## Advanced Placement and International Baccalaureate Examination Results in Texas Public Schools, 2016-17

This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results for students in Texas public schools. AP and IB examination results are used by colleges and universities to make class placement decisions and to award college credit to incoming students who meet qualifying standards on the examinations.

AP and IB examination results for Texas public school students are also used in the public school accountability system in evaluating the performance of districts and campuses in the assignment of rating labels and in awarding distinction designations, which recognize school districts and campuses for outstanding achievement in specified academic areas (Texas Education Agency [TEA], 2018c; Texas Education Code Chapter 39, Subchapter G, 2018). The Texas public school accountability system evaluates the performance of districts and campuses in three domains: Student Achievement, School Progress, and Closing the Gaps. Performance on AP and IB is a component of the college, career, and military readiness (CCMR) indicators, which are included in all three domains.

Campuses that receive an accountability rating of Met Standard are eligible to earn distinction designations in several areas. Districts that receive a rating of $A, B, C$, or $D$ are eligible for a distinction designation in postsecondary readiness. The distinction designations are based on results across a number of indicators. Results for a campus are evaluated in relation to results for a comparison group of similar campuses. Results for a district are evaluated based on results for campus-level indicators aggregated across all campuses in the district.

For the 2018 accountability ratings cycle, academic achievement distinction designations (AADDs) were available at the campus level in four subject areas: English language arts (ELA), mathematics, science, and social studies. Each AADD included two AP/IB indicators: participation in, and performance on, AP/IB examinations in the specified subject area. AADDs were not available for districts. One Closing the Gaps distinction designation (CGDD) was available at the campus level. One postsecondary readiness distinction designation (PRDD) was available at the campus level, and one was available at the district
level. For both the CGDD and the PRDD, the distinction designation included one $\mathrm{AP} / \mathrm{IB}$ indicator, performance on AP/IB examinations in any subject, as a component of the CCMR indicator. In addition, the PRDD included participation in AP/IB examinations in any subject as an indicator.

The AP/IB performance indicators for AADDs and participation indicators for AADDs and PRDDs were evaluated based on data for the 2016-17 school year. For purposes of awarding distinction designations in a particular subject area, (a) AP/IB examination participation indicators measured the percentages of students in Grades 11 and 12 who took at least one AP or IB examination, and (b) AP/IB examination performance indicators measured the percentages of examinees in Grades 11 and 12 who scored at or above a criterion score on at least one examination. The criterion scores are defined as 3 or higher on an AP examination and 4 or higher on an IB examination.

The CCMR indicators for CGDDs and PRDDs were evaluated based on AP/IB data for the 2013-14 through 2016-17 school years. The indicator for CGDDs measured the percentage of 2017 annual graduates plus students in Grade 12 in the 2016-17 school year who scored at or above the criterion score on at least one AP or IB examination in any subject, among other CCMR criteria. The indicator for PRDDs measured the percentage of 2017 annual graduates who scored at or above a criterion score on at least one AP or IB examination in any subject, among other CCMR criteria.

Beginning with the 2011-12 school year, in accordance with TEC §39.025 (2010), the commissioner of education adopted a list of
assessments, including several AP and IB examinations, that a student may substitute for end-of-course (EOC) assessments to meet graduation requirements for Biology, English I, English II, and United States History (19 TAC $\S 101.4002$, 2018, amended to be effective July 26, 2017). An approved assessment may be used to substitute only one specific EOC assessment graduation requirement. The AP examinations are: Biology, English Language and Composition, and United States History. The IB examinations are: Biology, Language A: Language and Literature, and History of the Americas.

When groups differ substantially in size, comparisons of performance changes between them can be misleading and generally are not recommended. The non-Hispanic American Indian and Pacific Islander examinee populations are small in number, compared to other racial/ethnic examinee populations. Similarly, within the overall Hispanic examinee population, African American, Asian, Pacific Islander, and multiracial examinees are small in number, compared to other racial examinee populations. Therefore, discussions of performance results in this report, including comparisons across racial/ethnic groups, do not include these populations.

AP test data for Texas public high school examinees were provided to TEA by the College Board. IB test data for Texas public high school examinees were provided to TEA by IB. For additional information about AP and IB examinations and results reported by the TEA Division of Research and Analysis, including definitions of terms and explanations of calculations, please see Advanced Placement and International Baccalaureate General Information, 2016-17 (TEA, 2019a), and

Advanced Placement and International Baccalaureate Glossary of Terms, 2016-17 (TEA, 2019b). AP examination results
for Texas public and nonpublic schools
combined are presented in the report Advanced Placement Examination Results in Texas and the United States, 2016-17 (TEA, 2018b).

## Results for Texas Public Schools: Distinction Designation Indicators for Advanced Placement and International Baccalaureate Combined

## Reporting of Results

For the 2018 accountability ratings cycle, the distinction designation indicators for Advanced Placement (AP) and International Baccalaureate (IB) examinations were evaluated for all students only. In addition to results for all students, this section of the report presents results by race/ethnicity, economic status, and gender.

## Academic Achievement Distinction Designations

## English Language Arts Participation and Performance

- In the 2016-17 school year, 15.9 percent of Texas public school students in Grades 11 and 12 took at least one AP or IB English language arts (ELA) examination, an increase of 0.4 percentage points from the previous year (Table 1 on page 6).
- Among 11th- and 12th-grade ELA examinees, 41.3 percent scored at or above criterion on at least one AP or IB ELA examination, a decrease of 2.0 percentage points from the previous year.

## Mathematics Participation and Performance

- In the 2016-17 school year, 7.2 percent of all students in Grades 11 and 12 took at least one AP or IB mathematics examination, an increase of 0.4 percentage points from the previous year (Table 2 on page 7).
- Among 11th- and 12th-grade mathematics examinees, 51.3 percent scored at or above criterion on at least one AP or IB mathematics examination, a decrease of 2.7 percentage points from the previous year.

## Science Participation and Performance

- In the 2016-17 school year, 10.9 percent of all students in Grades 11 and 12 took at least one AP or IB science examination, an increase of 0.5 percentage points from the previous year (Table 3 on page 8).
- Among 11th- and 12th-grade science examinees, 38.3 percent scored at or above criterion on at least one AP or IB science examination, an increase of 3.2 percentage points from the previous year.

## Social Studies Participation and Performance

- In the 2016-17 school year, 15.0 percent of all students in Grades 11 and 12 took at least one AP or IB social studies examination, an increase of 0.2 percentage points from the previous year (Table 4 on page 9).
- Among 11th- and 12th-grade social studies examinees, 41.4 percent scored at or above criterion on at least one AP or IB social studies examination, a decrease of 0.2 percentage points from the previous year.

## Postsecondary Readiness Distinction Designation

## Participation in Any Subject

- In the 2016-17 school year, 26.2 percent of all students in Grades 11 and 12 took at least one AP or IB examination, an increase of 0.7 percentage points from the previous year (Table 5 on page 14).

## Results for Texas Public Schools: Advanced Placement and International Baccalaureate Combined

## Statewide Results

- In the 2016-17 school year, 26.2 percent of Texas public school students in Grades 11 and 12 took at least one AP or IB examination, an increase of 0.7 percentage points from the previous year (Figure 1 on page 12 and Table 5 on page 14).
- Among 11th- and 12th-grade examinees, 49.1 percent scored at or above criterion on at least one AP or IB examination, a decrease of 0.4 percentage points from the previous year (Figure 2 on page 13 and Table 5 on page 14).
- Because all Texas colleges and universities must adopt and implement policies to award credit for freshman courses to students who have completed the IB Diploma Programme or who have achieved required scores on one or more AP examinations (Texas Education Code $\S 51.968$, 2018), the percentage of all enrolled students who meet the criterion may be viewed as one indicator of college readiness among Texas public high school students. Whereas indicators of performance discussed earlier in this report were based on the percentage of examinees who met the criterion score on an AP or IB examination, this indicator of qualification for college credit is based on the percentage of all students who met the criterion score. Among 11th- and 12th-grade students, 12.9 percent scored at or above criterion on at least one AP or IB examination, an increase of 0.3 percentage points from the previous year (Figure 3 on page 19 and Table 8 on page 20).

## Participation and Performance by Race/Ethnicity

- Among 11th- and 12th-grade students in the 2016-17 school year, 61.2 percent of Asian, 29.5 percent of multiracial, 28.2 percent of White, 24.4 percent of Pacific Islander, 24.0 percent of Hispanic, 20.7 percent of American Indian, and 17.4 percent of African American students took at least one AP or IB examination (Table 5 on page 14).
- Among 11th- and 12th-grade examinees in the five largest racial/ethnic groups, 73.0 percent of Asian, 63.5 percent of White, 61.0 percent of multiracial, 36.7 percent of Hispanic, and 27.9 percent of African American students scored at or above criterion on at least one AP or IB examination.

## Participation and Performance by Economic Status

- Among 11th- and 12th-grade students in the 2016-17 school year, a higher percentage of students not identified as economically disadvantaged (31.9\%) than students identified as economically disadvantaged ( $20.4 \%$ ) took at least one AP or IB examination (Table 5 on page 14).
- Similarly, a higher percentage of non-economically disadvantaged (59.8\%) than economically disadvantaged (33.7\%) examinees in Grades 11 and 12 scored at or above criterion on at least one AP or IB examination.

## Participation and Performance by Gender

- In the 2016-17 school year, a higher percentage of female (30.0\%) than male (22.5\%) students in Grades 11 and 12 took at least one AP or IB examination (Table 5 on page 14).
- By contrast, a higher percentage of male (51.1\%) than female (47.6\%) examinees in Grades 11 and 12 scored at or above criterion on at least one AP or IB examination.

## Participation and Performance by Program Participation

- Among 11th- and 12th-grade students in the 2016-17 school year, AP/IB participation rates for students in all special programs except gifted and talented ( $66.2 \%$ ) were lower than the state average $(26.2 \%)$, ranging from 2.1 percent for students in special education to 24.0 percent for students in Title I programs (Table 6 on page 17).
- Among 11 th- and 12 th-grade examinees, those in gifted and talented and in bilingual or English as a second language programs scored at or above criterion on at least one AP or IB examination at higher rates $(67.5 \%$ and $51.7 \%$, respectively) than the state average ( $49.1 \%$ ). Students in career and technical education, special education, and Title I programs scored at or above criterion on at least one AP or IB examination at lower rates than the state average.

## Participation and Performance by Student Characteristic

- Among 11 th- and 12 th-grade students in the 2016-17 school year, AP/IB participation rates for all special populations were lower than the state average ( $26.2 \%$ ), ranging from 9.5 percent for students identified as homeless to 19.6 percent for students identified as immigrants (Table 7 on page 18).
- Among 11th- and 12th-grade examinees, those identified as immigrants and as English language learners scored at or above criterion on at least one AP or IB examination at higher rates $(66.9 \%$ and $51.0 \%$, respectively) than the state average ( $49.1 \%$ ). Students identified as at risk of dropping out, dyslexic, homeless, and migrants scored at or above criterion on at least one AP or IB examination at lower rates than the state average.

## Results for Texas Public Schools: Advanced Placement

## Statewide Results

- In the 2016-17 school year, 182,320 Texas public school students in Grades 11 and 12 took 423,379 AP examinations (Table 9 on page 25). Among 11th- and 12th-grade students, 25.9 percent took at least one AP examination, an increase of 0.7 percentage points from the previous year.
- Among 11th- and 12th-grade AP examinees, 48.4 percent scored in the 3-5 range on at least one AP examination, a decrease of 0.3 percentage points from the previous year.
- A total of 109,241 students in Grades 9 and 10 took 129,695 AP examinations (Table 11 on page 28). Among 9th- and 10th-grade students, 13.3 percent took at least one AP examination, an increase of 1.2 percentage point from the previous year.
- Among 9th- and 10th-grade AP examinees, 48.4 percent scored in the 3-5 range on at least one AP examination, an increase of 1.8 percentage points from the previous year.
- A total of 5,000 students in Grade 8 took 5,004 AP examinations (Table 13 on page 31). Among 8th-grade students, 1.3 percent took at least one AP examination, an increase of 0.1 percentage point from the previous year.
- Among 8th-grade AP examinees, 78.2 percent scored in the 3-5 range on at least one AP examination, a decrease of 4.0 percentage points from the previous year.
- Of the 38 AP subject examinations taken by students in Grades 9-12 in 2016-17, the five most frequently taken, in rank order, were: English Language and Composition, United States History, World History, English Literature and Composition, and Human Geography (Table 15 on page 33).
- Between 2015-16 and 2016-17, the number of AP examinations taken by students in Grades 9-12 increased for 35 of the 37 subjects available in both years (Table 15 on page 33 and TEA, 2018a, Table 15). In 2016-17, a new examination-Computer Science Principles-was introduced.

## Participation and Performance by Race/Ethnicity

- Among 11th- and 12th-grade students in the 2016-17 school year, 60.1 percent of Asian, 29.0 percent of multiracial, 27.8 percent of White, 23.8 percent of Hispanic, 23.6 percent of Pacific Islander, 20.4 percent of American Indian, and 17.1 percent of African American students took at least one AP examination (Table 9 on page 25).
- Among 11th- and 12th-grade AP examinees in the five largest racial/ethnic groups, 72.1 percent of Asian, 63.0 percent of White, 59.9 percent of multiracial, 36.0 percent of Hispanic, and 26.9 percent
of African American students scored in the 3-5 range on at least one AP examination. AP participation and performance results for 11th- and 12th-grade Hispanic students by race are shown in Table 10 on page 27.
- Among 9th- and 10th-grade students in the 2016-17 school year, 41.3 percent of Asian, 16.1 percent of multiracial, 14.5 percent of White, 11.8 percent of Hispanic, 10.9 percent of American Indian, 10.4 percent of Pacific Islander, and 7.8 percent of African American students took at least one AP examination (Table 11 on page 28).
- Among 9th- and 10th-grade AP examinees in the five largest racial/ethnic groups, 69.8 percent of Asian, 57.6 percent of multiracial, 56.6 percent of White, 40.4 percent of Hispanic, and 24.1 percent of African American students scored in the 3-5 range on at least one AP examination. AP participation and performance results for 9th- and 10th-grade Hispanic students by race are shown in Table 12 on page 30 .
- AP participation and performance results for 8th-grade students by race/ethnicity are shown in Table 13 on page 31, and results for 8th-grade Hispanic students by race are shown in Table 14 on page 32 .

## Participation and Performance by Economic Status

- Among 11th- and 12th-grade students in the 2016-17 school year, a higher percentage of students not identified as economically disadvantaged ( $31.5 \%$ ) than students identified as economically disadvantaged ( $20.2 \%$ ) took at least one AP examination (Table 9 on page 25). Similarly, a higher percentage of non-economically disadvantaged (59.1\%) than economically disadvantaged ( $32.9 \%$ ) examinees in Grades 11 and 12 scored in the 3-5 range on at least one AP examination.
- The overall patterns for Grades 9 and 10 were like those for Grades 11 and 12. A higher percentage of non-economically disadvantaged ( $18.3 \%$ ) than economically disadvantaged ( $9.4 \%$ ) students took at least one AP examination, and a higher percentage of non-economically disadvantaged (56.2\%) than economically disadvantaged (37.3\%) examinees scored in the 3-5 range on at least one AP examination (Table 11 on page 28).
- AP participation and performance results for 8th-grade students by economic status are shown in Table 13 on page 31.

## Participation and Performance by Gender

- In the 2016-17 school year, a higher percentage of female (29.6\%) than male (22.2\%) students in Grades 11 and 12 took at least one AP examination (Table 9 on page 25). By contrast, a higher percentage of male ( $50.5 \%$ ) than female ( $46.7 \%$ ) examinees in Grades 11 and 12 scored in the 3-5 range on at least one AP examination.
- The overall patterns for Grades 9 and 10 were like those for Grades 11 and 12. A higher percentage of female ( $15.4 \%$ ) than male ( $11.4 \%$ ) students took at least one AP examination (Table 11 on page 28), and a higher percentage of male ( $51.0 \%$ ) than female ( $46.3 \%$ ) examinees scored in the 3-5 range on at least one AP examination.
- AP participation and performance results for 8th-grade students by gender are shown in Table 13 on page 31.

## Results for Texas Public Schools: International Baccalaureate

## Statewide Results

- In the 2016-17 school year, 4,618 Texas public school students in Grades 11 and 12 took 15,303 IB examinations (Table 16). Among 11th- and 12th-grade students, 0.7 percent took at least one IB examination, an increase of 0.1 percentage point from the previous year.
- Among 11th- and 12th-grade IB examinees, 82.5 percent scored in the $4-7$ range on at least one IB examination, a decrease of 1.8 percentage points from the previous year.
- The five most frequently taken IB examinations, in rank order, were: English A: Literature, History: Americas, Spanish B, Biology, and Mathematics (Table 18 on page 44).

## Participation and Performance by Race/Ethnicity

- Among 11 th- and 12th-grade students in the 2016-17 school year, 3.2 percent of Asian, 1.3 percent of Pacific Islander, 1.0 percent of multiracial, 0.7 percent of White, 0.5 percent of African American, and 0.4 percent of both American Indian and Hispanic students took at least one IB examination (Table 16).
- Among 11th- and 12th-grade IB examinees in the five largest racial/ethnic groups, 92.7 percent of Asian, 90.8 percent of multiracial, 84.8 percent of White, 79.9 percent of Hispanic, and 60.6 percent of African American students scored in the 4-7 range on at least one IB examination. IB participation and performance results for 11th- and 12th-grade Hispanic students by race are shown in Table 17 on page 43.

## Participation and Performance by Economic Status

- Among 11th- and 12th-grade students in the 2016-17 school year, a higher percentage of students not identified as economically disadvantaged ( $0.9 \%$ ) than students identified as economically disadvantaged ( $0.4 \%$ ) took at least one IB examination (Table 16).
- Similarly, a higher percentage of non-economically disadvantaged (86.4\%) than economically disadvantaged ( $73.5 \%$ ) examinees in Grades 11 and 12 scored in the $4-7$ range on at least one IB examination.

## Participation and Performance by Gender

- In the 2016-17 school year, a higher percentage of female ( $0.8 \%$ ) than male $(0.5 \%)$ students in Grades 11 and 12 took at least one IB examination (Table 16).
- Similarly, a higher percentage of female (83.6\%) than male (80.9\%) examinees in Grades 11 and 12 scored in the 4-7 range on at least one IB examination.

## Results for Texas Public Schools: Advanced Coursework

- In the 2016-17 school year, 527,168 Texas public school students in Grades 9-12 completed at least one advanced course (Table 19). Of those, 66.8 percent completed at least one Advanced Placement (AP) course, an increase of 1.0 percentage points from the previous year.
- Most students who took AP examinations also completed at least one advanced course. Among AP examinees, 94.2 percent completed at least one AP course, and an additional 1.6 percent completed at least one other type of advanced course (Table 20 on page 52). Only 4.2 percent of AP examinees did not take any advanced course.
- Among students who completed at least one AP course, 77.5 percent took at least one AP examination, an increase of 0.6 percentage points from the previous year (Table 21 on page 53).
- Of the 677,876 AP courses completed, 74.0 percent were completed by students taking corresponding examinations, an increase of 1.4 percentage points from the previous year (Table 22 on page 54 ). Of the 550,642 AP examinations taken, 91.1 percent were taken by students completing corresponding courses.
- The overall mean score for all AP examinations taken by students who had completed corresponding AP courses (2.5) was higher than the overall mean score for students who had not completed the courses (2.3) (Table 23 on page 55).
- On 22 of the 27 AP examinations that had at least 250 examinees who completed corresponding AP courses and at least 250 examinees who did not complete corresponding AP courses, examinees who completed corresponding AP courses had higher mean scores (Table 24 on page 56). AP examinees who did not complete corresponding AP courses had the same mean scores as examinees who completed corresponding AP courses on Psychology, European History, and Chinese Language and Culture examinations and higher mean scores on United States Government and Politics and Physics 2.

Table 19
Advanced Course Completions, Grades 9-12, by Course Type, Texas
Public Schools, 2012-13 Through 2016-17

Source. Primary data from College Board, IB, and Texas Education Agency (TEA).
Note. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. There are two AP Physics C courses: Mechanics, and Electricity and Magnetism. Prior to the 2016-17 school year, students who took one or both courses were counted as having completed one Physics C course by TEA. In 2016-17, students who took both courses were reported as having completed both of the Physics $C$ courses. Because of this change, counts of course completions from before the 2016-17 school year are different from the 2016-17 counts. See Advanced Placement and International Baccalaureate General Information, 2016-17 (TEA, 2019a), for additional information.
aParts will not add to totals for all advanced courses because students may take more than one type of advanced course within a single year. ${ }^{\text {b Average. }}$. Parts may not add to 100 percent because of rounding. ${ }^{\mathrm{A} A d v a n c e d ~ P l a c e m e n t . ~ I n t e r n a-~}$ tional Baccalaureate. ${ }^{\text {f Courses identified as advanced that are not AP or IB courses. See the Glossary for the Texas }}$ Academic Performance Report (e.g., TEA, 2017) for lists of courses identified as advanced.

Table 20
Advanced Placement (AP) Examinees Completing Advanced Courses, Grades 9-12, by Course Type, Texas Public Schools, 2012-13 Through 2016-17

| Year | AP examinees |  |  | No AP course |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | At least one AP course |  | Other advanced course ${ }^{\text {a }}$ |  | No advanced course |  |
|  |  | Number | Percent | Number | Percent | Number | Percent |
| 2012-13 | 197,741 | 183,588 | 92.8 | 4,219 | 2.1 | 9,934 | 5.0 |
| 2013-14 | 218,591 | 203,648 | 93.2 | 4,655 | 2.1 | 10,288 | 4.7 |
| 2014-15 | 249,337 | 230,988 | 92.6 | 4,429 | 1.8 | 13,920 | 5.6 |
| 2015-16 | 269,417 | 254,161 | 94.3 | 4,555 | 1.7 | 10,701 | 4.0 |
| 2016-17 | 289,686 | 272,991 | 94.2 | 4,614 | 1.6 | 12,081 | 4.2 |

Source. Primary data from College Board and Texas Education Agency (TEA).
Note. Examinees who took multiple examinations are counted only once. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP examinees include only those who could be matched to student records in the Public Education Information Management System (PEIMS). Counts of AP course completers may differ from counts of AP examinees because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in PEIMS. Parts may not add to 100 percent because of rounding.
${ }^{\text {a }}$ Courses identified as advanced that are not AP courses. See the Glossary for the Texas Academic Performance Report (e.g., TEA, 2017) for lists of courses identified as advanced.

Table 21
Advanced Course Completers Taking Advanced Placement (AP) Examinations, Grades 9-12, by Course Type, Texas Public Schools, 2012-13 Through 2016-17

| Course type | Course completers | Course completers taking at least one AP examination |  |
| :---: | :---: | :---: | :---: |
|  |  | Number | Percent |
| 2012-13 |  |  |  |
| At least one AP | 262,262 | 183,588 | 70.0 |
| Other (no AP) ${ }^{\text {a }}$ | 149,092 | 4,219 | 2.8 |
| 2013-14 |  |  |  |
| At least one AP | 280,736 | 203,648 | 72.5 |
| Other (no AP) | 158,773 | 4,655 | 2.9 |
| 2014-15 |  |  |  |
| At least one AP | 310,932 | 230,988 | 74.3 |
| Other (no AP) | 164,808 | 4,429 | 2.7 |
| 2015-16 |  |  |  |
| At least one AP | 330,303 | 254,161 | 76.9 |
| Other (no AP) | 171,336 | 4,555 | 2.7 |
| 2016-17 |  |  |  |
| At least one AP | 352,253 | 272,991 | 77.5 |
| Other (no AP) | 174,915 | 4,614 | 2.6 |

Source. Primary data from College Board and Texas Education Agency (TEA). Note. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP course completers may differ from counts of AP examinees because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in the Public Education Information Management System.
${ }^{a}$ Courses identified as advanced that are not AP courses. See the Glossary for the Texas Academic Performance Report (e.g., TEA, 2017) for lists of courses identified as advanced.

Table 22
Correspondence Between Advanced Placement (AP) Examinations and AP Courses Completed, Grades 9-12, Texas Public Schools, 2012-13 Through 2016-17

| Year |  | Examinations taken with corresponding courses |  | AP courses completed | Courses completed with corresponding examinations |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Number | Percent |  | Number | Percent |
| 2012-13 | 363,115 | 324,043 | 89.2 | 488,891 | 324,043 | 66.3 |
| 2013-14 | 400,077 | 359,591 | 89.9 | 524,912 | 359,591 | 68.5 |
| 2014-15 | 470,622 | 417,726 | 88.8 | 596,824 | 417,726 | 70.0 |
| 2015-16 | 506,230 | 460,846 | 91.0 | 634,363 | 460,846 | 72.6 |
| 2016-17 | 550,642 | 501,657 | 91.1 | 677,876 | 501,657 | 74.0 |

Source. Primary data from College Board and Texas Education Agency.
Note. There are two AP Physics C examinations and courses: Mechanics, and Electricity and Magnetism. Prior to the 2016-17 school year, TEA counted students who took one or both examinations as having completed one Physics $C$ examination, and students who took one or both courses were counted as having completed one Physics $C$ course, in order to have a one-to-one relationship between a student's participation in an examination and his or her participation in the corresponding course. In 2016-17, counts of examinations and course completions included both of the two Physics C examinations and courses when students had data for both. Because of this change, counts of examinations and course completions from before the 2016-17 school year are different from the 2016-17 counts. See Advanced Placement and International Baccalaureate General Information, 2016-17 (TEA, 2019a), for additional information. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP examinations include only those taken by examinees who could be matched to student records in the Public Education Information Management System (PEIMS). Counts of AP courses completed may differ from counts of AP examinations because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in PEIMS.

Abstract. This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results in Texas public schools for the 2016-17 school year. Data are provided by student characteristics, including race/ethnicity; gender; and economic, at-risk, dyslexic, English language learner, homeless, immigrant, and migrant statuses. Data also are provided by participation in bilingual education or English as a second language, career and technical education, gifted and talented, special education, and Title I programs.

The report is available in PDF format on the agency website at http://tea.texas.gov/acctres/ ap ib index.html. Additional information about this report may be obtained by contacting the Texas Education Agency Division of Research and Analysis by phone at (512) 475-3523 or by e-mail at Research@tea.texas.gov.
For additional information about AP examinations, contact the College Board Southwestern Regional Office at (866) 392-3017 or http://www.collegeboard.org/. For additional information about IB examinations, contact the IB Americas Office in Bethesda, Maryland, at (301)-202-3000 or http://www.ibo.org/.
