# Advanced Placement and International Baccalaureate Examination Results in Texas Public Schools, 2015-16 

This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results for students in Texas public schools. AP and IB examination results are used by colleges and universities to make class placement decisions and to award college credit to incoming students who meet qualifying standards on the examinations.

AP and IB examination results for Texas public school students are also used in the public school accountability system in awarding distinction designations, which recognize school districts and campuses for outstanding achievement in specified academic areas (Texas Education Agency [TEA], 2017b; Texas Education Code Chapter 39, Subchapter G, 2016). The distinction designations are based on results across a number of indicators. Results for a campus are evaluated in relation to results for a comparison group of similar campuses. Results for a district are evaluated based on results for campus-level indicators aggregated across all campuses in the district. To be eligible to earn a distinction designation, a district or campus must receive an accountability rating of Met Standard.

For the 2017 accountability ratings cycle, academic achievement distinction designations (AADDs) were available at the campus level in four subject areas: English language arts (ELA), mathematics, science, and social studies. Each AADD included two AP/IB indicators: participation in, and performance on, AP/IB examinations in the specified subject area. AADDs were not available for districts. One postsecondary readiness distinction designation (PRDD) was available at the campus level, and one was available at the district level. In each case, the PRDD included one AP/IB indicator: performance on AP/IB examinations in any subject.

The AP/IB indicators were evaluated based on data for the 2015-16 school year. For purposes of awarding distinction designations in a particular subject area, (a) AP/IB examination participation indicators measured the percentages of students in Grades 11 and 12 who took at least one AP or IB examination, and (b) AP/IB examination performance indicators measured the percentages of examinees in Grades 11 and 12 who scored at or above a criterion score on at least one examination. The criterion scores are defined as 3 or higher on an AP examination and 4 or higher on an IB examination.

When groups differ substantially in size, comparisons of performance changes between them can be misleading and generally are not recommended. The non-Hispanic American Indian and Pacific Islander examinee populations are small in number, compared to other racial/ethnic examinee populations. Similarly, within the overall Hispanic examinee population, African American, Asian, Pacific Islander, and multiracial examinees are small in number, compared to other racial examinee populations. Therefore, discussions of performance results in this report, including comparisons across racial/ethnic groups, do not include these populations.

AP test data for Texas public high school examinees were provided to TEA by the

College Board. IB test data for Texas public high school examinees were provided to TEA by IB. For additional information about AP and IB examinations and results reported by the TEA Division of Research and Analysis, including definitions of terms and explanations of calculations, please see Advanced Placement and International Baccalaureate General Information, 2015-16 (TEA, 2018a), and Advanced Placement and International Baccalaureate Glossary of Terms, 2015-16 (TEA, 2018b). AP examination results for Texas public and nonpublic schools combined are presented in the report Advanced Placement Examination Results in Texas and the United States, 2015-16 (TEA, 2018c).

## Results for Texas Public Schools: Distinction Designation Indicators for Advanced Placement and International Baccalaureate Combined

## Reporting of Results

For the 2017 accountability ratings cycle, the distinction designation indicators for Advanced Placement (AP) and International Baccalaureate (IB) examinations were evaluated for all students only. In addition to results for all students, this section of the report presents results by race/ethnicity, economic status, and gender.

## Academic Achievement Distinction Designations

## English Language Arts Participation and Performance

- In the 2015-16 school year, 15.5 percent of Texas public school students in Grades 11 and 12 took at least one AP or IB English language arts (ELA) examination, an increase of 0.4 percentage points from the previous year (Table 1 on page 5).
- Among 11th- and 12th-grade ELA examinees, 43.3 percent scored at or above criterion on at least one AP or IB ELA examination, a decrease of 0.4 percentage points from the previous year.

## Mathematics Participation and Performance

- In the 2015-16 school year, 6.8 percent of all students in Grades 11 and 12 took at least one AP or IB mathematics examination, the same percentage as the previous year (Table 2 on page 6).
- Among 11th- and 12th-grade mathematics examinees, 54.0 percent scored at or above criterion on at least one AP or IB mathematics examination, an increase of 2.3 percentage points from the previous year.

## Science Participation and Performance

- In the 2015-16 school year, 10.4 percent of all students in Grades 11 and 12 took at least one AP or IB science examination, an increase of 0.2 percentage points from the previous year (Table 3 on page 7).
- Among 11th- and 12th-grade science examinees, 35.1 percent scored at or above criterion on at least one AP or IB science examination, a decrease of 0.3 percentage points from the previous year.

## Social Studies Participation and Performance

- In the 2015-16 school year, 14.8 percent of all students in Grades 11 and 12 took at least one AP or IB social studies examination, an increase of 0.4 percentage points from the previous year (Table 4 on page 8 ).
- Among 11th- and 12th-grade social studies examinees, 41.6 percent scored at or above criterion on at least one AP or IB social studies examination, an increase of 1.5 percentage points from the previous year.

## Postsecondary Readiness Distinction Designation

## Performance in Any Subject

- In the 2015-16 school year, 49.5 percent of all examinees in Grades 11 and 12 scored at or above criterion on at least one AP or IB examination, an increase of 0.4 percentage points from the previous year (Table 5 on page 13).

## Results for Texas Public Schools: Advanced Placement and International Baccalaureate Combined

## Statewide Results

- In the 2015-16 school year, 25.5 percent of Texas public school students in Grades 11 and 12 took at least one AP or IB examination, an increase of 0.6 percentage points from the previous year (Figure 1 on page 11 and Table 5 on page 13).
- Among 11th- and 12th-grade examinees, 49.5 percent scored at or above criterion on at least one AP or IB examination, an increase of 0.4 percentage points from the previous year (Figure 2 on page 12 and Table 5 on page 13).
- Because all Texas colleges and universities must adopt and implement policies to award credit for freshman courses to students who have completed the IB Diploma Programme or who have achieved required scores on one or more AP examinations (Texas Education Code $\S 51.968$, 2016), the percentage of all enrolled students who meet the criterion may be viewed as one indicator of college readiness among Texas public high school students. Whereas indicators of performance discussed earlier in this report were based on the percentage of examinees who met the criterion score on an AP or IB examination, this indicator of qualification for college credit is based on the percentage of all students who met the criterion score. Among 11th- and 12th-grade students, 12.6 percent scored at or above criterion on at least one AP or IB examination, an increase of 0.4 percentage points from the previous year (Figure 3 on page 18 and Table 8 on page 19).

## Participation and Performance by Race/Ethnicity

- Among 11th- and 12th-grade students in the 2015-16 school year, 59.3 percent of Asian, 29.0 percent of multiracial, 27.9 percent of White, 25.1 percent of Pacific Islander, 23.1 percent of Hispanic, 19.4 percent of American Indian, and 17.2 percent of African American students took at least one AP or IB examination (Table 5 on page 13).
- Among 11th- and 12th-grade examinees in the five largest racial/ethnic groups, 72.9 percent of Asian, 63.3 percent of White, 60.1 percent of multiracial, 37.3 percent of Hispanic, and 28.2 percent of African American students scored at or above criterion on at least one AP or IB examination.

## Participation and Performance by Economic Status

- Among 11th- and 12th-grade students in the 2015-16 school year, a higher percentage of students not identified as economically disadvantaged (31.1\%) than students identified as economically disadvantaged (19.9\%) took at least one AP or IB examination (Table 5 on page 13).
- Similarly, a higher percentage of non-economically disadvantaged (59.6\%) than economically disadvantaged (34.2\%) examinees in Grades 11 and 12 scored at or above criterion on at least one AP or IB examination.

## Participation and Performance by Gender

- In the 2015-16 school year, a higher percentage of female (29.1\%) than male (22.0\%) students in Grades 11 and 12 took at least one AP or IB examination (Table 5 on page 13).
- By contrast, a higher percentage of male (50.9\%) than female (48.4\%) examinees in Grades 11 and 12 scored at or above criterion on at least one AP or IB examination.

## Participation and Performance by Program Participation

- Among 11th- and 12th-grade students in the 2015-16 school year, AP/IB participation rates for students in all special programs except gifted and talented ( $66.2 \%$ ) were lower than the state average $(25.5 \%)$, ranging from 1.9 percent for students in special education to 23.4 percent for students in Title I programs (Table 6 on page 16).
- Among 11th- and 12th-grade examinees, those in gifted and talented and in bilingual or English as a second language programs scored at or above criterion on at least one AP or IB examination at higher rates ( $67.4 \%$ and $51.8 \%$, respectively) than the state average ( $49.5 \%$ ). Students in career and technical education, special education, and Title I programs scored at or above criterion on at least one AP or IB examination at lower rates than the state average.

## Participation and Performance by Student Characteristic

- Among 11th- and 12th-grade students in the 2015-16 school year, AP/IB participation rates for all special populations were lower than the state average ( $25.5 \%$ ), ranging from 10.2 percent for students identified as at risk of dropping out to 19.1 percent for students identified as immigrants (Table 7 on page 17).
- Among 11th- and 12th-grade examinees, those identified as immigrants and as English language learners scored at or above criterion on at least one AP or IB examination at higher rates ( $65.9 \%$ and $51.3 \%$, respectively) than the state average ( $49.5 \%$ ). Students identified as at risk of dropping out and as migrants scored at or above criterion on at least one AP or IB examination at lower rates than the state average.

Source. Primary data from College Board, IB, and Texas Education Agency (TEA).
Note. Students who took multiple examinations are counted only once. Sums of students by race/ethnicity may differ from the total of all examinees. See Advanced Placement and International Baccalaureate General Information, 2015-16 (TEA, 2018a), for additional information. Racial groups (African American, American Indian, Asian, Pacific Islander, White, and multiracial) do not include students of Hispanic ethnicity.

## Results for Texas Public Schools: Advanced Placement

## Statewide Results

- In the 2015-16 school year, 172,035 Texas public school students in Grades 11 and 12 took 395,091 AP examinations (Table 9 on page 24). Among 11th- and 12th-grade students, 25.2 percent took at least one AP examination, an increase of 0.6 percentage points from the previous year.
- Among 11th- and 12th-grade AP examinees, 48.7 percent scored in the 3-5 range on at least one AP examination, an increase of 0.4 percentage points from the previous year.
- A total of 97,966 students in Grades 9 and 10 took 114,275 AP examinations (Table 11 on page 27). Among 9th- and 10th-grade students, 12.1 percent took at least one AP examination, an increase of 1.0 percentage point from the previous year.
- Among 9th- and 10th-grade AP examinees, 46.6 percent scored in the 3-5 range on at least one AP examination, a decrease of 0.4 percentage points from the previous year.
- A total of 4,452 students in Grade 8 took 4,455 AP examinations (Table 13 on page 30). Among 8th-grade students, 1.2 percent took at least one AP examination, the same percentage as the previous year.
- Among 8th-grade AP examinees, 82.2 percent scored in the 3-5 range on at least one AP examination, an increase of 3.1 percentage points from the previous year.
- Of the 37 AP subject examinations taken by students in Grades 9-12 in 2015-16, the five most frequently taken, in rank order, were: English Language and Composition, United States History, World History, English Literature and Composition, and Physics 1 (Table 15 on page 32).
- Between 2014-15 and 2015-16, the number of AP examinations taken by students in Grades 9-12 increased for 30 of the 36 subjects available in both years (Table 15 on page 32 and TEA, 2017a, Table 16). In 2015-16, a new examination-Capstone Research-was introduced.

## Participation and Performance by Race/Ethnicity

- Among 11th- and 12th-grade students in the 2015-16 school year, 58.1 percent of Asian, 28.6 percent of multiracial, 27.6 percent of White, 24.3 percent of Pacific Islander, 22.9 percent of Hispanic, 19.2 percent of American Indian, and 16.9 percent of African American students took at least one AP examination (Table 9 on page 24).
- Among 11th- and 12th-grade AP examinees in the five largest racial/ethnic groups, 72.0 percent of Asian, 62.7 percent of White, 59.6 percent of multiracial, 36.6 percent of Hispanic, and 27.0 percent
of African American students scored in the 3-5 range on at least one AP examination. AP participation and performance results for 11th- and 12th-grade Hispanic students by race are shown in Table 10 on page 26.
- Among 9th- and 10th-grade students in the 2015-16 school year, 38.3 percent of Asian, 14.4 percent of multiracial, 13.2 percent of White, 10.7 percent of Hispanic, 10.3 percent of Pacific Islander, 8.9 percent of American Indian, and 7.2 percent of African American students took at least one AP examination (Table 11 on page 27).
- Among 9th- and 10th-grade AP examinees in the five largest racial/ethnic groups, 70.0 percent of Asian, 56.1 percent of multiracial, 54.4 percent of White, 38.1 percent of Hispanic, and 22.7 percent of African American students scored in the 3-5 range on at least one AP examination. AP participation and performance results for 9th- and 10th-grade Hispanic students by race are shown in Table 12 on page 29 .
- AP participation and performance results for 8th-grade students by race/ethnicity are shown in Table 13 on page 30, and results for 8th-grade Hispanic students by race are shown in Table 14 on page 31 .

## Participation and Performance by Economic Status

- Among 11th- and 12th-grade students in the 2015-16 school year, a higher percentage of students not identified as economically disadvantaged (30.7\%) than students identified as economically disadvantaged (19.6\%) took at least one AP examination (Table 9 on page 24). Similarly, a higher percentage of non-economically disadvantaged (58.9\%) than economically disadvantaged (33.5\%) examinees in Grades 11 and 12 scored in the 3-5 range on at least one AP examination.
- The overall patterns for Grades 9 and 10 were like those for Grades 11 and 12. A higher percentage of non-economically disadvantaged ( $16.6 \%$ ) than economically disadvantaged ( $8.6 \%$ ) students took at least one AP examination, and a higher percentage of non-economically disadvantaged (54.7\%) than economically disadvantaged (34.8\%) examinees scored in the 3-5 range on at least one AP examination (Table 11 on page 27).
- AP participation and performance results for 8th-grade students by economic status are shown in Table 13 on page 30.

## Participation and Performance by Gender

- In the 2015-16 school year, a higher percentage of female (28.7\%) than male (21.8\%) students in Grades 11 and 12 took at least one AP examination (Table 9 on page 24). By contrast, a higher percentage of male ( $50.3 \%$ ) than female ( $47.5 \%$ ) examinees in Grades 11 and 12 scored in the 3-5 range on at least one AP examination.
- The overall patterns for Grades 9 and 10 were like those for Grades 11 and 12. A higher percentage of female ( $13.9 \%$ ) than male ( $10.4 \%$ ) students took at least one AP examination (Table 11 on page 27), and a higher percentage of male ( $48.8 \%$ ) than female ( $44.7 \%$ ) examinees scored in the 3-5 range on at least one AP examination.
- AP participation and performance results for 8th-grade students by gender are shown in Table 13 on page 30 .

## Results for Texas Public Schools: International Baccalaureate

## Statewide Results

- In the 2015-16 school year, 4,347 Texas public school students in Grades 11 and 12 took 14,287 IB examinations (Table 16). Among 11th- and 12th-grade students, 0.6 percent took at least one IB examination, the same percentage as the previous year.
- Among 11th- and 12th-grade IB examinees, 84.3 percent scored in the 4-7 range on at least one IB examination, a decrease of 1.3 percentage points from the previous year.
- The five most frequently taken IB examinations, in rank order, were: English A: Literature, History: Americas, Spanish B, Mathematics, and Biology (Table 18 on page 44).

## Participation and Performance by Race/Ethnicity

- Among 11th- and 12th-grade students in the 2015-16 school year, 3.2 percent of Asian, 1.2 percent of Pacific Islander, 0.9 percent of multiracial, 0.7 percent of White, 0.6 percent of African American, and 0.4 percent of both American Indian and Hispanic students took at least one IB examination (Table 16).
- Among 11th- and 12th-grade IB examinees in the five largest racial/ethnic groups, 91.2 percent of Asian, 88.6 percent of White, 85.3 percent of multiracial, 81.8 percent of Hispanic, and 66.7 percent of African American students scored in the 4-7 range on at least one IB examination. IB participation and performance results for 11th- and 12th-grade Hispanic students by race are shown in Table 17 on page 43.

## Participation and Performance by Economic Status

- Among 11th- and 12th-grade students in the 2015-16 school year, a higher percentage of students not identified as economically disadvantaged ( $0.9 \%$ ) than students identified as economically disadvantaged ( $0.4 \%$ ) took at least one IB examination (Table 16).
- Similarly, a higher percentage of non-economically disadvantaged (87.8\%) than economically disadvantaged (76.1\%) examinees in Grades 11 and 12 scored in the $4-7$ range on at least one IB examination.

## Participation and Performance by Gender

- In the 2015-16 school year, a higher percentage of female ( $0.8 \%$ ) than male $(0.5 \%)$ students in Grades 11 and 12 took at least one IB examination (Table 16).
- Similarly, a higher percentage of female (85.1\%) than male (83.2\%) examinees in Grades 11 and 12 scored in the 4-7 range on at least one IB examination.

| Standard Level | 4 | <0.1 | 0.0 | 3.0 |
| Total | 6 | <0.1 | 33.3 | 3.7 |
| Italian AB |  |  |  |  |
| Standard Level | 5 | <0.1 | 60.0 | 3.8 |

Source. Primary data from IB and Texas Education Agency (TEA).
Note. Examinations are listed in descending order by total number of examinations taken. Excluded from the results are satisfactory theory of knowledge course and essay completions, which are required for the IB Diploma but excluded in TEA accountability system reporting of Advanced Placement (AP) and IB subject examinations. Also excluded are subjects in which the total number of examinations taken is less than five: Astronomy, Dutch A: Literature, German A: Literature, Japanese B, Mandarin AB, Philosophy, Portuguese A: Literature, and Russian A: Literature. Parts may not add to 100 percent because of rounding.

## Results for Texas Public Schools: Advanced Coursework

- In the 2015-16 school year, 501,639 Texas public school students in Grades 9-12 completed at least one advanced course (Table 19 on page 50). Of those, 65.8 percent completed at least one Advanced Placement (AP) course, an increase of 0.4 percentage points from the previous year.
- Most students who took AP examinations also completed at least one advanced course. Among AP examinees, 94.3 percent completed at least one AP course, and an additional 1.7 percent completed at least one other type of advanced course (Table 20 on page 51 ). Only 4.0 percent of AP examinees did not take any advanced course.
- Among students who completed at least one AP course, 76.9 percent took at least one AP examination, an increase of 2.6 percentage points from the previous year (Table 21 on page 52).
- Of the 634,363 AP courses completed, 72.6 percent were completed by students taking corresponding examinations, an increase of 2.6 percentage points from the previous year (Table 22 on page 53). Of the 506,230 AP examinations taken, 91.0 percent were taken by students completing corresponding courses.
- The overall mean score for all AP examinations taken by students who had completed corresponding AP courses (2.5) was higher than the overall mean score for students who had not completed the courses (2.4) (Table 23 on page 54).
- On 21 of the 25 AP examinations that had at least 250 examinees who completed corresponding AP courses and at least 250 examinees who did not complete corresponding AP courses, examinees who completed corresponding AP courses had higher mean scores (Table 24 on page 55). AP examinees who did not complete corresponding AP courses had the same mean scores as examinees who completed corresponding AP courses on United States Government and Politics and Studio Art: Drawing examinations and higher mean scores on Physics 2 and Microeconomics.

Source. Primary data from College Board, IB, and Texas Education Agency (TEA).
Note. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. aParts will not add to totals for all advanced courses because students may take more than one type of advanced course
 tional Baccalaureate. ${ }^{\text {f }}$ Courses identified as advanced that are not AP or IB courses. See the Glossary for the Texas Academic Performance Report (e.g., TEA, 2016) and the Glossary for the Academic Excellence Indicator System (e.g., TEA, 2012) for lists of courses identified as advanced.

Table 20
Advanced Placement (AP) Examinees Completing Advanced Courses, Grades 9-12, by Course Type, Texas Public Schools, 2011-12 Through 2015-16

| Year | AP examinees |  |  | No AP course |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | At least one AP course |  | Other advanced course ${ }^{\text {a }}$ |  | No advanced course |  |
|  |  | Number | Percent | Number | Percent | Number | Percent |
| 2011-12 | 187,518 | 174,355 | 93.0 | 3,843 | 2.0 | 9,320 | 5.0 |
| 2012-13 | 197,741 | 183,588 | 92.8 | 4,219 | 2.1 | 9,934 | 5.0 |
| 2013-14 | 218,591 | 203,648 | 93.2 | 4,655 | 2.1 | 10,288 | 4.7 |
| 2014-15 | 249,337 | 230,988 | 92.6 | 4,429 | 1.8 | 13,920 | 5.6 |
| 2015-16 | 269,417 | 254,161 | 94.3 | 4,555 | 1.7 | 10,701 | 4.0 |

Source. Primary data from College Board and Texas Education Agency (TEA).
Note. Examinees who took multiple examinations are counted only once. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP course completers may differ from counts of AP examinees because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in the Public Education Information Management System. Parts may not add to 100 percent because of rounding.
aCourses identified as advanced that are not AP courses. See the Glossary for the Texas Academic Performance Report (e.g., TEA, 2016) and the Glossary for the Academic Excellence Indicator System (e.g., TEA, 2012) for lists of courses identified as advanced.

| 2014-15 | 470,622 | 417,726 | 88.8 | 596,824 | 417,726 | 70.0 |
| 2015-16 | 506,230 | 460,846 | 91.0 | 634,363 | 460,846 | 72.6 |

Source. Primary data from College Board and Texas Education Agency.
Note. Counts of examinations include only one of the two Physics $C$ examinations when students have scores for both. This is because the table provides a count of instances in which there is a one-to-one relationship between a student's participation in an examination and his or her participation in the corresponding course. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP courses completed may differ from counts of AP examinations because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in the Public Education Information Management System.

Abstract. This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results in Texas public schools for the 2015-16 school year. Data are provided by student characteristics, including race/ethnicity; gender; and economic, at-risk, English language learner, immigrant, and migrant statuses. Data also are provided by participation in bilingual education or English as a second language, career and technical education, gifted and talented, special education, and Title I programs.

The report is available in PDF format on the agency website at http://tea.texas.gov/acctres/ ap ib index.html. Additional information about this report may be obtained by contacting the Texas Education Agency Division of Research and Analysis by phone at (512) 475-3523 or by e-mail at Research@tea.texas.gov.

For additional information about AP examinations, contact the College Board Southwestern Regional Office at (866) 392-3017 or http://www.collegeboard.org/. For additional information about IB examinations, contact the IB Americas Office in Bethesda, Maryland, at (301)-202-3000 or http://www.ibo.org/.

[^0]:    Source. Primary data from IB and Texas Education Agency (TEA).
    Note. Examinations are listed in descending order by total number of examinations taken. Excluded from the results are satisfactory theory of knowledge course and essay completions, which are required for the IB Diploma but excluded in TEA accountability system reporting of Advanced Placement (AP) and IB subject examinations. Also excluded are subjects in which the total number of examinations taken is less than five: Astronomy, Dutch A: Literature, German A: Literature, Japanese B, Mandarin AB, Philosophy, Portuguese A: Literature, and Russian A: Literature. Parts may not add to 100 percent because of rounding.
