Title IV, Part B—21st Century Community Learning Centers (21st CCLC): This program supports the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools.

Equitable Services Requirement

In accordance with the Every Student Succeeds Act (ESSA, Sections 1117 and 8501), local educational agencies (LEAs) are required to consult with participating private nonprofit schools (PNPs) to determine equitable services for private school students and/or teachers.

The LEA must annually conduct outreach to all private schools within their boundaries to elicit interest in:

- Title I, Part C;
- Title II, Part A;
- Title III, Part A; and
- Title IV, Part A

For Title I, Part A participation, the LEA should annually conduct outreach to all private schools within their boundaries AND private schools outside their boundaries. Title I, Part A private school services are the only PNP services that follow the student across district lines.

Preparing for the PNP Consultation

The consultation involves a series of ongoing, continuous conversations. In preparation for the initial meeting to discuss equitable services under the ESSA grant, the LEA officials should develop a detailed agenda to include the following:

- ISD procedures related to procurement (contracting, purchasing, vendor acquisition)
- ISD timelines related to encumbering services and materials
- PNP estimated allocations for each of the ESSA programs
 - Title I, Part A Improving Basic Programs
 - Title I, Part C Education of Migratory Children
 - Title II, Part A Supporting Effective Instruction
 - Title III, Part A English Language Acquisition, Language Enhancement, and Academic Achievement Act
 - Title III, Part A Immigrant
 - o Title IV, Part A Student Support and Academic Enrichment
 - Title IV, Part B 21st Century Community Learning Centers (CCLC), if applicable
- ISD considerations related to transferring of funds from Title II, Part A and Title IV, Part A as applicable

Documenting the PNP Consultation

- The Affirmation forms are designed to be completed electronically, using Adobe Reader or Acrobat software.
- Information provided in the affirmation must be decided during the consultation between the LEA and PNP officials.
- To document the PNP consultation that is required under ESSA, LEAs must submit an Affirmation of Consultation with PNP School Officials for any participating PNP.
- Signing the official Affirmation of Consultation is not usually the beginning of the consultation process, but rather occurs at the end of the consultation process.
- The LEA must maintain auditable documentation to support the information provided in this affirmation.
- The LEA is responsible for the administrative oversight of the ESSA program(s) in the PNP.

Deadline for Submitting the Affirmation of Consultation

LEAs must annually submit *ESSA PNP Affirmation of Consultation* forms by 5:00 p.m. on September 30 through TEAL/ESSA Reports.

Shared Services Arrangement (SSA) Members and Fiscal Agents

Some PNPs receive services through an SSA. The SSA written agreement specifies who is responsible for providing consultation and for submitting the affirmation of consultation.

Pooling Across LEAs

Because eligibility for Title I, Part A services is based on a child's residence and not where the child attends school, it is common that multiple LEAs have a responsibility to provide services for eligible children who attend the same private school. Per the USDE, Non-Regulatory Guidance for Title I, Part A services, an SSA can operate by pooling funds across LEAs. Multiple LEAs may pool the Title I, Part A funds generated by its private school students from low-income families who reside in a participating Title I, Part A public school attendance area to serve eligible low-achieving private school children who reside in those LEAs. Pooling may allow for a more effective and efficient educational program than by each individual LEA providing services to eligible students in the same private school.

In other words, low-performing students attending private schools and residing in a participating Title I public school attendance area in any of the applicable LEAs may be served with the Title I, Part A pooled funds. The LEAs, in consultation with appropriate private school officials, establish criteria to determine the eligible private school students in greatest educational need to receive services.

While the LEA may offer services through an SSA, the decision to join the SSA, falls to the private schools. In order to operate as an SSA, the private school would need to agree to pool their Title I, Part A allocation with the allocations of other eligible private schools.

Affirmation of Consultation Forms

There are two affirmation forms available. The LEA must submit the form(s) that reflect the LEA's grant funding only for participating private schools

ESSA Affirmation of Consultation with Private Non-Profit (PNP) School Officials: Formula Grants

The LEA submits this affirmation in order to document PNP consultation regarding the following formula funded grant programs:

- Title I, Part A
- Title I, Part C- Migrant
- Title II, Part A
- Title III, Part A–English Learner Acquisition
- Title III, Part A—Immigrant
- Title IV, Part A

Affirmation for Title IV, Part B: 21st Century Community Learning Centers (CCLC)

The LEA submits this affirmation in order to document PNP consultation regarding the following grant program, whose funding is discretionary and competitive:

• Title IV, Part B-21st Century Community Learning Centers (21st CCLC)

Affirmation(s) for Each Participating PNP

The LEA must submit the appropriate affirmation form(s) for each of its participating PNPs.
