Introduction

This introduction includes the necessary background information to be used in teaching the *Nursery Rhymes and Fables* domain. The Teacher Guide for *Nursery Rhymes and Fables* contains twelve daily lessons. The first nine are composed of two distinct parts, so that the lesson may be divided into smaller chunks of time and presented at different intervals during the day. Each lesson will require a total of 60 minutes.

This domain includes a Pausing Point following Lesson 6B. At the end of the domain, a Domain Review, a Domain Assessment, and Culminating Activities are included to allow time to review, reinforce, assess, and remediate content knowledge. You should spend no more than sixteen days total on this domain.

INSTRUCTIONAL MATERIALS

Along with this Teacher Guide, you will need:

- Flip Book for *Nursery Rhymes and Fables*
- Image Cards for *Nursery Rhymes and Fables*
- Activity Book for *Nursery Rhymes and Fables*
- Digital Components

Additional resources that you may wish to integrate into your classroom instruction are:

- Trade Book Guide for *A Thai Lullaby* by Mingfong Ho
- Read-Aloud Videos for *Nursery Rhymes and Fables*
- User Guide: You may wish to consult the program's User Guide throughout this unit and others for best practices and strategies on **Supporting All Learners**, including English Language Learners, Gifted/Talented Students, Dual Language Students, and Students with Disabilities.

All instructional materials can also be found on the program's digital components site.

WHY NURSERY RHYMES AND FABLES ARE IMPORTANT

This domain will introduce students to nursery rhymes and fables that have been favorites with children for generations. Students will learn about classic rhymes like "Twinkle, Twinkle, Little Star,"

“Jack and Jill,” and “Hickory, Dickory, Dock,” and characters, such as Humpty Dumpty and Little Miss Muffet. Traditional rhymes help students learn vocabulary and build phonemic awareness. By listening carefully to nursery rhymes and reciting them by heart, students develop an awareness of language that will help them become better readers and writers. Because nursery rhymes are fun and involve everyday activities, kindergarten students can relate to them.

In the last three read-alouds of the Teacher Guide, students will also listen to some well-known fables. Listening to fables will help students identify the elements of this genre, learn new vocabulary words, and recognize different types of fiction. Reading fables to kindergarten students may also stimulate classroom discussions of values, ethics, and behavior.

The nursery rhymes and fables that students will be listening to and discussing in this unit also provide opportunities for students to build content knowledge and draw connections to the social studies subject area, though they do not explicitly teach the Texas Essential Knowledge and Skills standards for Social Studies. At times throughout the unit, you may wish to build on class discussions to support students in making cross-curricular connections to the strand of Culture from the social studies discipline.

CORE VOCABULARY FOR NURSERY RHYMES AND FABLES

The following list contains all of the core vocabulary words in *Nursery Rhymes and Fables* in the forms in which they appear in the read-alouds or, in some instances, in the “Introducing the Read-Aloud” section at the beginning of the lesson. The inclusion of the words on this list does not mean that students are immediately expected to be able to use all of these words on their own. However, through repeated exposure throughout the lessons, they should acquire a good understanding of most of these words and begin to use some of them in conversation. Boldfaced words in the list have an associated Word Work activity.

Lesson 1 ashes ring sweet violets	Lesson 5 buckle market roast beef	Lesson 9 great lane together wool
Lesson 2 away pouring snoring	Lesson 6 diamond twinkle wish wonder	Lesson 10 disturbed favor gnawing grateful

Lesson 3 candlestick nimble plum	Lesson 7 stockings struck	Lesson 11 feast greedy reflection stream
Lesson 4 beside fetch frightened pail tumbling	Lesson 8 haystack meadow sheep under wagging	Lesson 12 boasting darted steadily

WRITING

In this domain, students will focus on the literary genre through the retelling of nursery rhymes and fables. They will identify literary elements, including characters, main events, and moral lessons. They will practice sequencing events from the beginning, middle, and end of fables. They will compare and contrast characters from different nursery rhymes and fables to identify similarities and differences between them.

The following activities may be added to students' writing portfolios to showcase student writing within and across domains:

- Sequencing Events (Lessons 10, 11)
- Drawing Characters and/or Main Events (Lessons 2, 4, 5, 9, 10)
- Any additional writing completed during the Pausing Point, Domain Review, or Culminating Activities

Introducing the Read-Aloud

- Gather different collections of nursery rhymes, such as *Mother Goose*, to pass around the class. The school or local library may be a good resource.

Universal Access

- You may wish to have each student bring in a book of nursery rhymes, including storybooks in their home language, and display their favorite books in the classroom throughout this domain.
- If students do not own a copy of nursery rhymes, help them locate a copy from the school or local library, or have extra books on hand for the students to use. Each day, you may wish to have one or two students recite their favorite nursery rhyme so that, by the end of this domain, every student will have shared a nursery rhyme with the class.

Introducing the Read-Aloud

Speaking and Listening: Students will demonstrate knowledge of distinguishing characteristics of well-known children's literature such as nursery rhymes.

TEKS K.8.A; TEKS K.8.B

Students will share information and ideas clearly.

TEKS K.1.C

DOMAIN INTRODUCTION (5 MIN.)

TEKS K.8.A; TEKS K.8.B

- Tell students that for the next few weeks, they are going to listen to many nursery rhymes.
- Explain that nursery rhymes are short poems written for young children and have been around for hundreds of years. Students' parents and grandparents probably heard these same rhymes as young children. Some of the nursery rhymes may already be familiar to students, as well.
- Have students say the words *nursery rhymes*. Explain that these poems are called "nursery rhymes" because *nursery* is another name for a young child's bedroom. Many children probably listened to nursery rhymes being read aloud to them while in their nurseries, perhaps before going to sleep.
- Tell students they may also hear these nursery rhymes called "Mother Goose" rhymes. Tell students that people have different opinions about whether or not Mother Goose was a real person who actually wrote these rhymes. However, this name has been associated with nursery rhymes for many years.
- Explain that words that have different beginning sounds but end with the same sounds are said to rhyme. For example, cat/hat, big/pig, coat/goat, bake/take. As students hear the nursery rhymes in this domain, they will get a lot of practice listening for words that rhyme.

TEKS K.8.A Demonstrate knowledge of distinguishing characteristics of well-known children's literature such as folktales, fables, fairy tales, and nursery rhymes; **TEKS K.8.B** Discuss rhyme and rhythm in nursery rhymes and a variety of poems; **TEKS K.1.C** Share information and ideas by speaking audibly and clearly using the conventions of language.

Check for Understanding

Thumbs Up/Thumbs Down: Nursery rhymes are short poems that children often listen to at bedtime. (*thumbs up*)

Nursery rhymes have been passed down from parents to children for hundreds of years. (*thumbs up*)

Most nursery rhymes do not use any words that rhyme. (*thumbs down*)

CORE CONNECTIONS (5 MIN.)

TEKS K.1.C

- Tell students that you are going to name a color. Say the word *red*. Ask students what comes to mind when they think of the color red. Have students share their ideas clearly.
- Say the word *blue*. Ask students what comes to mind when they think of the color blue. Have students share their ideas aloud to the class.
- Tell students that you are going to read a nursery rhyme that mentions these two colors.

Intermediate

Provide students with a specific sentence frame (e.g., "The sky is . . ."; "A strawberry is . . .").

Advanced/ Advanced High

Encourage students to use content-related words in complete sentences (e.g., "Watermelon and strawberries are red.").

ELPS 3.G

TEKS K.1.C Share information and ideas by speaking audibly and clearly using the conventions of language.

Lesson 1A: Roses Are Red

Read-Aloud

Speaking and Listening: Students will listen actively and answer questions using descriptive words to recall details of a nursery rhyme.

✚ **TEKS K.1.A**

Students will share information and ideas clearly.

Language: Students will demonstrate an understanding of the Tier 2 word *sweet*.

✚ **TEKS K.6.F**

✚ **PURPOSE FOR LISTENING** **TEKS K.1.A**

- Listen carefully to find out exactly what things are red and what things are blue in the nursery rhyme.

“ROSES ARE RED” (5 MIN.)

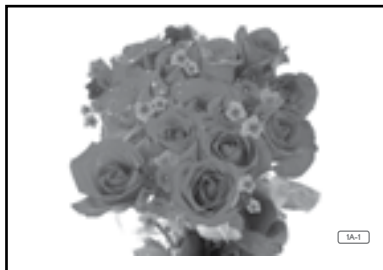

Show image 1A-1: Red roses and blue violets

Roses are red,
Violets are blue,
Sugar is sweet,
And so are you.

READ IT AGAIN

[Reread the rhyme with the Guided Listening Support.]

Show image 1A-1: Red roses and blue violets

Roses are red, *Roses are flowers.*
Violets are blue, *Violets are flowers also.*
Sugar is sweet, *Sweet is how sugar tastes.*
And so are you.

✚ **TEKS K.1.A** Listen actively and ask questions to understand information and answer questions using multi-word responses; **TEKS K.1.C** Share information and ideas by speaking audibly and clearly using the conventions of language; **TEKS K.6.F** Respond using newly acquired vocabulary as appropriate.

ECHO TECHNIQUE

- Teach students the echo technique.
- Say to students, “I am going to say the first line of ‘Roses Are Red.’ Then I will stop and give you a chance to echo the words. That means you will say the exact words that I said. We will continue doing this for each line of the nursery rhyme.”
- Compliment students for doing this correctly, and explain that means they were listening carefully.
- If time permits, you may move to leaving out key words—such as *red* and *blue*—for students to fill in, or you may have half of the class say one line and the other half say the next line. Playful repetition will help students learn the nursery rhyme.
- Reciting nursery rhymes is a fun transition activity that can be used throughout the day.

Check for Understanding

One-Word Answer: What is the red flower in the nursery rhyme called? (*rose*)

What is the blue flower in the nursery rhyme called? (*violet*)

Support

Show image 1A-1 again. Ask students which flowers in the image are roses, and which are violets. Ask students how they know.

COMPREHENSION QUESTIONS (10 MIN.)

TEKS K.1.A

If students have difficulty responding to questions, reread pertinent lines of the nursery rhyme and/or refer to the image. If students give one-word answers and/or fail to use read-aloud or domain vocabulary in their responses, acknowledge correct responses by expanding students' responses using richer and more complex language. Ask students to answer in complete sentences by having them restate the question in their responses.

1. **Literal** What things are red and blue in the nursery rhyme? (*red roses and blue violets*)
2. **Literal** How is sugar described in the nursery rhyme? (*sweet*)

TEKS K.1.A Listen actively and ask questions to understand information and answer questions using multi-word responses.

Speaking and Listening

Exchanging Information and Ideas

Beginning

Ask students yes/no questions about times they were sweet and encourage them to ask their own questions about specific times when they or their partner were sweet.

Intermediate

Encourage students to build on what their partner has said about being sweet.

Advanced/

Advanced High

Challenge students to say something more about what their partner has said about being sweet.

ELPS 3.G

3. **Evaluative** Sweet means containing sugar or tasting like sugar. Sweet can also mean that a person is nice or kind.

When the nursery rhyme says “sugar is sweet,” what kind of sweet does this mean? (*This means that sugar tastes sweet.*)

When the nursery rhyme says “and so are you,” what kind of sweet does this mean? (*This means that you are kind.*)

[*Think Pair Share* activities encourage students' active involvement in class discussions by having them think through their answers to questions, rehearse their responses silently and through discussion with a peer, and share their responses aloud with the class. It is recommended that you model the *Think Pair Share* process with another adult (or a student with strong language skills) the first time you use it, and continue to scaffold students to use the process successfully throughout the year.

In *Think Pair Share* activities, you will begin by asking students to listen to the question you pose. You will then allow students some time to think about the question and their response to it. Next, you will prompt students to discuss their responses in pairs. Finally, you will select several students to share their responses with the class. Directions to students are as follows.]

“I am going to ask you a question. I will give you a minute to think about the question, and then I will ask you to turn to your neighbor and discuss the question. Finally, I will call on several of you to share what you discussed with your partner.” Tell students to be sure to speak clearly when they share. **TEKS K.1.C**

4. **Evaluative** *Think Pair Share*: Ask students to turn to a partner and talk about times when they have been sweet, or when someone has been sweet to them. Try to find opportunities during the day to compliment students for being sweet.

Check for Understanding

Sit Down/Stand Up: Roses and violets are colorful. (*stand up*)

Roses smell like perfume. (*stand up*)

Sugar tastes sour. (*sit down*)

TEKS K.1.C Share information and ideas by speaking audibly and clearly using the conventions of language.

WORD WORK: SWEET (5 MIN.)

1. In the nursery rhyme you heard, "Sugar is sweet."
2. Say the word *sweet* with me.
3. *Sweet* means containing sugar or tasting like sugar.
4. Many candies are very sweet.
5. Tell me about something that you think tastes sweet. Try to use the word *sweet* when you tell me about it. [Ask two or three students. If necessary, guide and/or rephrase the students' responses: "I think _____ tastes sweet."]
6. What's the word we've been talking about?

Use a Making Choices activity for follow-up. Designate one area of the room as the "sweet" area. Designate another as the "not sweet" area. Have students stand in a third area. Directions: *I am going to name a food. If I name something that you think is sweet, quietly and carefully walk to the "sweet" area. If I name something that you do not think is sweet, quietly and carefully walk to the "not sweet" area. If you cannot decide, move back to the starting place.* [After students have moved to show their choice, have them also verbalize it. For example, the group will say, "Sugar is sweet." Ask students to move back to the starting place before reading the next word.]

- sugar (*Sugar is sweet.*)
- pepper (*Pepper is not sweet.*)
- raisins (*Raisins are sweet.*)
- chocolate cake (*Chocolate cake is sweet.*)
- broccoli (*Broccoli is not sweet.*)
- a piece of toast (*A piece of toast is not sweet.*)
- mustard (*Mustard is not sweet.*)
- apple (*An apple is sweet.*)

Students may have different opinions. If so, you may ask them to explain their opinions.

- Compliment students for doing this correctly, and explain that means that they were listening carefully.

Check for Understanding **TEKS K.9.D**

Sit Down/Stand Up: Rhyming words like “rosie” and “posie” make the nursery rhyme fun to sing or say. Tell students that words help us to visualize, or picture, what the rhyme is about. (*stand up*)

Actions like joining hands and falling down help us remember the rhyme. (*stand up*)

This rhyme uses colors to help us imagine what the flowers look like. (*sit down*)

COMPREHENSION QUESTIONS (5 MIN.)

If students have difficulty responding to questions, reread pertinent lines of the nursery rhyme and/or refer to specific images. If students give one-word answers and/or fail to use read-aloud or domain vocabulary in their responses, acknowledge correct responses by expanding the students’ responses using richer and more complex language. Ask students to answer in complete sentences by having them restate the question in their responses.

1. **Literal** What does the nursery rhyme describe the children as doing? (*falling down*)
2. **Inferential** What are posies? (*a small bunch of flowers*)
3. **Literal** Where does the nursery rhyme say the posies are? (*in the pockets*)
4. **Evaluative** What do “Roses Are Red” and “Ring Around the Rosie” have in common? (*Answers may vary, but both are about flowers. The second rhyme is different because it has actions and a tune.*)

TEKS K.9.D Discuss with adult assistance how the author uses words that help the reader visualize.

There is not a main character in this nursery rhyme. (*thumbs down*)

COMPREHENSION QUESTIONS (5 MIN.)

If students have difficulty responding to questions, reread pertinent lines of the nursery rhyme and/or refer to the image. If students give one-word answers and/or fail to use read-aloud or domain vocabulary in their responses, acknowledge correct responses by expanding upon the students' responses using richer and more complex language. Ask students to answer in complete sentences by having them restate the question in their responses.

1. **Literal** Who is the main character in this nursery rhyme? (*Jack*)
2. **Inferential** Why does Jack need to be quick? (*Jumping is a quick action; if the candle were lit, he wouldn't want to get burned.*)
3. **Inferential** What is the main event, or main thing that happens, in this nursery rhyme? (*Jack jumping over the candlestick*)
4. **Evaluative** Why do you think Jack jumps over the candlestick? (*It's fun to jump over things; he wants to prove he can; candle jumping was a traditional game that was thought to bring good luck.*)

Intermediate

Provide students with a specific sentence frame (e.g., "I was nimble when I...").

Advanced/

Advanced High

Encourage students to use key details in complete sentences (e.g., "I was nimble when I jumped out of the way to avoid stepping on my cat.").

ELPS 1.A; ELPS 3.G

WORD WORK: NIMBLE (5 MIN.)

1. In the nursery rhyme you heard, "Jack be nimble."
2. Say the word *nimble* with me.
3. *Nimble* means able to move quickly and easily.
4. As the dancer jumped and twirled, we were amazed by how nimble she was.
5. Tell about a time when you or someone you know was nimble. Try to use the word *nimble* when you tell about it. [Ask two or three students. If necessary, guide and/or rephrase the students' responses: "I think _____ was nimble when _____."]
6. What's the word we've been talking about?

Use a Making Choices activity for follow-up. I am going to read a sentence. If I describe someone or something that is nimble, then say nimble. If I describe someone or something that is not nimble, then say not nimble.

- A soccer player takes the ball down field, weaving around players before scoring a goal. (*nimble*)
- My little brother is learning to walk and falls down often. (*not nimble*)
- An elephant plods through the brush looking for food. (*not nimble*)

ON STAGE

- Tell students that they are going to dramatize, or act out, this nursery rhyme.
- Choose a volunteer to act out the nursery rhyme by jumping over a small, safe, classroom object. The best objects are objects that rhyme with *quick* and have a similar syllable count, e.g., “little stick,” “hockey stick,” “big red brick,” “a toothpick.”
- As the student jumps over the object, the rest of the class may recite the nursery rhyme, inserting the student’s name in place of Jack’s name and the classroom object in place of the candlestick. For example, “Madison be nimble, Madison be quick, Madison jump over the hockey stick.”
- Congratulate students, being sure to use the word *nimble*: “That was a very nimble jump!”

Check for Understanding

Recall: Ask students to demonstrate an action to show what *nimble* means.

WORD WORK: WONDER (5 MIN.)

1. In the nursery rhyme you heard, “How I wonder what you are.”
2. Say the word *wonder* with me.
3. To wonder means to think about something you are curious about that you don’t really know or understand.

6. What’s the word we’ve been talking about?

Use a Making Choices activity for follow-up. I am going to name some situations. If I name something that you don’t know about, say, “I wonder about that.” If I name something that you already know about, say, “I know that.” (*Answers may vary.*)

- what it’s like to live on a farm

Pausing Point

NOTE TO TEACHER

- You should pause here and spend one day reviewing, reinforcing, or extending the material taught thus far.
- You may have students do any combination of the activities listed below. You may also choose to do an activity with the whole class or with a small group of students who would benefit from that particular activity.

ASSESSMENT

Nursery Rhyme Recitation (Activity Page 2.1)

- If you have not already done so, find an opportunity to assess each student's ability to recite a nursery rhyme that has been taught. Use Activity Page 2.1 to record this assessment.

ACTIVITIES

Poster Review

Materials: Nursery Rhymes and Fables Posters

- Show the poster for any nursery rhyme again, and have students talk about the characters or events in the nursery rhyme. You may also wish to have students recite the nursery rhyme.
- Show two posters and have students compare and contrast two nursery rhymes to discuss similarities and differences.

Key Vocabulary Brainstorming

Materials: Chart paper, chalkboard, or whiteboard

- Give students a key domain concept or vocabulary word or words such as *spiders* or *stars*. Have students brainstorm everything that comes to mind when they hear the words, such as Little Miss Muffet, cottage cheese, sky etc. Record their responses on chart paper, a chalkboard, or a whiteboard for reference.

Riddles for Core Content

Ask students riddles such as the following to review core content:

- I jumped over a candlestick. Who am I? (*Jack*)
- I was scared off my tuffet by a spider. Who am I? (*Little Miss Muffet*)

Activity Page 2.1

- I am told to go away and come again another day. What am I? (*the rain*)
- We went up a hill to fetch some water. Who are we? (*Jack and Jill*)
- Children make wishes on me. What am I? (*a star*)

Class Book: Nursery Rhymes

Materials: Paper, drawing tools

- Have students talk about their favorite nursery rhymes. Ask each student to draw a picture of their favorite nursery rhyme. Give students the opportunity to share their drawings with a partner or the class.
- You may choose to bind the pages to make a book to put in the class library for students to view again and again. You may also choose to add more pages upon completion of the entire domain before binding the book.

Domain-Related Trade Book or Student Choice

Materials: Trade book

- Choose a trade book to read-aloud to the class. As you read, use the same strategies that you have been using when reading the read-aloud selections in this Teacher Guide—pause and ask occasional questions, rapidly clarify critical vocabulary within the context of the read-aloud, etc.
- After you finish, lead students in a discussion as to how the story or information in this book relates to the read-alouds in this domain. Explain to students that the person who wrote the book is called the author. Tell students the name of the author of the book. Explain to students that the person who makes the pictures for the book is called an illustrator. Tell students the name of the illustrator. Show students where you can find this information on the cover of the book or on the title page.

Student Choice

- Ask students which read-aloud they have heard recently that they would like to hear again. If necessary, reread the titles or show illustrations from previous read-alouds to help students make their choice. You may also want to choose one yourself.
- Reread the text that is selected. Feel free to pause at different places in the read-aloud this time and talk about vocabulary and information that you did not discuss previously during the read-aloud. After the read-aloud, ask students if they noticed anything new or different during the second reading that they did not notice during the first reading. Also, ask them to try to express why they like this read-aloud. Remember to repeat and expand upon each response using richer and more complex language, including, if possible, any read-aloud vocabulary.

On Stage

- Have students act out the various nursery rhymes as they are being recited. See “Ring Around the Rosie,” “Jack Be Nimble,” “Little Jack Horner,” “This Little Pig Went to Market,” and “One, Two, Buckle My Shoe” for examples.

Nursery Rhyme Puppets

Materials: Puppet-making supplies

- Have students make simple puppets of the characters from select nursery rhymes and then use them while reciting the rhymes.

Original Nursery Rhymes

Materials: Chart paper, chalkboard, or whiteboard

- Work together as a class to create an original nursery rhyme. Create a template on chart paper, a chalkboard, or a whiteboard using a nursery rhyme such as “This Little Pig Went to Market.”
 - This little _____ went to _____,
 - This little _____ stayed _____;
 - This little _____ had _____,
 - This little _____ had _____,
 - And this little _____ cried, _____.

Have students brainstorm ideas for the nursery rhyme. Then, read the new completed rhyme to the class.

Objects from Nursery Rhymes

Materials: A bag or box of objects that relate to the various nursery rhymes, such as silk roses or violets, a sugar packet, a candlestick, a plastic spider, etc.

- Have students select an object and then either talk about how it relates to the nursery rhyme or recite the nursery rhyme.

Reading: Students will demonstrate knowledge of distinguishing characteristics of well-known children's literature such as fables and nursery rhymes.

TEKS K.8.A

ESSENTIAL BACKGROUND INFORMATION OR TERMS (10 MIN.)

TEKS K.8.A

- Remind students that they have been hearing many nursery rhymes over the past several days. Ask them to describe some things that most nursery rhymes have in common. (*they are short; they have rhyming words; characters are often animals; etc.*)
- Tell students they are going to listen to a different type of story called a fable. Have them say the word *fable* out loud.
- Explain that, like many nursery rhymes, fables are fun to listen to and have been around for hundreds or thousands of years. However, fables are also very different from nursery rhymes. Sometimes nursery rhymes are just fun to say, though they don't have much of a story.
- Fables always have a story and a lesson to be learned, which is called a moral. Have students say the word *moral* out loud.
- Tell them that the characters in fables are often, but not always, animals. Often these animal characters have a problem, and as they go about trying to fix their problem, they learn an important lesson.

PURPOSE FOR LISTENING

- Tell students to listen carefully to identify the main characters in this fable.

“THE LION AND THE MOUSE” (15 MIN.)

Show image 10A-1: Mouse scurrying on sleeping lion

One day a little mouse was scampering along when he came upon a great sleeping lion. At first, the mouse did not know it was a lion. He ran up the lion's tail and jogged along the lion's back. When he realized he was climbing on a lion, the mouse turned to run away. But by that time, it was too late. The lion had woken up.

Show image 10A-2: Mouse in lion's paw

The lion was very angry at being **disturbed**. *Disturbed means bothered.* He gave a ferocious roar and scooped the mouse up with his big paw.

“How dare you wake me up!” bellowed the lion. “Don't you know I am the king of beasts?”
What do you think will happen next?

The lion was just about to swallow the mouse when the tiny animal cried out, “Please, your majesty! I didn't mean to disturb you. If you will let me go, I will

✦ **TEKS K.7.B** Identify and describe the main character(s); **TEKS K.6.F** Respond using newly acquired vocabulary as appropriate.

be **grateful** to you forever. Grateful means thankful. And if I can, I will do you a **favor** someday." Doing a favor is doing something nice for someone.

The lion laughed a big laugh. He could not imagine any way in which a tiny mouse could help a big, strong lion like himself. But since the very thought of a mouse helping a lion had made him laugh and had put him in a better mood, he decided to let the mouse go.

Show image 10A-3: Lion in net

Not long after, the mouse was running along in the jungle when he heard a terrible roaring nearby. He went closer to see what the trouble was, and there he saw the lion. The lion was caught in a hunter's net and could not get out.

The mouse remembered his promise to the lion, and he began **gnawing** the ropes of the net with his sharp little teeth. Gnawing means chewing. He kept gnawing until he had made a hole in the net big enough for the lion to get free.

Show image 10A-4: Lion is free

"You laughed when I said I would repay you for letting me go," said the mouse. "But now you see that even a little mouse can help a lion."

So, the moral of the story is: "Little friends may be great friends."

“THE DOG AND HIS REFLECTION” (15 MIN.)

Show image 11A-1: Dog carrying bone

Once upon a time, a big dog was trotting through the streets, feeling very fine because the butcher had just given him a juicy bone. The dog held his head high and his tail very stiff, and he looked neither to the right nor the left. All the little town-dogs ran behind him, barking and saying:

“Please, please. Let us smell your bone.” But the big dog hurried on and would have nothing to do with the hungry, little town-dogs.

The big dog would not think of sitting down to enjoy his bone. If he did that, some of his friends might come along, and then he would have to share his **feast** with them. *A feast is a big meal.* The big dog did not want to share.

“I will bury my bone,” said the dog. “I will bury it a long way from here, where none of the other dogs can find it, and then someday I will dig it up and eat it.”

TEKS K.7.A Discuss topics and determine the basic theme using text evidence with adult assistance; **TEKS K.6.F** Respond using newly acquired vocabulary as appropriate.

Show image 11A-2: Dog approaching bridge

So the big dog hurried on until he left the town behind him. Soon he came to a clear, fast-running **stream** with a bridge across it.

A stream is a small river.

“On the other side of this stream will be a good place to bury my bone,” said the big dog.

He started across the bridge with the bone clutched tightly in his teeth.

Show image 11A-3: Dog seeing reflection

No sooner did he set foot on the bridge than he looked down and saw, running along on the top of the water, another big dog with another bone in his mouth!

The big dog stopped running, and the dog in the water stopped, too.

The big dog started walking again, and the dog in the water started, too.

The big dog put on a fierce look and turned his head to face the dog in the water.

The dog in the water turned to face him in precisely *or exactly* the same way, and with a look every bit as fierce.

“This will never do,” said the big dog. “I am going to take his bone away from him.” *What do you think is happening? Are there really two dogs, one on top of the bridge and one in the water?*

Show image 11A-4: Bone splashing in the water

So the big dog opened his mouth wide to take the other dog's bone. But there was no dog in the water at all. What the big dog had seen was only his own **reflection**. When he opened his mouth, his bone went splash in the stream and the current carried it away forever.

So, the moral of the story is: "If you are **greedy**, you may lose everything."
Greedy means wanting more than you need.

“THE HARE AND THE TORTOISE” (15 MIN.)

Show image 12A-3: Hare boasting to tortoise

There once was a hare [Point to the hare.] who was always **boasting** or bragging about how fast he was. He never got tired of telling the other animals how fast he was—and how slow they were. The hare was especially boastful when talking to the tortoise.

“What a slow fellow you are!” he said to the tortoise. [Point to the tortoise.] one day. “I really feel sorry for you, having to creep along like that. Creep, creep, creep! Creep means to move slowly and close to the ground. It must take you all afternoon just to cross the field!”

The tortoise was not amused.

“You may be fast,” said the tortoise. “But I’ll bet I could beat you in a race.”

The tortoise replied, “Well then, let’s try. Suppose we race to the foot of the mountain.”

“Sure thing!” said the hare.

Show image 12A-4: Beginning of race

The other animals gathered around to watch the race.

“Ready!” said the squirrel.

“Set!” said the mouse.

“Go!” said the raccoon.

The hare **darted** off quickly. *Darted means moved suddenly.* and ran so far ahead that he was almost out of sight. The tortoise set off too, moving slowly but **steadily**, *or at the same speed.*

Show image 12A-5: Hare looking back at tortoise

After he had gone about halfway to the mountainside, the hare looked back. He saw that the tortoise was far behind; so far behind it seemed as if he could never catch up.

“This is not much of a race,” sniffed the hare.

Since it seemed to him that the race was already won, the hare decided to stop and take a little *break, or a rest.* He nibbled some carrots and some lettuce. He chatted with some friends.

All this while, the tortoise kept moving—slowly but steadily.

Show image 12A-6: Hare in pumpkin patch

The hare looked back again and saw that he was still way out ahead, so he lay down in a pumpkin patch, closed his eyes, and pretended he was sleeping. He didn’t really mean to go to sleep. He just wanted to show the tortoise that he could take a little nap and still win the race. But it was a warm day, and it wasn’t long

before the hare began to feel sleepy.

Support

Break can also mean to damage something or split into pieces.

Eventually he nodded off and began to snore. *What do you think is going to happen?*

Show image 12A-7: Tortoise winning race

While the hare was napping, the tortoise kept moving—slowly but steadily. *He wasn't fast, but he kept going, nice and steady.* After 15 minutes he crawled past the sleeping hare. After another 15 minutes he was within a few feet of the finish line. That was when the hare woke up from his nap. He realized what

had happened and set off running for the mountain as fast as he could. But it was too late. The hare arrived just in time to see the tortoise crossing the finish line before him.

So, the moral of the story is: "Slow and steady wins the race." *Were your predictions correct about who would win the race? Why or why not?*

Check for Understanding

One-Word Answer: Who won the race? (*the tortoise*)

COMPREHENSION QUESTIONS (10 MIN.)

1. **Literal** In this fable, are the characters people or animals? (*animals*)
 - What kinds of animals are they? (*Answers may vary, but may include the hare and tortoise, as well as squirrel, mouse, and raccoon.*)
2. **Literal** Why do the hare and tortoise decide to have a race? (*The hare is boasting about his speed, so the tortoise challenges him to a race.*)
3. **Literal** How is the tortoise able to beat a faster animal, the hare? (*He is steady; he doesn't stop to chat or nap.*)
 - Who wins the race? (*The tortoise wins the race.*)
4. **Literal** What is the moral, or lesson, of this fable? (*Slow and steady wins the race.*)
 - Who is slow and steady in this fable? (*The tortoise is slow and steady.*)
 - What does *slow and steady* mean? (*to keep going at an even pace without taking breaks*)

 **TEKS K.5.C** Make and confirm predictions using text features and structures with adult assistance.

[Please continue to model the *Think Pair Share* process for students, as necessary, and scaffold students in their use of the process.]

I am going to ask a question. I will give you a minute to think about the question, and then I will ask you to turn to your neighbor and discuss the question. Finally, I will call on several of you to share what you discussed with your partner.

5. **Evaluative** Could this story really happen or is it make-believe? How do you know? (*Answers may vary, but may include that this story is make-believe because animals don't talk or have races.*)

WORD WORK: BOASTING (5 MIN.)

1. In the read-aloud you heard, "There once was a hare who was always boasting about how fast he was."
2. Say the word *boasting* with me.
3. When someone is boasting, they are bragging about something.
4. She was boasting about winning the spelling bee.
5. A person may boast about things they have, such as a special toy, or things they have done, such as winning first prize in a contest. Think about some of the characters in the fables we have been reading and what they boasted about. Try to use the word *boasting* when you tell about it. [Ask two or three students. If necessary, guide and/or rephrase the students' responses: "The _____ was boasting because ..."].
6. What's the word we've been talking about?

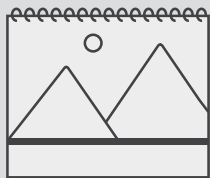

Use a Sharing activity for follow-up. Do you think the hare might still boast about himself after losing the race to the tortoise? Why or why not? Be sure to use the conventions of language and begin your response with "The hare might/might not boast about himself after losing the race to the tortoise because ..."

 **TEKS K.1.C**

Do you think the tortoise will start boasting now that he has beaten the hare? Why or why not? Be sure to begin your response with "The tortoise will/will not start boasting because ..."

MULTIPLE MEANING WORD: BREAK (5 MIN.)

Show Poster 7M: Break

- In the fable you heard, "Since it seemed to him the race was already won, the hare decided to stop and take a little *break*."
- To take a break means to take a rest from something. [Have a student point to the correct picture for this sense of the word.]
- *Break* can also mean other things. *Break* means to split into pieces. [Have a student point to the correct picture for this sense of the word.]
- *Break* also means to damage something, to cause something to become broken so that it cannot be used anymore. [Have a student point to the correct picture for this sense of the word.]
- Now with your partner, make a sentence for each meaning of *break*. Try to use complete sentences. Call on students to share your sentences.

- [Note that there may be variations in the sentences created by your class. As students say something about the picture, repeat what they say. If the sentence produced is ungrammatical, restate the correct form of the sentence. Once there are two ideas, combine them to make one sentence. See examples below.]
- The hare is ready for the race.
The tortoise is ready for the race.
 - *(The hare is ready for the race, and the tortoise is ready for the race.)*
(The hare and tortoise are ready for the race.)
- The hare looks at the tortoise.
The hare thinks that he will win for sure.
 - *(The hare looks at the tortoise and thinks that he will win for sure.)*
- The other animals gathered around.
The other animals watch the race.
 - *(The other animals gathered around and watched the race.)*
(The other animals gathered around to watch the race.)
(The other animals gathered around because they want to watch the race.)

Exit Pass **TEKS K.1.C**

Students will independently answer the following question:
“What is the moral of ‘The Hare and the Tortoise’”? Encourage students to combine ideas and build longer sentences as they just practiced with their partners.

Domain Review

NOTE TO TEACHER

- You should spend one day reviewing and reinforcing the material in this domain. You may have students do any combination of the activities provided in either whole-group or small-group settings.

REVIEW ACTIVITIES

Poster Review

Materials: Nursery Rhyme Poster

- Show the poster for any nursery rhyme again, and have students talk about the character or events of the nursery rhyme. You will also want to have students recite the nursery rhyme.
- As an additional poster activity, show two posters and have the students discuss how the two nursery rhymes are the same and how they are different.

Image Card Review

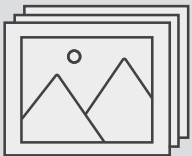

Materials: Image Cards 1–12

- Give Image Cards 1–12 to twelve different students. Have students work together to put themselves into three groups for the three different fables. Then, have each of the three groups work together to sequence the events of their fable. Finally, have each group retell the fable for the class using the image cards.
- You may also choose to work with the image cards for just one fable.

Key Vocabulary Brainstorming

- Give students a key domain concept or vocabulary word such as *fable*. Have them brainstorm everything that comes to mind when they hear the word, such as, animals, moral, etc. Record their responses on chart paper, a chalkboard, or a whiteboard for reference.

Image Cards 1–12

Riddles for Core Content

- Ask students riddles such as the following to review core content:
1. I ran up a clock. Who am I? (*the mouse*)
 2. I went to bed with my stockings and one shoe on! Who am I? (*John*)
 3. I lost my sheep. Who am I? (*Little Bo Peep*)
 4. I fell off a wall! Who am I? (*Humpty Dumpty*)
 5. I lost a race to a tortoise because I stopped and took a break! Who am I? (*the hare*)
 6. I lost my bone because I was greedy. Who am I? (*the big dog*)
 7. I was able to help the lion even though I am very small. Who am I? (*the mouse*)

Teacher Choice

- Reread a particular nursery rhyme or fable in order to review important domain concepts or vocabulary.

Moral/Fable Match

- Tell students that you are going to read them a moral, or lesson. Ask them to identify the fable that matches the moral.
1. Little friends may be great friends. (*“The Lion and the Mouse”*)
 2. If you are greedy, you may lose everything. (*“The Dog and His Reflection”*)
 3. Slow and steady wins the race. (*“The Hare and the Tortoise”*)

Domain Assessment

NOTE TO TEACHER

This domain assessment evaluates each student's retention of domain and academic vocabulary words and the core content targeted in *Nursery Rhymes and Fables*. The results should guide review and remediation the following day.

There are three parts to this assessment. You may choose to do the parts in more than one sitting if you feel this is more appropriate for your students. Part I (vocabulary assessment) is divided into two sections: the first assesses domain-related vocabulary and the second assesses academic vocabulary. Parts II and III of the assessment address the core content targeted in *Nursery Rhymes and Fables*.

PART I (ACTIVITY PAGE DA-1)

TEKS K.6.F; TEKS K.8.A; TEKS K.8.B

I am going to ask a question using a word you have heard in the read-alouds. First I will say the word and then use it in a question. If the answer to the question is yes, circle thumbs up. If the answer to the question is no, circle thumbs down. I will ask each question two times. Let's do number one together.

1. **Rhyme:** When two words end with the same sound, do they rhyme? (*thumbs up*)
2. **Character:** Are the main characters in fables often animals? (*thumbs up*)
3. **Market:** Is a market a place where people go to play soccer and football? (*thumbs down*)
4. **Sweet:** Are lollipops sweet? (*thumbs up*)
5. **Wonder:** Do people wonder about things they are curious about or would like to know more about? (*thumbs up*)
6. **Race:** If you want to take your time and put a puzzle together correctly, should you race through it? (*thumbs down*)
7. **Break:** If children play tag for a long time, do they need a break? (*thumbs up*)
8. **Ring:** Do we hold hands and form a ring to play "Ring Around the Rosie"? (*thumbs up*)

9. **Frightened:** Are people who love to play with dogs frightened when they see dogs? (*thumbs down*)
10. **Boasting:** Was the boy boasting when he forgot to tell others his good news? (*thumbs down*)

PART II (ACTIVITY PAGE DA-2)

TEKS K.5.B; TEKS K.8.B

I am going to read a question about one of the nursery rhymes and fables that you have heard. First, you will listen to the sentence that I read. Next, you will look at the three pictures in the row and find the one that answers the question. Finally, you will circle the correct picture.

1. In “Little Miss Muffet,” what frightens Little Miss Muffet? (*a spider*)
2. In “Jack Be Nimble,” what does Jack jump over? (*a candlestick*)
3. In “Hickory, Dickory, Dock,” what does the mouse run up? (*a clock*)
4. In “Little Bo Peep,” what does Bo Peep lose? (*her sheep*)
5. In “Jack and Jill,” where do Jack and Jill go to fetch water? (*up the hill*)
6. “Ring Around the Rosie” talks about posies. Which one is a picture of posies? (*the second*)
7. Which picture shows what it’s like when someone says, “It’s raining cats and dogs”? (*heavy rain*)
8. Who is the great friend in “The Lion and the Mouse”? (*the mouse*)
9. In “The Dog and His Reflection,” what does the dog lose because he is greedy? (*a bone*)
10. In “The Hare and the Tortoise,” who is slow and steady? (*the tortoise*)

I am going to read a line or two from some of the nursery rhymes that you have heard. Next, I will say two of the words, and ask whether or not they rhyme. If the answer is yes, you will circle thumbs up. If the answer is no, you will circle thumbs down. Let's do number one together.

1. "Jack be nimble/Jack be quick." Do the words *nimble* and *quick* rhyme?
Nimble and *quick* do not rhyme; so, you will circle thumbs down.
2. "Star light, star bright." Do *light* and *bright* rhyme? (*thumbs up*)
3. "Little Bo Peep has lost her sheep." Do *Peep* and *sheep* rhyme? (*thumbs up*)
4. "Roses are red/Violets are blue." Do *red* and *blue* rhyme? (*thumbs down*)
5. "Humpty Dumpty sat on a wall/Humpty Dumpty had a great fall." Do *wall* and *fall* rhyme? (*thumbs up*)
6. "Rain, rain, go away/Come again another day." Do *away* and *day* rhyme?
(*thumbs up*)

Culminating Activities

NOTE TO TEACHER

Please use this final day to address class results of the Domain Assessment. Based on the results of the Domain Assessment, you may wish to use this class time to provide remediation opportunities that target specific areas of weakness for individual students, small groups, or the whole class.

Alternatively, you may also choose to use this class time to extend or enrich students' experience with domain knowledge. A number of enrichment activities are provided below in order to provide students with opportunities to enliven their experiences with domain concepts.

REMEDIATION

You may choose to regroup students according to particular areas of weakness, as indicated from Domain Assessment results.

Remediation opportunities include:

- targeting Review Activities
- revisiting lesson Applications
- rereading and discussing select read-alouds
- reading the corresponding lesson in the ELD Guide, if available

ENRICHMENT

TEKS K.8.C

Retelling a Fable with Puppets

Materials: Puppet-making supplies

- Have students make simple puppets of the characters from a particular fable and then use them to retell the fable.

On Stage

- Reread a nursery rhyme or fable, and have students act it out. "The Hare and the Tortoise" has a lot of dialogue and would be a good choice for this activity.

TEKS K.8.C Discuss main characters in drama.

Challenge

Ask students to orally compare and contrast two versions of the same fable, either as a group or individually.

- Tell students that you will be the narrator and they will be the characters in the story. Explain that the narrator is someone who tells a story and the characters are the people (or in this case, the animals) in the story. Ask them what characters are needed (e.g. the hare, tortoise, squirrel, mouse, and raccoon). Decide who will be the various characters. Have several hares, tortoises, squirrels, mice, and raccoons so that all students get to participate. Remind the various characters what they will need to say, and talk about gestures that they may use. Reread the read-aloud for students to dramatize.

Class Book: Nursery Rhymes

Materials: Paper, drawing tools

- Remind students of the nursery rhymes heard since the first Pausing Point. Have students talk about their favorite nursery rhymes. Have each student draw a picture of his/her favorite. Give students the opportunity to orally share their drawings with a partner or the class.
- You may choose to bind the pages to make a book to put in the class library for students to view again and again.

Domain-Related Trade Book

Materials: Trade book

- Choose a trade book to read-aloud to the class. As you read, use the same strategies that you have been using when reading the read-aloud selections in this Teacher Guide—pause and ask occasional questions; rapidly clarify critical vocabulary within the context of the read-aloud; etc.
- After you finish, lead students in a discussion about how the story or information in this book relates to the read-alouds in this domain. Explain to students that the person who wrote the book is called the author. Tell students the name of the author of the book. Explain to students that the person who makes the pictures for the book is called an illustrator. Tell students the name of the illustrator. Show students where you can find this information on the cover of the book or on the title page.

Student Choice **TEKS K.4; TEKS K.5.A**

- Ask students which read-aloud they have heard recently that they would like to hear again. If necessary, reread the titles or show illustrations from previous read-alouds to help students make their choice. Tell students to set a purpose for choosing the text they chose. You may also want to choose one yourself.

TEKS K.4. self-select text and interact independently with text for increasing periods of time; **TEKS K.5A.** Establish purpose for reading assigned and self-selected texts with adult assistance.

- Reread the text that is selected. Feel free to pause at different places in the read-aloud this time and talk about vocabulary and information that you did not discuss previously during the read-aloud. After the read-aloud, ask students if they noticed anything new or different during the second reading that they did not notice during the first reading. Also, ask them to try to express why they like this read-aloud. Remember to repeat and expand upon each response using richer and more complex language, including, if possible, any read-aloud vocabulary.

Student-Created Books

Materials: Booklet for each student

- Have each student make their own book retelling one of the fables that has been shared. As a class or with a partner, have students brainstorm the sequence of events: beginning, middle, and end. You may also use the images to review. Students will draw a picture on each page to show the beginning, important middle events, and ending of the fable. Emphasize that students' drawings should not look just like those in the Flip Book. Have students share their fables with a partner or the class.

Dear Family Member,

Your child will be reading some popular nursery rhymes at school over the next several days. Listening to nursery rhymes and then saying them will help your child develop an awareness of language that will enable them to become a better reader and writer. Your child will listen to and discuss many nursery rhymes, including:

- “Rain, Rain, Go Away”
- “It’s Raining, It’s Pouring”
- “Jack Be Nimble”
- “Little Jack Horner”
- “Jack and Jill”
- “Little Miss Muffet”
- “This Little Pig Went to Market”
- “One, Two, Buckle My Shoe”

I have included a copy of all of the nursery rhymes your child will hear. Below are some suggestions for activities that you may do at home so your child can continue enjoying the nursery rhymes and practice remembering them.

1. Reciting Nursery Rhymes

Say or sing the nursery rhyme with your child or take turns saying the lines of the rhyme. Think of ways to act out the rhyme or use gestures while saying it.

2. Nursery Rhyme Characters and Events

Talk with your child about the characters and events in the nursery rhymes. Ask questions using the vocabulary of the rhyme such as, “What frightened Miss Muffet?” Also, make personal connections to the rhymes with questions such as, “Do you remember the time that we wanted the rain to go away so we could go to the park?”

3. Illustrating Nursery Rhymes

Have your child draw or paint a picture of one of the nursery rhymes and then tell you about it. Again, ask questions to keep your child talking about the nursery rhyme.

4. Rhyming Words in Nursery Rhymes

Most nursery rhymes have rhyming words. Say a line or two from the nursery rhymes your child has learned about, and ask your child to identify the rhyming words. Next, say the rhyme but leave out the second rhyming word for your child to say. Finally, ask your child if they can think of other words that rhyme with the ones identified in the nursery rhyme.

5. Read Aloud Each Day

It is very important that you read to your child every day. You may want to find books featuring nursery rhymes at the library. You may also want to look for nonfiction books about topics—such as spiders or stars—mentioned in the nursery rhymes to share with your child.

6. Sayings and Phrases: It's Raining Cats and Dogs

Your child will also learn the well-known saying “It’s raining cats and dogs.” The next time there is a downpour, will you or your child be the first one to say, “It’s raining cats and dogs?”

Be sure to let your child know how much you enjoy hearing about what they have learned at school.

Come again some other day.
Little Johnny wants to play,
Rain, rain, go away.

Sat in a corner,
Eating his Christmas pie;

To fetch a pail of water;
Jack fell down and broke his crown,
And Jill came tumbling after.

Little Miss Muffet
Sat on a tuffet,
Eating her curds and whey;
Along came a spider,
Who sat down beside her
And frightened Miss Muffet away.

This little pig stayed home;
This little pig had roast beef,

Dear Family Member,

I hope that you and your child have been having fun with nursery rhymes at home. At school, your child has become familiar with these additional rhymes:

- “Star Light, Star Bright”
- “Twinkle, Twinkle, Little Star”
- “Hickory, Dickory, Dock”
- “Diddle, Diddle, Dumpling”
- “Little Bo Peep”
- “Little Boy Blue”
- “Baa, Baa, Black Sheep”
- “Humpty Dumpty”

Continue to use the activities that were suggested in the previous family letter for discussing, illustrating, and reciting the nursery rhymes.

Today, your child listened to the well-known fable “The Lion and the Mouse,” and learned that fables are short stories that teach a lesson, which is also called the moral of the story. The students will also become familiar with the fables “The Dog and His Reflection,” and “The Hare and the Tortoise.” They will learn that many fables have animal characters that act like people.

Below are some suggestions for activities that you may do at home for your child to continue enjoying the fables heard at school.

1. Characters and Events in Fables

Talk with your child about the characters and events in the fables. Make personal connections to the fables with questions such as, “Has a little friend ever been a great friend to you?”

2. Illustrating Fables

Have your child draw or paint a picture of one of the fables and then tell you about it. Ask questions to keep your child talking about the fable. Consider creating a three-part picture that shows the beginning, middle, and end of the fable.

3. Different Versions of Fables

Tell or read your child different versions of a fable. Compare the similarities and differences.

4. Words to Use

Below is a list of some of the words your child will be learning and using. Try to use these words as they come up in everyday speech with your child.

- *wish*—I like to wish upon a star when it is nighttime.
- *wagging*—Our dogs are wagging their tails because they are happy to see us.
- *wool*—My wool blanket keeps me warm.
- *reflection*—I can see my reflection in the mirror.

5. Read Aloud Each Day

It is very important that you read to your child every day. Be sure to talk about the moral of each fable, and how the moral might apply to you and your child.

Remember to let your child know how much you enjoy hearing about what they have learned at school.

Flip Book Introduction

This Flip Book contains images that accompany the Teacher Guide for *Nursery Rhymes and Fables*. The images are in sequential order. Each image is identified by its lesson number, Read-Aloud letter (A or B), and the number of the image within the particular Read-Aloud. For example, the first image in Read-Aloud 1A is numbered 1A-1. Once you have worked your way through the book to the last page, you will flip the entire book over to view the second half of the images.

Depending on your classroom configuration, you may need to have students sit closer to the flip book in order to see the images clearly.

Grade K, Domain 1

Nursery Rhymes and Fables

This unit provides a fun and engaging experience for students to discuss and relate to well-known classic nursery rhymes and fables.

What's the story?

Students will **listen to** and **recite classic rhymes**, such as “**Twinkle, Twinkle, Little Star**” and “**Jack and Jill**.” They will also be introduced to favorite characters, such as **Humpty Dumpty** and **Little Miss Muffet**.

What will my student learn?

Students will learn **new vocabulary**, develop an **awareness of language**, identify **story elements**, and explore **different types of fiction**. These foundational skills will help them **become better readers** and **writers**.

Throughout the unit, students will **practice sequencing events** in a story. They will also work to **compare and contrast characters** from the different nursery rhymes and fables they will read.

Conversation starters

Ask your student questions about the unit to promote discussion and continued learning:

1. I know you have been learning that the word *sweet* can mean more than one thing. Can you tell me one meaning of the word *sweet*? Now, can you use it in a sentence for me?
Follow up: Together, talk about another way *sweet* can be used. Can you make a sentence using the other meaning of *sweet*?
2. What are some words that rhyme in “Jack and Jill”? (Jill/hill; down/town)
Follow up: What are some other words that rhyme with those words?

Welcome to the Trade Book Collection Guide!

Introduction to the Trade Book Guides

Each book in our authentic literature collection was selected specifically to support and enhance the content of the K-2 Knowledge Domains. These anchor texts are intended for use as an introduction to each domain—engaging students, piquing their curiosity, and building initial background knowledge—before diving into the deeper content of the domain Read-Alouds.

Every book has an instructional guide that includes the following:

- Author and illustrator
- Book summary
- The Essential Question of the Knowledge domain, which connects the book to the domain
- Key Tier 2 and Tier 3 vocabulary words found in the book
- A group activity to reinforce and extend students' knowledge and understanding
- A performance task to help gauge students' comprehension of concepts in the text
- Writing prompts to expand understanding and critical thinking
- Text complexity ratings and descriptors for quantitative, qualitative, and reader/task categories

Detailed information about text complexity ratings and descriptors; additional uses for the books before, during, and after domain instruction; and the complete list of domains and books for each grade level can be found in the More About the Books section of this guide.

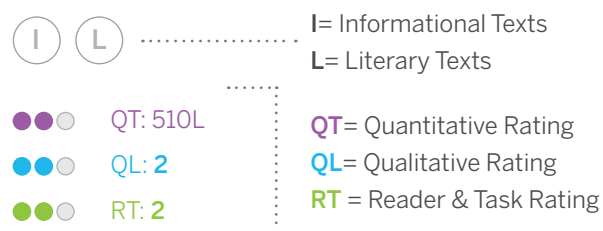

Recommended Instructional Routine

- Briefly describe the topic of the new domain and ask students to share what they already know.
- State the Essential Question and explain that it will help guide what they learn in the domain.
- Introduce the book to students.
- You may wish to address one or more of the Tier 2 and Tier 3 vocabulary words before reading the book aloud. Guidance for explicit vocabulary instruction and routines can be found in the Vocabulary Lessons, located on the program's digital components site.
- Read the book aloud, providing support for listed vocabulary words or other unknown words, as needed.
- Facilitate the activity listed in the guide to reinforce understanding and comprehension.
- Have students complete the performance task listed in the guide.
- If desired, have students respond to one or more of the provided writing prompts.

More About the Books

Each guide contains the following text complexity ratings and descriptors for the book. Quantitative ratings are based on grade-level Lexile ranges.

Quantitative Rating Descriptors

QT 1: Read-Alouds with this rating generally have shorter and fewer words and sentences. These Read-Alouds are likely to be cohesive and straightforward.

QT 2: Read-Alouds with this rating generally have words and sentences of moderate length and complexity. The Read-Aloud introduces a moderate range of words. The text may contain some nuance in content.

QT 3: Read-Alouds with this rating may demonstrate sophisticated syntax and nuanced content.

Note: Non-prose books do not have Lexiles.

Qualitative Rating Descriptors

QL 1: These Read-Alouds typically have a clear structure and purpose. The language is similarly clear and straightforward.

QL 2: These Read-Alouds may include some complexity in structure and purpose. The language may include some unconventional phrasing, idioms, or other specialized phrasing.

QL 3: These Read-Alouds often include sophisticated structures with nuanced purposes. The Read-Aloud structure may be innovative or complex, while its language may be unconventional, idiomatic, or otherwise specialized.

Reader & Task Rating Descriptors

RT 1: This unit's tasks and activities are typically straightforward and do not require substantial external knowledge or experience.

RT 2: This unit's tasks and activities may contain some complexity. Students will benefit from the knowledge they have built throughout the program.

RT 3: This unit's tasks and activities contain nuance and complexity, requiring students to draw on the knowledge they have built throughout the program.

Additional Uses for the Book

Before the Domain: After completing the activities in the Trade Book Guide, you may use these additional activities before beginning the domain:

- Create a K-W-L chart about the domain topic
- Have students respond with pictures and words in a journal entry
- Brainstorm possible vocabulary words from the book that might be used in the Read-Alouds
- Make predictions about new content and ideas students might learn in the domain

During the Domain: Midway through the domain instruction, or during a Pausing Point, reread the book to emphasize teaching points in the lessons. You may also use one of the activities below:

- Create a K-W-L chart or add to one already in progress
- Have students use pictures and words to connect ideas between domain content and the book
- Discuss how content in the book supports the content from the Read-Aloud (i.e., how it is similar or how it helps us better understand)
- Make a list of ideas or concepts from the book that were new
- Have students create a vocabulary picture journal
- Have students respond to a different writing prompt listed in the guide

After the Domain: Conclude the unit by reading a trade book as a way to make connections outside the Read-Aloud text. The book can be used as inspiration for a wide range of culminating projects and activities. Use one of the activities below to help extend and strengthen learning:

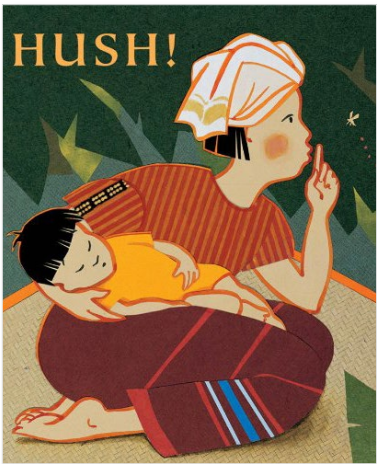

- Use a Venn diagram to compare and contrast domain content and the book.
- Create a T-chart with vocabulary from both the domain and the book.
- Have students respond with pictures and words in a journal entry, or respond to a different writing prompt listed in the guide.
- Discuss how and if the book helped students learn something new about the domain topic.
- Use the book as an anchor text for additional writing activities.

●●● QT: 600L

●●● QL: 2

These Read-Alouds may include some complexity in structure and purpose. The language may include some unconventional phrasing, idioms, or other specialized phrasing.

●●● RT: 1

This unit's tasks and activities are typically straightforward and do not require substantial external knowledge or experience.

Summary: Lullabies and nursery rhymes are some of the oldest types of poems in history, created to teach, entertain, or help children fall asleep. In this fictional tale set in Thailand, a mother asks various nearby animals to stay quiet so her baby will continue to sleep. The story uses rhyme, rhythm, and a patterned story structure to build phonemic awareness, awareness of language, and new vocabulary. Onomatopoeia is used to describe the sounds each animal makes.

Essential Question

How are nursery rhymes similar to and different from stories?

Create a T-chart on the board and label one column *Same* and the other column *Different*. Guide a discussion about the similarities and differences between nursery rhymes and fictional stories and add students' contributions to the appropriate column on the chart. If needed, refer back to the book or to a story book to assist students in identifying similarities and differences. Key responses are listed below:

Same	Different
Tells a story Characters Main character Events Fictional or make believe	Rhyming words Can be a song

Vocabulary Routine

Tier 2 Vocabulary Words

weeping
peeping
drifts
lean
sty
sniffing
dozes

Performance Task

Read a passage from the text to each student and ask them to identify one of the characters and one set of rhyming words.

Students should be able to

- identify at least one character in the passage (e.g. mosquito, Baby, mother).
- identify at least one set of rhyming words in the passage (e.g. weeping, sleeping).

Writing Prompt

Have students use the following prompts to draw a picture about the book. If students are able, encourage them to label or write words on their picture.

- Draw a picture of one of the characters in the book.
- Draw a picture of two words that rhyme in the book.

Talking About Text

After the initial reading of the book, use the routine below to discuss additional text elements.

- Book Knowledge/Print Concepts
 - Discuss the front cover, back cover, and title page of the book. Explain the role of the author and illustrator.
 - Demonstrate holding the book right side up, turning pages correctly, and how reading words moves from top to bottom and left to right with a return sweep.
- Author's Purpose
 - Ask students why they think the author wrote the book. Accept all reasonable answers, (e.g. to tell a story). Students will gain a better understanding of text purposes over time.
- Author's Craft
 - Explain that authors choose words carefully to make what they write more interesting. Ask students what they noticed about the story, especially about the words or structure. Students are just starting to learn about text, so there is no expectation that they learn or use text terminology at this time.
 - » Answers will vary but could include rhyme, repetition of words and lines, animal sounds, etc.
