**Reminder:**
The Department of Grant Compliance and Administration has begun federally required program monitoring of ARP ESSER III, beginning with the review of the following ESSER III plans for:

- Safe Return to In-Person Instruction and Continuity of Services Plan
- ARP ESSER LEA Use of Funds Plan

USDE is also reviewing these plans from the public URLs and links provided by LEAs.

To update or revise the public links to either of these plans, we ask that LEAs complete the online form at ARP ESSER III Plan form to provide their most up-to-date URLs for these required plans.

Plan requirements are addressed in the ESSER Training and Resources section, specifically at ESSER III Planning Requirements. Additional information is available on the TEA ESSER III page.
