

Organization Information

Organization Name:

Organization Description:

Limitless Learning Education and Tutoring Center is uncompromising in its commitment to provide 1-1 tutorial programs that redefine how students experience the learning process. At Limitless Learning we've designed a learning space where new and expansive patterns of thinking are nurtured, where mistakes are transformed into successes, and where students can build positive attitudes and beliefs about themselves and their academic abilities.

1. Our onsite and online 1-1 individualized tutoring plans are based on the academic needs of each student. Using our open-ended math diagnostic exams, our programs identify each student's academic strengths and weaknesses allowing tutors to engage in variety of learning strategies and contextually appropriate pedagogies that serve the range of student's learning styles. The same methodology is applied through our homework support programs that address an array of subject areas such as reading, science, and writing. Our center addresses students' need through direct communication with school teachers and administrators.

2. Our learning strategies aim to expand our students' capacity to be creative, innovative, persistent, and goal oriented. At Limitless Learning we believe intelligence is flexible and inspire all students to take control to their own learning by exploring an array of learning styles and by establishing a growth mindset.

3. Tutor Pledge—Our promise to students/parents: As an L2 professional tutor, I have a unique ability to interact with my students on a holistic level, meaning that we will work together as a learning team to meet certain goals and standards of success. As a tutor, I not only deliver content, but I also motivate, coach, challenge, and provide feedback for all my students. All in all, I am committed to working with my student's overall study skills and I will encourage independent conceptual-level thinking and learning.

Tutor Types

Please list the types of tutors your organization has available (e.g., college students, retired teachers, etc.).
