A photograph of a family of four—a mother, father, and two children—gathered around a white table in a bright, modern home. They are all looking at a laptop screen, appearing to be in a collaborative work or study session. The father is pointing at the screen, and the mother is looking on attentively. The children are also engaged. The scene is lit with warm, natural light from a window in the background.

Texas Schools Vaccine Campaign Overview

In close collaboration with DSHS, TEA is seeking to...

Maximize the number of school systems that report that they have a **strategy in place** to connect their staff who want to be vaccinated to available vaccines

Maximize the number of school systems that report that **everyone in their school system who wants a vaccine has been provided the opportunity to be vaccinated**

TEXAS
Health and Human
Services

Texas Department of State
Health Services

The TX School System Vaccination Progress Survey will track progress towards goals and help to prioritize school systems for vaccine distribution

Weekly Schools Vaccine Progress Survey Purpose

Track strategy school systems are/
will be pursuing:

- School system is the provider
- School system is partnering with an established provider
- School staff are visiting local health providers (pharmacies, etc.)

Help DSHS with validation
and prioritization processes
for school systems by asking
school systems to submit
their provider's VAOS pin
number

Track progress towards
goal of completing
vaccination effort, and
identify when effort is
complete

Texas Schools Vaccine Campaign: Key Information

TX School System Vaccination Progress Survey

Audience

School systems (ISDs, Charters, and Private Schools)

Process
Deadlines

Survey submission is due weekly on Mondays at 5:00pm

Data Uses

TEA reports survey results to stakeholders (OOG, DSHS, etc.), collaborates with ESCs to identify school systems to support, collaborates with DSHS to support provider validation

Value-Add for School Systems Submitting the TX School System Vaccination Progress Survey

1

School systems will participate in a statewide campaign to facilitate vaccinations for school staff

2

ESCs will use data submitted to support coordination with vaccine providers

3

DSHS will validate vaccine providers and support prioritization of school systems

Next Steps: What to Expect and When

	Monday	Tuesday	Wednesday	Thursday	Friday
School Systems	Submit Vaccine Progress Survey by Mondays at 5 p.m. (if applicable)				Check email for weekly survey link from TEA
TEA		Validates survey data, and collaborates with ESCs and DSHS to support vaccine campaign			Vaccine Progress Survey sent to school systems for allocation consideration 2 weeks ahead
ESCs	Identify and directly support school systems with connections to providers, etc				

Once school systems report that all their staff have access to vaccine, survey links will no longer be sent to their points of contact and, for purposes of our statewide goal, the school system will be considered as complete.
