chapter 41 purposes if a school district charges tuition to educate a nonresident student to produce the *Chapter 41 WADA*. In all other cases, Chapter 41 WADA is the same as Chapter 42 WADA.

Chapter 41 WADA = Chapter 42 WADA – WADA attributable to nonresident students

Note that House Bill 3646, passed by the 81st Texas Legislature, 2009, repealed statutory provisions that prohibited Chapter 41 districts from having the mid-sized district adjustment applied to their basic allotments. The application of the mid-sized adjustment increases a district's WADA.

What is the first equalized wealth level?

The first equalized wealth level (EWL) is applied to the tax effort associated with a district's compressed tax rate. A district's compressed tax rate is its 2005 adopted M&O tax rate multiplied by the state compression rate. For 2009–10, the state compression rate is 66.67%, and the first EWL is **\$476,500 per WADA**, which is equivalent to the yield provided by the basic allotment.

What is the second equalized wealth level?

The second EWL is determined by the funding provided to property-poor school districts for their tax effort that exceeds the 2005 compressed M&O tax rate. If the state's equalization program for property-poor school districts is funded to provide tax revenue equivalent to that raised by the Austin Independent School District on the first six pennies of tax effort that exceed the 2005 compressed M&O tax rate, then property-wealthy school districts are allowed to retain all of the revenue on the equivalent tax effort.

What is the third equalized wealth level?

The third EWL is set in statute at \$319,500 per WADA, and it applies to any tax effort that exceeds the 2005 compressed M&O tax rate plus six cents, in 2009–10.

Example:

2005 M&O tax rate = \$1.50

2005 M&O compressed rate = $\$1.50 \times 66.67\% = \1.00

2009 M&O tax rate = \$1.17

	<u>Tax effort</u>	<u>2009–10 Wealth per WADA</u>
1 st EWL	\$1.00	\$476,500
2 nd EWL	\$0.06	Unlimited ¹
3 rd EWL	\$0.11	\$319,500
Total tax effort	<u>\$1.17</u>	

Each year, the TEA notifies school districts in which property wealth per WADA meets or exceeds the EWL of \$319,500. However, the final determination of whether a school district will be required to make recapture payments is based on the district's tax effort and the extent to which the district's wealth per WADA exceeds the first EWL.

¹ Requires legislature to fund guaranteed yield on equivalent tax rate at yield of Austin ISD.

This page has been left blank intentionally.

Section II: Administrative Procedures

This section discusses administrative procedures that districts subject to the provisions of Chapter 41 must follow. **Please see the calendar at the beginning of this manual for dates associated with these procedures.**

Unless otherwise noted, *you* and *your district* refer to a Chapter 41 district.

What actions must our district take following the notification of its Chapter 41 status?

Once your school district is notified of its status as a district subject to the provisions of Chapter 41, it must select an option for paying recapture costs. Before 2006–07, school districts typically conducted elections to request voter authorization to exercise Option 3 or Option 4 or both options. Your district needs to conduct this type of election only once; if your district has conducted a Chapter 41 election in the past, it need not conduct additional elections upon subsequent notifications.

In 2006, the Texas Legislature authorized Chapter 41 districts to offset their costs for recapture against new state funding, *additional state aid for tax reduction (ASATR)*, which is provided for the purposes of property tax relief (see Section 42.2516, TEC). Subsequently, the legislature passed additional provisions that allow a Chapter 41 district to forgo the requirement to conduct an election to authorize one or more options, if the ASATR for the school year exceeds the recapture costs for that same year (see Section 41.0041, TEC). These provisions allow the district to offset its recapture costs against its ASATR funds. As a result, if your district is notified of its Chapter 41 status for the first time in the 2006–07 school year or later, it can take advantage of this offset provision without the need to conduct an election.

If your district does not qualify for the offset provision and has not previously received voter authorization to exercise an option, your district must conduct an election. Please see appendix E, on election procedures, for detailed information about the election process.

Your district must complete a *Chapter 41 Choice Selection Form* (see appendix C) each school year and submit that form online to the State Funding Division at the TEA. Your district uses the form to indicate whether it is using the offset provision during the current school year.

What procedures must our district follow in electing a particular option?

Your district must abide by all fiscal, procedural, and administrative requirements adopted by the commissioner. These requirements include the following:

- Your district must send its contract by **certified mail** to the address shown at the end of these requirements. Do not send your contract to the commissioner's office or any other address. Do not send your contract by fax.
- Send only **one original** of each contract. Do not send duplicates. The commissioner or his or her designee will accept and sign only one original of each contract.
- To the extent possible, submit multiple contracts (such as an Option 3 combined with the technology consortium form of Option 4) or arrangements with multiple partners **at the same time as one package**.

- Ensure that contracts and tuition paid documentation that correspond to the option(s) being exercised are **postmarked by the deadlines** specified in the calendar for the given year (see the calendar that appears at the beginning of this manual). Contract deadlines apply regardless of actions in previous years or continuing arrangements. The TEA encourages early submissions.
- Send all documents and correspondence pertaining to Chapter 41 to the following address. Note that this address does not include the name of the commissioner or any other specific individual.

Texas Education Agency
State Funding Division
ATTENTION: Chapter 41 Actions
1701 N. Congress Ave.
Austin, TX 78701-1494

Please direct questions about Chapter 41 to the Chapter 41 program director in the TEA State Funding Division at (512) 463-9238.

When does the TEA provide estimates of the cost of recapture?

NOTE: During any school year, cost estimates are based on preliminary data. The **final** cost of recapture cannot be known until all data values used in the calculations are final. (See “What is settle-up?” in this section.) For this reason, the TEA **strongly encourages your district to calculate its own estimates** periodically using the *Worksheet for Estimating the Cost of Buying WADA* and the companion worksheet, the *Worksheet for Calculating Chapter 41 WADA*, found in appendix B.

The TEA typically produces five estimates of the cost of recapture in five *Cost of Recapture* reports during the course of the school year. These reports are referred to as the *preliminary*, *payment*, *revised*, *near-final*, and *final* reports.

The TEA provides the *preliminary Cost of Recapture* report in the early fall of the applicable year. If no information is available about a district’s choice of options when this report is produced, the TEA assumes that Option 3 will be exercised. Because current-year data are not yet available, the TEA may use prior-year data or estimates of current-year data for estimating Chapter 41 WADA and recapture costs. These data include M&O collections, enrollment, and Chapter 42 WADA.

The TEA provides the *payment Cost of Recapture* report a couple of weeks before the first payment date in February. This version of the report should reflect your district’s choice of option(s) and updated district data for M&O collections, Chapter 41 WADA, and CAD costs.

The TEA may provide the *revised Cost of Recapture* report in the spring. It incorporates any corrections to district data and, if applicable, property values adjusted for declines using the comptroller’s preliminary values certified at the end of January. This version of the report incorporates current-year PEIMS data that are used to recompute Chapter 41 WADA and recapture costs.

The TEA provides the *near-final Cost of Recapture* report in the fall of the subsequent school year. For example, the agency will generate the 2009–10 *near-final Cost of Recapture* report in the fall of 2010. This report incorporates the final calculation of Chapter 41 WADA and any other corrections or updates that are necessary, including the final Available School Fund allocation used in the calculation of the hold harmless tax base.

The TEA provides the *final Cost of Recapture* report in April of the subsequent school year. For example, the agency will generate the 2009–10 *final Cost of Recapture* report in April 2011. This report incorporates any necessary corrections and your district’s final, audited amount for M&O tax collections.

How does our district estimate the cost of buying WADA?

Use the worksheets in appendix B to develop your own estimates of your district's costs for recapture. This appendix includes the *Worksheet for Calculating Chapter 41 WADA* and the *Worksheet for Estimating the Cost of Buying WADA*. The Region XIII Education Service Center also provides Excel templates that your district can use to develop estimates of recapture costs. The TEA strongly encourages your district to use these tools to develop local estimates of your costs for recapture throughout the year.

Note that House Bill 3646, passed by the 81st Texas Legislature, 2009, repealed statutory provisions that prohibited Chapter 41 districts from having the mid-sized district adjustment applied to their basic allotments. The application of the mid-sized adjustment increases a district's WADA.

How does our district make its Chapter 41 payments?

If your district is exercising Option 3 or a combination of Options 3 and 4, you must make payments to the state in seven equal monthly installments. Beginning in February of the applicable school year, payments are due by the fifteenth of each month (unless the fifteenth falls on a weekend or a banking holiday, in which case payment is due the next business day). The last payment is due on August 15. Your district must make payments electronically from your district's depository to the Comptroller's Treasury Operations Division. Provide the depository with the information that follows:

Routing Number:	114900164
Fed Account Name:	TX COMP AUSTIN
Account Number:	463600701
Account Name:	CPA/Texas Education Agency
Reference:	(i.e., - _____ ISD)
Attention:	TEA/Chapter 41

If your district is exercising Option 4, you must begin payments to your partner district(s) in February of each year. The payment schedule may be negotiated between you and your partner(s), so long as you make your last payment no later than August 15 of the same school year. Any differences between the estimated and actual costs for recapture will be handled in the settle-up process described in the following section.

State aid payment reductions to the partner districts that sell WADA to your district will begin in February of each year. The state aid payment reductions will occur with each payment received by the partner district in accordance with the FSP payment schedule.

What is settle-up?

Settle-up is a process of reconciling your district's estimated costs of recapture with its actual costs of recapture.

There are two rounds of settle-up, each associated with a *Cost of Recapture* report (see "When does the TEA provide estimates of the cost of recapture?" in this section).

The first round of settle-up is associated with the near-final *Cost of Recapture* report. TEA generates this report in September, following the school year that has just ended. At this "near-final" stage of settle-up, all data elements except final, audited tax collections should be known.

The second round of settle-up is associated with the final *Cost of Recapture* report. TEA generates this report in April of the following school year. This report incorporates the audited tax collections and any other updates that are available.

For Districts Exercising Option 3 or Option 3 in Combination with the Technology Consortium Form of Option 4

If your district exercises Option 3 or Option 3 in combination with the technology consortium form of Option 4, each *Cost of Recapture* report will show your district's near-final or final Option 3 cost compared to the amount your district paid. If your district's near-final or final cost is more than the total amount paid, your district must pay the additional amount owed upon receipt of the report that shows the underpayment. Your district must make any payment owed electronically from your district's depository to the Comptroller's Treasury Operations Division according to the instructions detailed in the section titled "How does our district make its Chapter 41 payments?" If your district's near-final or final cost is less than the total amount paid, the TEA arranges for the overpayment to be refunded as soon as possible.

For Districts Exercising Option 4

If your district exercises Option 4, it is your district's responsibility to settle up with its partner(s). This settle-up process includes paying any amount due to your district's partner(s) and arranging for the payment of any amount due to your district from its partner(s). The near-final *Cost of Recapture* reports will compare the near-final number of WADA needed to the number of WADA purchased. The final *Cost of Recapture* reports will compare the final number of WADA needed to the number of WADA purchased. Your district must update the information about the number of WADA purchased from each partner by completing the appropriate form (the *Revised Purchase and Transfer Log for Settle-up* found in appendix C) following receipt of the near-final and final *Cost of Recapture* reports. Submitting this information enables the TEA to make the appropriate adjustment to each partner's state aid.

Section III: Options for Reducing Wealth

This section discusses options for Chapter 41 districts to reduce property wealth per WADA.

Unless otherwise noted, *you* and *your district* refer to a Chapter 41 district.

What options are available to reduce wealth?

Your district has five options available to reduce its property wealth per WADA. Your district may choose to —

- Option 1: Consolidate with another district
- Option 2: Detach property
- Option 3: Purchase attendance credits from the state
- Option 4: Contract to educate nonresident students from a partner district
- Option 5: Consolidate tax bases with another district

Your district may exercise these options singly or in combination. In the past, virtually all Chapter 41 districts have chosen Option 3 or Option 4, or a combination of these options. It is assumed that Chapter 41 districts will continue to use one or both of these options in the future, and the guidance in this manual is geared toward the administration of these two options. If your district considers any other option, consult the Chapter 41 program director in the TEA State Funding Division at (512) 463-9238.

Option 3 requires your district to reduce its wealth by sending money to the state. These funds are used to help finance the Foundation School Program (FSP) payments that are made to property-poor school districts.

Option 4 requires your district to reduce its wealth by agreeing to send money directly to one or more property-poor districts. The FSP payments from the state to the property-poor districts are reduced to reflect the receipt of this revenue from your district.

If your district is exercising a combination of Option 3 and Option 4, you must meet the requirements for each option.

Which of these options require voter approval?

Options 3, 4, and 5 require voter approval. You can find information about election procedures in appendix E. Once authorized by voter approval, these options can be exercised at any time in the future.

What special requirements apply in choosing Option 4?

If your district exercises Option 4 and receives any service or product from an entity that receives a portion of the gain from an Option 4 arrangement, you must pay the fair market value for the service or product. For the purposes of this requirement, fair market value is defined as the price that would be paid by any other party had the gain from the Option 4 arrangement not been applied to reduce the cost.

If your district exercises Option 4, you must disclose to the commissioner any other contractual or financial arrangement between your district and its partner(s) or between your district and any other entity that directly benefits from the distribution of the gain. Any business transaction between your district and other entities must be at a fair market price. Your district must be prepared to document that any product or service it provides as part of a financial arrangement with its partner(s) has an open marketplace that can establish a fair market price. For example, your district could document this by providing evidence of previous sales of the product or service to unrelated parties. Your district may not demand or negotiate a discounted purchase price from a partner district or other related entity for

products or services provided to your district that results in a lower price than would be paid by an unrelated party. Your district may not make an Option 4 partnership agreement subject to any separate financial agreement between the districts that is not contained in the Chapter 41 agreement.

How does our district participate in an Option 4 technology consortium?

A technology consortium must be made up of at least three partner districts. Each partner district must be located, at least in part, in a county with a population of less than 40,000. Your district may be a member of the consortium, but it must pay full market value for all services received. The gain from the sale of WADA (for all partners combined) must be limited to 10 percent of your district's cost of buying WADA. Your district must exercise the technology consortium form of Option 4 in combination with Option 3 in order to preserve the "hold harmless" status of your district (discussed in section 4).

Section IV: Options for Reducing Costs

This section discusses options for Chapter 41 districts to reduce recapture costs.

Unless otherwise noted, *you* and *your district* refer to a Chapter 41 district.

What options are available to reduce recapture costs?

Several options are available to reduce recapture costs. Your district can take advantage of early agreement and efficiency credits, under certain conditions described below, as well as other methods of cost reduction.

What credits are available to reduce costs?

For Districts Exercising Option 3

If your district is exercising Option 3, the purchase of attendance credits from the state, an *early agreement credit* is available. To qualify, your district must submit a signed Option 3 agreement to the State Funding Division at the TEA postmarked on or before the due date for early agreement credits. Typically, that deadline is September 1 of the applicable year. Check the current year Chapter 41 calendar for the appropriate deadline. Recent legislation such as Additional State Aid for Tax Reduction (ASATR/ new form of HB1) has been incorporated, which stipulates that if a district is given an early agreement credit, then ASATR is decreased by the same amount to prevent districts from receiving a double benefit.

The credit amount is equal to the lesser of 1) 4 percent of the cost or 2) \$80 per credit purchased. In order to qualify for this credit, your district must exercise Option 3 or a combination of Options 3 and 4 that involves a technology consortium (see details on these types of arrangements in the following section, “For Districts Exercising Option 4”). If your district exercises a combination of Options 3 and 4 with a technology consortium, the credit applies only to the portion of the WADA purchased through Option 3. The early agreement credit is automatic if your district meets the deadline and all other requirements.

For Districts Exercising Option 4

If your district exercised Option 4 in the past, the commissioner may have granted your district an *efficiency credit* if your partner district agreed to spend funds for specifically approved programs.

House Bill 3646, passed by the 81st Texas Legislature, 2009, made some changes, effective with the 2009–10 school year, to the TEC statutes governing the efficiency credit. The bill repealed the efficiency credit but allowed those Chapter 41 districts that had an approved efficiency credit agreement with a partner district during the 2008–09 school year to continue to be eligible for the credit until September 1, 2011.

The credit amount is limited to the lesser of 1) 5 percent of the cost or 2) \$100 multiplied by your district's Chapter 41 WADA.

The State Funding Division at the TEA will determine your district's eligibility for this credit by reviewing your district's contract(s). The commissioner may grant your district an efficiency credit if 1) your district had an approved efficiency credit agreement for the 2008–09 school year, 2) one of the following conditions was met as specified in that agreement, and 3) that condition continues to be met as specified in the agreement for the 2009–10 school year:

- 1) Your partner district agrees to use at least 50 percent of the gain from the sale of WADA for a 30-day **extended year program** for students in grades K–8 in accordance with Section 29.082, TEC.

- 2) Your partner district agrees to use at least 50 percent of the gain from the sale of WADA for enhancement of an existing **alternative education program (AEP)** for behavior management in accordance with Section 37.008, TEC. The funds used must be in excess of amounts expended for the basic operation of the program pursuant to Section 37.008(g), TEC.
- 3) Your partner district agrees to use at least 50 percent of the gain from the sale of WADA for a **juvenile justice alternative education program (JJAEP)** for the school year in accordance with Section 37.011, TEC. The expenditures for this program must be used to pay for additional costs not funded by member districts pursuant to Section 37.012, TEC.
- 4) Your partner district agrees to use at least 50 percent of the gain from the sale of WADA for a **combined program** of at least two of three programs described earlier: extended year, AEP, and JJAEP.
- 5) Your partner district agrees to use some portion of the gain from the sale of WADA for **combined programs plus instructional technology**. Once at least 50 percent of the gain from the sale of WADA has been committed to a combination of the programs described in items (1) through (4), **all** of the remaining gain must be used for instructional technology.
- 6) Your partner district agrees to use **all** the gain from the sale of WADA for **instructional technology**. That technology may involve computer networking of instruction:
 - a) among or between its campuses and/or
 - b) from the district or its campuses to an education service center (ESC), other Internet service provider (ISP), or local telephone company point of presence (teleco POP).

Your partner district may also send a portion of the gain to the ESC, ISP, or teleco POP, as long as the funds are expended for connecting such services.

Your partner district may also send a portion of the gain to the ESC for instructional technology purposes that include:

- a) the expansion and/or upgrade of networks, labs, classroom applications, and related telecommunication systems;
- b) the integration of technology into the teaching/learning process;
- c) the acquisition and distribution of Internet services; or
- d) the implementation and/or expansion of distance learning or other innovative programs.

If your partner district expends any of the gain for instructional technology, your district **may not** obtain free or reduced-price instructional technology services from the service provider (i.e., you must pay full market value for the service). (Note that if your district exercises this option, the **executive director** of the service provider **must** sign the contract agreement.)

- 7) Your partner district agrees to use at least 50 percent of the gain from the sale of WADA for an **innovative education program**. Your partner district may not use the gain from the sale of WADA for general capital outlay unrelated to improving student performance.
- 8) Each of your partner districts agrees to use 100 percent of the gain from the sale of WADA to participate in a **technology consortium** in accordance with the provisions of Section 41.099, TEC.

Is our district eligible to receive a credit for tuition paid to another school district?

If your district pays tuition to another school district to educate a resident student, your district is eligible for a credit against the cost of recapture, as authorized in Section 41.124(a), TEC. Your district must submit a list of the students being transferred and the amount of tuition being paid per student in order to receive this credit.

The credit is computed in terms of a reduction to the number of WADA that your district would have to purchase to equalize its wealth:

$$(\text{Total tuition paid}) / (\text{Cost per WADA}) = \text{Reduction to number of WADA for tuition paid}$$

Is our district eligible to receive a county appraisal district cost reduction?

If your district exercises Option 3 or a combination of Options 3 and 4 related to the *appraisal costs* charged by county appraisal districts (CADs), your district is eligible for a cost reduction, as authorized in Section 41.097, TEC. The reduction applies to appraisal costs **only** and not to costs that may be incurred for tax collections.

The cost reduction is based on your district's CAD cost and a percentage of your district's total M&O tax revenue:

$$\text{CAD cost} \times \{[\text{Option 3 portion of recapture}] / [\text{M\&O collections}]\} = \text{Cost reduction}$$

If your district is exercising Option 4, you and your partner district can negotiate a credit. Your partner district may agree to give your district the same level of discount as in Option 3 by agreeing to pay that portion of your district's CAD cost as part of the Option 4 agreement. If multiple partners are involved, each partner may agree to pay a share proportional to the number of WADA being purchased from each partner.

What is the Chapter 41 hold harmless provision?

The *Chapter 41 hold harmless provision* allows a district to retain more wealth than it would otherwise keep at the EWL. A district is eligible for this provision if the revenue per WADA generated by applying a \$1.50 rate to the tax base at the EWL is less than what the district's revenue per WADA was in 1992–93. This provision allows a district to keep a higher tax base, referred to as the hold harmless tax base, so that its 1992–93 revenue per WADA is maintained.

The Chapter 41 hold harmless tax base is adjusted to reflect an increase in the EWL and factors in a Chapter 41 district's actual M&O tax rate.

$$\text{AWPS} = \text{WPS} \times \{[(\text{EWL} / 280,000 - 1) \times \text{DTR} / 1.50] + 1\}$$

Where:

“AWPS” is the district's wealth per student (adjusted by the hold harmless provision);

“WPS” is the district's wealth per student determined under Section 41.002(e), TEC;

“EWL” is the equalized wealth level; and

“DTR” is the district's compressed M&O tax rate for the current school year.

Is our district eligible for a hold harmless provision?

To be eligible for the hold harmless provision, your district must exercise Option 2 or 3, or Option 3 in combination with the technology consortium form of Option 4. If your district is exercising Option 3 in combination with the technology consortium form of Option 4, consult the Chapter 41 program director in the TEA State Funding Division at (512) 463-9238 for assistance with cost calculations (also, see section 2, on administrative procedures, for additional information).

Section V: Taxation

This section discusses taxation as it relates to Chapter 41.

Unless otherwise noted, *you* and *your district* refer to a Chapter 41 district.

How does our district set its tax rate?

Section 41.004(c), TEC, prohibits a Chapter 41 district from adopting a tax rate until the commissioner has certified that wealth reduction has been achieved. As a Chapter 41 district, you are required to submit a *letter of intent* before the adoption of your tax rate. This letter must state which options have been approved or are being considered, and that any necessary further action is planned and pending. After such a letter is received, the commissioner provides a letter authorizing your district to proceed with the adoption of a tax rate.

What if our district experiences a decline in its tax base between the prior tax year and the current tax year?

If your district experiences a decline in its taxable property values between the prior tax year and the current tax year that exceeds 4 percent, the commissioner may adjust the taxable value for Chapter 41 calculations, as authorized by Sections 41.002(b) and 42.2521, TEC, if funds are available. The amount of the adjustment depends on funds available, and decisions of the commissioner are final and may not be appealed.

For the 2009–10 school year, the TEA ultimately will determine if your district experienced at least a 4 percent decline in taxable value by comparing your district's property value for tax year 2009 to its property value for tax year 2008, as certified by the Texas comptroller's Property Tax Assistance Division (PTAD), formerly known as the Comptroller's Property Tax Division (CPTD). For purposes of estimating recapture costs, the initial determination will be made by comparing the final, certified PTAD value for tax year 2008 to the property value for tax year 2009 as certified by the local CAD in February 2009. In each case, the comptroller's "T2" PTAD value will be used. A worksheet is available to determine an adjusted value, if applicable (see appendix B).

What if our district offers an optional homestead exemption?

If your district offers an optional homestead exemption as authorized by Section 11.13(n), Tax Code, an adjustment to your district's taxable value **may** be granted **if** excess FSP funds are available. The adjustment, if granted, reduces your district's taxable value by no more than one-half the total dollar amount of optional exemption. The provisions related to this adjustment are found in Section 42.2522(a), TEC.

This page has been left blank intentionally.

Appendix A: Applicable Rules and Statutes

Texas Administrative Code, Chapter 62. Commissioner's Rules Concerning Equalized Wealth Level

Statutory Authority: The provisions of this Chapter 62 issued under the Texas Education Code, §41.006, unless otherwise noted.

§62.1071. Administration of Wealth Equalization.

(a) Identification. Identification of districts subject to the wealth equalization provisions of the Texas Education Code (TEC), Chapter 41, is based on estimates of weighted average daily attendance (WADA) available in July of each year. WADA is projected in accordance with TEC, Chapter 42, Subchapter F, and derived from student counts adopted by the legislature in the appropriation process under the provisions of TEC, §42.254.

(b) Alternative calculation of wealth per WADA. Districts subject to recapture in accordance with TEC, Chapter 41, may utilize an alternative method to calculate a wealth per weighted student for the purpose of determining the amount needed to equalize wealth.

(1) The optional alternative method will enable a qualifying district to retain a wealth per weighted student (WADA) after exercising an option pursuant to TEC, §41.003(2) or (3), that would achieve a Maintenance and Operations (M&O) revenue (state and local) level equal to the M&O revenue per WADA for the 1999–2000 school year, less the current year per capita distribution from the available school fund, other than amounts distributed under TEC, Chapter 31, for the technology allotment.

(2) The optional alternative method will compute M&O revenue (state and local) in the 1999–2000 school year and in the applicable year, excluding recapture amounts, any Public Education Grant and New Instructional Facilities Allotment state aid pursuant to TEC, §42.157 and §42.158.

(3) The optional alternative method will utilize a measure of WADA in the 1999–2000 school year and in the applicable year that excludes resident students that were not educated in the eligible district.

(4) The optional alternative method pertains only to districts that did not offer all grades from kindergarten to Grade 12 in the 1999–2000 school year and are imposing a current effective M&O tax rate equal to or greater than their 1999–2000 M&O tax rate.

(5) The commissioner of education will notify districts that qualify for the optional alternative method of calculating wealth per WADA for the purpose of determining the amount owed to equalize wealth when they are notified of their TEC, Chapter 41, status by July 15 of each year. The commissioner will also provide appropriate worksheets so that eligible districts can determine the financial impact of adopting the optional alternative method.

(6) Districts must inform the commissioner by September 1 of each applicable year of their decision whether to adopt the optional alternative method for calculating wealth per WADA for determining recapture costs. They must also complete and return to the Texas Education Agency (TEA) division responsible for state funding the worksheets provided by the commissioner and submit evidence that they will maintain or exceed their 1999–2000 M&O tax effort by letter attesting to their proposed tax rate, tax levy, and estimated M&O tax collections for the applicable year.

(7) The optional alternative method is in effect for the 2001–2002, 2002–2003, and 2003–2004 school years. This subsection, issued under TEC, §41.0021, 77th Texas Legislature, 2001, expires September 1, 2004.

(c) Actions to equalize wealth. The commissioner may require specific actions to ensure that the wealth of a district subject to the provisions of TEC, Chapter 41, is properly equalized.

(1) Districts subject to the provisions of TEC, Chapter 41, may consolidate with another district in accordance with TEC, Subchapter B (Option 1), detach territory in accordance with TEC, Subchapter C (Option 2), or consolidate tax bases with another district in accordance with TEC, Subchapter F (Option 5). These actions are not subject to change once approved by the commissioner and executed by the participants. The commissioner may require the exercise of other options in addition to options 1, 2, or 5 to ensure that wealth will be properly equalized.

(2) A student who transfers to and is educated tuition-free by a district subject to the provisions of TEC, Chapter 41, may be counted as WADA for the purpose of wealth equalization. No agreement with the home district is required, but the district must provide the commissioner with a written statement certifying that no tuition or other benefit has been received in exchange for the student's education. The number of transferring students is converted to a WADA count by multiplying it by the district's current WADA-to-enrollment ratio.

(3) A student who transfers as a Public Education Grant (PEG) student pursuant to TEC, Chapter 29, Subchapter G, to a district subject to the provisions of TEC, Chapter 41, may be counted under subsection (c)(2) of this section as WADA by the receiving district for the purposes of wealth equalization. No contract with the home district is required. The sending district may not count the student for state aid purposes.

(4) Regardless of any applicable credits, a district identified as subject to the provisions of TEC, Chapter 41, must exercise one or more of the available options to reduce wealth to ensure that wealth will be properly equalized.

(d) Costs to equalize wealth. For each year in which one or more options to equalize wealth is exercised, the commissioner determines the cost and the associated cycle.

(1) Districts purchasing attendance credits from the state in accordance with TEC, Chapter 41, Subchapter D (Option 3), may obtain a discount in the form of an early agreement credit in accordance with TEC, §41.098. The discount is limited to 4.0% of the computed cost of Option 3 before any discounts are applied or \$80 multiplied by the number of WADA purchased, whichever is less. To qualify, the district subject to the provisions of TEC, Chapter 41, must submit a signed Option 3 agreement to the TEA with a postmark on or before September 1 of the applicable year.

(2) Districts paying to educate nonresident students from a partner district in accordance with TEC, Chapter 41, Subchapter E (Option 4), may obtain a discount in the form of an efficiency credit in accordance with TEC, §41.121. The discount is limited to 5.0% of the computed cost of Option 4 before any discounts are applied or \$100 multiplied by the district's WADA for TEC, Chapter 41, whichever is less. Such discounts may be obtained for the following programs approved by the commissioner.

(A) The partner agrees to use at least 50% of the gain from the sale of WADA for a 30-day extended year program for all eligible kindergarten through Grade 8 students for the school year in accordance with TEC, §29.082.

(B) The partner agrees to use at least 50% of the gain from the sale of WADA for enhancement of an existing alternative education program for behavior management for

all eligible students for the school year in accordance with TEC, §37.008. The funds used must be in excess of amounts expended for the basic operation of the program pursuant to TEC, §37.008(g).

(C) The partner agrees to use at least 50% of the gain from the sale of WADA for a juvenile justice alternative education program for the school year in accordance with TEC, §37.011. The expenditures for this program must be used to pay for additional costs not funded by member districts pursuant to TEC, §37.012.

(D) The partner agrees to use at least 50% of the gain from the sale of WADA for a combined program of at least two of the following programs for the school year: extended year, alternative education (enhancement of), and juvenile justice alternative education. Each of the programs must meet the corresponding requirements described in subparagraphs (A)–(C) of this paragraph.

(E) The partner agrees to use at least some portion of the gain from the sale of WADA for combined programs plus any remaining funds for instructional technology. Any of the three following programs apply, singly or in any combination, for the school year: extended year, alternative education, and juvenile justice alternative education. Each of the programs must meet the corresponding requirements described in subparagraphs (A)–(D) of this paragraph. In addition to the funds committed to any one or combination of the programs described in subparagraphs (A)–(D), all of the remaining gain must be used for instructional technology.

(F) The partner agrees to use all of the gain from the sale of WADA for instructional technology. That technology may involve computer networking of instruction among or between its campuses and/or from the district or its campuses to an education service center (ESC), other Internet service provider (ISP), or local telephone company point of presence (teleco POP). A portion of the gain may be sent to the ESC, ISP, or teleco POP, as long as the funds are expended for connecting such services. A portion of the gain may be sent to the ESC for instructional technology purposes that include the services described in clauses (i)–(iv) of this subparagraph. If any of the gain is expended in this manner, the district subject to the provisions of TEC, Chapter 41, may not obtain free or reduced-price instructional technology services from the service provider. Annual charges to the district subject to the provisions of TEC, Chapter 41, must be equal to at least the amount paid by the partner to the service provider for the year for equivalent services. If this option is exercised, the executive director of the entity must sign the contract agreement. Instructional technology purposes for which a portion of the gain may be sent to the ESC include:

- (i) the expansion and/or upgrade of networks, labs, classroom applications, and related telecommunications systems;
- (ii) the integration of technology into the teaching/learning process;
- (iii) the acquisition and distribution of Internet services; or
- (iv) the implementation and/or expansion of distance learning or other innovative programs.

(G) The partner agrees to use at least 50% of the gain from the sale of WADA for an innovative education program. The gain on the sale of WADA may not be used for general capital outlay unrelated to improving student performance. The commissioner retains full discretion to approve or reject the proposed educational program for this purpose.

(H) Each partner agrees to use 100% of the gain from the sale of WADA to participate in a technology consortium in accordance with the provisions of TEC, §41.099. At least three partner districts must be members of the consortium. The district subject to the provisions of TEC, Chapter 41, may be a member of the consortium but must pay at market value for all services received. Market value is determined by the consortium, subject to review by the TEA division responsible for financial audits and the requirements of paragraph (3) of this subsection. Partner districts must reside, at least in part, in a county or counties with a population of less than 40,000. The technology consortium form of Option 4 must be combined with Option 3, the purchase of attendance credits from the state, in order to enable the district subject to the provisions of TEC, Chapter 41, to retain its "hold harmless" status. The gain resulting from the sale of WADA (for all partners combined) must be limited to 10% of the cost of buying WADA of the district subject to the provisions of TEC, Chapter 41.

(3) To the extent that a district subject to the provisions of TEC, Chapter 41, exercising Option 4 receives any service or product from an entity that receives a portion of the gain from an Option 4 arrangement, the price paid for the service or product must be at fair market value. For the purposes of this requirement, fair market value is defined as the price that would be paid by any other party had the gain from the Option 4 arrangement not been applied to reduce the cost.

(4) Each district subject to the provisions of TEC, Chapter 41, that exercises Option 4 must disclose to the commissioner any other contractual or financial arrangement between the district and its partner(s) or between the district and any other entity that directly benefits from the distribution of the gain. Any business transaction between the district subject to the provisions of TEC, Chapter 41, and other entities must be at a fair market price. A district subject to the provisions of TEC, Chapter 41, must be prepared to document that any product or service it provides as part of a financial arrangement with its partners has an open marketplace that can establish a fair market price, for example, through previous sales of the product or service to unrelated parties. A district subject to the provisions of TEC, Chapter 41, may not demand or negotiate a discounted purchase price from a partner district or other related entity for products or services provided to the district subject to the provisions of TEC, Chapter 41, that results in a lower price than would be paid by an unrelated party. A district subject to the provisions of TEC, Chapter 41, may not make an Option 4 partnership agreement subject to any separate financial agreement between the districts that is not contained in the TEC, Chapter 41, agreement.

(5) For Options 3 and 4, the projected cost estimate provided by the commissioner to the district by February of the year serves as the basis for initial payments made to the state and/or partner(s). For Option 4, payments to the partner(s) must be made between February and August of the year but otherwise may adhere to a mutually acceptable schedule.

(6) Unless a school district adopts the alternative method for calculating wealth per WADA in accordance with subsection (b) of this section, a school district subject to the provisions of wealth equalization that pays tuition to another district to educate its students may apply the cost of the tuition toward the cost of the option chosen to reduce wealth. The credit amount per student cannot be greater than the district's cost per WADA. Written documentation must be provided to the commissioner to verify the total tuition paid and the amount per student. The maximum tuition amount that may be charged by the receiving district and the state aid reduction as a result of the tuition charge is described in §61.1012 of this title (relating to Contracts and Tuition for Education Outside District).

(7) For each school district subject to the provisions of wealth equalization, transitional state aid for professional staff salaries is computed in accordance with §105.1012 of this title (relating to Additional State Aid for Professional Staff Salaries). Any amount earned by a district is deducted as a credit against the amount owed to equalize wealth. If a credit exceeds an amount owed, the

difference is paid to the district. An initial payment will be made as soon as the TEA has estimated an assistance amount. A final settle-up will be made during September of the following year.

(8) Initially, the cost to equalize wealth is projected by the commissioner based on estimates of the district's WADA for TEC, Chapter 41, and expected tax collections. For districts exercising Option 3 or 4, the cost estimate may be updated by the commissioner periodically throughout the year.

(9) For Options 3 and 4, the projected cost estimate provided by the commissioner to the district by February of the year serves as the basis for initial payments made to the state and/or partner(s). For Option 4, payments to the partner(s) must be made between February and August of the year but otherwise may adhere to a mutually acceptable schedule.

(10) For Options 3 and 4, the final cost to equalize wealth is determined by the commissioner when audited tax collections and data elements for the calculation of WADA for TEC, Chapter 41, are final and available, after the close of business for the school year. The calculation of WADA for TEC, Chapter 41, incorporates final values for WADA for TEC, Chapter 42, and, when applicable, current-year data for the number of student transfers. The final WADA for TEC, Chapter 42, is based, in part, on attendance data submitted at year-end through the Public Education Information Management System (PEIMS). When applicable, student transfer data are obtained from the PEIMS fall submission. When applicable, final values for WADA for TEC, Chapter 42, and current-year fall PEIMS data for enrollment are used in the WADA-to-enrollment ratio that is applied to the number of transfers to calculate a corresponding WADA.

(11) When final costs for the fiscal year are determined for Options 3 and 4, the payments are compared to the final cost. Districts that have not sufficiently reduced wealth must remedy the shortfall in accordance with the directives of the commissioner before the end of that fiscal year. Districts that have overpaid in the process of reducing their wealth level will receive either appropriate refunds from the state and/or partner district(s) or credits against future costs.

(12) For those districts authorized to retain a tax base per student greater than the equalized wealth level as provided by TEC, §41.002(e), in the 2003–2004 school year, the resulting tax base per weighted student that the district is allowed to retain shall be the greater of two amounts. The first amount shall be the tax base per weighted student necessary to produce the M&O tax revenue per weighted student to which the district had access in 1992–1993 after the 1992–1993 M&O tax revenue is reduced by the 2003–2004 distributions from the available school fund. The second amount shall be the tax base per weighted student necessary to produce the M&O tax revenue per weighted student to which the district had access in 1992–1993, less the amount of tax base per student that would be necessary in 2003–2004 to produce the 2003–2004 distribution from the available school fund at a tax rate of \$1.50. In the 2004–2005 and subsequent school years, the amount of tax base per weighted student that a district is allowed to retain under TEC, §41.002(e), shall be the tax base per weighted student necessary to produce the M&O tax revenue per weighted student to which the district had access in 1992–1993, less the amount of tax base per student that would be necessary in the current school year to produce the current year's distribution from the available school fund at a tax rate of \$1.50.

(e) Administrative requirements. Districts taking action to equalize wealth must abide by all fiscal, procedural, and administrative requirements.

(1) Unless other definitive action (such as submission of a contract) has already been taken by a district subject to the provisions of TEC, Chapter 41, the district must inform the TEA in writing of intended actions to equalize wealth. A "letter of intent" must be postmarked (or have some other postal carrier verification of date mailed) by September 1 of the applicable year.

- (2) Pursuant to TEC, Chapter 41, Subchapters D and E, any contract submitted for Option 3 or 4 must be submitted to the TEA by certified mail through the U.S. Postal Service or other common postal carrier.
 - (3) Option 3 contracts must be postmarked by September 1 of each year in order to qualify for the early agreement credit. Option 4 and Option 3 contracts not incorporating efficiency credits or early agreement credits must be postmarked by November 15. Option 4 contracts seeking efficiency credits must be postmarked by December 20.
 - (4) All contractual arrangements must be approved yearly by the commissioner, regardless of continuing or long-term arrangements between contracting parties.
 - (5) Contracts and forms submitted to the TEA that require signatures must be originals.
 - (6) All written correspondence pertaining to TEC, Chapter 41, including contracts and data forms, must be sent to the TEA division responsible for state funding.
- (f) Noncompliance. Noncompliance with the requirements of wealth equalization is determined by the commissioner and may result in corrective action, including detachment and annexation or consolidation in accordance with TEC, Chapter 41, Subchapters G or H, by the commissioner.
- (1) Refusal by a district subject to the provisions of TEC, Chapter 41, to declare an intent to exercise an option to equalize wealth, to take action to equalize wealth, or to comply with the terms of a contractual agreement will result in corrective action by the commissioner in accordance with TEC, Chapter 41, Subchapters G and H, to consolidate or to detach and annex property. Any such action taken after November 8 of a school year will take effect in the subsequent school year.
 - (2) Noncompliance with requirements other than those listed in subsection (f)(1) of this section may result in loss of an efficiency credit for Option 4, the early agreement credit for Option 3, or in a financial audit.
- (g) Excellence exemption. An excellence exemption pursuant to the provisions of TEC, §39.112, does not apply to options for or requirements of wealth equalization.
- (h) Property value decline. If a district subject to the provisions of wealth equalization experiences a property value decline, exceeding 4.0%, from the prior tax year and funds made available by the legislature to compensate for such a decline are insufficient, the district's taxable value for the prior tax year will be adjusted so that the allocation of the shortfall is shared among all districts participating in this appropriation in accordance with TEC, §42.252. The adjustment will be sufficient to exhaust the district's share of the amount appropriated.
- (1) The cost of recognizing the applicable property value decline is computed as the difference in the cost of equalizing wealth using the property value for the prior tax year and the cost of equalizing wealth using the property value for the current tax year using the same (current year) tax collection amount. This difference is then adjusted for the percent of decline not recognized in accordance with TEC, §42.252.
 - (2) If the cost of recognizing the applicable amount of property value decline exceeds the amount appropriated, each district with a decline in value will have its value adjusted in proportion to its share of the total property value decline.

Statutory Authority: The provisions of this §62.1071 issued under the Texas Education Code, §41.006.

Source: The provisions of this §62.1071 adopted to be effective June 11, 1998, 23 TexReg 5964; amended to be effective January 2, 2000, 24 TexReg 11751; amended to be effective December 2, 2001, 26 TexReg 9620; amended to be effective September 1, 2002, 27 TexReg 7802; amended to be effective May 9, 2004, 29 TexReg 4150.

Texas Education Code, Chapter 41. Equalized Wealth Level

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 41.001. DEFINITIONS. In this chapter:

- (1) "Equalized wealth level" means the wealth per student provided by Section 41.002.
- (2) "Wealth per student" means the taxable value of property, as determined under Subchapter M, Chapter 403, Government Code, divided by the number of students in weighted average daily attendance.
- (3) "Weighted average daily attendance" has the meaning assigned by Section 42.302.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1999, 76th Leg., ch. 396, Sec. 1.01, eff. Sept. 1, 1999.

Sec. 41.002. EQUALIZED WEALTH LEVEL, as amended by House Bill 3646, 81st Texas Legislature, 2009. (a) A school district may not have a wealth per student that exceeds:

- (1) the wealth per student that generates the amount of maintenance and operations tax revenue per weighted student available to a district with maintenance and operations tax revenue per cent of tax effort equal to the maximum amount provided per cent under Section 42.101, for the district's maintenance and operations tax effort equal to or less than the rate equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year;
- (2) the wealth per student that generates the amount of maintenance and operations tax revenue per weighted student available to the Austin Independent School District, as determined by the commissioner in cooperation with the Legislative Budget Board, for the first six cents by which the district's maintenance and operations tax rate exceeds the rate equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year, subject to Section 41.093(b-1); or
- (3) \$319,500, for the district's maintenance and operations tax effort that exceeds the first six cents by which the district's maintenance and operations tax effort exceeds the rate equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year.

(a-1) Expired.

(a-2) Expired.

(b) For purposes of this chapter, the commissioner shall adjust, in accordance with Section 42.2521, the taxable values of a school district that, due to factors beyond the control of the board of trustees, experiences a rapid decline in the tax base used in calculating taxable values.

(c) Repealed by Acts 1999, 76th Leg., ch. 396, Sec. 3.01(a), eff. Sept. 1, 1999.

(d) Expired.

(e) Notwithstanding Subsection (a), and except as provided by Subsection (g), in accordance with a determination of the commissioner, the wealth per student that a school district may have after exercising an option under Section 41.003(2) or (3) may not be less than the amount needed to maintain state and local revenue in an amount equal to state and local revenue per weighted student for maintenance and operation of the district for the 1992–1993 school year less the district's current year distribution per weighted student from the available school fund, other than amounts distributed under Chapter 31, if the district imposes an effective tax rate for maintenance and operation of the district equal to the greater of the district's current tax rate or \$1.50 on the \$100 valuation of taxable property.

(f) For purposes of Subsection (e), a school district's effective tax rate is determined by dividing the total amount of taxes collected by the district for the applicable school year less any amounts paid into a tax increment fund under Chapter 311, Tax Code, by the quotient of the district's taxable value of property, as determined under Subchapter M, Chapter 403, Government Code, divided by 100.

(g) The wealth per student that a district may have under Subsection (e) is adjusted as follows:

$$AWPS = WPS \times (((EWL/280,000 - 1) \times DTR/1.5) + 1)$$

where:

"AWPS" is the district's wealth per student;

"WPS" is the district's wealth per student determined under Subsection (e);

"EWL" is the equalized wealth level; and

"DTR" is the district's adopted maintenance and operations tax rate for the current school year.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1997, 75th Leg., ch. 1071, Sec. 7, eff. Sept. 1, 1997; Acts 1999, 76th Leg., ch. 396, Sec. 1.02, 3.01(a), eff. Sept. 1, 1999; Acts 2001, 77th Leg., ch. 1187, Sec. 2.02, eff. Sept. 1, 2001; Acts 2001, 77th Leg., ch. 1187, Sec. 2.03, eff. Sept. 1, 2002; Acts 2006, 79th Leg., 3rd C.S., ch. 5, Sec. 1.01, eff. May 26, 2006.

Sec. 41.003. OPTIONS TO ACHIEVE EQUALIZED WEALTH LEVEL. A district with a wealth per student that exceeds the equalized wealth level may take any combination of the following actions to achieve the equalized wealth level:

- (1) consolidation with another district as provided by Subchapter B;
- (2) detachment of territory as provided by Subchapter C;
- (3) purchase of average daily attendance credit as provided by Subchapter D;
- (4) education of nonresident students as provided by Subchapter E; or
- (5) tax base consolidation with another district as provided by Subchapter F.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1999, 76th Leg., ch. 396, Sec. 1.03, eff. Sept. 1, 1999.

Sec. 41.0031. INCLUSION OF ATTENDANCE CREDITS AND NONRESIDENTS IN WEIGHTED AVERAGE DAILY ATTENDANCE. In determining whether a school district has a wealth per student less than or equal to the equalized wealth level, the commissioner shall use:

- (1) the district's final weighted average daily attendance; and
- (2) the number of attendance credits a district purchases under Subchapter D or the number of nonresident students a district educates under Subchapter E for a school year.

Added by Acts 1999, 76th Leg., ch. 396, Sec. 1.04, eff. Sept. 1, 1999.

Sec. 41.004. ANNUAL REVIEW OF PROPERTY WEALTH. (a) Not later than July 15 of each year, using the estimate of enrollment under Section 42.254, the commissioner shall review the wealth per student of school districts in the state and shall notify:

- (1) each district with wealth per student exceeding the equalized wealth level;
- (2) each district to which the commissioner proposes to annex property detached from a district notified under Subdivision (1), if necessary, under Subchapter G; and
- (3) each district to which the commissioner proposes to consolidate a district notified under Subdivision (1), if necessary, under Subchapter H.

(b) If, before the dates provided by this subsection, a district notified under Subsection (a)(1) has not successfully exercised one or more options under Section 41.003 that reduce the district's wealth per student to a level equal to or less than the equalized wealth level, the commissioner shall order the detachment of property from that district as provided by Subchapter G. If that detachment will not reduce the district's wealth per student to a level equal to or less than the equalized wealth level, the commissioner may not detach property under Subchapter G but shall order the consolidation of the district with one or more other districts as provided by Subchapter H. An agreement under Section 41.003(1) or (2) must be executed not later than September 1 immediately following the notice under Subsection (a). An election for an option under Section 41.003(3), (4), or (5) must be ordered before September 1 immediately following the notice under Subsection (a).

(c) A district notified under Subsection (a) may not adopt a tax rate for the tax year in which the district receives the notice until the commissioner certifies that the district has achieved the equalized wealth level.

(d) A detachment and annexation or consolidation under this chapter:

- (1) is effective for Foundation School Program funding purposes for the school year that begins in the calendar year in which the detachment and annexation or consolidation is agreed to or ordered; and
- (2) applies to the ad valorem taxation of property beginning with the tax year in which the agreement or order is effective.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1999, 76th Leg., ch. 396, Sec. 1.05, eff. Sept. 1, 1999.

Sec. 41.0041. EFFECT OF ADDITIONAL STATE AID FOR TAX REDUCTION. (a) Notwithstanding any other provision of this chapter, if a school district's wealth per student exceeds the equalized wealth level for the first time in the 2006-2007 or a later school year, the commissioner may consider the district to have reduced its wealth per student to the equalized wealth level for any school year as provided by this section.

(b) When the commissioner initially identifies a school district under Section 41.004 as having a wealth per student for a school year that exceeds the equalized wealth level, the commissioner shall estimate:

- (1) the amount of state revenue to which the district is entitled under Section 42.2516 for that school year; and

(2) the cost to the district to purchase attendance credits under Subchapter D in an amount sufficient to reduce the district's wealth per student to the equalized wealth level for that school year.

(c) If the commissioner determines that the amount described by Subsection (b)(1) exceeds the amount described by Subsection (b)(2), the commissioner shall notify the district of the commissioner's determination. In lieu of exercising an option described by Section 41.003, the district's board of trustees may authorize the commissioner to withhold from the state revenue to which the district is entitled under Section 42.2516 an amount equal to the amount described by Subsection (b)(2).

(d) In calculating the amount of state revenue to be withheld from a school district under this section, the commissioner shall calculate the cost for the district to reduce the district's wealth per student to the equalized wealth level using the final attendance and tax rate data for the school year and shall award the district any available credit or discount under Subchapter D as if the district had exercised the option under Section 41.003(3) in a timely manner. If the final amount calculated for the cost for the district to reduce the district's wealth per student to the equalized wealth level for a school year exceeds the amount of state revenue to which the district is entitled under Section 42.2516 for that year:

(1) the commissioner shall:

(A) withhold the entire amount of state revenue to which the district is entitled under Section 42.2516 for that year; and

(B) withhold the additional amount of the cost for the district to reduce the district's wealth per student to the equalized wealth level for that year from the state revenue to which the district is entitled under Section 42.2516 for a subsequent school year; and

(2) the district is not required to take any further action to reduce its wealth per student for that year.

(e) An action by the board of trustees of a school district authorizing the commissioner to withhold state revenue from the district under this section is valid without voter authorization.

Added by Acts 2007, 80th Leg., R.S., Ch. [335](#), Sec. 1, eff. June 15, 2007.

Sec. 41.005. COMPTROLLER AND APPRAISAL DISTRICT COOPERATION. The chief appraiser of each appraisal district and the comptroller shall cooperate with the commissioner and school districts in implementing this chapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.006. RULES. (a) The commissioner may adopt rules necessary for the implementation of this chapter. The rules may provide for the commissioner to make necessary adjustments to the provisions of Chapter 42, including providing for the commissioner to make an adjustment in the funding element established by Section 42.302, at the earliest date practicable, to the amount the commissioner believes, taking into consideration options exercised by school districts under this chapter and estimates of student enrollments, will match appropriation levels.

(b) As necessary for the effective and efficient administration of this chapter, the commissioner may modify effective dates and time periods for actions described by this chapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1997, 75th Leg., ch. 1071, Sec. 8, eff. Sept. 1, 1997.

Sec. 41.007. COMMISSIONER TO APPROVE SUBSEQUENT BOUNDARY CHANGES. A school district that is involved in an action under this chapter that results in boundary changes to the district or in the consolidation of tax bases is subject to consolidation, detachment, or annexation under Chapter 13 only if the commissioner certifies that the change under Chapter 13 will not result in a district with a wealth per student that exceeds the equalized wealth level.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.008. HOMESTEAD EXEMPTIONS. (a) The governing board of a school district that results from consolidation under this chapter, including a consolidated taxing district under Subchapter F, for the tax year in which the consolidation occurs may determine whether to adopt a homestead exemption provided by Section 11.13, Tax Code, and may set the amount of the exemption, if adopted, at any time before the school district adopts a tax rate for that tax year. This section applies only to an exemption that the governing board of a school district is authorized to adopt or change in amount under Section 11.13, Tax Code.

(b) This section prevails over any inconsistent provision of Section 11.13, Tax Code, or other law.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.009. TAX ABATEMENTS. (a) A tax abatement agreement executed by a school district that is involved in consolidation or in detachment and annexation of territory under this chapter is not affected and applies to the taxation of the property covered by the agreement as if executed by the district within which the property is included.

(b) The commissioner shall determine the wealth per student of a school district under this chapter as if any tax abatement agreement executed by a school district on or after May 31, 1993, had not been executed.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.010. TAX INCREMENT OBLIGATIONS. The payment of tax increments under Chapter 311, Tax Code, is not affected by the consolidation of territory or tax bases or by annexation under this chapter. In each tax year a school district paying a tax increment from taxes on property over which the district has assumed taxing power is entitled to retain the same percentage of the tax increment from that property that the district in which the property was located before the consolidation or annexation could have retained for the respective tax year.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.011. CONTINGENCY. (a) If any of the options described by Section 41.003 as applied to a school district are held invalid by a final decision of a court of competent jurisdiction, a school district is entitled to exercise any of the remaining valid options in accordance with a schedule approved by the commissioner.

(b) If a final order of a court of competent jurisdiction should hold each of the options provided by Section 41.003 invalid, the commissioner shall act under Subchapter G or H to achieve the equalized wealth level only after notice and hearing is afforded to each school district affected by the order. The commissioner shall adopt a plan that least disrupts the affected school districts. If because the exigency to adopt a plan prevents the commissioner from giving a reasonable time for notice and hearing, the commissioner shall timely give notice to and hold a hearing for the affected school districts, but in no event less than 30 days from time of notice to the date of hearing.

(c) If a final order of a court of competent jurisdiction should hold an option provided by Section 41.003 invalid and order a refund to a district of any amounts paid by a district choosing that option, the amount

shall be refunded but held in reserve and not expended by the district until released by order of the commissioner. The commissioner shall order the release immediately on the commissioner's determination that, through one of the means provided by law, the district has achieved the equalized wealth level. The amount released shall be deducted from any state aid payable to the district according to a schedule adopted by the commissioner.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.012. DATE OF ELECTIONS. An election under this chapter for voter approval of an agreement entered by the board of trustees shall be held on a Tuesday or Saturday not more than 45 days after the date of the agreement. Section 41.001, Election Code, does not apply to the election.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.013. PROCEDURE. (a) Except as provided by Subchapter G, a decision of the commissioner under this chapter is appealable under Section 7.057.

(b) Any order of the commissioner issued under this chapter shall be given immediate effect and may not be stayed or enjoined pending any appeal.

(c) Chapter 2001, Government Code, does not apply to a decision of the commissioner under this chapter.

(d) On the request of the commissioner, the secretary of state shall publish any rules adopted under this chapter in the Texas Register and the Texas Administrative Code.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

SUBCHAPTER B. CONSOLIDATION BY AGREEMENT

Sec. 41.031. AGREEMENT. The governing boards of any two or more school districts may consolidate the districts by agreement in accordance with this subchapter to establish a consolidated district with a wealth per student equal to or less than the equalized wealth level. The agreement is not effective unless the commissioner certifies that the consolidated district, as a result of actions taken under this chapter, will have a wealth per student equal to or less than the equalized wealth level.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.032. GOVERNING LAW. Except to the extent modified by the terms of the agreement, the consolidated district is governed by the applicable provisions of Subchapter D, Chapter 13, other than a provision requiring consolidating districts to be contiguous. The agreement may not be inconsistent with the requirements of this subchapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.033. GOVERNANCE PLAN. (a) The agreement among the consolidating districts may include a governance plan designed to preserve community-based and site-based decision making within the consolidated district, including the delegation of specific powers of the governing board of the district other than the power to levy taxes, including a provision authorized by Section 13.158(b).

(b) The governance plan may provide for a transitional board of trustees during the first year after consolidation, but beginning with the next year the board of trustees must be elected from within the boundaries of the consolidated district. If the consolidating districts elect trustees from single-member districts, the consolidated district must adopt a plan to elect its board of trustees from single-member districts.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 2003, 78th Leg., ch. 201, Sec. 29, eff. Sept. 1, 2003.

Sec. 41.034. INCENTIVE AID. (a) For the first and second school years after creation of a consolidated district under this subchapter, the commissioner shall adjust allotments to the consolidated district to the extent necessary to preserve the effects of an adjustment under Section 42.102, 42.103, or 42.105 to which either of the consolidating districts would have been entitled but for the consolidation.

(b) Except as provided by Subsection (c), a district receiving incentive aid payments under this section is not entitled to incentive aid under Subchapter G, Chapter 13.

(c) Four or more districts that consolidate into one district under this subchapter within a period of one year may elect to receive incentive aid under this section or to receive incentive aid for not more than five years under Subchapter G, Chapter 13. Incentive aid under this subsection may not provide the consolidated district with more revenue in state and local funds than the district would receive at the equalized wealth level.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

SUBCHAPTER C. DETACHMENT AND ANNEXATION BY AGREEMENT

Sec. 41.061. AGREEMENT. (a) By agreement of the governing boards of two school districts, territory may be detached from one of the districts and annexed to the other district if, after the action:

(1) the wealth per student of the district from which territory is detached is equal to or less than the equalized wealth level; and

(2) the wealth per student of the district to which territory is annexed is not greater than the greatest level for which funds are provided under Subchapter F, Chapter 42.

(b) The agreement is not effective unless the commissioner certifies that, after all actions taken under this chapter, the wealth per student of each district involved will be equal to or less than the applicable level permitted by Subsection (a).

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.062. GOVERNING LAW. Except to the extent of any conflict with this chapter and except for any requirement that detached property must be annexed to a school district that is contiguous to the detached territory, the annexation and detachment is governed by Chapter 13.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.063. ALLOCATION OF APPRAISED VALUE OF DIVIDED UNIT. If portions of a parcel or other item of property are located in different school districts as a result of a detachment and annexation under this subchapter, the parcel or other item of property shall be appraised for taxation as a unit, and the agreement shall allocate the taxable value of the property between the districts.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.064. ALLOCATION OF INDEBTEDNESS. The annexation agreement may allocate to the receiving district any portion of the indebtedness of the district from which the territory is detached, and the receiving district assumes and is liable for the allocated indebtedness.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.065. NOTICE. As soon as practicable after the agreement is executed, the districts involved shall notify each affected property owner and the appraisal district in which the affected property is located.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

SUBCHAPTER D. PURCHASE OF ATTENDANCE CREDIT

Sec. 41.091. AGREEMENT. A school district with a wealth per student that exceeds the equalized wealth level may execute an agreement with the commissioner to purchase attendance credits in an amount sufficient, in combination with any other actions taken under this chapter, to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.092. CREDIT. (a) For each credit purchased, the weighted average daily attendance of the purchasing school district is increased by one student in weighted average daily attendance for purposes of determining whether the district exceeds the equalized wealth level.

(b) A credit is not used in determining a school district's scholastic population, average daily attendance, or weighted average daily attendance for purposes of Chapter 42 or 43.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.093, as amended by House Bill 3646, 81st Texas Legislature, 2009. COST. (a) Subject to Subsection (b-1), the cost of each credit is an amount equal to the greater of:

- (1) the amount of the district's maintenance and operations tax revenue per student in weighted average daily attendance for the school year for which the contract is executed; or
- (2) the amount of the statewide district average of maintenance and operations tax revenue per student in weighted average daily attendance for the school year preceding the school year for which the contract is executed.

(b) For purposes of this section, a school district's maintenance and operations tax revenue does not include any amounts paid into a tax increment fund under Chapter 311, Tax Code.

(b-1) If the guaranteed level of state and local funds per weighted student per cent of tax effort under Section 42.302(a-1)(1) for which state funds are appropriated for a school year is an amount at least equal to the amount of revenue per weighted student per cent of tax effort available to the Austin Independent School District, as determined by the commissioner in cooperation with the Legislative Budget Board, the commissioner, in computing the amounts described by Subsections (a)(1) and (2) and determining the cost of an attendance credit, shall exclude maintenance and operations tax revenue resulting from the first six cents by which a district's maintenance and operations tax rate exceeds the rate equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year.

(b-2) Expired.

(c) The cost of an attendance credit for a school district is computed using the final tax collections of the district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1997, 75th Leg., ch. 592, Sec. 1.02, eff. Sept. 1, 1997; Acts 1997, 75th Leg., ch. 1071, Sec. 9, eff. Sept. 1, 1997; Acts 1999, 76th Leg., ch. 396, Sec. 1.06, eff. Sept. 1, 1999; Acts 2006, 79th Leg., 3rd C.S., ch. 5, Sec. 1.02, eff. May 26, 2006.

Sec. 41.094. PAYMENT. (a) A school district shall pay for credits purchased in equal monthly payments as determined by the commissioner beginning February 15 and ending August 15 of the school year for which the agreement is in effect.

(a-1) Expired.

(b) Receipts shall be deposited in the state treasury and may be used only for foundation school program purposes.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.095. DURATION. An agreement under this section is valid for one school year and, subject to Section 41.096, may be renewed annually.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.096. VOTER APPROVAL. (a) After first executing an agreement under this section, the board of trustees shall order and conduct an election, in the manner provided by Sections 13.003(d)–(g), to obtain voter approval of the agreement.

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of _____ School District to purchase attendance credits from the state with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. If the proposition is approved, the agreement executed by the board is ratified, and the board has continuing authority to execute agreements under this subchapter on behalf of the district without further voter approval.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.097. CREDIT FOR APPRAISAL COSTS. (a) The total amount required under Section 41.093 for a district to purchase attendance credits under this subchapter for any school year is reduced by an amount equal to the product of the district's costs under Section 6.06, Tax Code, for the central appraisal district in which it participates multiplied by a percentage that is computed by dividing the total amount required under Section 41.093 by the total amount of taxes imposed in the district for that year less any amounts paid into a tax increment fund under Chapter 311, Tax Code.

(b) A school district is entitled to a reduction under Subsection (a) beginning with the 1996–1997 school year. For that school year, the reduction to which a district is entitled is the sum of the amounts computed under Subsection (a) for the 1993–1994, 1994–1995, 1995–1996, and 1996–1997 school years. If that amount exceeds the total amount required under Section 41.093 for the 1996–1997 school year, the difference is carried forward and the total amount required under Section 41.093 is reduced each subsequent school year until the total amount of the credit has been applied to such reductions.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1997, 75th Leg., ch. 1071, Sec. 10, eff. Sept. 1, 1997.

Sec. 41.098. EARLY AGREEMENT CREDIT. A district that submits a signed agreement under this subchapter to the commissioner before September 1 of the school year for which the agreement is made may reduce the total amount required to be paid for attendance credits under Section 41.093 by the lesser of four percent or \$80 per credit purchased.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.099. LIMITATION. (a) Sections 41.002(e), 41.094, 41.097, and 41.098 apply only to a district that:

- (1) executes an agreement to purchase all attendance credits necessary to reduce the district's wealth per student to the equalized wealth level;
- (2) executes an agreement to purchase attendance credits and an agreement under Subchapter E to contract for the education of nonresident students who transfer to and are educated in the district but who are not charged tuition; or
- (3) executes an agreement under Subchapter E to contract for the education of nonresident students:
 - (A) to an extent that does not provide more than 10 percent of the reduction in wealth per student required for the district to achieve a wealth per student that is equal to or less than the equalized wealth level; and
 - (B) under which all revenue paid by the district to other districts, in excess of the reduction in state aid that results from counting the weighted average daily attendance of the students served in the contracting district, is required to be used for funding a consortium of at least three districts in a county with a population of less than 40,000 that is formed to support a technology initiative.

(b) A district that executes an agreement under Subsection (a)(3) must pay full market value for any good or service the district obtains through the consortium.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1997, 75th Leg., ch. 1071, Sec. 11, eff. Sept. 1, 1997.

SUBCHAPTER E. EDUCATION OF NONRESIDENT STUDENTS

Sec. 41.121. AGREEMENT, as amended by House Bill 3646, 81st Texas Legislature, 2009. (a) The board of trustees of a district with a wealth per student that exceeds the equalized wealth level may execute an agreement to educate the students of another district in a number that, when the weighted average daily attendance of the students served is added to the weighted average daily attendance of the contracting district, is sufficient, in combination with any other actions taken under this chapter, to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level. The agreement is not effective unless the commissioner certifies that the transfer of weighted average daily attendance will not result in any of the contracting districts' wealth per student being greater than the equalized wealth level and that the agreement requires an expenditure per student in weighted average daily attendance that is at least equal to the amount per student in weighted average daily attendance required under Section 41.093.

(b) Notwithstanding the amendment of this section by H.B. No. 3646, Acts of the 81st Legislature, Regular Session, 2009, the commissioner may provide for the continuation of an agreement in existence during the 2008-2009 school year under the authority of this section, as it existed on May 1, 2009, and implementing rules as they existed on May 1, 2009, if the commissioner determines that the agreement benefits the education of students in the districts subject to the agreement. This subsection expires September 1, 2011.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.122. VOTER APPROVAL. (a) After first executing an agreement under this subchapter other than an agreement under Section 41.125, the board of trustees of the district that will be educating nonresident

students shall order and conduct an election, in the manner provided by Sections 13.003(d)–(g), to obtain voter approval of the agreement.

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of _____ School District to educate students of other school districts with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. If the proposition is approved, the agreement executed by the board is ratified, and the board has continuing authority to execute agreements under this subchapter on behalf of the district without further voter approval.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 2003, 78th Leg., ch. 61, Sec. 5, eff. Sept. 1, 2003.

Sec. 41.123. WADA COUNT. For purposes of Chapter 42, students served under an agreement under this subchapter are counted only in the weighted average daily attendance of the district providing the services, except that students served under an agreement authorized by Section 41.125 are counted in a manner determined by the commissioner.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 2003, 78th Leg., ch. 61, Sec. 6, eff. Sept. 1, 2003.

Sec. 41.124. TRANSFERS. (a) The board of trustees of a school district with a wealth per student that exceeds the equalized wealth level may reduce the district's wealth per student by serving nonresident students who transfer to the district and are educated by the district but who are not charged tuition. A district that exercises the option under this subsection is not required to execute an agreement with the school district in which a transferring student resides and must certify to the commissioner that the district has not charged or received tuition for the transferring students.

(b) A school district with a wealth per student that exceeds the equalized wealth level that pays tuition to another school district for the education of students that reside in the district may apply the amount of tuition paid toward the cost of the option chosen by the district to reduce its wealth per student. The amount applied under this subsection may not exceed the amount determined under Section 41.093 as the cost of an attendance credit for the district. The commissioner may require any reports necessary to document the tuition payments.

(c) A school district that receives tuition for a student from a school district with a wealth per student that exceeds the equalized wealth level may not claim attendance for that student for purposes of Chapters 42 and 46 and the technology allotment under Section 31.021(b)(2).

Added by Acts 1999, 76th Leg., ch. 396, Sec. 1.07, eff. Sept. 1, 1999.

Sec. 41.125. CAREER AND TECHNOLOGY EDUCATION PROGRAMS. (a) The board of trustees of a school district with a wealth per student that exceeds the equalized wealth level may reduce the district's wealth per student by executing an agreement to provide students of one or more other districts with career and technology education through a program designated as an area program for career and technology education.

(b) The agreement is not effective unless the commissioner certifies that:

(1) implementation of the agreement will not result in any of the affected districts' wealth per student being greater than the equalized wealth level; and

(2) the agreement requires the district with a wealth per student that exceeds the equalized wealth level to make expenditures benefiting students from other districts in an amount at least

equal to the amount that would be required for the district to purchase the number of attendance credits under Subchapter D necessary, in combination with any other actions taken under this chapter other than an action under this section, to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level.

Added by Acts 2003, 78th Leg., ch. 61, Sec. 7, eff. Sept. 1, 2003.

SUBCHAPTER F. TAX BASE CONSOLIDATION

Sec. 41.151. AGREEMENT. The board of trustees of two or more school districts may execute an agreement to conduct an election on the creation of a consolidated taxing district for the maintenance and operation of the component school districts. The agreement is subject to approval by the commissioner. The agreement is not effective unless the commissioner certifies that the consolidated taxing district will have a wealth per student equal to or less than the equalized wealth level after all actions taken under this chapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.152. DATE OF ELECTION. Any agreement under this subchapter must provide for the ordering of an election to be held on the same date in each district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.153. PROPOSITION. (a) The ballot shall be printed to permit voting for or against the proposition: "Creation of a consolidated taxing district composed of the territory of _____ school districts, and authorizing the levy, assessment, and collection of annual ad valorem taxes for the maintenance of the public free schools within that taxing district at a rate not to exceed \$_____ on the \$100 valuation of taxable property."

(b) The rate to be included in the proposition shall be provided by the agreement among the districts but may not exceed the maximum rate provided by law for independent school districts.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.154. APPROVAL. The proposition is approved only if the proposition receives a favorable vote of the majority of the votes cast within each participating school district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.155. CONSOLIDATED TAXING DISTRICT. A consolidated taxing district is a school district established for the limited purpose of exercising the taxing power authorized by Section 3, Article VII, Texas Constitution, and distributing the revenue to its component school districts.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.156. GOVERNANCE. (a) The consolidated taxing district is governed by the boards of the component school districts acting jointly.

(b) Any action taken by the joint board must receive a favorable vote of a majority of each component district's board of trustees.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.157. MAINTENANCE TAX. (a) The joint board shall levy a maintenance tax for the benefit of the component school districts not later than September 1 of each year or as soon thereafter as practicable.

(b) Each component district shall bear a share of the costs of assessing and collecting taxes in proportion to the component district's share of weighted average daily attendance in the consolidated taxing district.

(c) A component district may not levy an ad valorem tax for the maintenance and operation of the schools.

(d) Notwithstanding Section 45.003, the consolidated taxing district may levy, assess, and collect a maintenance tax for the benefit of the component districts at a rate that exceeds \$1.50 per \$100 valuation of taxable property to the extent necessary to pay contracted obligations on the lease purchase of permanent improvements to real property entered into on or before May 12, 1993. The proposition to impose taxes at the necessary rate must be submitted to the voters in the manner provided by Section 45.003.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.158. REVENUE DISTRIBUTION. The consolidated taxing district shall distribute maintenance tax revenue to the component districts on the basis of the number of students in weighted average daily attendance in the component districts.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.159. TAXES OF COMPONENT DISTRICTS. (a) The governing board of a component school district of a consolidated taxing district that has consolidated for maintenance and operation purposes only may issue bonds and levy, pledge, and collect ad valorem taxes within that component district sufficient to pay the principal of and interest on those bonds as provided by Chapter 45.

(b) A component district levying an ad valorem tax under this section or Section 41.160(b)(1) is entitled to the guaranteed yield provided by Subchapter F, Chapter 42, for that portion of its tax rate that, when added to the maintenance tax levied by the consolidated taxing unit, does not exceed the limitation provided by Section 42.303.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.160. OPTIONAL TOTAL TAX BASE CONSOLIDATION. (a) An agreement executed under Section 41.151 may provide for total tax base consolidation instead of consolidation for maintenance and operation purposes only.

(b) Under an agreement providing for total tax base consolidation:

(1) the component districts may not levy maintenance or bond taxes, except to the extent necessary to retire bonds and other obligations issued before the effective date of the consolidation;

(2) the joint board may issue bonds and levy, pledge, and collect ad valorem taxes sufficient to pay the principal of and interest on those bonds, and issue refunding bonds, as provided by Chapter 45 for independent school districts; and

(3) to the end of the ballot proposition required under Section 41.153(a) shall be added ", and further to create a consolidated tax base for the repayment of all bonded indebtedness issued by the joint board of the taxing district after the effective date of the consolidation and to authorize the joint board to levy, pledge, and collect ad valorem taxes at a rate sufficient to pay the principal of and interest on those bonds."

(c) Under an agreement providing for total tax base consolidation:

(1) the component districts may provide for the consolidated taxing district to assume all of the indebtedness of all component districts; and

(2) to the end of the ballot proposition required by Section 41.153(a) shall be added ", and further to create a consolidated tax base for the repayment of all bonded indebtedness issued by the joint board of the taxing district or previously issued by the component school districts and to authorize the joint board to levy, pledge, and collect ad valorem taxes at a rate sufficient to pay the principal of and interest on those bonds."

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

SUBCHAPTER G. DETACHMENT AND ANNEXATION BY COMMISSIONER

Sec. 41.201. DEFINITION. In this subchapter, "mineral property" means a real property mineral interest that has been severed from the surface estate by a mineral lease creating a determinable fee or by a conveyance that creates an interest taxable separately from the surface estate. A mineral property includes each royalty interest, working interest, or other undivided interest in the mineral property.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.202. DETERMINATION OF TAXABLE VALUE. (a) For purposes of this subchapter, the taxable value of an individual parcel or other item of property and the total taxable value of property in a school district resulting from the detachment of property from or annexation of property to that district is determined by applying the appraisal ratio for the appropriate category of property determined under Subchapter M, Chapter 403, Government Code, for the preceding tax year to the taxable value of the detached or annexed property determined under Title 1, Tax Code, for the preceding tax year.

(b) For purposes of this subchapter, the taxable value of all or a portion of a parcel or item of real property includes the taxable value of personal property having taxable situs at the same location as the real property.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.203. PROPERTY SUBJECT TO DETACHMENT AND ANNEXATION. (a) Only the following property may be detached and annexed under this subchapter:

- (1) a mineral property;
- (2) real property used in the operation of a public utility, including a pipeline, pipeline gathering system, or railroad or other rail system; and
- (3) real property used primarily for industrial or other commercial purposes, other than property used primarily for agriculture or for residential purposes.

(b) If a final judgment of a court determines that a mineral interest may not be annexed and detached as provided by this subchapter without an attendant annexation and detachment of the surface estate or any other interest in the same land, the detachment and annexation of a mineral interest under this subchapter includes the surface estate and each other interest in the land covered by the mineral interest.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.204. TAXATION OF PERSONAL PROPERTY. Personal property having a taxable situs at the same location as real property detached and annexed under this subchapter is taxable by the school district to which the real property is annexed.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.205. DETACHMENT OF PROPERTY. (a) The commissioner shall detach property under this section from each school district from which the commissioner is required under Section 41.004 to detach property under this subchapter.

(b) The commissioner shall detach from each school district covered by Subsection (a) one or more whole parcels or items of property in descending order of the taxable value of each parcel or item, beginning with the parcel or item having the greatest taxable value, until the school district's wealth per student is equal to or less than the equalized wealth level, except as otherwise provided by Subsection (c).

(c) If the detachment of whole parcels or items of property, as provided by Subsection (a) would result in a district's wealth per student that is less than the equalized wealth level by more than \$10,000, the commissioner may not detach the last parcel or item of property and shall detach the next one or more parcels or items of property in descending order of taxable value that would result in the school district having a wealth per student that is equal to or less than the equalized wealth level by not more than \$10,000.

(d) Notwithstanding Subsections (a), (b), and (c), the commissioner may detach only a portion of a parcel or item of property if:

(1) it is not possible to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level under this subchapter unless some or all of the parcel or item of property is detached and the detachment of the whole parcel or item would result in the district from which it is detached having a wealth per student that is less than the equalized wealth level by more than \$10,000; or

(2) the commissioner determines that a partial detachment of that parcel or item of property is preferable to the detachment of one or more other parcels or items having a lower taxable value in order to minimize the number of parcels or items of property to be detached consistent with the purposes of this chapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.206. ANNEXATION OF PROPERTY. (a) The commissioner shall annex property detached under Section 41.205 to school districts eligible for annexation in accordance with this section. A school district is eligible for annexation of property to it under this subchapter only if, before any detachments or annexations are made in a year, the district's wealth per student is less than the greatest level for which funds are provided under Subchapter F, Chapter 42.

(b) Property may be annexed to a school district without regard to whether the property is contiguous to other property in that district.

(c) The commissioner shall annex property detached from school districts beginning with the property detached from the school district with the greatest wealth per student before detachment, and continuing with the property detached from each other school district in descending order of the district's wealth per student before detachment.

(d) The commissioner shall annex the parcels or items of property detached from a school district to other school districts that are eligible for annexation of property in descending order of the taxable value of each parcel or item according to the following priorities:

(1) first, to the eligible school districts assigned to the same county as the school district from which the property is detached whose total adopted tax rate for the preceding tax year does not

exceed by more than \$0.15 the total tax rate adopted for that year by the school district from which the property is detached;

(2) second, to the eligible school districts served by the same regional education service center as the district from which the property is detached whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.10 the total tax rate adopted for that year by the school district from which the property is detached; and

(3) third, to other eligible school districts whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.05 the total tax rate adopted for that year by the school district from which the property is detached.

(e) If the districts identified by Subsection (d) for a school district are insufficient to annex all the property detached from the school district, the commissioner shall increase, for purposes of this section, all the maximum difference in tax rates allowed under Subsection (d) in increments of \$0.01 until the districts are identified that are sufficient to annex all the property detached from the district.

(f) If only one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall annex property to that district until it reaches a wealth per student equal as nearly as possible to the greatest level for which funds are provided under Subchapter F, Chapter 42, by annexing whole parcels or items of property. Any remaining detached property shall be annexed to eligible school districts in the next priority group as provided by this section.

(g) If more than one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall first annex property to the district within the priority group to which could be annexed the most taxable value of property without increasing its wealth per student above the greatest level for which funds are provided under Subchapter F, Chapter 42, until that district reaches a wealth per student equal as nearly as possible to the greatest level for which funds are provided under Subchapter F, Chapter 42, by annexing whole parcels or items of property. Then any additional detached property shall be annexed in the same manner to other eligible school districts in the same priority group in descending order of capacity to receive taxable value of annexed property without increasing the district's wealth per student above the greatest level for which funds are provided under Subchapter F, Chapter 42. If every school district in a priority group reaches a wealth per student equal to the greatest level for which funds are provided under Subchapter F, Chapter 42, as nearly as possible, the remaining detached property shall be annexed to school districts in the next priority group in the manner provided by this section.

(h) For purposes of this section, a portion of a parcel or item of property detached in that subdivided form from a school district is treated as a whole parcel or item of property.

(i) The commissioner may order the annexation of a portion of a parcel or item of property, including a portion of property treated as a whole parcel or item under Subsection (h), if:

(1) the annexation of the whole parcel or item would result in the district eligible to receive it in the appropriate priority order provided by this section having a wealth per student greater than \$10,000 more than the greatest level for which funds are provided under Subchapter F, Chapter 42; or

(2) the commissioner determines that annexation of portions of the parcel or item would reduce disparities in district wealth per student more efficiently than would be possible if the parcel or item were annexed as a whole.

(j) The commissioner may modify the priorities established by this section as the commissioner considers reasonable to minimize or reduce the number of school districts to which the property detached from a

school district is annexed, to minimize or reduce the geographic dispersal of property in a school district, to minimize or reduce disparities in school district wealth per student that would otherwise result, or to minimize or reduce any administrative burden or expense.

(k) For purposes of this section, a school district is assigned to a county if the school district is assigned to that county in the 1992–1993 Texas School Directory published by the Central Education Agency.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.207. LIMITATIONS ON DETACHMENT AND ANNEXATION. The commissioner may detach and annex property under this subchapter only if:

- (1) the property is not exempt from ad valorem taxation under Section 11.20 or 11.21, Tax Code; and
- (2) the property does not contain a building or structure owned by the United States, this state, or a political subdivision of this state that is exempt from ad valorem taxation under law.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.208. ORDERS AND NOTICE. (a) The commissioner shall order any detachments and annexations of property under this subchapter not later than November 8 of each year.

(b) As soon as practicable after issuing the order under Subsection (a), the commissioner shall notify each affected school district and the appraisal district in which the affected property is located of the determination.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.209. TREATMENT OF SUBDIVIDED PROPERTY. (a) If the commissioner orders the detachment or annexation of a portion of a parcel or item of property under this subchapter, the order shall specify the portion of the taxable value of the property to be detached or annexed and may, but need not, describe the specific area of the parcel or item to be detached or annexed.

(b) If an order for the detachment or annexation of a portion of a parcel or item of property does not describe the specific area of the parcel or item to be detached or annexed, the commissioner, as soon as practicable after issuing the order, shall determine the specific area to be detached or annexed and shall certify that determination to the appraisal district for the county in which the property is located.

(c) If portions of a parcel or item of property are located in two or more school districts as the result of a detachment or annexation, the parcel or item shall be appraised for taxation as a unit, and the commissioner shall determine the portion of the taxable value of the property that is located in each of those school districts based on the square footage of the property, or any other reasonable method adopted by the commissioner.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.210. DUTIES OF CHIEF APPRAISER. (a) The chief appraiser of each appraisal district shall cooperate with the commissioner in administering this subchapter. The commissioner may require the chief appraiser to submit any reports or provide any information available to the chief appraiser in the form and at the times required by the commissioner.

(b) As soon as practicable after the detachment and annexation of property, the chief appraiser of the appraisal district for the school district from which the property is detached shall send a written notice of the detachment and annexation to the owner of any property taxable in a different school district as a

result of the detachment and annexation. The notice must include the name of the school district by which the property is taxable after the detachment and annexation.

(c) The commissioner may reimburse an appraisal district for any costs incurred in administering this subchapter and may condition the reimbursement or the amount of the reimbursement on the timely submission of reports or information required by the commissioner or the satisfactory performance of any other action required or requested by the commissioner.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.211. STUDENT ATTENDANCE. A student who is a resident of real property detached from a school district may choose to attend school in that district or in the district to which the property is annexed. For purposes of determining average daily attendance under Section 42.005, the student shall be counted in the district to which the property is annexed. If the student chooses to attend school in the district from which the property is detached, the state shall withhold any foundation school funds from the district to which the property is annexed and shall allocate to the district in which the student is attending school those funds and the amount of funds equal to the difference between the state funds the district is receiving for the student and the district's cost in educating the student.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.212. BOND TAXES. Property detached from a school district is released from the obligation for any tax to pay principal and interest on bonds authorized by the district before detachment. The property is subject to any tax to pay principal or interest on bonds authorized by the district to which the property is annexed whether authorized before or after annexation.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.213. DETERMINATION BY COMMISSIONER FINAL. A decision or determination of the commissioner under this subchapter is final and not appealable.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

SUBCHAPTER H. CONSOLIDATION BY COMMISSIONER

Sec. 41.251. COMMISSIONER ORDER. If the commissioner is required under Section 41.004 to order the consolidation of districts, the consolidation is governed by this subchapter. The commissioner's order shall be effective on a date determined by the commissioner, but not later than the earliest practicable date after November 8.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.252. SELECTION CRITERIA. (a) In selecting the districts to be consolidated with a district that has a property wealth greater than the equalized wealth level, the commissioner shall select one or more districts with a wealth per student that, when consolidated, will result in a consolidated district with a wealth per student equal to or less than the equalized wealth level. In achieving that result, the commissioner shall give priority to school districts in the following order:

- (1) first, to the contiguous district that has the lowest wealth per student and is located in the same county;
- (2) second, to the district that has the lowest wealth per student and is located in the same county;

- (3) third, to a contiguous district with a property wealth below the equalized wealth level that has requested the commissioner that it be considered in a consolidation plan;
- (4) fourth, to include as few districts as possible that fall below the equalized wealth level within the consolidation order that have not requested the commissioner to be included;
- (5) fifth, to the district that has the lowest wealth per student and is located in the same regional education service center area; and
- (6) sixth, to a district that has a tax rate similar to that of the district that has a property wealth greater than the equalized wealth level.

(b) The commissioner may not select a district that has been created as a result of consolidation by agreement under Subchapter B to be consolidated under this subchapter with a district that has a property wealth greater than the equalized wealth level.

(c) In applying the selection criteria specified by Subsection (a), if more than two districts are to be consolidated, the commissioner shall select the third and each subsequent district to be consolidated by treating the district that has a property wealth greater than the equalized wealth level and the district or districts previously selected for consolidation as one district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.253. GOVERNANCE. (a) Until the initial trustees elected as provided by Subsection (b) have qualified and taken office, a district consolidated under this subchapter is governed by a transitional board of trustees consisting of the board of trustees of the district having the greatest student membership on the last day of the school year preceding the consolidation plus one member of the board of trustees of each other consolidating district selected by that board.

(b) The transitional board of trustees shall divide the consolidated district into nine single-member trustee districts in accordance with the procedures provided by Section 11.052. The transitional board shall order an election for the initial board of trustees to be held on the first May uniform election date after the effective date of a consolidation order.

(c) Members of the board of trustees of a consolidated district serve staggered terms of office for four years.

(d) Section 13.156 applies to districts consolidated under this subchapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 2001, 77th Leg., ch. 340, Sec. 3, eff. Sept. 1, 2001; Acts 2005, 79th Leg., ch. 471, Sec. 4, eff. Oct. 1, 2005.

Sec. 41.254. DISSOLUTION OF CONSOLIDATED DISTRICT. (a) If the legislature abolishes ad valorem taxes for public school maintenance and operations and adopts another method of funding public education, the board of trustees of a consolidated district created under this subchapter may dissolve the consolidated district, provided that the dissolution is approved by a majority of those voters residing within the district participating in an election called for the purpose of approving the dissolution of the consolidated school district.

(b) If a consolidated district is dissolved, each of the former districts is restored as a separate district and is classified as an independent district.

(c) Title to real property of the consolidated district is allocated to the restored district in which the property is located. Title to proportionate shares of the fund balances and personal property of the consolidated district, as determined by Subsection (e), are allocated to each restored district.

(d) Each of the restored districts assumes and is liable for:

- (1) indebtedness of the consolidated district that relates to real property allocated to the district;
and
- (2) a proportionate share, as determined by Subsection (e), of indebtedness of the consolidated district that does not relate to real property.

(e) A restored district's proportionate share of fund balances, personal property, or indebtedness is equal to the proportion that the number of students in average daily attendance in the restored district bears to the number of students in average daily attendance in the consolidated district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.255. FUND BALANCES. Fund balances of a school district consolidated under this subchapter may be used only for the benefit of the schools within the district that generated the funds.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.256. EMPLOYMENT CONTRACTS. A consolidated district created under this subchapter shall honor an employment contract entered into by a consolidating district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 41.257. APPLICATION OF SMALL AND SPARSE ADJUSTMENTS AND TRANSPORTATION ALLOTMENT. The budget of the consolidated district must apply the benefit of the adjustment or allotment to the schools of the consolidating district to which Section 42.103, 42.105, or 42.155 would have applied in the event that the consolidated district still qualifies as a small or sparse district.

Added by Acts 1995, 74th Leg., ch. 260, § 1, eff. May 30, 1995.

Appendix B: Worksheets

This appendix includes the following worksheets and supplemental information:

- **Worksheet for Calculating Chapter 41 WADA**—use this worksheet and the *Worksheet for Estimating the Cost of Buying WADA* to estimate the cost of Option 3 or 4 to your district.
- **Worksheet for Estimating the Cost of Buying WADA**—use this worksheet and the *Worksheet for Calculating Chapter 41 WADA* to estimate the cost of Option 3 or 4 to your district.
- **Worksheet for Determining Adjusted 2008 PTAD Value**—use this worksheet to derive an adjusted 2008 PTAD value if your district experiences a decline in value in excess of 4 percent from tax year 2008 to tax year 2009.
- **Worksheet for Chapter 41 Partners**—partners of your district use this worksheet to find a preliminary estimate of the maximum number of WADA that they can “sell,” as well as the financial benefit of the sale.
- **Optional Start-up Worksheet**—use this optional worksheet to find a preliminary estimate of your district’s recapture costs. Please note, however, that the estimate produced with this worksheet does not take into account any potential discounts, credits, or other reductions. Also, it does not produce an appropriate cost estimate if your district qualifies for the hold harmless tax base.
- Supplementary information for the worksheets or options

Please see the calendar at the beginning of this manual for deadlines associated with these worksheets.

Worksheet for Calculating Chapter 41 WADA

Use this worksheet and the one that immediately follows it (the *Worksheet for Estimating the Cost of Buying WADA*) to estimate the cost of Option 3 or 4 to your district. Complete this worksheet first, since its result is used in the *Worksheet for Estimating the Cost of Buying WADA*.

Electronic versions of this worksheet and the *Worksheet for Estimating the Cost of Buying WADA* are available as a part of the state aid template produced by the Region XIII Education Service Center. For the *Worksheet for Calculating Chapter 41 WADA*, see the worksheet labeled “Ch41 Calc Data” in the state aid template. For the *Worksheet for Estimating the Cost of Buying WADA*, see the worksheet labeled “Option Costs” in the state aid template. The state aid template is available online at <http://www5.esc13.net/finance/>. Click on the appropriate link to access the most recent release of the Excel template.

Complete this worksheet and the *Worksheet for Estimating the Cost of Buying WADA* (or the equivalent worksheets in the state aid template) to plan and budget appropriately. Your district must also submit copies of these worksheets to the TEA (see the calendar at the beginning of the manual for the deadline date). If your district submits both worksheets in a timely manner, the agency will use the data items from the worksheets (see the table following this paragraph) in the **preliminary** *Cost of Recapture Report*. Because district data are usually more current than the agency’s, submitting the worksheets as soon as possible will help ensure your district gets the most accurate cost estimate possible.

Worksheet	Information Extracted for Preliminary Cost of Recapture Report
<i>Worksheet for Calculating Chapter 41 WADA</i>	Chapter 41 WADA
<i>Worksheet for Estimating the Cost of Buying WADA</i>	M&O tax collections

Instructions for Completing the *Worksheet for Calculating Chapter 41 WADA*:

Use this worksheet to estimate the WADA of your district (commonly referred to as Chapter 41 WADA). You can also use this worksheet to convert the number of students who are being charged tuition into a WADA count (line 6). Use the results of this worksheet in the *Worksheet for Estimating the Cost of Buying WADA*.

This worksheet requires the entry of your district’s current-year Chapter 42 WADA, the number of nonresident students being charged tuition, and your district’s enrollment (lines 1, 2, and 3, respectively). However, since current-year enrollment data are not known until after PEIMS fall submission data become available in the spring, the TEA will use prior-year enrollment data in its initial estimates of WADA for a school year. Enrollment data for the current year will ultimately replace prior-year enrollment data. Use your district’s best estimates of current-year data on lines 1, 2, and 3.

Line 1

Line 1 requires the entry of **Chapter 42** WADA (the WADA of the students your district is educating, regardless of where each student lives) for the current year. This WADA calculation involves the FSP funding formulas found in Chapter 42 of the TEC. If your district is educating nonresident students and charging them tuition, this WADA count will **not** be the same as your district’s **Chapter 41** WADA. Your district can find an estimate of **Chapter 42** WADA for the 2009–10 school year in the “WADA Calculation Detail Report” within the 2009–10 *Preliminary Summary of Finances*, which is available at the School District State Aid Reports web page at <http://ritter.tea.state.tx.us/school.finance/funding/sofweb7.html#entry>.

Line 2

Line 2 requires the entry of the number of nonresident students being charged tuition. As stated previously, your district cannot claim WADA credit for nonresident students being charged tuition.

**Worksheet for Calculating Chapter 41 WADA
2009–10 School Year**

Data Entry:

Line #	Data Element Needed	Data Value
1	2009–10 Chapter 42 WADA (Use the figure from the latest 2009–2010 <i>Summary of Finances.</i>)	
2	2009–10 nonresident students who are charged tuition	
3*	2009–10 enrollment	

*Use the best estimates available for 2009–2010 on lines 1, 2, and 3. The TEA will use 2008–2009 data on line 3 until 2009–2010 data are available.

Calculation of Chapter 41 WADA:

Line #	Calculation	Formula	Result
4	Nonresident students being charged tuition	From line 2	
5	Chapter 42 WADA-to-enrollment ratio	Line 1 / line 3	
6	WADA of students being charged tuition	Line 4 x line 5	
Chapter 41 WADA:			
7	2009–10 Chapter 41 WADA	Line 1 – line 6	

Worksheet for Estimating the Cost of Buying WADA

Use this worksheet and the one that precedes it to estimate the cost of Option 3 or 4 to your district. Complete this worksheet after the *Worksheet for Calculating Chapter 41 WADA*, since the result from that worksheet is used in this one.

Electronic versions of this worksheet and the *Worksheet for Calculating Chapter 41 WADA* are available as a part of the state aid template produced by the Region XIII Education Service Center. For the *Worksheet for Calculating Chapter 41 WADA*, see the worksheet labeled “Ch41 Calc Data” in the state aid template. For the *Worksheet for Estimating the Cost of Buying WADA*, see the worksheet labeled “Option Costs” in the state aid template. The state aid template is available online at <http://www5.esc13.net/finance/>. Click on the appropriate link to access the most recent release of the Excel template.

Complete the *Worksheet for Calculating Chapter 41 WADA* and the *Worksheet for Estimating the Cost of Buying WADA* (or the equivalent worksheets in the state aid template) to plan and budget appropriately. Your district must also submit copies of these worksheets to the TEA (see the calendar at the beginning of the manual for the deadline date). If your district submits both worksheets in a timely manner, the agency will use the data items from the worksheets (see the table following this paragraph) in the **preliminary** *Cost of Recapture Report*. Because district data are usually more current than the agency’s, submitting the worksheets as soon as possible will help ensure your district gets the most accurate cost estimate possible.

Worksheet	Information Extracted for Preliminary Cost of Recapture Report
<i>Worksheet for Calculating Chapter 41 WADA</i>	Chapter 41 WADA
<i>Worksheet for Estimating the Cost of Buying WADA</i>	M&O tax collections

Instructions for Completing the *Worksheet for Estimating the Cost of Buying WADA*:

Use this worksheet to estimate the cost of Option 3 and/or Option 4. Please note that the cost of buying WADA is not final until the data values used in the worksheet are final.

Lines 1–4

This worksheet requires data from the 1992–93 school year: M&O tax collections (line 1), the CED distribution (line 2), Chapter 36 WADA (line 3), and the comptroller's certified 1991 property value (line 4) are all used to determine whether your district qualifies for the “hold harmless” provision (see “What is the Chapter 41 hold harmless provision?” in section 1). You can find these figures in the “School Year 1992–93 Data Needed for Chapter 41 Cost Calculations” section of this appendix.

Lines 5 and 7

Use your district’s best estimate of current-year M&O tax collections (line 5), which include delinquent taxes, but not penalties and interest. To estimate recapture at the 1st equalized wealth level tax collections, please use M&O tax collections at the district’s compressed rate. To calculate recapture at the 3rd equalized wealth level, repeat the calculation using M&O tax collections used in the district’s Tier II, Level 3, calculation of state aid. On line 7, use the Chapter 41 WADA figure from the *Worksheet for Calculating Chapter 41 WADA*.

Line 8

Use the final prior-year PTAD value, as certified by the comptroller on July 1, for your district's property value (line 8). For the 2009–10 school year, if your district's property value for tax year 2008 declined by more than 4 percent, an adjusted property value for tax year 2008 may be used. A worksheet for determining the adjusted property value for tax year 2008, if applicable, appears after this worksheet. As noted on that worksheet, the adjustment is contingent on excess funds being available.

If your district is completing this worksheet before the final value is certified, the preliminary value certified by the comptroller may be used as a "placeholder." Unless your district engages in the appeals process, the preliminary value is usually the same as the final value ultimately certified by the comptroller. Direct any questions about the prior-year PTAD value to the reporting section of the PTAD at 1-800-252-9121.

Lines 14-16

With one exception, the hold harmless tax base provision (lines 14 through 16) applies only to Option 3 and Option 2 (detachment of property). The exception is Option 3 exercised in combination with the technology consortium form of Option 4. If your district is exercising this combined option, the hold harmless provision applies, provided that all programmatic requirements pertaining to this combined option are met.

Lines 36-38

Entries and calculations pertaining to potential cost discounts begin on line 36 with the early agreement credit for Option 3 and the efficiency credit for Option 4. Incorporate these discounts into cost calculations if the discounts have been, or most likely will be, granted. With one exception, the early agreement credit applies only to Option 3, and the efficiency credit applies only to Option 4. The exception is Option 3 exercised in combination with the technology consortium form of Option 4. If your district exercises this combined option, the early agreement credit, if approved, applies to the Option 3 portion of the arrangement (the number of WADA being bought from the state), and the efficiency credit, if granted, applies to the Option 4 portion (the number of WADA being bought from the partners). If your district is exercising this combined option, consult the Chapter 41 program director in the TEA State Funding Division at (512) 463-9238 for assistance with cost calculations.

Line 43

Line 43 refers to a one-time allowable reduction in cost for unused (credited) historical CAD expenses for the years 1993–94, 1994–95, 1995–96, and 1996–97. This credit is applicable only if your district is exercising Option 3 or the combination of Option 3 and the consortium form of Option 4. If your district had a credit balance in the prior year because of "unexpended" historical CAD costs, the credit balance will be carried forward to reduce Option 3 costs in future years, until the credit has been exhausted. If your district is one of the few that have a historical CAD cost credit balance remaining from the prior year, you will be notified. If your district does have a balance remaining, enter the appropriate amount on line 43 for Option 3. If your district is exercising the qualifying option(s) and has never before claimed credit for historical CAD costs for the four applicable years, consult the Chapter 41 program director in the TEA State Funding Division at (512) 463-9238 for assistance in getting this credit.

Line 44

Enter the estimated final cost to your district on line 44. This figure is the net of all potential cost reductions. If the result on line 44 is a negative number, your district's final cost is zero.

Please keep in mind that this is a worksheet for *estimating* the recapture cost. The final cost cannot be determined until all data values are final.

**Worksheet for Estimating the Cost of Buying WADA
2009–10 School Year****District Name:** _____**County-District No:** _____**Data Entry:**

Line No.	Data Element Needed	Data Value
1	1992–93 M&O tax collections	
2	1992–93 CED distribution	
3	1992–93 Chapter 36 WADA	
4	1991 CPTD property value	
5	2009–10 M&O collections	
6	2009–10 Adopted M&O tax rate	
7	2009–10 Chapter 41 WADA (from line 7 of <i>Worksheet for Calculating Chapter 41 WADA</i>)	
8	2008 PTAD property value (as adjusted for declines and/or optional homestead exemptions, if applicable, and if excess funds available)	
9	2009–10 Available School Fund amount	
10	2009–10 number of resident students being educated by another district for which Chapter 41 district is paying tuition	
11	2009–10 tuition amount paid per student for each resident student being educated by another district. Note: The tuition amount per student cannot exceed the cost per WADA calculated on line 31.	
12	2009–10 county appraisal district (CAD) cost	
13	2009–10 New Instructional Facility Allotment (NIFA)	

Calculations:

Line No.	Calculation	Formula	Result
Hold Harmless Tax Rate:			
14	1992–93 total M&O tax revenue	Line 1 + line 2	
15	WADA ratio (2007–08 to 1992–93)	Line 7 / line 3	
16	1992–93 total M&O tax revenue adjusted for WADA change	Line 14 x line 15	
17	1992–93 adjusted M&O revenue less 2007–08 Available School Fund	Line 16 – line 9	
18	1992–93 effective M&O tax rate	(Line 1 / line 4) + .0082 [CED rate]	
19	2008–09 hold harmless effective tax rate	Larger of line 18 or .015	
Tax Base at Equalized Level:			
20	2008–09 tax base at equalized level	Line 7 x \$319,500	
Tax Base at Hold Harmless Level (applicable only to Option 3 and Option 3 + technology consortium):			
21	1992–93 hold harmless tax base	Line 17 / line 19	
22	Hold harmless tax base per WADA	Line 21* {.30178571* [line 6/ 1.17]} + 1	
23	Adjusted hold harmless tax base per WADA	Line 22 x {[.14107143 x (line 6 / 1.33)] + 1}	
24	Adjusted tax base retained at hold harmless level	Line 23 x line 7	
25	2008–09 tax base retained	Larger of line 20 or line 24	

Option 3				Option 4		
Line No.	Calculation	Formula	Result	Calculation	Formula	Result
Tax Base Reduction:						
26	N/A	N/A	N/A	Equalized tax base retained	Line 20	
27	Excess tax base	Line 8 – line 25		Excess tax base	Line 8 – line 26 (if < 0, use 0)	
28	Proportional tax base reduction	Line 27 / line 8		Proportional tax base reduction	Line 27 / line 8	
WADA to Purchase and WADA Cost:						
29	Cost before any discounts	Line 28 x line 5		Cost before any discounts	Line 28 x line 5	
30	WADA needed to equalize wealth	Line 27 / line 23 (if line 23 < 319,500, divide by 319,500)		WADA needed to equalize wealth	Line 27 / 319,500	
31	Cost per WADA	Line 29 / line 30		Cost per WADA	Line 29 / line 30	
32	WADA credit for tuition paid	(Line 10 x line 11) / line 31		WADA credit for tuition paid	(Line 10 x line 11) / line 31	
33	WADA credit for New Instructional Facilities Allotment (NIFA)	Line 13 / line 31		WADA credit for New Instructional Facilities Allotment (NIFA)	Line 13 / line 31	
34	WADA needed to be purchased	Line 30 – line 32 – line 33		WADA needed to be purchased	Line 30 – line 32 – line 33	
35	Adjusted cost after WADA credit and before any discounts	Line 34 x line 31		Adjusted cost after WADA credit and before any discounts	Line 34 x line 31	
Early Agreement Credit (applicable to Option 3 only):				Efficiency Credit (applicable to Option 4 only):		
36	4 percent of Option 3 cost	Line 29 x .04		5 percent of Option 4 cost	Line 29 x .05	
37	\$80 for each Option 3 WADA needed to equalize wealth	Line 30 x 80		\$100 for each Chapter 41 WADA	Line 7 x 100	
38	Early agreement credit amount	Smaller of line 36 or 37, or 0 if not applicable		Efficiency credit amount	Smaller of line 36 or 37, or 0 if not applicable	

Credit for CAD Costs (applicable to Options 3 and 4):						
39	Estimated CAD appraisal cost	Line 12		N/A	N/A	
40	Option 3 cost before any discounts	Line 29		N/A	N/A	
41	M&O tax collections	Line 5		N/A	N/A	
42	CAD reduction amount	Line 39 x (line 40 / line 41)		CAD reduction amount	Enter share being paid by partner(s). Cannot be greater than line 42 under Option 3.	
43	Unused historical CAD credit	Enter "carryover" amount, if any		N/A	N/A	N/A
Final Cost of Option (A NEGATIVE RESULT IN THE FOLLOWING LINE INDICATES A 0 [ZERO] COST.):						
44	Final cost net of all discounts	Line 35 – line 38 – line 42 – line 43		Final cost net of all adjustments	Line 35 – line 38 – line 42	

Worksheet for Determining Adjusted 2008 PTAD Value

Use this worksheet to derive an adjusted 2008 PTAD value if your district experiences a decline in value in excess of 4 percent from tax year 2008 to tax year 2009.

**Worksheet for Determining Adjusted
2008 PTAD Property Value**

1. 2008 PTAD property value (“T2”) _____
2. 2009 estimated PTAD property value (“T2”) _____
Use an estimate of what the comptroller will certify as your district’s “T2” property value for tax year 2009.
3. Property value loss (Line 1 – line 2) _____
If negative, there is no loss. Use the value on line 1 as your district’s 2008 PTAD value.
4. Percentage loss (Line 3 / line 1) _____
If less than 0.04, there is no adjustment. Use the value on line 1 as your district’s 2008 PTAD value.
5. Percentage adjustment (Line 4 – 0.04) _____
6. Adjustment for decline in excess of 4 percent (Line 1 x line 5) _____
7. 2008 PTAD property value adjusted for decline (Line 1 – line 6) _____
Your district may use this value as its adjusted 2008 PTAD value.

Worksheet for Chapter 41 Partners

The following worksheet is for **partners** of your district. It provides a **preliminary** estimate of the maximum number of WADA that a partner district can "sell," as well as the financial benefit of the sale. **The benefit of selling WADA will not be final until the data values used for both your district (the Chapter 41 district) and your partners' districts are final.**

Instructions for Completing the *Worksheet for Chapter 41 Partners*:

In these instructions, *you* and *your district* refer to the partner district that is completing the worksheet.

Generally, at the time that this worksheet is completed, data values for the upcoming school year, such as state aid earned, WADA, total tax revenue, and the amount to be distributed from the Foundation School Fund, are not yet known. You can find forecasts of these data elements in the TEA's July 2009 *Summary of Finances*. Alternatively, you can develop your own forecast by completing the state aid template, which calculates state aid pursuant to Chapter 42, TEC. If your district's most recent pupil forecasts are different from TEA's and you believe yours to be more accurate, use the second approach, since it will likely result in a more accurate "benefit" estimate.

The state aid template is available online at <http://www5.esc13.net/finance/>. Click on the appropriate link to access the most recent release of the Excel template.

Line 1

Use the final 2008 tax year value ("T2") certified by the comptroller on line 1. If that value is not yet known, you can use the preliminary value as a "placeholder." Please direct questions about this value to the PTAD at 1-800-252-9121.

Line 2

Line 2 requires an estimate of your district's Chapter 42 WADA. Your district can find an estimate of **Chapter 42** WADA for the 2009–10 school year in the "WADA Calculation Detail Report" within the 2009–10 *Preliminary Summary of Finances*, which is available at the School District State Aid Reports web page at <http://ritter.tea.state.tx.us/school.finance/funding/sofweb7.html#entry>.

Line 6

The **purchasing Chapter 41 district** determines the selling price per WADA (line 6). It is an amount calculated according to law, and the Chapter 41 district you are partnered with should supply this amount to you. The Chapter 41 district can potentially qualify for several cost discounts, which has the effect of reducing your district's gain (profit) per WADA. **Discuss any potential discounts with the Chapter 41 district your district is partnered with.**

Line 11

Use line 11 to compute an initial estimate of the number of WADA available to sell. If the result is negative, your district cannot sell WADA, and the result should be set to zero.

**Worksheet for Chapter 41 Partners
2009–10 School Year**

Partner District Name: _____

Data Entry:

Line No.	Data Element Needed	Data Value
1	2008 PTAD value ("T2")	
2	2009–10 estimated WADA	
3	2009–10 estimated state aid earned	
4	2009–10 total taxes collected, capped at DTR limit	
5	2009–10 allocation from Foundation School Fund	
6	Selling price per WADA (Get from the Chapter 41 district; consider discounts.)	

Calculations:

Line No.	Calculation	Formula	Result
7	Minimum WADA to be below equalized level	Line 1 / 319,500	
8	WADA potentially available to sell	Line 2 – line 7 (cannot be less than zero)	
9	Total revenue	Line 3 + line 4	
10	Revenue per WADA	Line 9 / line 2	
11	WADA available to sell	The lesser of line 8 or (line 5 / line 10)	
12	Gain per WADA sold	Line 6 – line 10	

Optional Start-up Worksheet

The worksheet that follows is optional. If your district has never before been impacted by Chapter 41, you may find the worksheet useful for providing a simplified explanation of the financial impact of the wealth-reduction statutes to board members and others. **This optional worksheet does not produce an appropriate cost estimate for those Chapter 41 districts that qualify for the “hold harmless” tax base.**

The cost estimate produced by this worksheet should be considered **preliminary**, as the estimate does not take into account any potential discounts, credits, or other reductions available to Chapter 41 districts. **Also, until the data entered into this worksheet or other worksheets are final, costs are not final.**

You need only three variables to complete the worksheet: Chapter 41 WADA for line 1, the final 2008 tax year value (“T2”) certified by the comptroller (adjusted for 4 percent decline, if applicable) for line 2, and an estimate of M&O tax collections for the current year for line 8 (this estimate should include delinquent taxes, but not penalties and interest). Use the same values on this optional worksheet as were used on the *Worksheet for Estimating the Cost of Buying WADA*.

Optional Start-up Worksheet

1. 2009–10 Chapter 41 WADA	_____
2. 2008 PTAD value (“T2”)	_____
3. 2009–10 wealth per WADA cutoff (Statutory limit for Chapter 41 status)	<u> \$319,500</u>
4. 2009–10 wealth per WADA (Line 2 / line 1)	_____
5. 2009–10 wealth the district may keep (Line 1 x line 3)	_____
6. 2009–10 excess wealth (Line 2 – line 5)	_____
7. 2009–10 percent of excess wealth (Line 6 / line 2)	_____ %
8. 2009–10 estimated M&O tax collections	_____
9. 2009–10 amount owed (Recapture amount) (This is the amount that is owed to the state if Option 3 is chosen or to a partner district if Option 4 is chosen) (Line 8 x line 7)	_____

NOTE: The cost estimate produced by this worksheet is preliminary, as it does not take into account potential discounts or credits available to Chapter 41 districts. Also, until the data entry values are final, costs are not final.

Supplementary Information for the Worksheets or Options

This section provides supplementary information for using the worksheets or selecting options. It includes —

- Instructions for downloading worksheets using the Internet
- A list of Texas counties and their populations (U.S. Census Bureau, Census 2000)

Use this information to help determine which counties might be eligible for the special case of Option 4, the technology consortium.
- A list of 1992–93 school year information, by county

Use the information in this list to make Chapter 41 cost calculations.
- A list of districts by region and county

Use the information in this list to help determine potential partner districts for Option 4 arrangements.

Downloading Worksheets Using the Internet

Electronic versions of several of the worksheets in this section are available as a part of the state aid template produced by the Region XIII Education Service Center. To access this template, follow these steps:

1. Open your computer's Internet browser (e.g., Microsoft Internet Explorer).
2. In the address window, type <http://www5.esc13.net/finance/>, and press ENTER. The browser takes you to the Statewide School Finance page of the Region XIII Education Service Center website.
3. Click on the appropriate link to access the most recent release of the Excel template.

Census 2000 Data by County

The following is a list of Texas counties and their populations (U.S. Census Bureau, Census 2000). Your district can use this information to help determine which counties might be eligible for the special case of Option 4, the technology consortium.

Census 2000

Source: U.S. Census Bureau

County Populations Ordered Alphabetically by County Name			County Populations Ordered by County Population	
County	Population		County	Population
Anderson	55,109		Loving County	67
Andrews	13,004		King County	356
Angelina	80,130		Kenedy County	414
Aransas	22,497		Borden	729
Archer	8,854		McMullen	851
Armstrong	2,148		Kent	859
Atascosa	38,628		Roberts	887
Austin	23,590		Terrell	1,081
Bailey	6,594		Sterling	1,393
Bandera	17,645		Glasscock	1,406
Bastrop	57,733		Motley	1,426
Baylor	4,093		Foard	1,622
Bee	32,359		Stonewall	1,693
Bell	237,974		Irion	1,771

Appendix C: Forms

This appendix includes information on the forms your district is required to submit. Your district should submit only those forms applicable to the option(s) it is exercising.

Unless otherwise indicated, forms must be submitted online via the FSP Payment System, which is accessed through the Texas Education Agency Secure Environment at <https://seguin.tea.state.tx.us/apps/logon.asp>. Instructions on how to apply for access to the online FSP Payment System can be found at <http://ritter.tea.state.tx.us/school.finance/fsp.html>.

Forms to be submitted via the Chapter 41 module of the online FSP Payment System:

- **2009–10 Chapter 41 Choice Selection Form**—used to indicate whether your district is using the offset provision during the current school year
- **District Intent**—used to indicate the option your district intends to use to reduce its property wealth per WADA
- **Options and Contracts**—used to provide information on the option(s) chosen and associated contracts. This part of the Chapter 41 module allows submission of CAD costs paid by your district and Option 4 districts and also allows for submission of Option 4 partner WADA purchased records.

Form to be submitted by mail or fax:

- **Estimated Property Value for Tax Year 2008**—used to calculate a preliminary adjusted property value for tax year 2008 if the property value for tax year 2009 is at least 4 percent lower than the property value for tax year 2008. Submit this form **only if it is applicable to your district**.

Please see the calendar at the beginning of this manual for deadlines associated with these forms.

2009-10 Chapter 41 Choice Selection Form

Use this form to indicate whether your district is using the offset provision during the current school year. The form must be completed and submitted via the online FSP Payment System. A screen shot of the form as it appears within the FSP Payment System is shown on the following page.

Enter Information

Was your district first designated Chapter 41 in 2006-07 or later? Yes No

Estimated Additional State Aid for Tax Reduction

Estimated Cost of Recapture

Difference \$0

Select Choice

Choice 1: Reduce Additional State Aid for Tax Reduction by the amount owed for recapture. With this option, the estimated recapture amount will be withheld from the state aid payments for Additional State Aid for Tax Reduction that are scheduled for September and October.

Choice 2: Receive Additional State Aid for Tax Reduction and pay recapture separately. With this option, the district will receive state aid payments for Additional State Aid for Tax Reduction in September and October. The district will make recapture payments in February through August.

Estimated Property Value for Tax Year 2008

Use this form to calculate a preliminary adjusted property value for tax year 2008 if the property value for tax year 2009 is at least 4 percent lower than the property value for tax year 2008. Submit this form, by mail or fax, only if it is applicable to your district.

Estimated Property Value for Tax Year 2008

Chapter 41 School District Name: _____

School District’s County-District Number: _____

This form is used for reporting an estimate of the Chapter 41 district’s property value for tax year 2008 (“T2”). This value will be used to initially determine whether the district had a property value decline in excess of 4 percent between tax year 2008 and tax year 2009. It should be completed by the **chief appraiser** and returned to the address shown below. **The final determination will be made by comparing the comptroller’s certified values for tax years 2007 and 2008.**

Tax Year	Estimated Taxable Value
2009 (the value that is estimated to be the comptroller’s “T2” value)	

If the district does not grant an optional homestead exemption, the “T4” value will be the same as the “T2” value.

<p>I, _____ (type or print name), chief appraiser of _____ (type or print county) County Appraisal District, do hereby certify that the taxable value listed above has been certified to the Chapter 41 district indicated above.</p> <p style="text-align: right;">_____ (Signature) _____ (Date)</p>

Appendix D: Sample Contracts

This appendix includes the following sample contracts and optional contract language:

- Agreement for the Purchase of Attendance Credits (Election Required)
- Agreement for the Purchase of Attendance Credits (No Election Required)
- Agreement for the Education of Nonresident Students
- Optional language to be inserted in the Agreement for the Education of Nonresident Students

Please note that the sample contracts require the entry of the school year to which they apply.

Agreement for the Purchase of Attendance Credits (Election Required)

This agreement is entered into pursuant to Subchapters A and D, Chapter 41, Texas Education Code (TEC), and rules adopted by the commissioner of education as authorized by Section 41.006, TEC. The purpose of this agreement is to enable the district to reduce its wealth per weighted student to a level that is not greater than the equalized wealth level as determined by the commissioner of education in accordance with Section 41.002, TEC.

The school year to which this agreement applies is _____ (the "school year").

The agreement is for _____ School District ("the district"), with a county-district number of _____, to purchase attendance credits from the state for the school year.

This agreement is subject to the approval of the voters of the district as provided by Section 41.096, TEC. The board of trustees of the district agrees to submit to the commissioner of education, on request, a certified copy of the board minutes showing the canvass of the election.

Initial payments will be based on the commissioner's estimate of the cost of each credit using the district's projected maintenance and operations tax revenue and the estimated number of weighted students in average daily attendance for the school year (Section 41.093, TEC). The district agrees to make the payments in accordance with the schedule specified in Section 41.094, TEC.

The actual cost of each credit will be determined by the commissioner in accordance with Section 41.093, TEC, when final data are available for the school year on the district's maintenance and operations tax revenue and the number of weighted students in average daily attendance. If that amount is less than the amount paid by the district through August 15 of the school year, the difference will be refunded. If that amount is greater than the amount paid, the district shall remit an amount equal to the difference for deposit in the state treasury to be used for the Foundation School Program.

The cost of purchased attendance credits will be reduced for county appraisal district (CAD) costs. The reduction will be computed in accordance with Section 41.097, TEC. If the reduction exceeds the cost for the school year, the difference will be carried forward and applied to each subsequent year's cost until the total amount of the reduction has been exhausted.

Agreement for the Purchase of Attendance Credits (No Election Required)

This agreement is entered into pursuant to Subchapters A and D, Chapter 41, Texas Education Code (TEC), and rules adopted by the commissioner of education as authorized by Section 41.006, TEC. The purpose of this agreement is to enable the district to reduce its wealth per weighted student to a level that is not greater than the equalized wealth level as determined by the commissioner of education in accordance with Section 41.002, TEC.

The school year to which this agreement applies is _____ (the "school year").

The agreement is for _____ School District ("the district"), with a county-district number of _____, to purchase attendance credits from the state for the school year.

Initial payments will be based on the commissioner's estimate of the cost of each credit using the district's projected maintenance and operations tax revenue and the estimated number of weighted students in average daily attendance for the school year (Section 41.093, TEC). The district agrees to make the payments in accordance with the schedule specified in Section 41.094, TEC.

The actual cost of each credit will be determined by the commissioner in accordance with Section 41.093, TEC, when final data are available for the school year on the district's maintenance and operations tax revenue and the number of weighted students in average daily attendance. If that amount is less than the amount paid by the district through August 15 of the school year, the difference will be refunded. If that amount is greater than the amount paid, the district shall remit an amount equal to the difference for deposit in the state treasury to be used for the Foundation School Program.

The cost of purchased attendance credits will be reduced for county appraisal district (CAD) costs. The reduction will be computed in accordance with Section 41.097, TEC. If the reduction exceeds the cost for the school year, the difference will be carried forward and applied to each subsequent year's cost until the total amount of the reduction has been exhausted.

Agreement for the Education of Nonresident Students

This agreement is entered into pursuant to Subchapters A, D, and E, Chapter 41, Texas Education Code (TEC), and rules adopted by the commissioner of education as authorized by Section 41.006, TEC. The purpose of this agreement is to enable the district to reduce its wealth per weighted student to a level not greater than the equalized wealth level for the school year in accordance with Section 41.002, TEC.

The school year to which this agreement applies is _____ (the "school year").

The agreement is for _____ Independent School District ("the district") to educate nonresident students for the school year from _____ Independent School District ("the partner"). The district agrees to contract for the education of nonresident students by purchasing an estimated _____ nonresident weighted students (WADA) from the partner for the school year.

The estimated cost of the purchase will be determined by the commissioner in accordance with the provisions of Section 41.093, TEC, using the district's projected maintenance and operations tax revenue and the estimated number of weighted students in average daily attendance for the school year. The actual cost will be determined by the commissioner when final data are available on the district's maintenance and operations tax revenue and the WADA count for the school year. The cost and number of contracted WADA in this agreement is subject to change according to the determinations of the commissioner so that the wealth per WADA of the district can be properly adjusted. The initial payment will be made no later than a date in February specified by the commissioner and the last no later than August 15 of the school year. The payment schedule will be negotiated by the two parties.

The partner will remain accountable for the educational performance of the students whose education is paid for by the district. For each WADA purchased by the district, state aid to the partner will be reduced by an amount equal to its state and local revenues per WADA for tiers 1 and 2 for the school year. Any excess state allocations to the partner will be immediately refunded to the state if the excess cannot be recovered by reduced foundation school program payments. WADA purchased pursuant to this agreement are deducted from the partner's total WADA count in determining the partner's wealth per WADA for Chapter 41 purposes.

[OPTIONAL: Insert here optional language on CAD costs and/or efficiency credits, if applicable.]

This agreement is in effect for one year and becomes null and void at the close of the school year. This agreement is subject to the approval of the voters of the district as provided by Section 41.122, TEC. The board of trustees of the district agrees to submit to the commissioner of education, on request, a certified copy of the board minutes showing the canvass of the election.

Optional Language to Be Inserted in the Agreement for the Education of Nonresident Students

Optional Language on CAD Costs

The partner agrees to pay a prorated share of county appraisal district (CAD) costs incurred by the district as a result of funds raised by the district that are distributed to the partner. The share will be based on actual WADA purchased from the partner applied as a percentage to the total applicable CAD costs for the applicable year.

Optional Language for an Efficiency Credit

Extended Year Programs

The partner agrees to use at least 50 percent of the gain from the sale of WADA for a 30-day extended year program for all eligible grade K–8 students for the school year in accordance with Section 29.082, TEC.

Alternative Education Programs

The partner agrees to use at least 50 percent of the gain from the sale of WADA for the enhancement of an existing alternative education program for behavior management for all eligible students for the school year in accordance with Section 37.008, TEC. The funds used must be in excess of amounts expended for the basic operation of the program pursuant to Section 37.008(g), TEC.

Juvenile Justice Alternative Education Programs

The partner agrees to use at least 50 percent of the gain from the sale of WADA for a juvenile justice alternative education program for the school year in accordance with Section 37.011, TEC. The expenditures for this program will be used to pay for additional costs not funded by member districts pursuant to Section 37.012, TEC.

Combination Programs

The partner agrees to use at least 50 percent of the gain from the sale of WADA for a combined program of at least two of the following three programs for the school year: extended year, alternative education, and juvenile justice alternative education. The extended year program will be for at least 30 days, for all eligible grade K–8 students in accordance with Section 29.082, TEC. The alternative education program funds will be used for enhancement of an existing behavior management program for all eligible students in accordance with Section 37.008, TEC. The funds used will be in excess of amounts expended for the basic operation of the program pursuant to Section 37.008(g), TEC. The juvenile justice alternative education program will be operated in accordance with Section 37.011, TEC, and funds will be used to pay for additional costs not funded by member districts pursuant to Section 37.012, TEC.

Combined Programs Plus Technology

The partner agrees to use at least some portion of the gain from the sale of WADA for any of the three following programs, singly or in any combination, for the school year: extended year, alternative education, and juvenile justice alternative education. The extended year program will be for at least 30 days, for all eligible grade K–8 students in accordance with Section 29.082, TEC. The alternative education program funds will be used for enhancement of an existing behavior management program for all eligible students in accordance with Section 37.008, TEC. The funds used will be in excess of amounts expended for the basic operation of the program pursuant to Section 37.008(g), TEC. The juvenile justice alternative education

program will be operated in accordance with Section 37.011, TEC, and funds will be used to pay for additional costs not funded by member districts pursuant to Section 37.012, TEC. In addition to the funds committed to any one or combination of the programs described above, all of the remaining gain will be used for instructional technology.

Technology**

The partner agrees to use all of the gain from the sale of WADA for instructional technology. That technology may involve computer networking of instruction (1) among or between its campuses and/or (2) from the district or its campuses to an education service center (ESC), other Internet service provider (ISP), or local telephone company point of presence (teleco POP). A portion of the gain may also be sent to the ESC, ISP, or teleco POP, as long as the funds are expended for connecting such services. A portion of the gain will be sent to _____ for instructional technology purposes that include (1) the expansion and/or upgrade of networks, labs, classroom applications, and related telecommunication systems, (2) the integration of technology into the teaching/learning process, (3) the acquisition and distribution of Internet services, or (4) the implementation and/or expansion of distance learning or other innovative programs. If any of the gain is expended for instructional technology, the Chapter 41 district will not obtain free or reduced-price instructional technology services from the service provider (i.e., will pay full market value for the service).

Ad Hoc Programs

The partner agrees to use at least 50 percent of the gain from the sale of WADA for a _____ education program as approved by the commissioner of education for the school year. The gain from the sale of WADA will not be used for general capital outlay unrelated to improving student performance.

**** If this provision is included in the contract, the director of the applicable service provider must sign the contract.**

Technology Consortium

The partner agrees to use 100 percent of the gain from the sale of WADA to participate in a technology consortium in accordance with the provisions of Section 41.099, TEC. At least three partners will be members of the consortium. If the Chapter 41 district is also a member of the consortium, it will pay at market value for all services received. Market value will be determined by the consortium. The gain resulting from the transaction (for all partners combined) will be limited to 10 percent of the district's cost of buying WADA. Partners reside, at least in part, in a county with a population of less than 40,000. The county of less than 40,000 wherein the partner at least partially resides is shown below.

Appendix E: Election Procedures

This section provides election information for districts considering one or more of the three following options for wealth reduction:

- Option 3: Purchase of attendance credits from the state
- Option 4: Contracting to educate nonresident students from a partner district
- Option 5: Consolidation of tax bases

Each of these options requires voter approval.

So far, virtually all Chapter 41 districts have chosen Option 3 or 4 or both simultaneously. Therefore, it is assumed that all or most districts will use one or both of these options in the future. **If your district is considering any other option besides 3 or 4, please consult the Chapter 41 program director in the State Funding Division at (512) 463-9238.**

Materials in This Appendix

This appendix includes the following materials, which may be helpful to you if your district is new to Chapter 41 status or is considering an election for an option not yet approved:

- Note on Submission to the U.S. Department of Justice
- Sample ballot proposition language

Please direct questions about election procedures or preclearance submissions to the Elections Division of the Office of the Secretary of State at 1-800-252-8683. **Please also contact this division for a calendar for special elections pertaining to Chapter 41.**

Note on Submission to the U.S. Department of Justice

Section 5 of the Voting Rights Act of 1965 requires that any change in any "standard, practice, or procedure with respect to voting" be submitted to the U.S. Department of Justice for preclearance. Changes in election precincts, polling places, and various other actions require preclearance.

The attorney general of the U.S. Department of Justice has 60 days in which to review a submitted change affecting voting, before the end of which one of three actions will be taken: 1) preclearance will be granted, 2) an objection will be interposed, or 3) more information will be requested. The governing authority of a political subdivision conducting an election should review actions since the last election to see if any changes must be submitted for preclearance. If you have not yet reviewed the changes, do this as soon as possible. For changes that need to be implemented before the end of the 60-day review period, the Department of Justice may be able to grant your submission expedited consideration. To request expedited consideration, you should state why it is needed and the date by which a determination is required. Rules for submissions under Section 5, Voting Rights Act, are contained in 28 C.F.R. §§ 51.20–51.28 (2002).

Send your submissions to the following address:

**For All U.S. Postal Service Mail,
Including Certified Mail and Express Mail:**
Chief, Voting Section
Civil Rights Division
Room 7254-NWB
Department of Justice
950 Pennsylvania Ave., N.W.
Washington, DC 20530

**For All Overnight Express Services, Such as
Airborne, DHL, Federal Express, or UPS**
Chief, Voting Section
Civil Rights Division
Room 7254-NWB
Department of Justice
1800 G Street, N.W.
Washington, DC 20006

You must clearly mark the envelope and first page of any submission as follows: SUBMISSION UNDER SECTION 5, VOTING RIGHTS ACT.

Additional information on Section 5 of the Voting Rights Act can be found on the United States Department of Justice website at http://www.usdoj.gov/crt/voting/sec_5/about.php. You also may call the U.S. Department of Justice's toll-free number at 1-800-253-3931 or its direct number at (202) 514-8690. The department's fax numbers are (202) 307-3961 and (202) 616-9514.

Submissions Q & A

Additional frequently asked questions can be found on the United States Department of Justice website at <http://www.usdoj.gov/crt/voting/misc/faq.php>.

Q: What exactly is a submission?

A: Put simply, a submission is an application to the United States Justice Department for approval of any change in election standards, practices, or procedures that could affect voters. The Justice Department's mission is to determine that any election changes you make will not adversely impact or otherwise discriminate against minority voters in your election. As a result of past discriminatory election practices, Texas is one of 9 states (7 other states are partially covered by this requirement) that are required under the federal Voting Rights Act of 1965 to submit any changes in election procedures to the Justice Department for review. If you make any changes to your election procedure and you fail to file a submission on those changes before the election, the Justice Department has the authority to declare your election invalid.

Q: Do I have to send a submission before every election?

A: Not necessarily. For example, if you are holding your annual officeholder election, and none of your early voting or election day polling places are changing, and this is the identical election that was previously precleared for this uniform date at some time in the past, then you are not required to send a submission. Some political subdivisions have precleared a "high turnout" and a "low turnout" plan. They can use one for their officeholder elections and the other for a bond or other special election where there may be fewer voters.

Q: I am a new city secretary and can't find any evidence that our city has ever prepared a submission on any of our past elections. Am I in big trouble?

A: Not necessarily. The best action to take in this situation is to simply inform the Justice Department as soon as you discover the oversight. They are frequently quite sympathetic and even helpful. Send them a letter advising them of the situation. If necessary, request copies of past submissions they may have that could serve as a guide for you in preparing your submission. Be sure to reference the "inadvertent oversight" or "clerical error"—or whatever may be the case—in the city's failure to file any past submissions.

Q: We had to call a special election to fill a vacancy. There wasn't enough time to send the submission 60 days before election day and get the preclearance before we held the election. We called your office, and you said to go ahead and send the submission, even though we would not get preclearance before the election. Now I am confused. Wouldn't the "pre" in "preclearance" imply that it must be obtained **beforehand** in order for our election to be legal?

A: In a perfect election world, submissions would always be sent to the Justice Department more than 60 days before the election. Federal law gives the Justice Department 60 days to respond to your submission, and ideally you would receive your preclearance before early voting starts, or at least by election day. Nevertheless, there are situations in which you simply do not have 60 days to work with. You must still, however, send in a submission if ANY changes have been made that would affect your voting procedures, such as holding a special election or making changes to polling locations. It would be much worse not to send a submission at all. Explain the situation in your submission, and request expedited consideration. You may get preclearance before the election, or you may receive a "retroactive" preclearance after the election is held. On the other hand, if you are changing the whole architectural framework of your system (for example, going from an at-large system to single-member districts), you will want to have such a change precleared **well in advance** of your next election, before implementing the change.

Q: Our school district is holding a joint election with our city and our hospital district. Do we each have to prepare a separate submission, or can we simply submit one?

A: If you are holding a joint election, you can prepare one combined submission for all parties to the joint election. Each political subdivision should sign the combined submission. Because the Justice Department favors those election changes that provide more convenience for voters, convenience would definitely be a factor that you would want to emphasize in your reason for holding your elections together. Remember that while the Justice Department approves of reasons for changes that increase voting opportunities for all segments of the population, the department is less concerned with reasons that may mean more to you, such as cost savings.

Q: Our water district has been ordered by a state district court to make certain changes to our election procedures. Since we are under a court order, do we still have to prepare a submission?

A: Yes, a federal court has held (in *United States v. Louisville Municipal Separate School District Board of Trustees*, 557 F. Supp. 1168 (N.D. Miss. 1983)) that you must still obtain preclearance before making certain changes in election procedures, regardless of the fact that these changes were mandated by *state* court order. For example, if a city were ordered by state district court to hold another election following an election contest, the date of the second election would still require preclearance, even though the election was required by court order. The only type of court order that is generally not subject to preclearance is a *federal* court order granting the relief sought by a plaintiff under the Voting Rights Act.

Q: We are holding a special election on the February uniform election date in order to fill a vacancy on our Board. We are not making any changes to our polling places. Do we still have to prepare a submission?

A: Yes. Even though you are holding the election on a uniform date, it is not your regular officeholder election. Any special election is considered a change in election procedure that would be subject to preclearance. A nondiscretionary election that you might be forced to hold, like a tax rollback election, would also be subject to preclearance.

Q: Can you provide us with a general rule for how our submissions will be viewed by the Justice Department?

A: When preparing your submissions, keep in mind the reason you are required to send them. The Justice Department is protecting the voting rights of minority voters. This is the filter through which they view each submission. They will most likely favor a submission increasing the number of election day voting locations, so a proposal to significantly *reduce* your number of locations may prompt a request for more information. It is critical to provide a full explanation for any changes you propose that may appear to limit voting.

Sample Ballot Proposition Language

This section provides sample ballot proposition language your district can use if it is conducting an election to obtain voter approval for exercising Option 3, 4, or 5.

<input type="checkbox"/> AGAINST (EN CONTRA DE)		Creación de un distrito impositivo consolidado compuesto del territorio de _____ distritos escolares, y autorización a ejecución, tasación, y cobro de impuestos ad valorem anuales para el mantenimiento de escuelas públicas dentro de este distrito impositivo sin sobrepasar a una contribución de \$ _____ por \$100 de valoración de propiedad imponible

Appendix F: Glossary

additional state aid for tax reduction (ASATR): state aid that is the difference between a district's revenue target and its state and local tax revenue for a given school year, if the state and local tax revenue is less than the revenue target. This state aid is added to a district's total Foundation School Program funds.

appraisal costs: costs associated with the operation of county appraisal districts that school districts must pay. Chapter 41 districts are eligible for a credit for these costs.

average daily attendance (ADA): the number of students in average daily attendance, which is found by dividing the sum of the attendance accounts for all the instructional days in a school year by the number of instructional days

Chapter 41 hold harmless provision: Chapter 41 provision that allows certain eligible districts to keep more wealth than they would otherwise keep at the equalized wealth level

Chapter 41 WADA: a modified calculation of Chapter 42 WADA that is made when a school district charges tuition to educate a nonresident student. Chapter 41 WADA is the sum of Chapter 42 WADA and WADA attributable to nonresident students.

Chapter 42 WADA: the weighted average daily attendance arrived at by summing a district's Tier I allotments, making certain adjustments, and dividing that sum by the amount of the basic allotment

county appraisal district (CAD): an entity that regularly makes a record of and assigns a value to all property within a county. After compiling this information, a CAD passes it on to a taxing entity.

early agreement credit: a credit available to a Chapter 41 district that is exercising Option 3 or a combination of Options 3 and 4 that involves a technology consortium. To qualify, a district must submit a signed Option 3 agreement to the TEA with a postmark on or before September 1 of the applicable year. The credit amount is equal to the lesser of 1) 4 percent of the cost or 2) \$80 per credit purchased.

efficiency credit: a credit available to a Chapter 41 district that exercises Option 4 and whose partner district(s) expend funds for specifically approved programs. The credit amount is limited to the lesser of 5 percent of the cost or \$100 multiplied by a district's Chapter 41 WADA.

House Bill 3646, passed by the 81st Texas Legislature, 2009, made some changes, effective with the 2009–10 school year, to the TEC statutes governing the efficiency credit. The bill repealed the efficiency credit but allowed those Chapter 41 districts that had an approved efficiency credit agreement with a partner district during the 2008–09 school year to continue to be eligible for the credit until September 1, 2011.

equalized wealth level: the wealth per student that a district may not exceed, or the maximum property tax base that a school district is allowed to retain at a certain level of tax effort

guaranteed yield: a specified amount that a school district, no matter what its property wealth, is guaranteed per weighted student for each cent of tax effort over that required for the district's local fund assignment. The guaranteed yield is made up of both state and local funds.

letter of intent: a letter from a Chapter 41 district to the TEA stating which options for reducing wealth have been approved or are being considered, and that any necessary further action is planned and pending. A Chapter 41 district must submit this letter before it adopts a tax rate.

property-wealthy district: a district whose wealth per student exceeds \$364,500 or greater, otherwise known as a Chapter 41 district

wealth per student: the taxable value of a district's property divided by the number of students in weighted average daily attendance. For Chapter 41 purposes, the calculation of wealth per student is the ratio of a district's tax base to its Chapter 41 WADA.

weighted average daily attendance (WADA): an adjusted count of the number of students in average daily attendance that gives greater weight to students who fall under certain categories, such as students who are enrolled in a gifted and talented program, and thus cost more to educate.
