

Organization Information

Organization Name:

Organization Description:

Let's Go Learn provides high-quality tutors and instructional materials to accelerate the learning of Texas students with unfinished learning. Over the last two decades, LGL instructional materials have evolved to include a best-in-class tutoring/learning platform, diagnostic ELA/reading and math assessments, personalized math and reading instruction, progress monitoring, and leadership training services. Our products have been statistically validated for reliability and are aligned with TEKS. We provide high-quality tutors, tutor management, and scheduling, hiring tutors directly through our Texas LGL educators or working with TEA/LEAs. We can scale up as needed. Our programs are currently being used in Fort Worth ISD and Eagle Mountain Saginaw ISD.

Tutor Types

Please list the types of tutors your organization has available (e.g., college students, retired teachers, etc.).
