CATEGORY:	Data Reporting
NEXT STEPS:	TSDS PEIMS coordinators to submit new crisis codes

In order to continue informing policy makers, supporting best practices, and ensuring maximum funding for Local Education Agencies (LEAs), LEAs will need to submit additional crisis code indicators on all students attending school in the 2020– 2021 school year. Crisis code data will be submitted through the TSDS PEIMS Summer 1 Collection by close of business on February 5, 2021, and again on April 7, 2021. The data reported in these two collections will be published externally in summary format at the LEA and state level.

The 2020-2021 Crisis Codes will also be added to the Texas Record Exchange (TREx) system for LEAs to exchange information on students as students move from one LEA to another.
