

## Hurricane Harvey School Finance Issues November 1, 2017

	A	В	С	D	E	F
	Issue/Response	Current Action/Next Steps	FY 2018 Estimated Costs**	FY 2019 Estimated Costs**	Biennial Total Est. Cost**	Legal Authority
	Enrollment Related Adjustments					
1	Increased enrollment due to student displacement in the 2017–2018 school year.  Is this currently a legally required cost to the state? Yes.  Issue: Many districts have newly enrolled students displaced from their home districts because of Hurricane Harvey. TEA does not normally increase Foundation School Program (FSP formula) funding to districts during the school year when there are increases in student enrollment. Instead, FSP formula increases due to enrollment changes are made during the FSP settle-up process occurring in September of 2018 (FY 2019) following the school year.	TEA issued guidance to school districts. Beginning with the October 2017 FSP formula payment, TEA will increase the amount of state aid to districts that have (1) additional ADA and (2) apply to TEA.	\$380 million  Costs will be shifted from FY 2019 to FY 2018. This shifting is cost neutral for the biennium because the state is legally obligated to fund the FSP formulas for students at the districts they actually attend. TEA is just shifting the costs from FY 2019 (September 2018 settle-up) to FY 2018.	(-\$380 million) cost reduction  These existing costs will be shifted from FY 2019 to FY 2018.  Note: There may be additional costs to the state for increased students in FY 2019.	\$0	TEC §42.005(d). Average Daily Attendance.
	Solution: Districts can receive an increase in their state aid <i>during</i> the 2017–2018 school year if they have increased average daily attendance (ADA) and apply to TEA. To date, six districts have applied for adjustments, with a total of 1,039 ADA. These districts include Calallen ISD, College Station ISD, Cuero ISD, Gregory Portland ISD, Splendora ISD, and Victoria ISD.					
2	Loss of funding due to student enrollment decline during the 2017–2018 school year.  Is this currently a legally required cost to the state?  No.  Issue: School districts and charter schools with enrollment losses during the 2017–2018 school year will have lower average daily attendance. ADA is a major component in determining FSP formula funds as Texas provides funding on a per ADA basis. As a result, a loss of ADA in the 2017–2018 school year would normally result in the following:	Consistent with current practice, TEA will continue to make full FSP formula payments to all school districts (and requesting charter schools), regardless of a student enrollment decline. This prevents any immediate loss of state funding during the 2017–2018 school year.  On Oct. 9, 2018, TEA issued a To the Administrator Addressed Letter providing an ADA hold	\$0	\$400 million (based on a mid-range best estimate, composed of: \$150 million forgone recapture collections to State Treasury (this is not state aid payment or currently anticipated in state budget). \$250 million state aid to school districts during	\$400 million	TEC §42.005(d). Average Daily Attendance.

<sup>\*\*</sup>Amounts are estimates based on TEA's current knowledge and are subject to significant change. Some costs may be eligible for Federal Emergency Management Agency (FEMA) reimbursements. For FY 2019, TEA will request a supplemental appropriation during the 86th Texas Legislature for the difference between the amount necessary to fully fund the formulas in FY 2019 and the amount appropriated in the General Appropriations Act.

	2017–2018 School Year Tax Issues					
3	Loss of maintenance and operations (M&O) property tax revenue during the 2017–2018 school year.  Is this currently a legally required cost to the state? No.  Issue: M&O local property tax revenue helps school districts pay for their maintenance and operations. School districts may experience losses in M&O local property tax revenue during the 2017–2018 school year due to (1) 2017 tax year property reappraisals, which would decrease property values/tax revenue, and (2) delayed/uncollected tax collections.  TEA currently estimates the local M&O tax revenue could potentially decline by approximately \$71 million due to delinquencies.  TEA is aware of five school districts that have voted to reappraise their 2017 taxable property values; they are Conroe ISD, Katy ISD, La Porte ISD, Montgomery ISD, and Spring Branch ISD.  TEA would not normally increase the 2017–2018 school year FSP formula state aid to make up for any decrease in 2017 tax year local property tax collections.  TEA proposal: Collect information from school districts about 2017 tax year collection losses and potentially borrow money from FY 2019 to provide state aid to school districts during the 2017–2018 school year to make up for lost local property tax revenue.	TEA issued guidance to school districts.  TEA will collect data from districts to develop a projection of lost property tax revenue during the 2017–2018 school year and reappraisal efforts. TEA would then provide analysis to the legislature in February 2018.  Thereafter, TEA could provide additional state aid to replace lost local property tax revenue. This action would potentially require TEA to borrow funds from FY 2019 and bring them to FY 2018.	State cost: \$0  TEA will provide an analysis by February of 2018.  TEA could potentially borrow money from FY 2019 to provide state aid to school districts during the 2017—2018 school year for the loss of local property tax revenue. If done, TEA would request a supplemental appropriation during the 86th legislative session.  School district local tax revenue loss: TEA currently estimates the local M&O tax revenue could potentially decline by approximately \$71 million.	N/A. This is covered in the 2018–2019 school year tax issues (below).	The legislature could consider options to help mitigate the anticipated tax increase.	TEC §42.2523. Adjustment for Property Value Affected by State of Disaster.

7	Impact to state facilities funding costs.  Is this currently a legally required cost to the state? Yes  Issue: Approximately, 39 of the 130 impacted school districts receive approximately \$47 million in state FSP aid for the Instructional Facilities Allotment (IFA) or Existing Debt Allotment (EDA). These programs help districts pay for the debt they incur for facilities and other capital expenditures.  School districts with enrollment losses during the 2017–2018 school year will have lower average daily attendance. As ADA is a major component in determining EDA and IFA FSP formula state aid, the decrease in ADA would normally result in a decrease in EDA and IFA during the 2017–2018 school year settle-up occurring in September 2018 (FY 2019).  Solution:  2017–2018 school year. TEA will hold school districts meeting certain qualifications harmless for their loss of ADA. This is anticipated to largely stabilize their IFA and EDA state aid amounts. See row 2 above. This is a one-time adjustment for the 2017–2018 school year.  2018–2019 school year. EDA and IFA changes in state aid will depend on whether the school district reappraises its property (see 6 above) and ADA.  Note: Charter schools are not eligible for IFA or EDA funding.	Consistent with current practice, TEA will continue to make full FSP formula payments to all school districts (and requesting charter schools), regardless of a student enrollment decline. This prevents any immediate loss of state funding during the 2017–2018 school year.  2017–2018 school year. 	<b>Issue:</b> Three- and four-year-old children may be newly eligible for free prekindergarten if they are deemed educationally disadvantaged and/or homeless for the 2017–2018 school year and beyond.	FSP settle-up for the 2017–2018 20	the September 2018 (FY 2019) FSP settle-up for the 2017–2018 school year.			
	<b>Solution:</b> Districts will be provided additional prekindergarten FSP funding during the September 2018 (FY 2019) FSP settle-up process for newly qualifying students.					

<sup>\*\*</sup>Amounts are estimates based on TEA's current knowledge and are subject to significant change. Some costs may be eligible for Federal Emergency Management Agency (FEMA) reimbursements. For FY 2019, TEA will request a supplemental appropriation during the 86th Texas Legislature for the difference between the amount necessary to fully fund the formulas in FY 2019 and the amount appropriated in the General Appropriations Act.
