

Organization Information

Organization Name:

Catapult Learning (and our predecessor companies) have partnered with school districts, government agencies, and community groups for more than 44 years, providing outcomes-based learning programs that are tailored to individual student needs and produce positive academic results. We are a privately owned, limited liability company, and the leading provider of contracted educational services to schools and districts nationwide. Last year we provided services to students in approximately 3,000 schools. Our instruction, services, and people motivate the students we serve to achieve great success in school and beyond.

Our programs employ over 8,000 full and part-time staff, and have served more than 100,000 students annually. Our streamlined administrative structure is designed to ensure that we meet planned, agreed-upon goals in a highly cost-efficient manner. Our managerial expertise enables us to seamlessly integrate our programs into schools, thus alleviating—and even eliminating—complex administrative responsibilities from the districts and schools we serve.

Organization Description:

In addition to our signature reading and math instructional programs, we provide a wide variety of additional services. These include:

- Professional development supporting all Title funding
- Counseling
- EL programs
- Speech/language assessment and intervention services
- IDEA services
- STEM and STEM robotics programs
- Family engagement programs
- School nursing and social work
- Program evaluation
- Various consultative services

Tutor Types

Please list the types of tutors your organization has available (e.g., college students, retired teachers, etc.).
