Subject: Cycle 2 Review Status Clarification and Update

Dear Mr. Rich Dear,

The purpose of this letter is to clarify your district of its status related to the special education Cycle 2 review and any findings identified as a result of data collected and reviewed during monitoring activities in accordance with the Individuals with Disabilities Education Act (IDEA).

### **Status of Compliance**

After an internal document review, TEA has determined that **Godley ISD** received a 2020-2021 Cyclical Monitoring Report that may have contained confusing information regarding compliance standing and requirements for further action. The attached updated report corrects language on page 1, and if applicable in the Appendix.

Specifically, although individual instance(s) not meeting regulatory and/or statutory requirements during the review of LEA provided data were found, the LEA timely corrected those instance(s) prior to any letter of finding from the State being issued. Therefore, no further actions resulting from the LEA's cyclical review are required.

Should you have any questions regarding the cyclical review process and/or questions related to the updated report information, please contact the Office of Special Populations and Monitoring at (512) 463-9414.

Sincerely,

Jennifer Alexander

## 2020-2021 CYCLICAL REVIEW PARENT, TEACHER, ADMINISTRATOR INTERVIEWS/SURVEY

### Staff and Family Surveys

On June 30, 2020, the TEA Review and Support team received 127 surveys during the comprehensive desk review. The Review and Support surveys focused on the following review areas:

Sixty percent of participants felt they receive sufficient communication from their school. The best way the school/district provides information about trainings, online trainings, support groups and other available resources concerning special education services is via email followed by notices sent home, phone calls and the school website.

The majority of parent/family member participants felt they would be most comfortable attending special education information sessions at the school campus.

The most selected areas of special education the participants would like to know more about were the School, Family, and Community Engagement network and Child find evaluation and ARD support networks.

The majority of participants felt training in Differentiated Instruction was effective or somewhat effective to help meet the needs of students with disabilities.

Fifty six percent of participants felt there were frequent opportunities to collaborate with related service providers and almost thirty one percent felt there were not frequent opportunities to collaborate with service providers.

The obstacles concerning student's special education programming and services were reported as:

- Timely updates on student progress
- Knowledge of available services and programming

All participants agree with the importance of including students' interests/life goals in the transition process with 56% of participants strongly agreeing.

Over 60% of participants felt that during COVID school closures/remote learning, the Emergency Contingency Plan was effective in student progress.

Participants indicated that during COVID school closures/remote learning the top two supports used by the district that did not work well for students with disabilities were an online submission of assignments and virtual instruction with child's teacher.

This survey was approved by the Texas Education Agency's data governance board. Participation in this survey was both voluntary and anonymous. No data was collected identifying a name so that individual responses cannot be linked to any respondent. Participants were given the option to stop the survey at any time.

## **Strengths**

## FINDINGS OF NONCOMPLIANCE

A finding is made when noncompliance is identified with the Review and Support report findings, SPP notification, and/or individualized education program (IEP) requirements. Noncompliance that is systemic in nature must be included in a comprehensive corrective action plan (CAP) with action steps to address each of the noncompliance findings. ***When noncompliance has been identified as part of this cyclical review, Godley ISD will receive formal notification of noncompliance in addition to this report.***

The TEA Department of Review and Support will further advise the LEA on the corrective action process, if applicable.

The TEA follows procedures for the correction of noncompliance consistent with federal guidelines (OSEP Memo 09-02.)

Before the TEA can report that noncompliance has been corrected, it must first verify the LEA:

- Has corrected each individual case of noncompliance (Prong 1); and
- Is correctly implementing the specific regulatory requirements (i.e., subsequently achieved 100% compliance) (Prong 2).

The TEA is required to monitor the completion of a corrective action plan if any noncompliance is discovered. The corrective action plan must be designed to correct any and all areas of noncompliance ***as soon as possible, but in no case later than one year from the date of notification.***

### **Corrective Action Plan (CAP)**

The LEA will develop a CAP to address any items identified as noncompliance in this summary report. An approved form for the CAP can be accessed on the Review and Support website or in the resources located in Ascend Texas.

The LEA must submit the CAP in Ascend within 30 school days from the date of this report and/or formal notification of noncompliance. The TEA will review the CAP submitted by the LEA for approval. If the TEA determines that a revision(s) is necessary, the LEA will be required to revise and resubmit. The Review and Support team will contact the LEA to provide notification when the CAP has been approved.

### **Individual Correction**

The educational agency has **60 school days** from the date of this summary report to correct all identified findings of noncompliance for individual students, unless noted otherwise in the report.

## **2020–2021 DYSLEXIA PROGRAM EVALUATION FINDINGS**

As a result of the program evaluation review, the TEA Department of Review and Support: Dyslexia Monitoring has identified the following strengths, considerations, and technical assistance recommendations for Godley ISD.

An area of strength includes a comprehensive district-wide procedure manual that includes program procedures for evaluating, identifying, instructing, and screening students with dyslexia.

Your current dyslexia program is in alignment with state and federal mandates. The following resources are recommended for reflection of current dyslexia program to strengthen internal systems and procedures.

The following technical assistance resource(s) are recommended for Godley ISD.

<b>Topic</b>	<b>Resource</b>
TEA Review and Support	<a href="#">Dyslexia Monitoring</a>
TEA Special Education	<a href="#">Dyslexia and Related Disorders</a>
Dyslexia: TEA Professional Learning Course	<a href="#">TEALearn Dyslexia Modules</a>

## Corrective Action

The TEA reviews data collected from the dyslexia program evaluation to ensure compliance with federal and state regulatory requirements. In accordance with Senate Bill 2075 of the 86<sup>th</sup> Legislature, TEC 38.003 (c-1), and 19 TAC 74.28 regarding noncompliance identified through the dyslexia program evaluation, a finding of noncompliance is identified by the citation (i.e., program or process) that is violated.

## DYSLEXIA PERFORMANCE PLAN (DPP)

If noncompliance is identified, the LEA is required to demonstrate correction of all noncompliance in the Dyslexia Performance Plan (DPP). This tool guides LEAs through a continuous improvement process. It addresses areas of growth that will positively impact students with dyslexia or other related disorders. LEAs should complete the DPP no later than 120-days after receiving notification of noncompliance. This document will be provided by the TEA or can be accessed in the resources section of the [Review and Support website](#).
