

Organization Information

Organization Name: iTutor

Organization Description: iTutor is a leading educational technology company and Cognia-accredited (formerly AdvancED) digital learning institute. Our mission is to improve student achievement and school district performance outcomes by providing the highest quality educational support anywhere at any time. iTutor partners with K-12 school districts and grant-funded programs across the United States to deliver data-driven, real-time, personalized, virtual instruction — in alignment with specific classroom curriculum — through our online instructional platform and community of highly qualified state-certified educators.

Tutor Types

Please list the types of tutors your organization has available (e.g., college students, retired teachers, etc.).

All tutors are certified educators with current and valid teaching certificates in the subject in which they tutor.

Number of Available Tutors

500
