Purpose
The resources found in this document provide immediate, actionable information related to providing services to students with disabilities in a virtual environment. Use the table of contents to easily tab to the information most responsive to your needs as an administrator, educator, service provider, or parent. This document categorizes resources into general, disability-specific, service-specific, and parent resources and is intended to provide a starting point for virtual instruction for students with disabilities. Resources are repeated in each category if applicable to multiple needs.

Resources may continue to be added to this document to assist stakeholders in identifying virtual learning resources that meet their specific needs for the population of students with disabilities they serve. Additionally, please continue to use your region and district resources as well. Your region and district are in close contact with TEA, and there may be overlap among resources they suggest and those listed in this document. Also, refer to the Education Service Center (ESC) and the Local Education Agency (LEA) resources that are more specific to your local needs.

General Resources: Federal, National, State

U.S. Department of Education
- IDEA Questions and Answers on Providing Services to Children with Disabilities During the Coronavirus Disease 2019 Outbreak (March 2020): This Questions and Answers document outlines states’ responsibilities to infants, toddlers, and children with disabilities and their families, and to the staff serving these children.

Health Services
- Texas Department of State Health Services—COVID-19: Guidance for Public Health Home Service Providers: Includes info about client assessment before a visit, recommended action, and guidance for personal protective equipment (PPE) in the home.
At Home Learning Resources for Students with Disabilities

Council for Exceptional Children (CEC)
- Resources for teaching remotely
- Webinar: Teaching Online During COVID-19: Includes handout on best practices for educating students with disabilities online.
- COVID-19 Considerations for Special Education Administrators

Center for Applied Special Technology (CAST)
- The UDL Guidelines: Includes a set of concrete suggestions that can be applied to any discipline or domain to ensure that all learners can access and participate in meaningful, challenging learning opportunities.

Council of Administrators of Special Educators (CASE)
- Considerations for Special Education Administrators: Includes links to a supplemental fact sheet for preschool, elementary and secondary schools, a webinar on online education and physical accessibility, and FERPA and HIPAA.

Center on Online Learning and Students with Disabilities

TEA Resources COVID-19 Support and Guidance
- Coronavirus (COVID-19) Support and Guidance: Includes state resources for instructional continuity and special education and special populations.

Other State Resources Michigan Virtual Learning Research Institute
- Michigan Virtual Learning Research Institute: Includes K-12 information for ARD committees, online providers, students, instructional staff, mentors, parents, administrators, and more.

Disability-Related Resources

Early Childhood
- Early Childhood Technical Assistance Center: Includes information about tele-intervention and distance learning.
- The Early Childhood Personnel Center: Includes COVID-19 general resources, part C and B/619 resources, and resources for families.
At Home Learning Resources for Students with Disabilities

Significant Cognitive Disabilities

- Council for Exceptional Children (CEC) Facebook Page for Complex and Chronic Conditions: Includes an online teaching collective about how to provide distance learning to students with severe disabilities and other resources.
- COVID-19 Resources for Students in Life Skills: Includes social stories, online storybooks, virtual manipulatives, google tools for special needs, LID online curriculum, and so much more!
- Modified Lessons for Students with Intellectual Disabilities: Includes lessons and resources for all subject areas organized by skill rather than grade level. The LiveBinder also supports strategies and applications for modifying your instructional activities.
- Online Resources: Includes open-source materials that may be adapted to fit the needs of your student.

Autism

- Texas Statewide Leadership for Autism Training (TSLAT)
  - Online modules for educators and families
  - Tools for educators and families (Autism Circuit)
  - A video library of strategies in action
- Autism Focused Intervention Resources and Modules (AFIRM)—Supporting Individuals with Autism through Uncertain Times
- University of Louisville Kentucky Autism Training Center—Supporting Students with ASD at Home During COVID-19: Includes communication, social-emotional, and visual supports and academic resources.

Sensory Impairments

- Texas Sensory Support Network—Virtual Activities for Teachers and Families: Includes a LiveBinder with information specific to teaching students who are deaf, deaf-blind, hard of hearing, visually impaired, and blind, including best practices for remote learning, live streams and field trips, and specific resources and ideas for remote instruction.
- Tools/Strategies for remote learning: Includes resources for working with students who are blind or visually impaired.
- CEC’s Division on Visual Impairments and Deafblindness Facebook page: Includes information on infection control-proof tactile boards, high-quality virtual conferences, and preparing for virtual instruction.
- Paths to Literacy—Virtual Expanded Core Education Learning (ExCEL) Academy for Students with Visual Impairments: Free nationwide virtual web classes for students with visual impairments who have a variety of abilities.
- Crossroads resource for deaf educators in Texas: Includes online teaching resources, google education apps for teachers, online dictionaries, and virtual activities for teachers and families.
- National Deaf Center (NDC) on Postsecondary Outcomes: Includes tips and resources to ensure students who are deaf or hard of hearing have access to the same course content as their peers.
At Home Learning Resources for Students with Disabilities
