LASO Decision 1 | Office Hours

Hello and Welcome!

We encourage you to rename yourself to include the name of your LEA or campus.

Isiah Manalo *Effectiveness Coach* TNTP

- Former bilingual 2nd, 3rd, and 5th grade teacher
- Former RTI/Dyslexia teacher
- Founding assistant principal for a charter school

TEA

Office Hours Overview

60-minute, recorded session

- 10-minute presentation
- 50-minute questions and answers

Open format

- Ask questions aloud or via Chat
- Come and go, as needed
- Presentation and deck will be posted online
- Visit LASO website for more information
- Email laso@tea.texas.gov for further support

Remain muted unless posing a question

Amplify Materials Overview

Amplify Materials Overview

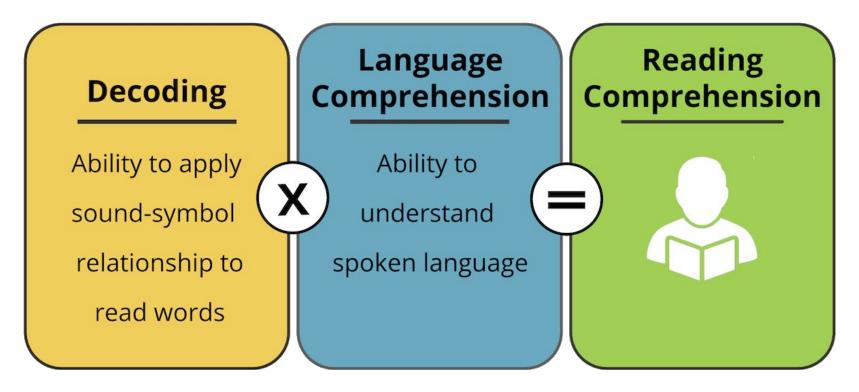

Amplify Texas Elementary Literacy Program is a K-5 knowledge-based RLA curriculum in English and Spanish with aligned foundational skills units for grades K-2. English foundational skills and Spanish foundational skills instruction provides an explicit and systematic approach to increased decoding skills and when integrated together support biliteracy.

Researched-Based Approach to Literacy

The Amplify Texas Elementary Literacy Program is guided by extensive research on the science of reading, which is a compilation of research-based best practices for literacy instruction. See References at the end of the User Guide for a complete list of research sources. The science of reading tells us that, in order for students to get optimal results from our literacy instruction, language comprehension and word recognition must work hand in hand. In other words, the recognition of sounds, letters, and words integrated with knowledge, vocabulary, sentences, connections, and gist are the makings of the most impactful reading instruction for students.

English Language Proficiency Standards Alignment

Amplify Texas English Literacy Program develops strong foundational skills

By separating skill development lessons from lessons that emphasize comprehension, we can give kids confidence without delaying them from learning key vocabulary and critical thinking skills. Amplify Texas English Literacy Program builds knowledge and content

Research shows that reading comprehension increases when students have background knowledge about a topic. When utilizing the HQIM in English and Spanish knowledge transfers across languages: content mastered in one language transfers to the second language. Amplify Texas English Literacy Program Assessments

Student assessment gives the necessary inputs needed to differentiate instruction effectively. Each lesson includes regular checks for understanding and Mid-Unit and End-of-Unit Assessments.

Skill-Building in K-2

All Skills lessons include some or all of the following segments:

• Foundational Skills: Students learn print concepts, phonological and phonemic awareness, phonics and word recognition, and fluency. Instruction of foundational skills are explicit and targeted to individual student's needs.

• Language: Students focus on grammar, writing mechanics, language conventions, spelling, and vocabulary.

• **Reading:** Students practice decoding and comprehension with decodable chapter books, text-based questions, and written response activities.

• Writing: Students learn about the writing process and key text types through connected reading and writing tasks.

• Speaking and Listening (integrated into other segments):

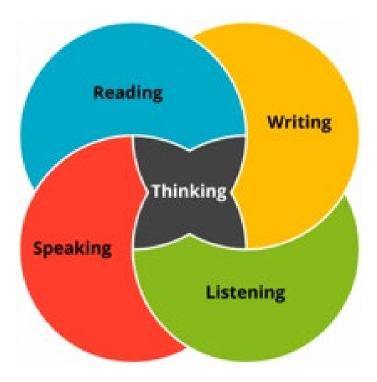

Students engage in collaborative discussion, including partner and smallgroup work.

• Handwriting and Cursive: In Grade 2, students have instructional opportunities to refine their penmanship through handwriting and cursive writing practice.

• Additional Support: Each lesson features an Additional Support section at the end with targeted activities for additional practice.

Knowledge Building

In the Amplify Texas Elementary Literacy Program design, the Knowledge Strand is centered on Read-Alouds that are intentionally sequenced to build content knowledge and vocabulary across Grades K–5 in specific Knowledge domains around literature, history, science, and the arts. Because research shows that students' listening comprehension outpaces their reading comprehension until their early teens, the program strategically uses Read-Aloud text in this strand, allowing students to focus their cognitive energy on gaining meaning from the words and better understanding from the images. Through integration of the language comprehension and word recognition strands, the program is designed to produce increasingly automatic and strategic student performance of literacy tasks. Through researchbased pedagogy, teachers will encourage students to build connections and context, and listen and understand, while emphasizing interactivity and assessing what is important. Research on the science of reading has informed the following instructional approaches to literacy instruction in Grades K-2 and Grades 3-5:

Knowledge Building

The Amplify Texas Lectoescritura en Español knowledge units are focused on the same topics as the English knowledge units, and they undergo a careful process to adapt them into Spanish, involving a spectrum of transadaptation, translation, and authentic text led by native speakers from a variety of Spanish-speaking regions.

Amplify Texas Lectoescritura en Español is a TEKSaligned HQIM. In addition, differentiation opportunities throughout the lessons focus on language development and tiered supports for beginning, middle, and advanced skills. Students develop and build on new knowledge through rigorous grade-level material. Tiered vocabulary words are introduced with each lesson, and students have many opportunities to apply new vocabulary.

SLAR Grades: K–5 Domains and Units

Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5
Domain 1: Rimas y fábulas infantiles	Domain 1: Fábulas y cuentos	Domain 1: Cuentos de hadas y cuentos exagerados	Unit 1: Cuentos clásicos: El viento en los sauces	Unit 1: Narrativas personales: mi historia, mi voz	Unit 1: Narrativas personales: déjame contarte una historia
Domain 2: Los cinco sentidos	Domain 2: El cuerpo humano	Domain 2: La civilización griega antigua	Unit 2: Escamas, plumas y pelaje: la clasificación de los animales	Unit 2: ¡Eureka! El arte de la invención	Unit 2: El Renacimiento: arte y cultura
Domain 3: Cuentos: cuentos de hadas y cuentos populares	Domain 3: Tierras diferentes, cuentos similares	Domain 3: Historias del monte Olimpo	Unit 3: El cuerpo humano: sistemas y sentidos	Unit 3: Ficción contemporánea: mi calle, tu calle	Unit 3: Las primeras civilizaciones americanas: mitos, prámides y reyes
Domain 4: Plantas: ¿cómo crecen?	Domain 4: Antiguas civilizaciones de América	Domain 4: La guerra de 1812	Unit 4: La civilización romana antigua	Unit 4: La Revolución estadounidense: construir una nación	Unit 4: Don Quijote: la historia de un caballero optimista
Domain 5: Granjas: desde las raíces	Domain 5: Astronomia: la exploración del espacio	Domain 5: Los ciclos de la naturaleza: de las nubes a la lluvia	Unit 5: iRayos, truenos y centellas! La luz y el sonido	Unit 5: La Isla del fesoro: la X marca el lugar	Unit 5: Poesia: collage de palabras
Domain 6: Los nativos americanos: tradición, herencia y la tierra	Domain 6: La historia de la Tierra	Domain 6: La expansión hacia el oeste	Unit 6: La era vikinga	Unit 6: Poesia: palabras maravillosas	Unit 6: Introducción a Shakespeare: Sueño de una noche de verano
Domain 7: Reyes y reinas	Domain 7: Los animales y sus hábitats: el mundo que compartimos	Domain 7: Los insectos: por todas partes	Unit 7: Astronomía: nuestro sistema solar y más allá	Unit 7: Geología: esta inmensa roca	Unit 7: Los nativos americanos y los Estados Unidos
Domain 8: Las estaciones y el tiempo: a medida que gira la Tierra	Domain 8: Cuentos de hadas	Domain 8: La Guerra Civil de los Estados Unidos	Unit 8: Aprender de la tierra: regiones y culturas de los nativos americanos	Unit 8: Energía	Unit 8: Sustancias químicas: detectives, dinosaurios y descubrimiento
Domain 9: Las colonias y sus habitantes: éraise una vez en los Estados Unidos	Domain 9: Una nueva nación: La independencia de los Estados Unidos	Domain 9: El cuerpo humano: componentes básicos y nutrición	Unit 9: Las primeras exploraciones de Norteamérica	Unit 9: Análisis literario: Amigo se escribe con H	Unit 9: Más allá de Juneteenth: de 1865 al presente
Domain 10: Cuidar el planeta Tierra	Domain 10: Exploradores de la Frontera	Domain 10: Travesias a los Estados Unidos: una tierra de oportunidades	Unit 10: La época colonial en los Estados Unidos		Unit 10: Analisis literario: El chico de la flecha
Domain 11: Presidentes y símbolos de los Estados Unidos: distintivos de la nación	Domain 11: Cuentos de aventuras	Domain 11: Luchar por una causa	Unit 11: Jazz y más		
Domain 12: El arte y el mundo que nos rodea		Domain 12: iA volart La era de la aviación			Over Outside 25

Integrated Knowledge and Skills Supports in 3-5

Knowledge and Skills are integrated, and each unit is organized around anchor texts. All Grades 3–5 lessons include some or all of the following segments:

- Core Connections: Review prior knowledge from past domains and units as well as upcoming lessons.
- Reading: Each lesson is organized around knowledge-rich reading on the unit's topic. Rich chapter books, articles, and trade books are used for whole-group, partner, small-group, and independent reading.
- Writing: Close reading and writing are interconnected as students take on more complex writing projects.
- Language: In Grades 4–5, students begin to sharpen their grammar, morphology, and spelling skills.
- Speaking and Listening: In Grades 4–5, Read-Alouds become less prominent, as independent reading, speaking, and listening are integrated into other segments for demonstration of reading comprehension and vocabulary application.
- Handwriting and Cursive: In Grades 2–5, students will also have instructional opportunities to refine their penmanship through handwriting and cursive writing practice.
- Additional Support: Each lesson features an Additional Support section at the end with targeted activities for additional practice.
- Core Quests: In Grades 3–5, students will have opportunities to extend knowledge through interactive learning quests.

Key Features

Engaging concepts for all learners

TEM

PRACTICAR PALABRAS: "CONFLICTO" (5 MIN)

- 1. En este capítulo leyeron: "En este conflicto, los británicos lucharon contra los franceses por el control de tierras en América del Norte".
- 2. Digan la palabra conflicto conmigo.
- 3. Conflicto significa "pelea o lucha por poder o autoridad".
- 4. El conflicto entre los dos países dio inicio a una guerra.
- 5. ¿Cuál es un ejemplo de un conflicto que hayan experimentado ustedes? Asegúrense de usar la palabra *conflicto* en sus respuestas.
- Pida a dos o tres estudiantes que usen la palabra de vocabulario en una oración. Si es necesario, guíelos y/o reformule sus respuestas para formar oraciones completas: "Tuve un conflicto con _____ cuando _____".
- 6. ¿Qué clase de palabra es conflicto?
 - sustantivo
- Haga una actividad de Elegir una opción para hacer un seguimiento.
- Diga: Voy a leer varias oraciones. Si la oración que leo es sobre un ejemplo de un conflicto, digan: "Eso es un conflicto". Si la oración que leo no es un ejemplo de un conflicto, digan: "Eso no es un conflicto".

TEA Available Materials

TEA provides districts and educators with direct access to an optional set of high-quality instructional materials (HQIM) designed especially for Texas.

Two types of materials are available to local education agencies (LEAs):

- **Core products:** full sets of materials designed to cover 100% of the Texas Essential Knowledge and Skills (TEKS) in a grade level/band
- Cumplemental products: materials not designed to cover 1000% of the TEKS but that complement
