

A photograph of a classroom where several students are seated at desks, working on laptops. The focus is on a young boy in the foreground, who is wearing large black headphones and looking intently at his laptop screen. He has light brown hair and is wearing a dark grey t-shirt. Behind him, other students are visible, including a girl with glasses and a boy in a blue shirt, both also working on laptops. The background shows bookshelves filled with books, suggesting a library or a well-stocked classroom. The overall atmosphere is one of focused learning.

Progress Monitoring During Remote Learning

True North Statement

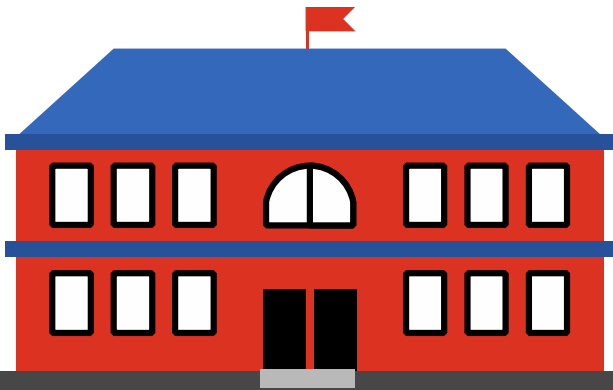

Together, we are committed to high expectations and strong systems that achieve equitable outcomes for every student with a disability.

OFFICE OF SPECIAL
POPULATIONS
AND MONITORING
TEXAS EDUCATION AGENCY

In planning for the potential need for remote delivery of educational services (including special education and related services), **Local Education Agencies (LEAs) must ensure FAPE to students with disabilities and implement the requirements of the Individuals with Disabilities Education Act or IDEA and state law.** LEAs and school staff will want to prioritize decisions and actions based on health and safety first, to include communication with staff and families.
