ESC Strong Foundations
Implementation
Supports

Provides professional learning directly to teachers, coaches, and administrators through asynchronous modules and live virtual and/or in-person job-embedded supports delivered by Education Service Centers

ESC Strong Foundations Implementation Supports Objectives

Accelerate **learning** for students

Provide the opportunity for districts and schools to implement **high-quality instructional materials**

Deliver **professional learning** and other supports to teachers, coaches, and leaders to support successful implementation

Build **internal capacity** to support and sustain successful implementation

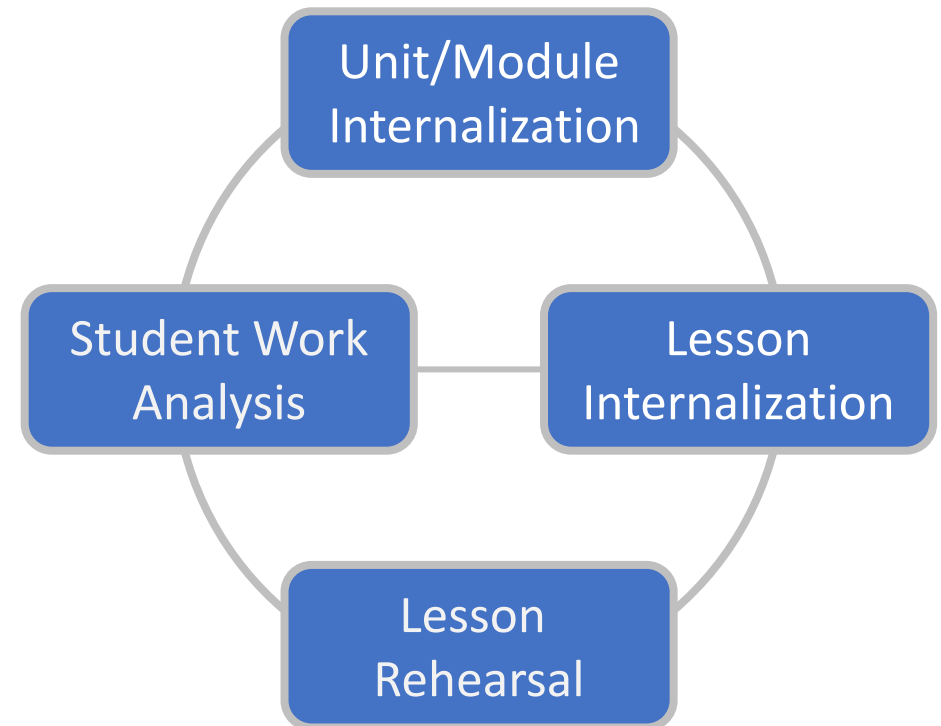

Strong Foundations Implementation High-Quality Professional Learning

Professional learning modules

Modules provide learning on key topics for implementation...

- Introduction to **HQIM** and its impact on learning and **learning acceleration**
- Understanding content-specific **Research-Based Instructional Strategies (RBIS)**
- Deep dive into **product design, product components** and alignment to the **TEKS**
- Effectively **planning for instruction**
- **Supporting all learners** using curriculum-embedded supports and scaffolds
- Effectively **delivering instruction**
- Using curriculum-embedded formative and summative **assessments**
- Analyzing and **responding to student work** and **data**

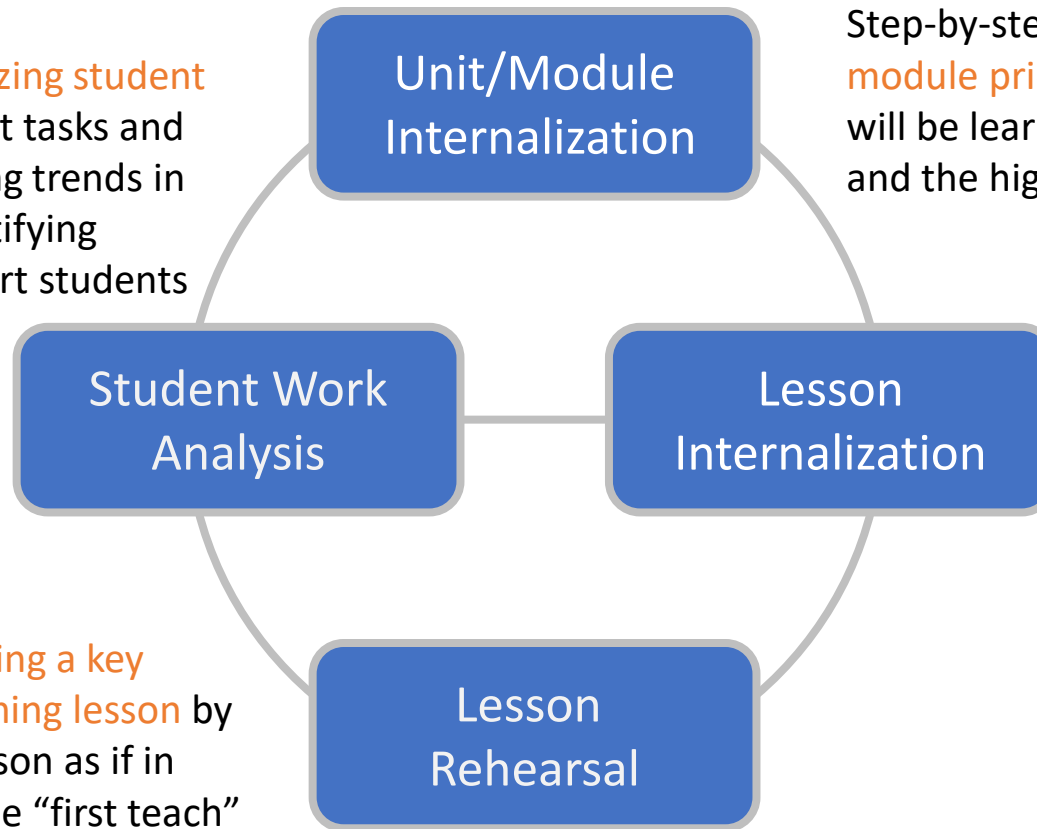

...and build understanding and usage of key protocols

High-leverage protocols and practices

Step-by-step process for **analyzing student work** by understanding student tasks and exemplar responses, identifying trends in actual student work, and identifying targeted action steps to support students in upcoming lessons.

Facilitated process for **practicing a key learning moment in an upcoming lesson** by delivering that part of the lesson as if in front of students to ensure the “first teach” is the “best teach”.

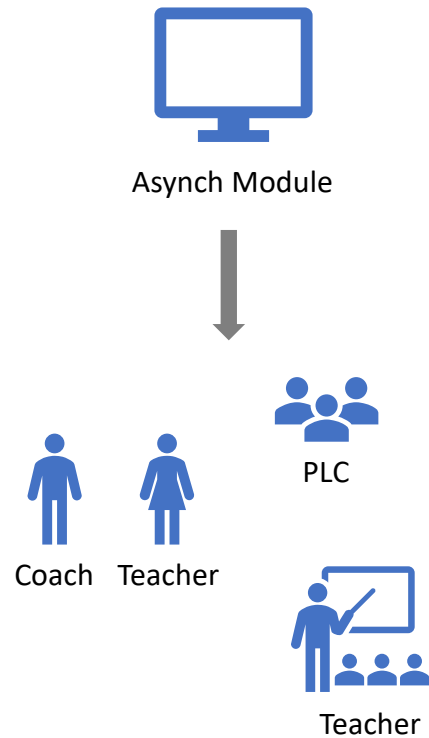

Step-by-step process for **understanding each module prior to teaching**, including what students will be learning, how students will be assessed, and the high-level arc of learning.

Step-by-step process for **understanding each lesson prior to teaching**, including what students will be learning, how students will be assessed, and how teachers can support all learners in meeting the rigor of the instructional materials.

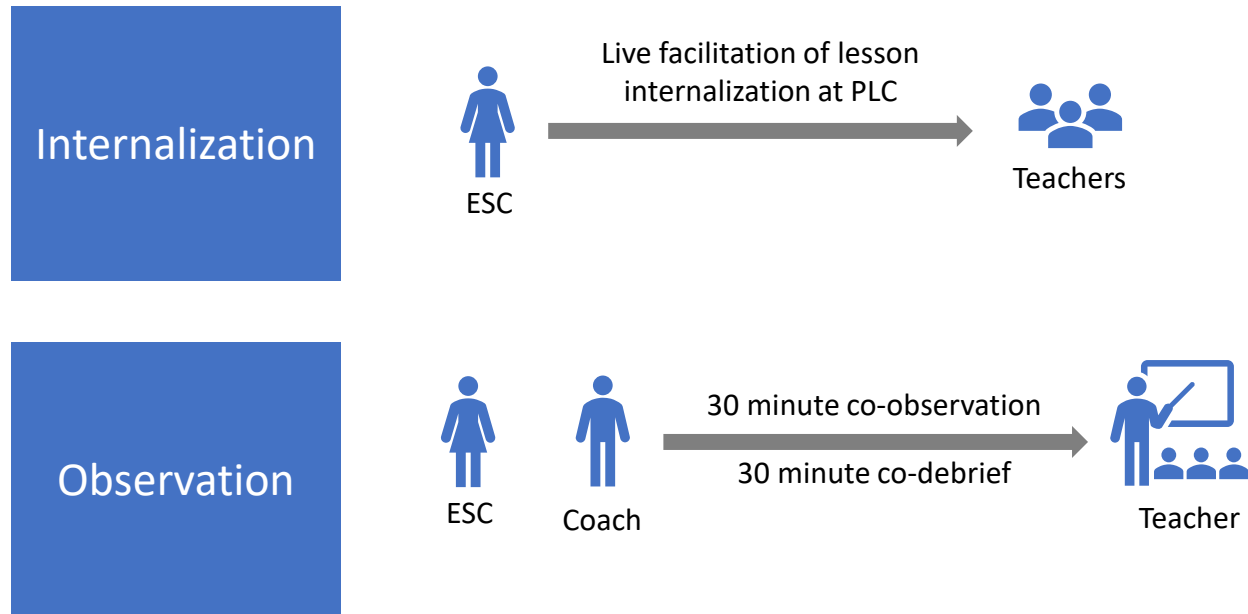

ESC Strong Foundations Implementation Supports extend learning beyond modules
