

Organization Information

Organization Name: Tutor.com

Organization Description:

Tutor.com provides 24/7, 1-to-1 live academic synchronous and asynchronous tutoring for K–12 students in more than 200 subjects via any internet-connected device. Students can connect on demand with one of our 3,500+ expert tutors in about a minute, or they can schedule tutoring sessions for the future; they can even reconnect with their “Favorite” tutors. Our tutors provide instruction in English as well as Spanish. Students may choose to connect via text-chat or 2-way voice. Each session is recorded, and students can view transcripts or play back their sessions, which they can also send to their teachers, counselors, parents, et al. Tutor.com offers robust reporting for administrators and teachers, who can view student data in real time or via our monthly student usage report, and utilize early intervention alerts to address curricular challenges and provide just-in-time student support.

Tutor Types

Please list the types of tutors your organization has available (e.g., college students, retired teachers, etc.).

Subject-matter experts who have passed a rigorous screening process; many are retired K–12 teachers and college professors

Number of Available Tutors

3,500
