

Schoolnet Overview for Districts

**Spring 2020
End-of-Year
Assessments**

Topics

Schoolnet Access

Monitoring Student Testing

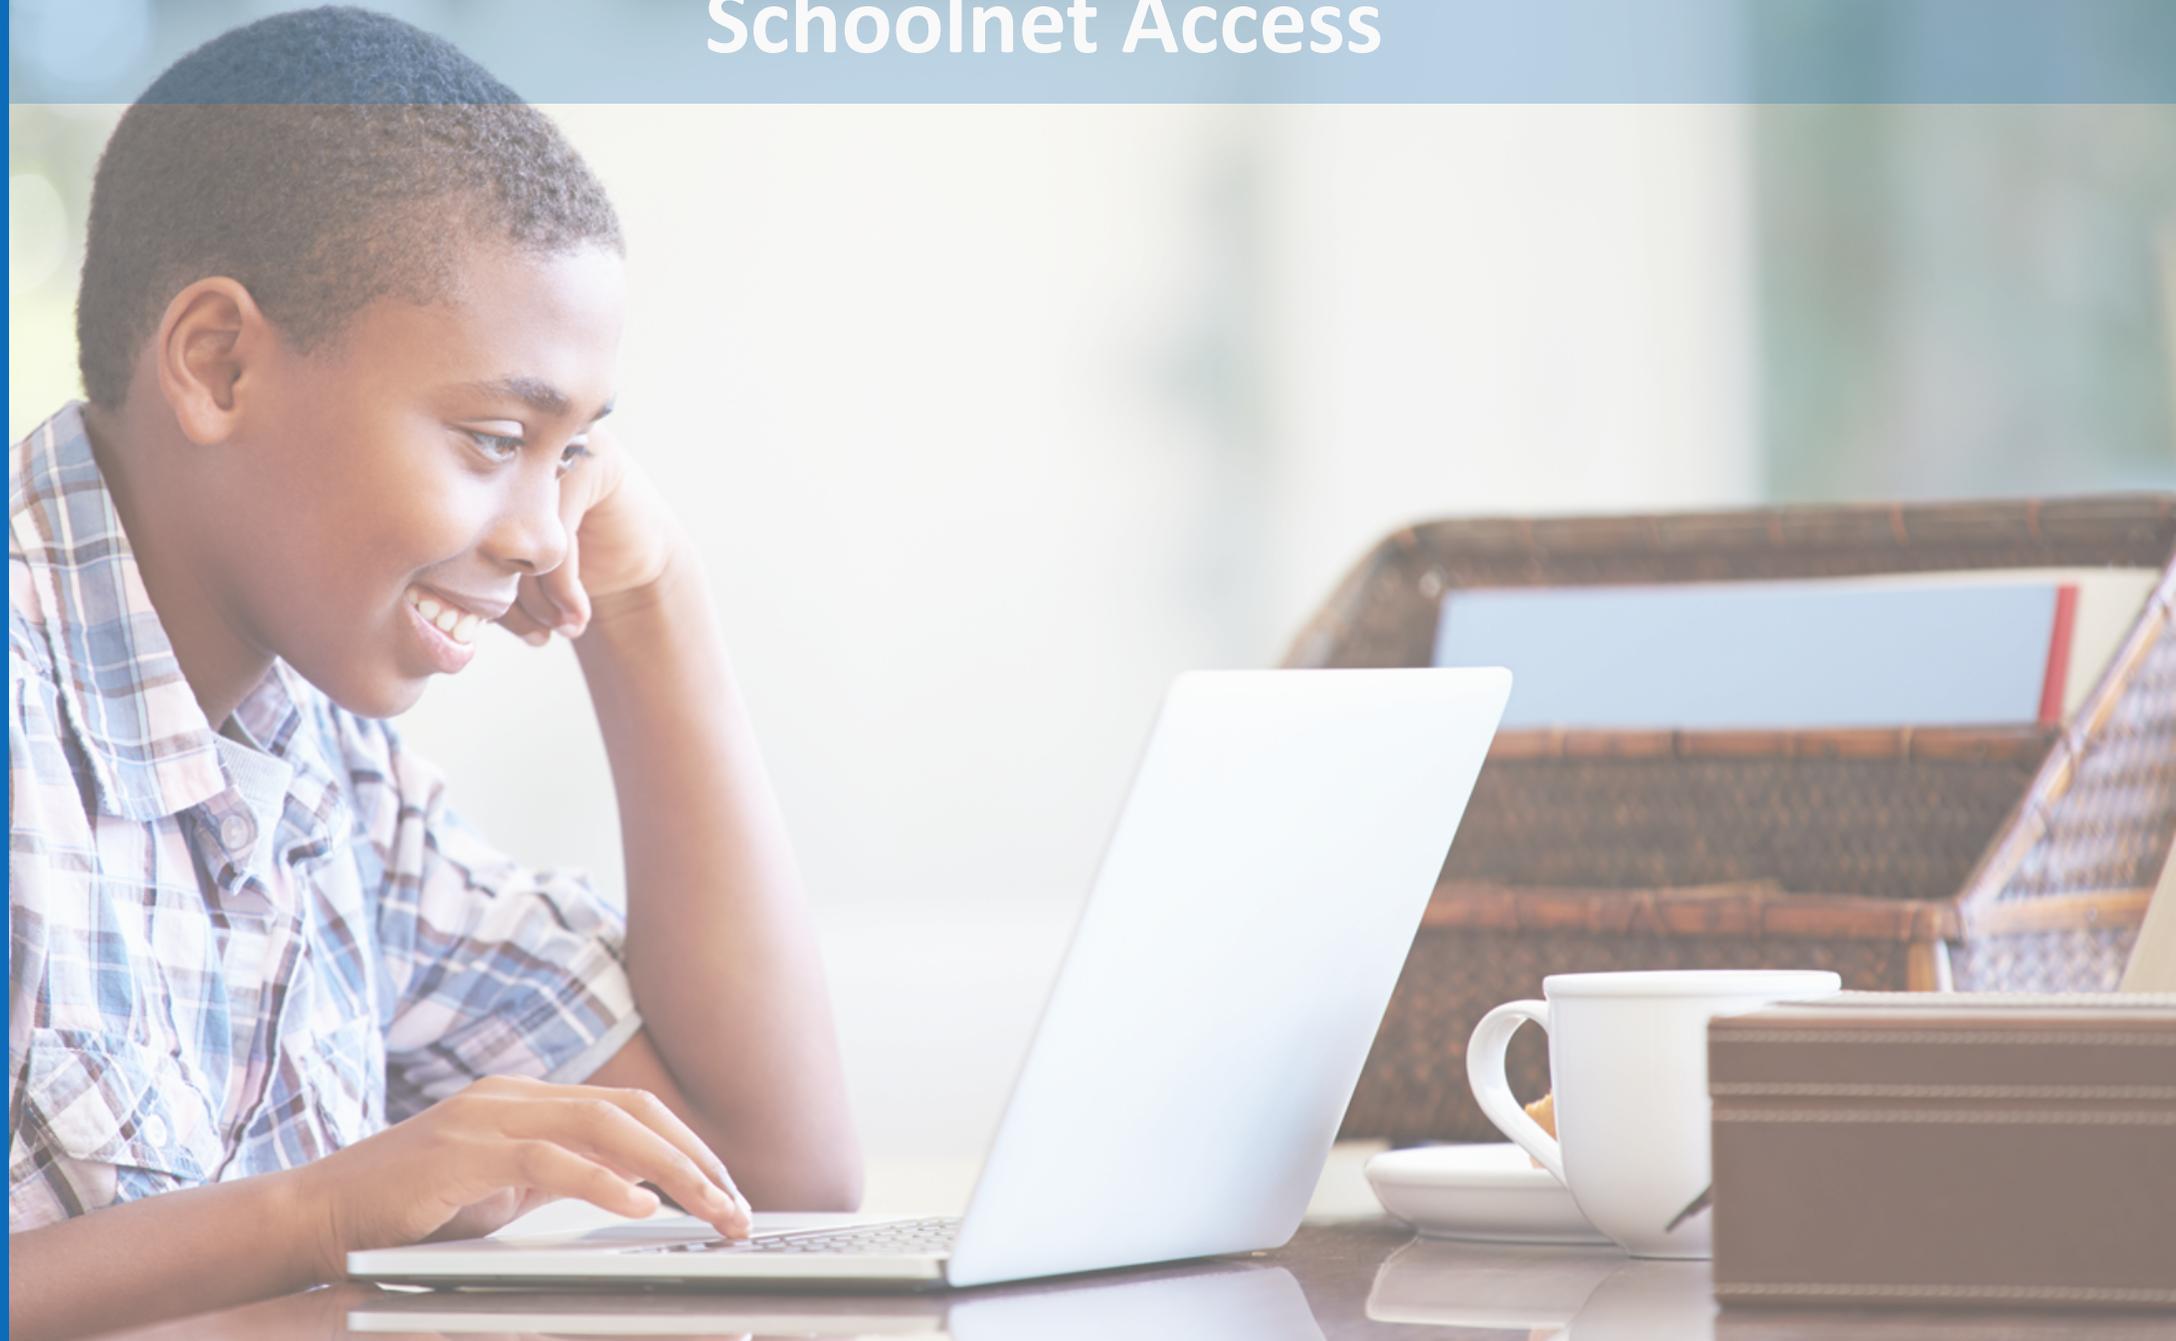

Resources and Support

Please note that it is not necessary for districts to access Schoolnet. However, if a district wants to monitor student testing, this training will provide helpful information.

Schoolnet Access

Schoolnet Overview

What is Schoolnet?

Schoolnet is an online platform that combines assessments, reporting, and instructional management tools. This platform will be used to administer the optional end-of-year (EOY) assessments.

What is the Schoolnet URL?

<https://tx.schoolnet.com>

When will Schoolnet be available for EOY assessments?

Schoolnet will be available for testing during the EOY assessment window scheduled from May 11 through June 12, 2020.

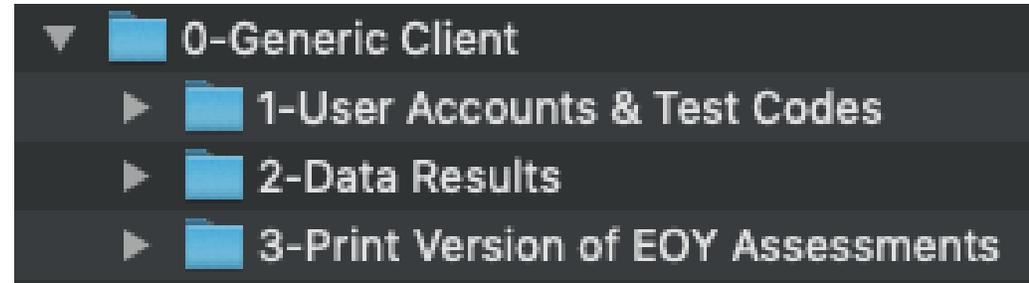

District Access to Schoolnet

- How and when will districts receive access to Schoolnet?
 - A district must register for EOY assessments by submitting
 - the webform and
 - its registration data files to Pearson
 - Within 72 hours after a district has registered, the district contact will receive an email with a link to their district folder in Dropbox.

District Access to Schoolnet, cont.

- The district folder in Dropbox will contain three subfolders:

- *User Accounts & Test Codes*
- *Data Results*
- *PDF Print Version of the Tests*

- Within the *User Accounts & Test Codes* subfolder, there will be one or two files depending on when the district submitted its registration files.
 - If there is only one folder, it will contain usernames, passwords, and test codes for all students registered.
 - If there are two folders, one will contain usernames and passwords for all students registered; the other will contain test codes.

EOY Assessment Registration Process

Step 1

Districts notify Pearson of choice to participate by submitting the Spring 2020 Optional End-of-Year (EOY) Assessment Registration [webform](#).

Step 2

Districts provide a student registration file as an attachment in a Support Request in the PearsonAccess^{next} Training site.

Step 3

Student data will be uploaded into the Schoolnet platform within 72 hours of submission of registration file.

Step 4

An Excel extract of student testing credentials will be provided for districts to distribute to each student.

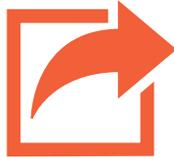

Schoolnet Access for Students in a Non-Participating District

Step 1

Parent registers student by submitting the parent registration form.

Step 2

Parent receives student testing credentials via email.

Step 3

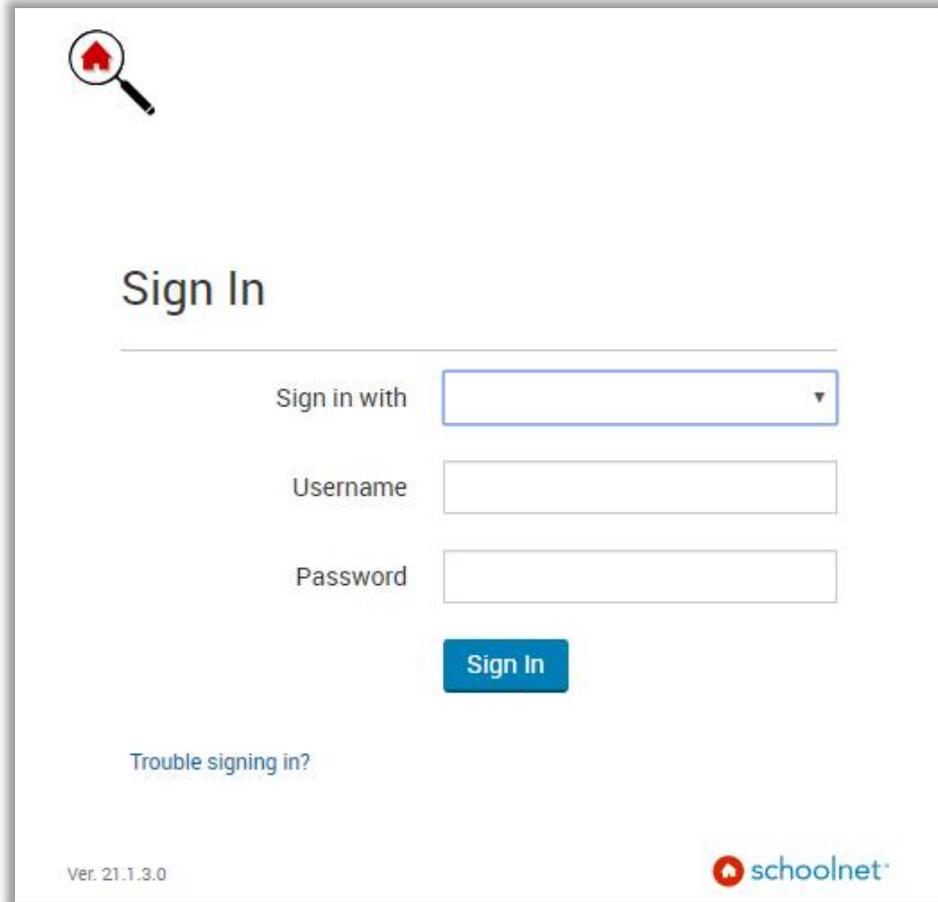

Student will log in to the Schoolnet website and enter the username and password provided.

Step 4

Student will enter the test passcode to begin testing.

Student Access to Schoolnet

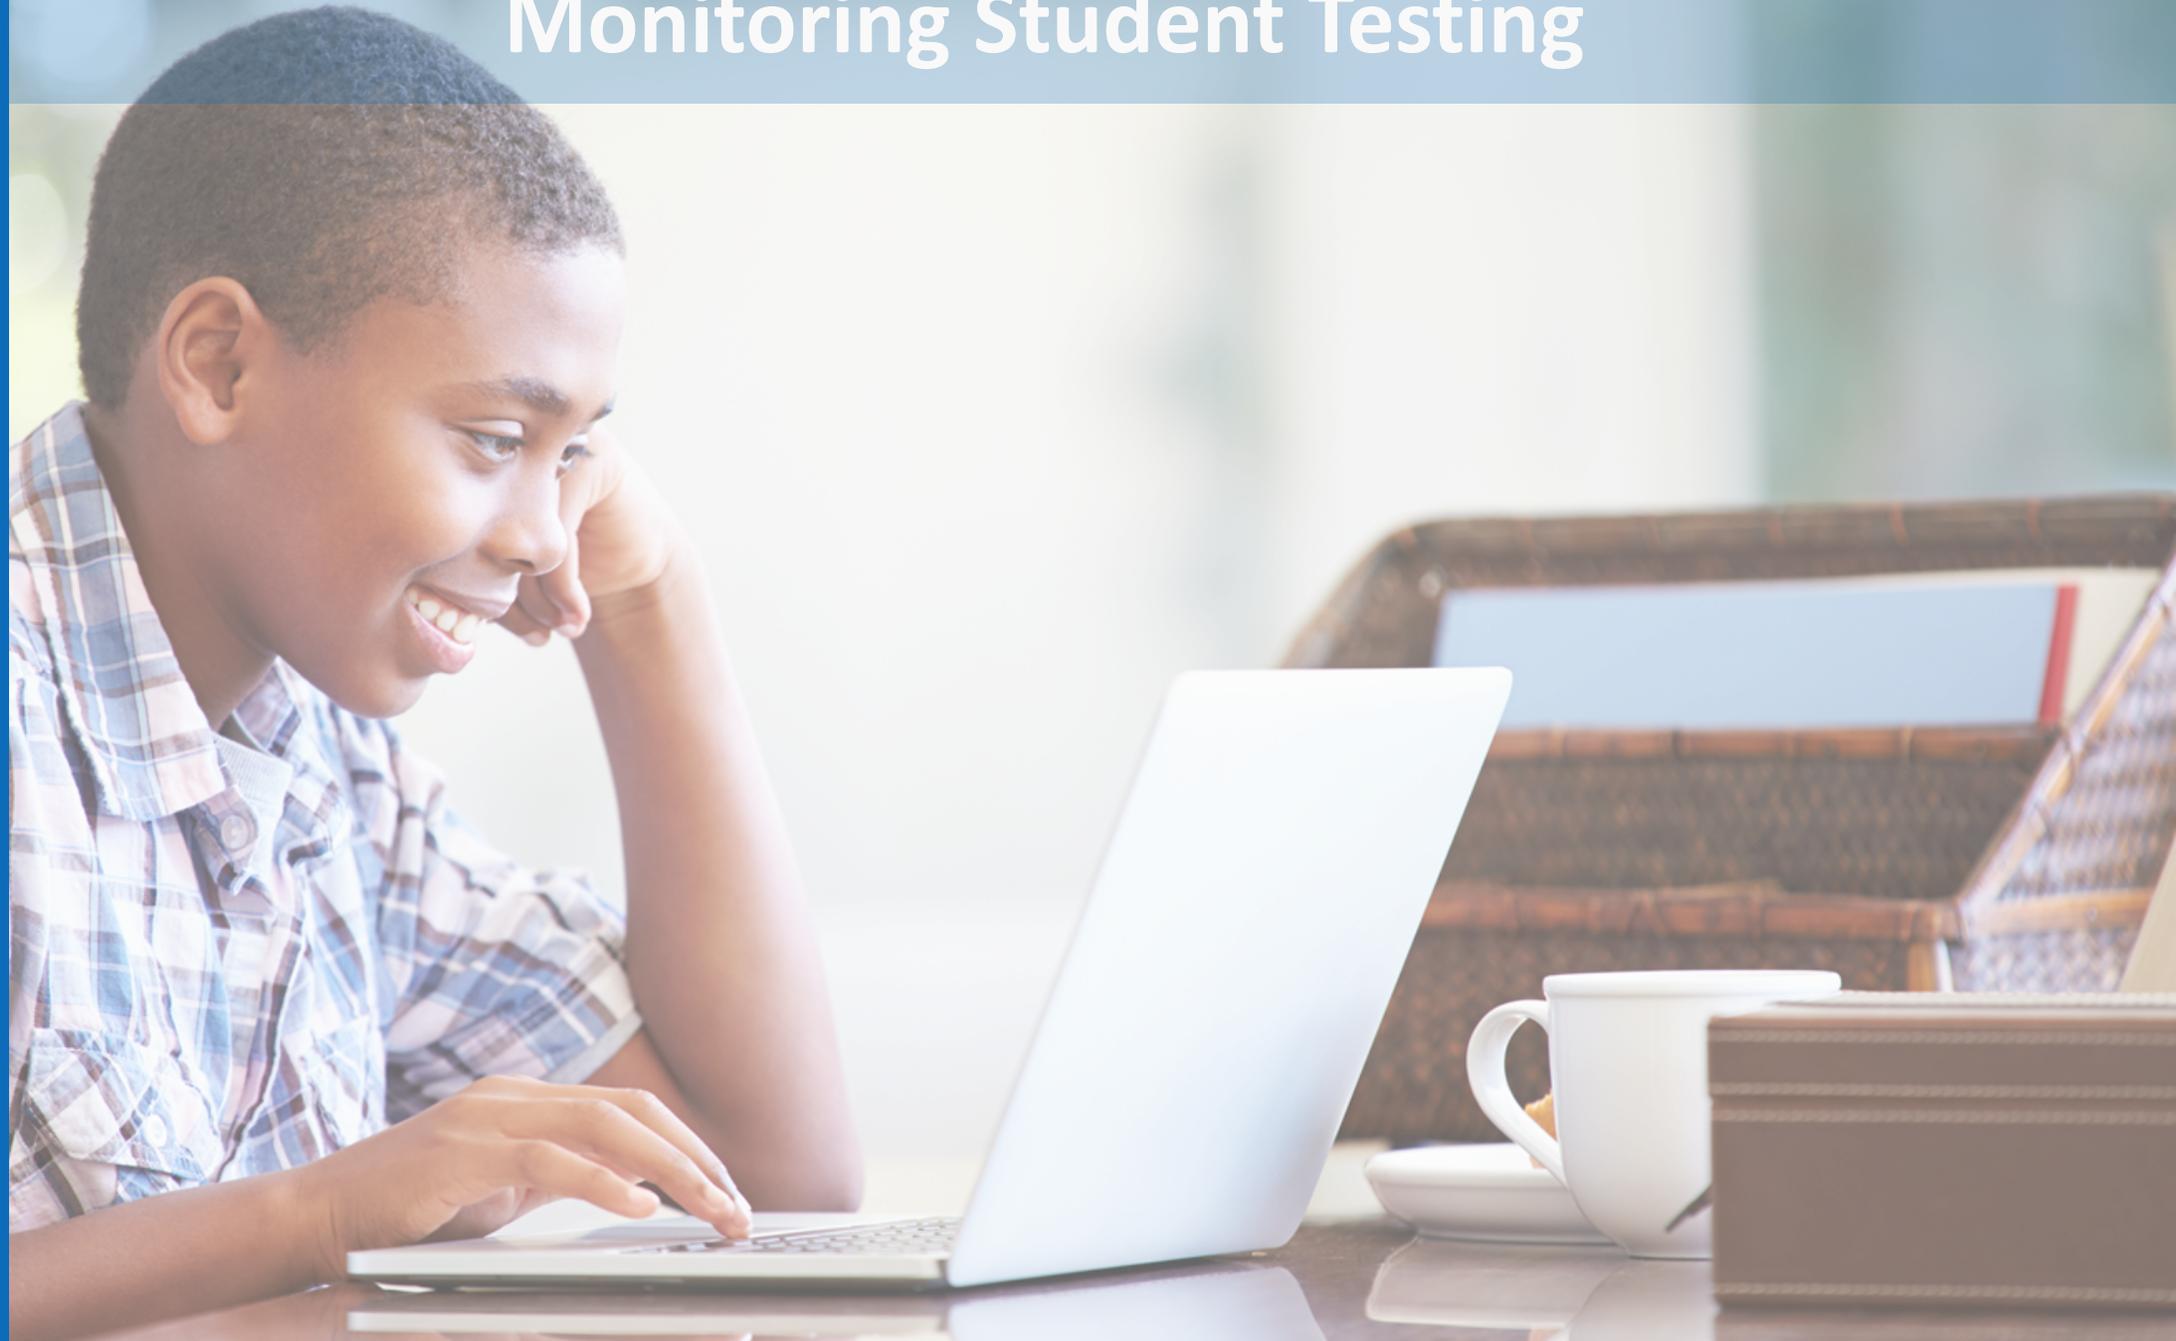

The screenshot shows the 'Sign In' page for Schoolnet. At the top left, there is a magnifying glass icon over a red house icon. Below this, the text 'Sign In' is displayed. The form consists of three input fields: 'Sign in with' (a dropdown menu), 'Username', and 'Password'. A blue 'Sign In' button is positioned below the 'Password' field. At the bottom left, there is a link that says 'Trouble signing in?'. At the bottom right, there is a logo for 'schoolnet' with a red house icon to its left. In the bottom left corner of the page, the version number 'Ver. 21.1.3.0' is visible.

- If a student is testing under the district registration, the student should select the district name in the *Sign in with* box.
- If a student is testing under the parent registration, the student should select “Parent” in the *Sign in with* box.

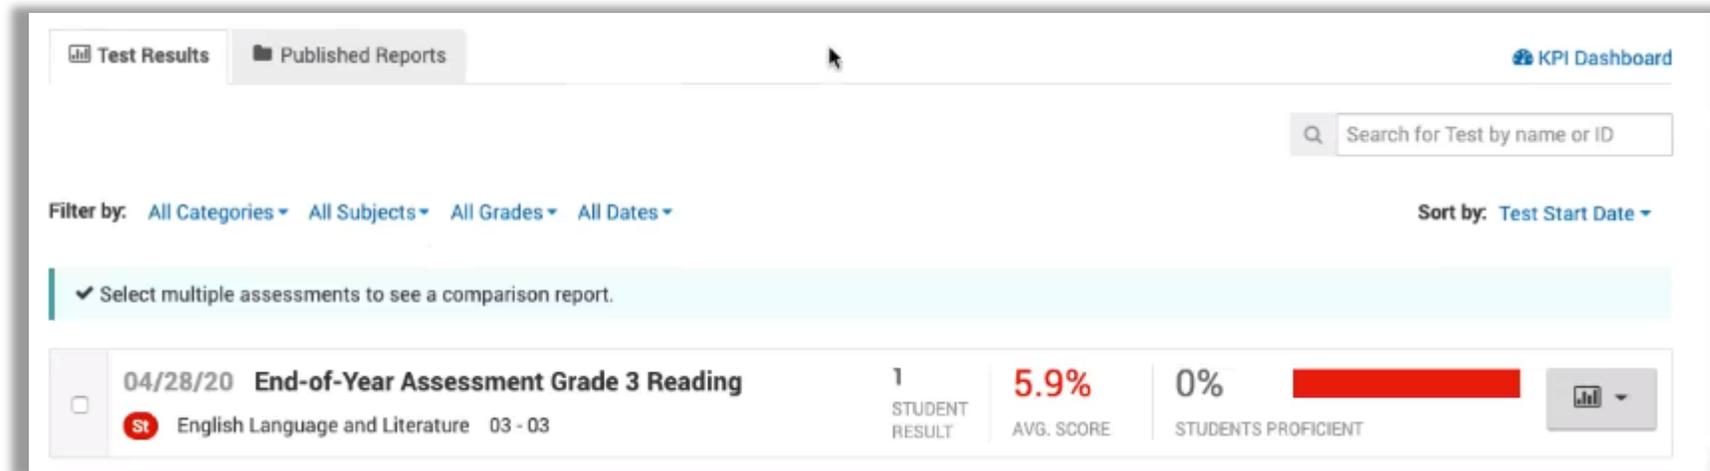

Monitoring Student Testing

How Can I See If Students Are Testing?

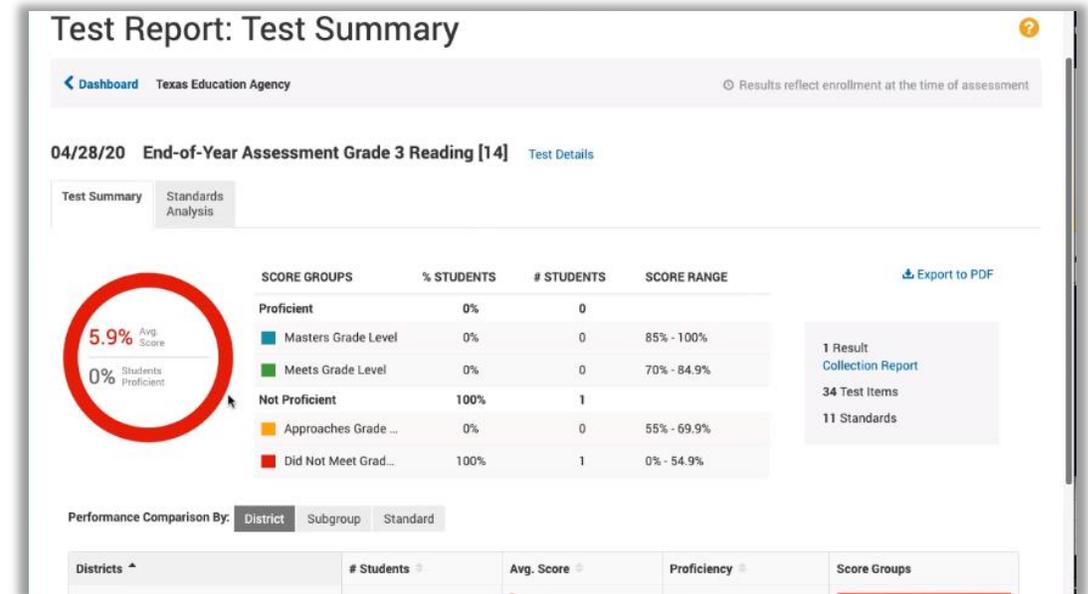

- To see if students are testing, go to the *Reporting* menu.
 - In the *Reporting* menu, select *Reporting Dashboard*.
 - Once students start to test, the test results will display in the Reporting Dashboard.

What Information Is Available in the Reporting Dashboard?

- From the test listed in the Reporting Dashboard, districts can access:

- test completion rates,
- a list of students who were assigned a test but do not have submitted results, and
- results by students.

What Is the Data Collection Report?

- The Data Collection report shows the collection status of ‘in progress’ and ‘completed’ tests administered during the test window.
- To run the report, follow these steps:
 - 1) In the *Reporting* menu, select *Report Dashboard*.
 - 2) In the *Test Results* tab, locate the assessment, using available filters if needed.
 - 3) Click the test title to access the Test Summary page.
 - 4) On the Test Summary, click *Collection Report*.

What Information Is in the Data Collection Report?

For each group of students, the report shows:

- number eligible for testing (assigned to this test),
- number of results collected so far,
- percent of the assigned total that has been collected,
- how many have been completed, and
- test collection status.

Location ^	# Eligible for Testing ◆	# Data Collected ◆	% Data Collected ◆	Completed Online	Collection Status ◆
DELOSSANTOS SCHOOL	2,089	1	1%	1	In progress

What About Students Who Have Not Tested?

- To view a list of students who were assigned to take a test but who do not have results submitted in Schoolnet, click *Uncollected Students Only*.
