

# Advanced Placement and International Baccalaureate Examination Results in Texas Public Schools, 2017-18

This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results for students in Texas public schools. AP and IB examination results are used by colleges and universities to make class placement decisions and to award college credit to incoming students who meet qualifying standards on the examinations.

AP and IB examination results for Texas public school students are also used in the public school accountability system in evaluating the performance of districts and campuses in the assignment of rating labels and in awarding distinction designations, which recognize school districts and campuses for outstanding achievement in specified academic areas (Texas Education Agency [TEA], 2019d; Texas Education Code Chapter 39, Subchapter G, 2018). In addition, results are used in substituting for certain end-of-course assessments to meet graduation requirements (Title 19 of the Texas Administrative Code §101.4002, 2019, amended to be effective January 8, 2019; TEC §39.025, 2018).

When groups differ substantially in size, comparisons of performance changes between

them can be misleading and generally are not recommended. The non-Hispanic American Indian and Pacific Islander examinee populations are small in number, compared to other racial/ethnic examinee populations. Similarly, within the overall Hispanic examinee population, African American, Asian, Pacific Islander, and multiracial examinees are small in number, compared to other racial examinee populations. Therefore, discussions of performance results in this report, including comparisons across racial/ethnic groups, do not include these populations.

AP test data for Texas public high school examinees were provided to TEA by the College Board. IB test data for Texas public high school examinees were provided to TEA by IB. For additional information about AP and IB examinations and results reported by the TEA Division of Research and Analysis, including definitions of terms and explanations of calculations, please see *Advanced Placement and International Baccalaureate General Information, 2017-18* (TEA, 2019a), and *Advanced Placement and International Baccalaureate Glossary of Terms, 2017-18* (TEA, 2019b). AP examination results for Texas public and nonpublic schools combined are presented in the report *Advanced* 

Placement Examination Results in Texas and the United States, 2017-18 (TEA, 2019c).

# **Highlights**

# Distinction Designation Indicators for Advanced Placement and International Baccalaureate Combined

- In the 2017-18 school year, 15.3 percent of Texas public school students in Grades 11 and 12 took at least one Advanced Placement (AP) or International Baccalaureate (IB) English language arts (ELA) examination, a decrease of 0.6 percentage points from the previous year (Table 1 on page 5). Of those ELA examinees, 42.5 percent scored at or above criterion on at least one AP or IB ELA examination, an increase of 1.2 percentage points from the previous year.
- Among all students in Grades 11 and 12, 7.3 percent took at least one AP or IB mathematics examination, an increase of 0.1 percentage point from the previous year (Table 2 on page 7). Of those mathematics examinees, 52.8 percent scored at or above criterion on at least one AP or IB mathematics examination, an increase of 1.5 percentage points from the previous year.
- In 2017-18, 10.8 percent of all students in Grades 11 and 12 took at least one AP or IB science examination, a decrease of 0.1 percentage point from the previous year (Table 3 on page 8). Of those science examinees, 38.0 percent scored at or above criterion on at least one AP or IB science examination, a decrease of 0.3 percentage points from the previous year.
- Among all students in Grades 11 and 12, 14.5 percent took at least one AP or IB social studies examination, a decrease of 0.5 percentage points from the previous year (Table 4 on page 9). Of those social studies examinees, 44.6 percent scored at or above criterion on at least one AP or IB social studies examination, an increase of 3.2 percentage points from the previous year.
- In 2017-18, 25.8 percent of all students in Grades 11 and 12 took at least one AP or IB examination in any subject, a decrease of 0.4 percentage points from the previous year (Table 5 on page 10).

# Advanced Placement and International Baccalaureate Combined

- In the 2017-18 school year, 187,220 (25.8%) Texas public school students in Grades 11 and 12 took at least one AP or IB examination. Of those, 50.7 percent scored at or above criterion on at least one of the examinations, an increase of 1.6 percentage points from the previous year (Table 5 on page 10).
- Because all Texas colleges and universities must adopt and implement policies to award credit for freshman courses to students who have completed the IB Diploma Programme or who have achieved required scores on one or more AP examinations (Texas Education Code §51.968, 2018), the percentage of all enrolled students who meet the criterion may be viewed as one indicator of college readiness among Texas public high school students. Among 11th- and 12th-grade students, 13.1 percent scored at or above criterion on at least one AP or IB examination, an increase of 0.2 percentage points from the previous year (Table 8 on page 15).

# **Advanced Placement**

- In the 2017-18 school year, 184,321 Texas public school students in Grades 11 and 12 took 426,567 AP examinations (Table 9 on page 17). Among 11th- and 12th-grade students, 25.4 percent took at least one AP examination, a decrease of 0.5 percentage points from the previous year. Of those AP examinees, 50.0 percent scored in the 3-5 range on at least one AP examination, an increase of 1.6 percentage points from the previous year.
- A total of 114,992 students in Grades 9 and 10 took 138,789 AP examinations (Table 11 on page 20). Among 9th- and 10th-grade students, 14.0 percent took at least one AP examination, an increase of 0.7 percentage points from the previous year. Of those AP examinees, 50.4 percent scored in the 3-5 range on at least one AP examination, an increase of 2.0 percentage points from the previous year.
- Of the 38 AP subject examinations taken by students in Grades 9-12, the five most frequently taken, in rank order, were: English Language and Composition, World History, United States History, English Literature and Composition, and Human Geography (Table 15 on page 25).

# International Baccalaureate

- In the 2017-18 school year, 5,284 Texas public school students in Grades 11 and 12 took 17,478 IB examinations (Table 16 on page 32). Among 11th- and 12th-grade students, 0.7 percent took at least one IB examination, the same percentage as the previous year. Of those IB examinees, 81.4 percent scored in the 4-7 range on at least one IB examination, a decrease of 1.1 percentage points from the previous year.
- The five most frequently taken IB examinations, in rank order, were: History of the Americas, English A: Literature, Spanish B, Biology, and Mathematics (Table 18 on page 35).

# Advanced Coursework

- In the 2017-18 school year, 542,316 Texas public school students in Grades 9-12 completed at least one advanced course (Table 19 on page 41). Of those students, 68.2 percent completed at least one AP course, an increase of 1.4 percentage points from the previous year.
- Of the 703,054 AP courses completed by students in Grades 9-12, 73.5 percent were completed by students taking corresponding examinations, a decrease of 0.5 percentage points from the previous year (Table 22 on page 44). Of the 564,387 AP examinations taken, 91.5 percent were taken by students completing corresponding courses.
- On 19 of the 27 AP examinations that had at least 250 test takers who completed corresponding AP courses and at least 250 test takers who did not complete corresponding AP courses, test takers who completed corresponding AP courses had higher mean scores (Table 24 on page 47).

# **Results for Texas Public Schools: Distinction Designation Indicators for Advanced Placement and International Baccalaureate Combined**

### **Reporting of Results**

For the 2019 accountability ratings cycle, the distinction designation indicators for Advanced Placement (AP) and International Baccalaureate (IB) examinations were evaluated for all students only. In addition to results for all students, this section of the report presents results by race/ethnicity, economic status, and gender.

Source. Primary data from College Board, IB, and Texas Education Agency (TEA).

Note. Students who took multiple examinations are counted only once. Sums of students by race/ethnicity may differ from the total of all examinees. See Advanced Placement and International Baccalaureate General Information, 2017-18 (TEA, 2019a), for additional information. Because all Texas colleges and universities must adopt and implement policies to award credit for freshman courses to students who have completed the IB Diploma Programme or who have achieved required scores on one or more AP examinations (Texas Education Code §51.968, 2018), the percentage of all enrolled students who meet the criterion may be viewed as one indicator of college readiness among Texas public high school students. Whereas indicators of performance presented earlier in this report were based on the percentage of examinees who met the criterion score on an AP or IB examination, this indicator of qualification for college credit is based on the percentage of all students who met the criterion score.

Source. Primary data from College Board, IB, and Texas Education Agency (TEA).

*Note*. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. There are two AP Physics C courses: Mechanics, and Electricity and Magnetism. In 2016-17, guidance on how to report these courses to TEA changed. In 2017-18, TEA implemented a standard method for reporting the courses. Therefore, counts of courses completed for those school years and for prior school years are different from one another. See *Advanced Placement and International Baccalaureate General Information, 2017-18* (TEA, 2019a), for additional information.

<sup>a</sup>Parts will not add to totals for all advanced courses because students may complete more than one type of advanced course within a single year. <sup>b</sup>Average. <sup>c</sup>Parts may not add to 100 percent because of rounding. <sup>d</sup>Advanced Placement. <sup>e</sup>International Baccalaureate. <sup>(</sup>Courses identified as advanced that are not AP or IB courses. See the *Glossary for the Texas Academic Performance Report* (e.g., TEA, 2018) for lists of courses identified as advanced.

#### Table 20 Advanced Placement (AP) Examinees Completing Advanced Courses, Grades 9-12, by Course Type, Texas Public Schools, 2013-14 Through 2017-18

					No AP course				
			At least one AP course		her d course <sup>a</sup>	N advance	-		
Year	AP examinees	Number	Percent	Number	Percent	Number	Percent		
2013-14	218,591	203,648	93.2	4,655	2.1	10,288	4.7		
2014-15	249,337	230,988	92.6	4,429	1.8	13,920	5.6		
2015-16	269,417	254,161	94.3	4,555	1.7	10,701	4.0		
2016-17	289,686	272,991	94.2	4,614	1.6	12,081	4.2		
2017-18	298,573	283,738	95.0	4,269	1.4	10,566	3.5		

Source. Primary data from College Board and Texas Education Agency (TEA).

Note. Examinees who took multiple examinations are counted only once. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or year-long courses. For such courses, counts of courses completed include either version a student completed. Counts of AP examinees include only those who could be matched to student records in the Public Education Information Management System (PEIMS). Counts of AP course completers may differ from counts of AP examinees because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in PEIMS. Parts may not add to 100 percent because of rounding.

<sup>a</sup>Courses identified as advanced that are not AP courses. See the Glossary for the Texas Academic Performance Report (e.g., TEA, 2018) for lists of courses identified as advanced.

Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP course completers may differ from counts of AP examinees because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in the Public Education Information Management System.

<sup>a</sup>Courses identified as advanced that are not AP courses. See the *Glossary for the Texas Academic Performance Report* (e.g., TEA, 2018) for lists of courses identified as advanced.

## Table 22 Correspondence Between Advanced Placement (AP) Examinations and AP Courses Completed, Grades 9-12, Texas Public Schools, 2013-14 Through 2017-18

	AP examinations	Examination correspond	is taken with ing courses	AP courses	Courses con corresponding	•
Year	taken	Number	Percent	completed	Number	Percent
2013-14	400,077	359,591	89.9	524,912	359,591	68.5
2014-15	470,622	417,726	88.8	596,824	417,726	70.0
2015-16	506,230	460,846	91.0	634,363	460,846	72.6
2016-17	550,642	501,657	91.1	677,876	501,657	74.0
2017-18	564,387	516,483	91.5	703,054	516,483	73.5

Source. Primary data from College Board and Texas Education Agency.

Note: There are two AP Physics C examinations and courses: Mechanics, and Electricity and Magnetism. In 2016-17, guidance on how to report these courses to TEA changed. In 2017-18, TEA implemented a standard method for reporting the courses. Therefore, counts for those school years and for prior school years are different from one another. Prior to the 2016-17 school year, TEA counted students who took one or both examinations as having completed one Physics C examination, and students who completed one or both courses were counted as having completed one Physics C course, in order to have a one-to-one relation-ship between a student's participation in an examination and his or her participation in the corresponding course. Beginning in 2016-17, counts of examinations and course completions included both Physics C examinations and courses when students had data for both. See Advanced Placement and International Baccalaureate General Information, 2017-18 (TEA, 2019a), for additional information. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the courses. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP examinations include only those taken by examinees who could be matched to student records in the Public Education Information Management System (PEIMS). Counts of AP courses completed may differ from counts of AP examinations because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in PEIMS.

**Abstract.** This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results in Texas public schools for the 2017-18 school year. Data are provided by student characteristics, including race/ethnicity; gender; and economic, at-risk, dyslexia, English learner, foster care, homeless, immigrant, migrant, and military-connected statuses. Data also are provided by participation in bilingual education or English as a second language, career and technical education, gifted and talented, special education, and Title I programs.

The report is available in PDF format on the agency website at <u>http://tea.texas.gov/acctres/</u> <u>ap\_ib\_index.html</u>. Additional information about this report may be obtained by contacting the Texas Education Agency Division of Research and Analysis by phone at (512) 475-3523 or by e-mail at Research@tea.texas.gov.

For additional information about AP examinations, contact the College Board Southwestern Regional Office at (866) 392-3017 or <u>http://www.collegeboard.org/</u>. For additional information about IB examinations, contact the IB Americas Office in Bethesda, Maryland, at (301)-202-3000 or <u>http://www.ibo.org/</u>.
