# Advanced Placement and International Baccalaureate Examination Results in Texas Public Schools, 2018-19 

This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results for students in Texas public schools. AP and IB examination results are used by colleges and universities to make class placement decisions and to award college credit to incoming students who meet qualifying standards on the examinations.

AP and IB examination results for Texas public school students are also used in the public school accountability system in evaluating the performance of districts and campuses in the assignment of rating labels and in awarding distinction designations, which recognize school districts and campuses for outstanding achievement in specified academic areas (Texas Education Agency [TEA], 2020d; Texas Education Code Chapter 39, Subchapter G, 2019). In addition, AP and IB results are used in substituting for certain end-of-course assessments to meet graduation requirements (Title 19 of the Texas Administrative Code $\S 101.4002$, 2020, amended to be effective February 23, 2020; TEC §39.025, 2019).

For the 2020 accountability ratings cycle, all districts and campuses received a label of

Not Rated: Declared State of Disaster. Extraordinary public health and safety circumstances caused by the COVID-19 pandemic led to the closure of schools during the state's testing window and inhibited the ability of the state to measure district and campus performance accurately.

It may be informative to compare a group's performance results over time, but the reliability of such comparisons depends on the sizes of all groups. When a group is small, compared to other groups, reliability is reduced, and caution should be used when interpreting change over time. In general, changes in the performance of a large group, such as White AP examinees in Texas, are less likely to have occurred by chance than changes in the performance of a small group, such as American Indian or Pacific Islander AP examinees in Texas. The reliability of between-group comparisons also depends on the sizes of the groups. When groups differ substantially in size, comparisons of performance results between them can be misleading and, generally, are not appropriate. For example, the American Indian and Pacific Islander examinee populations are small in number, compared to other racial/ethnic examinee populations. Therefore, performance results for these groups should not be compared
from year to year or to other racial/ethnic groups.

AP test data for Texas public high school examinees were provided to TEA by the College Board. IB test data for Texas public high school examinees were provided to TEA by IB. For additional information about AP and IB examinations and results reported by the TEA Division of Research and Analysis, including definitions of terms and explanations
of calculations, please see Advanced Placement and International Baccalaureate General Information, 2018-19 (TEA, 2020a), and Advanced Placement and International Baccalaureate Glossary of Terms, 2018-19 (TEA, 2020b). AP examination results for Texas public and nonpublic schools combined are presented in the report Advanced Placement Examination Results in Texas and the United States, 2018-19 (TEA, 2020c).

## Highlights

## Distinction Designation Indicators for Advanced Placement and International Baccalaureate Combined

- In the 2018-19 school year, 14.5 percent of Texas public school students in Grades 11 and 12 took at least one Advanced Placement (AP) or International Baccalaureate (IB) English language arts (ELA) examination, a decrease of 0.8 percentage points from the previous year (Table 1 on page 5 ). Of those ELA examinees, 41.2 percent scored at or above criterion on at least one AP or IB ELA examination, a decrease of 1.3 percentage points from the previous year.
- Among all students in Grades 11 and 12, 7.4 percent took at least one AP or IB mathematics examination, an increase of 0.1 percentage point from the previous year (Table 2 on page 7). Of those mathematics examinees, 52.2 percent scored at or above criterion on at least one AP or IB mathematics examination, a decrease of 0.6 percentage points from the previous year.
- In 2018-19, 10.4 percent of all students in Grades 11 and 12 took at least one AP or IB science examination, a decrease of 0.4 percentage points from the previous year (Table 3 on page 8 ). Of those science examinees, 40.6 percent scored at or above criterion on at least one AP or IB science examination, an increase of 2.6 percentage points from the previous year.
- Among all students in Grades 11 and 12, 13.9 percent took at least one AP or IB social studies examination, a decrease of 0.6 percentage points from the previous year (Table 4 on page 9). Of those social studies examinees, 46.3 percent scored at or above criterion on at least one AP or IB social studies examination, an increase of 1.7 percentage points from the previous year.
- In 2018-19, 25.2 percent of all students in Grades 11 and 12 took at least one AP or IB examination in any subject, a decrease of 0.6 percentage points from the previous year (Table 5 on page 10).

## Advanced Placement and International Baccalaureate Combined

- In the 2018-19 school year, 184,835 (25.2\%) Texas public school students in Grades 11 and 12 took at least one AP or IB examination. Of those, 51.0 percent scored at or above criterion on at least one of the examinations, an increase of 0.3 percentage points from the previous year (Table 5 on page 10).
- Because all Texas colleges and universities must adopt and implement policies to award credit for freshman courses to students who have completed the IB Diploma Programme or who have achieved required scores on one or more AP examinations (Texas Education Code $\S 51.968$, 2019), the percentage of all enrolled students who meet the criterion may be viewed as one indicator of college readiness among Texas public high school students. Among 11th- and 12th-grade students, 12.8 percent scored at or above criterion on at least one AP or IB examination, a decrease of 0.3 percentage points from the previous year (Table 8 on page 15 ).

## Advanced Placement

- In the 2018-19 school year, 181,404 Texas public school students in Grades 11 and 12 took 415,851 AP examinations (Table 9 on page 17). Among 11th- and 12th-grade students, 24.7 percent took at least one AP examination, a decrease of 0.7 percentage points from the previous year. Of those AP examinees, 50.2 percent scored in the 3-5 range on at least one AP examination, an increase of 0.2 percentage points from the previous year.
- A total of 125,701 students in Grades 9 and 10 took 153,059 AP examinations (Table 10 on page 20). Among 9th- and 10th-grade students, 15.2 percent took at least one AP examination, an increase of 1.2 percentage points from the previous year. Of those AP examinees, 49.0 percent scored in the 3-5 range on at least one AP examination, a decrease of 1.4 percentage points from the previous year.
- Of the 38 AP subject examinations taken by students in Grades 9-12, the five most frequently taken, in rank order, were: English Language and Composition, World History, United States History, Human Geography, and English Literature and Composition (Table 12 on page 24).

## International Baccalaureate

- In the 2018-19 school year, 5,770 Texas public school students in Grades 11 and 12 took 19,461 IB examinations (Table 13 on page 31). Among 11th- and 12th-grade students, 0.8 percent took at least one IB examination, an increase of 0.1 percentage points from the previous year. Of those IB examinees, 78.9 percent scored in the $4-7$ range on at least one IB examination, a decrease of 2.5 percentage points from the previous year.
- The five most frequently taken IB examinations, in rank order, were: History of the Americas, Spanish B, English A: Literature, Biology, and Mathematical Studies (Table 14 on page 34).

## Advanced Coursework

- In the 2018-19 school year, 647,140 Texas public school students in Grades 9-12 completed at least one advanced course (Table 15 on page 39). Of those students, 57.7 percent completed at least one AP course, a decrease of 10.5 percentage points from the previous year. Several courses (e.g., Forensic Science and Anatomy and Physiology) were reclassified as advanced in 2018-19, which resulted in a higher number of other advanced courses, compared to previous years.
- Of the 702,230 AP courses completed by students in Grades 9-12, 74.0 percent were completed by students taking corresponding examinations, an increase of 0.5 percentage points from the previous year (Table 18 on page 42 ). Of the $568,263 \mathrm{AP}$ examinations taken, 91.5 percent were taken by students completing corresponding courses.
- On 22 of the 27 AP examinations that had at least 250 test takers who completed corresponding AP courses and at least 250 test takers who did not complete corresponding AP courses, test takers who completed corresponding AP courses had higher mean scores (Table 20 on page 45).

## Results for Texas Public Schools: Distinction Designation Indicators for Advanced Placement and International Baccalaureate Combined

## Reporting of Results

For the 2020 accountability ratings cycle, the distinction designation indicators for Advanced Placement (AP) and International Baccalaureate (IB) examinations were evaluated for all students only. In addition to results for all students, this section of the report presents results by race/ethnicity, economic status, and gender.

Table 1
Participation and Performance in English Language Arts, Advanced Placement (AP) and International Baccalaureate (IB) Examinations Combined, Grades 11 and 12, by Race/Ethnicity, Economic Status, and Gender, Texas Public Schools, 2017-18 and 2018-19

| Group | Students | English language arts examinees |  | English language arts examinees scoring at or above criterion |  |

Source. Primary data from College Board, IB, and Texas Education Agency (TEA).
Note. Students who took multiple examinations are counted only once. Sums of students by race/ethnicity may differ from the total of all examinees. See Advanced Placement and International Baccalaureate General Information, 2018-19 (TEA, 2020a), for additional information. Because all Texas colleges and universities must adopt and implement policies to award credit for freshman courses to students who have completed the IB Diploma Programme or who have achieved required scores on one or more AP examinations (Texas Education Code §51.968, 2019), the percentage of all enrolled students who meet the criterion may be viewed as one indicator of college readiness among Texas public high school students. Whereas indicators of performance presented earlier in this report were based on the percentage of examinees who met the criterion score on an AP or IB examination, this indicator of qualification for college credit is based on the percentage of all students who met the criterion score.

[^4]Table 16
Advanced Placement (AP) Examinees Completing Advanced Courses, Grades 9-12, by Course Type, Texas Public Schools, 2014-15 Through 2018-19

| Year | AP examinees |  |  | No AP course |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | At least one AP course |  | Other advanced course ${ }^{\text {a }}$ |  | No advanced course |  |
|  |  | Number | Percent | Number | Percent | Number | Percent |
| 2014-15 | 249,337 | 230,988 | 92.6 | 4,429 | 1.8 | 13,920 | 5.6 |
| 2015-16 | 269,417 | 254,161 | 94.3 | 4,555 | 1.7 | 10,701 | 4.0 |
| 2016-17 | 289,686 | 272,991 | 94.2 | 4,614 | 1.6 | 12,081 | 4.2 |
| 2017-18 | 298,573 | 283,738 | 95.0 | 4,269 | 1.4 | 10,566 | 3.5 |
| 2018-19 | 306,643 | 290,737 | 94.8 | 5,902 | 1.9 | 10,004 | 3.3 |

Source. Primary data from College Board and Texas Education Agency (TEA).
Note. Examinees who took multiple examinations are counted only once. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP examinees include only those who could be matched to student records in the Public Education Information Management System (PEIMS). Counts of AP course completers may differ from counts of AP examinees because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in PEIMS. Several courses (e.g., Forensic Science and Anatomy and Physiology) were reclassified as advanced for 2018-19, which resulted in a higher number of other advanced courses, compared to previous years. Parts may not add to 100 percent because of rounding.
${ }^{a}$ Courses identified as advanced that are not AP courses. See, for example, the Comprehensive Glossary: 2018-19 Texas Academic Performance Report (TEA, 2019) for lists of courses identified as advanced.

Table 17
Advanced Course Completers Taking Advanced

| 2018-19 | 568,263 | 519,964 | 91.5 | 702,230 | 519,964 | 74.0 |

Source. Primary data from College Board and Texas Education Agency.
Note. There are two AP Physics C examinations and courses: Mechanics, and Electricity and Magnetism. In 2016-17, guidance on how to report these courses to TEA changed. In addition, beginning in 2017-18, TEA implemented a standard method for reporting the courses. As a result, counts of courses completed for 2016-17 are different from counts for earlier years, and counts of courses completed for 2017-18 and later years are also different from counts for earlier years. Prior to the 2016-17 school year, TEA counted students who took one or both examinations as having completed one Physics C examination, and students who completed one or both courses were counted as having completed one Physics C course, in order to have a one-to-one relationship between a student's participation in an examination and his or her participation in the corresponding course. Beginning in 2016-17, counts of examinations and course completions included both Physics C examinations and courses when students had data for both. See Advanced Placement and International Baccalaureate General Information, 2018-19 (TEA, 2020a), for additional information. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP examinations include only those taken by examinees who could be matched to student records in the Public Education Information Management System (PEIMS). Counts of AP courses completed may differ from counts of AP examinations because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in PEIMS.

Table 20
Correspondence Between Advanced Placement (AP) Examination Mean Scores and AP Courses Completed, Grades 9-12, by Subject, Texas Public Schools, 2018-19

| Examination subject | Examinations | Examinations taken with corresponding courses |  |  | Examinations taken without corresponding courses |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Number | Percent | Mean score | Number | Percent | Mean score |
| English Language and Composition | 64,594 | 59,572 | 92.2 | 2.4 | 5,022 | 7.8 | 2.0 |
| World History | 61,884 | 57,769 | 93.4 | 2.5 | 4,115 | 6.6 | 2.0 |
| United States History | 53,588 | 49,668 | 92.7 | 2.4 | 3,920 | 7.3 | 2.0 |
| Human Geography | 45,376 | 42,805 | 94.3 | 2.3 | 2,571 | 5.7 | 1.7 |
| English Literature and Composition | 41,217 | 39,237 | 95.2 | 2.3 | 1,980 | 4.8 | 2.1 |
| United States Government and Politics | 33,384 | 30,155 | 90.3 | 2.4 | 3,229 | 9.7 | 2.2 |
| Spanish Language and Culture | 29,319 | 21,758 | 74.2 | 3.7 | 7,561 | 25.8 | 3.4 |
| Macroeconomics | 27,270 | 25,256 | 92.6 | 2.3 | 2,014 | 7.4 | 2.2 |
| Physics 1 | 26,926 | 25,501 | 94.7 | 2.0 | 1,425 | 5.3 | 1.8 |
| Biology | 24,855 | 23,509 | 94.6 | 2.6 | 1,346 | 5.4 | 2.1 |
| Calculus AB | 23,623 | 22,502 | 95.3 | 2.6 | 1,121 | 4.7 | 1.6 |
| Environmental Science | 18,426 | 17,832 | 96.8 | 2.5 | 594 | 3.2 | 1.9 |
| Statistics | 18,032 | 17,298 | 95.9 | 2.7 | 734 | 4.1 | 1.6 |
| Psychology | 17,407 | 15,885 | 91.3 | 2.8 | 1,522 | 8.7 | 2.6 |
| Chemistry | 13,198 | 12,669 | 96.0 | 2.4 | 529 | 4.0 | 1.7 |
| Calculus BC | 10,201 | 9,745 | 95.5 | 3.6 | 456 | 4.5 | 3.0 |
| Spanish Literature and Culture | 6,746 | 5,917 | 87.7 | 2.9 | 829 | 12.3 | 2.3 |
| Computer Science A | 6,162 | 4,987 | 80.9 | 3.2 | 1,175 | 19.1 | 2.9 |
| Computer Science Principles | 5,866 | 5,311 | 90.5 | 3.2 | 555 | 9.5 | 2.1 |
| European History | 4,681 | 4,312 | 92.1 | 2.8 | 369 | 7.9 | 2.7 |
| Physics C: Mechanics | 4,329 | 2,442 | 56.4 | 3.4 | 1,887 | 43.6 | 3.7 |
| Microeconomics | 4,037 | 3,329 | 82.5 | 2.2 | 708 | 17.5 | 2.5 |
| Capstone Seminar | 3,847 | 3,705 | 96.3 | 3.1 | 142 | 3.7 | 2.5 |
| Studio Art: 2-D Design | 3,705 | 2,536 | 68.4 | 3.5 | 1,169 | 31.6 | 3.3 |
| Physics 2 | 3,420 | 2,672 | 78.1 | 2.8 | 748 | 21.9 | 2.9 |

Source. Primary data from College Board and Texas Education Agency.
Note. Examinations are listed in descending order by total number of examinations taken. Counts of examinations include only those taken by examinees who could be matched to student records in the Public Education Information Management System (PEIMS) and include both Physics C examinations when students have scores for both and both Physics C courses when students have completed both. See Advanced Placement and International Baccalaureate General Information, 2018-19 (TEA, 2020a), for additional information. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. Counts of AP courses completed may differ from counts of AP examinations because (a) not all course completers take examinations, (b) not all examinees complete advanced courses, and (c) some College Board records for examinees could not be matched to student records in PEIMS. Parts may not add to 100 percent because of rounding.

Abstract. This report presents Advanced Placement (AP) and International Baccalaureate (IB) examination participation and performance results in Texas public schools for the 2018-19 school year. Data are provided by student characteristics, including race/ethnicity; gender; and economic, at-risk, dyslexia, English learner, foster care, homeless, immigrant, migrant, and military-connected statuses. Data also are provided by participation in bilingual education or English as a second language, career and technical education, gifted and talented, special education, and Title I programs.
The report is available in PDF format on the agency website at https://tea.texas.gov/reports-and-data/ school-performance/accountability-research/advanced-placement-and-international-baccalaureate. Additional information about this report may be obtained by contacting the Texas Education Agency Division of Research and Analysis by phone at (512) 475-3523 or by e-mail at Research@tea.texas.gov.
For additional information about AP examinations, contact the College Board Southwestern Regional Office at (866) 392-3017 or http://www.collegeboard.org/. For additional information about IB examinations, contact the IB Americas Office in Bethesda, Maryland, at (301) 202-3000 or http://www.ibo.org/.

[^4]:    Source. Primary data from College Board, IB, and Texas Education Agency (TEA).
    Note. A student enrolled in a multi-semester course is counted as a completer only when he or she completes the final semester of the course. Some AP courses (e.g., AP Human Geography) may be taught as either single-semester courses or yearlong courses. For such courses, counts of courses completed include either version a student completed. There are two AP Physics C courses: Mechanics, and Electricity and Magnetism. In 2016-17, guidance on how to report these courses to TEA changed. In addition, beginning in 2017-18, TEA implemented a standard method for reporting the courses. As a result, counts of courses completed for 2016-17 are different from counts for earlier years, and counts of courses completed for 2017-18 and later years are also different from counts for earlier years. See Advanced Placement and International Baccalaureate General Information, 2018-19 (TEA, 2020a), for additional information. Several courses (e.g., Forensic Science and Anatomy and Physiology) were reclassified as advanced for 2018-19, which resulted in a higher number of other advanced courses, compared to previous years.
    aParts will not add to totals for all advanced courses because students may complete more than one type of advanced course within a single year. ${ }^{\text {b Average. }}$. Parts may not add to 100 percent because of rounding. ${ }^{\text {d Advanced Placement. }}$ eInternational Baccalaureate. ${ }^{\text {f }}$ Courses identified as advanced that are not AP or IB courses. See, for example, the Comprehensive Glossary: 2018-19 Texas Academic Performance Report (TEA, 2019) for lists of courses identified as advanced.
